Forty people are now thought to have perished in the Foord pit. Until the steam and smoke at Stellarton subside, the number will not be absolutely known. As with so many mining disasters, the cause is conjectural. There is no reason to assume, as has been suggested, that the calamity was due to the reckless handling of a lamp by a workman.

Eugene Harding, known as Signor Blitz, the sleight-of-hand performer, accidentally shot and killed himself Thursday, while duck-hunting on the Hackensack river, near Little Ferry, N. J.

Mary T. Erskine, widow of Sullivan Erskine of China, Me., has given to the town in trust $1,500, the interest to be used annually toward the maintenance of a free high school for the children of the town. The town has voted to accept the trust.

A boiler in a saw and grist mill near Stevenson, Ala., blew up on Friday, and totally destroyed the mill, killed two white and two colored men, and wounded two colored men, probably fatally, and two white men seriously. The explosion was caused by the carelessness of a negro engineer.

Capt. Nye, who commanded the steamer Stonington at the time of the fatal collision with the Narragansett, has been held for trial in the sum of $1200, on charges of manslaughter and violating the pilot rules.

A fire-damp explosion occurred in a coal mine near Mons, Belgium, on Friday. Twenty-seven men were in the pit at the time, of whom fifteen were rescued more or less injured. The others were supposed to be dead.

Peter Moran, of Middletown, N. J., his wife and his son Peter, twenty-three years old, got drunk at the annual hog-killing festival on their farm, and pitched into each other. Moran beat his wife and was a turn laid out, with possibly fatal injuries, from an axe in the old woman's hands. Then Peter, Jr., beat his mother insensible. The mother and son are in jail.

The Chicago *Times* says it is believed among the railway managers there that the proposed new line in connection with the Lake Shore & Michigan Southern system is a movement on the part of Vanderbilt to erect the Canada Southern into a competing or pooling trunk link between Chicago and New York, and to abandon the Detroit branch of the Canada Southern, and possibly eventually may prepare the way for his retirement from the control of the Michigan Central.

Ward, Stanton & Co., of Newburgh, N. Y., have received orders from James Gordon Bennett to build for him a pleasure yacht which will be 225 feet long and thirty-five feet beam.

The Bangor, Me., *Whig* says that brakeman on the Maine Central freight train, by the name of Starrett, is deaf and dumb. He is about twenty-four years old, and his home is in Burnham. For a number of years past he has been employed on the train, and is now considered one of the best brakemen on the road. If there is any trouble with any part of the train Starrett is one of the first to discover it, and he is always at his post when wanted. How he can tell just when the brakes are required is a mystery; but we are informed that he never fails. The position is attended by great personal danger at the best, and it seems wonderful that a man deprived of the sense of hearing should be a successful brakeman.

The orange trade of Louisana is increasing in extent and value. Between the 1st of October and the 26th there were shipped from New Orleans to northern cities by one railroad alone 21,000 barrels, or a total of 6,000,000 oranges. The New Orleans papers claim that the fruit is far superior to that of Cuba, and even to the much vaunted oranges of Florida.

An editor in Georgia says: "Gold is found in thirty-six counties in this state, silver in three, copper in thirteen, iron in forty-three, diamonds in twenty-six, and whisky in all of them; and the last gets away with all rest."

After the death of Conrad Seitz at Monroe, Ala., this telegram was received from Ella Dorsey, his affianced wife: "Delay funeral two days. I will be ready for burial with him." She kept her word by committing suicide.

The Maine beet sugar company is now in active operation. The company employs 125 hands, consumes about 150 tons of beets per day, and has 6000 tons on hand. With a full supply of beets the company could use 20,000 tons per season, from which it is estimated that 2000 tons of sugar and molasses could be obtained. All of the waste material is purchased by one person at the rate of one dollar per ton.

A woman of Columbus, Ohio, left a dish of concentrated lye where her baby drank some of it. During the several hours that the little one survived in agony, the mother sat motionless, with her hands over her face, and when it was dead she arose from her chair a hopeless maniac.

At the funeral services of Rev. J. D. Pierce, Friday afternoon, in the First Universalist church at North Attleboro, Mass., the crowd of people was so great that the iron posts that support the floors from the basement sank several inches into the ground, thus causing the floor to settle rapidly. By wise counsel and caution a panic was arrested, and the aisles and part of the main body of the church were vacated very rapidly. There was a large number of people in the basement, and they lost not a moment's time in leaving. It is believed that had not the weight been relieved so rapidly the flooring must have fallen into the basement, bringing death to many. After the subsidence of the confusion the services were held.

RESPECT TO THE LATE EX-MAYOR FRANK W. MILLER.

CITY OF PORTSMOUTH, N.H.
Mayor's Office, November 20th 1880.

The funeral of the late HON. FRANK W. MILLER will take place on MONDAY 22d inst., at 2 P. M., from his late residence.

I would respectfully request all our citizens to close their places of business during the time of the obsequies. WILLIAM H. SISE, Mayor.

WIDE AWAKE FOR 1881.

If the Boys and Girls of America could but see the piles of manuscripts, and the beautiful drawings for them, which are to be presented into the twelve numbers of WIDE AWAKE for 1881, we are sure that during the next three months the Subscription List of the magazine would be more that doubled.

Out of many brilliant features we announce the following, leaving many surprises in store. Perhaps first in general interest will be a New Story by George MacDonald, this story, the title of which will be announced later, will be given complete during 1881, in monthly supplements, thus giving subscribers the entire one of Mr. MacDonald's longest and finest stories.

Those who remember with delight that charming home story of the "Dogberry Branch" will read with still greater delight "Rocky Fork," a story of Ohio hill country, by Mary Hartwell Catherwood. Mr. Geo. F. Barnes will illustrate this story with thirty-six drawings.

Mrs. J. E. Diaz has written the little folks a serial, "Polly Oliver's Problem," at least one hundred and twenty illustrations will accompany it. The famous twins Jo, Meg, Beth and the Jimmy Johns, are prime actors in Polly's wonderful adventures.

For the older young folks there will be "The Story of Honor Bright," by Hagans Merriwether, author of "A General Misunderstanding" and "Royal Lowrie's Last Year at St. Olaves." This new story is dedicated to the boys of a certain school, real live boys, who wrote to the author, challenging him to produce a story equal to the two just mentioned. In response, "Honor Bright" has been written, far superior to either in both interest and influence. In the name of the hero, Honor Bright, is a great surprise. Mr. Walter Shirlaw, instructor at the Art Students' League, New York, will illustrate this story in full.

Several striking Two-Part Stories will appear during the year; King Philip's Head, by the editor of the Boston Courier; Tot, the Dwarf, by Margaret Eytinge, with eight drawings by Geo. Foster, etc.

A New feature, including Cash Prizes, for best original stories, drawings, puzzles, inventions, etc., will be introduced during 1881 (full particulars in January number).

And after long consideration of what would best meet growing demands, the Editors have decided to add a Special Department to boys (which the girls are also invited to enjoy,) which will be WIDE AWAKE NEWS, or news, the boys, and girls too, wish to know and ought to know of what the great world is doing, saying and thinking. This department will be under the able charge of Edward Everett Hale, whose name alone is guarantee of its certain remarkable interest and practical value. The publishers also have pleasure in announcing A New Cover, artistic and genuinely American in design and novel in color, which, with entire new type, will add largely to the attractiveness of this popular magazine. AROUND HOME.

Messrs. Sides, Stone & Co., proprietors of the "American Dime Show," have transferred the show from the Vaughan street store in Franklin building, where it was on exhibition last week, to a tent near the police station.

There will be a union prayer meeting at Bow mission hall on Wednesday evening, Nov. 24th, at 7:45 o'clock, for special prayer for blessing on the Union meetings which are to commence Dec. 6th, under the auspices of the Young Men's Christian Associations of this state.

Ezra H. Winchester, Esq., of this city, candidate for presidential elector on the republican ticket, heads the vote at the late election with a total of 44,852, a plurality over the highest opposition vote of 4,058, and a majority over all others of 3,209. The highest vote on the democratic ticket was cast for Hon. Daniel Marcy of this city, 40,794.

There was a good audience in Franklin theatre, Friday evening, to see the performance of Pinafore by the New York Miniature Opera Co. The important parts of Josephine and Dick Deadeye were taken by substitutes, the regular performers having severe colds, and the performance in consequence was not nearly equal to that of the Ideal Opera Co.

Two suspicious looking chaps who had been lurking about Newmarket for several days, seized some money in the hands of George W. Fullerton, a tin-ware and junk dealer, Wednesday afternoon of last week. They were arrested by Officer Smith, and sent to jail. They gave names evidently not their own, and it is rumored that their description answers that of parties wanted in other localities. Several acts of petty thieving have been reported in that neighborhood within the last week or two, probably committed by the same parties.

A somewhat protracted hearing before the Rockingham county commissioners, on the construction of the Bayside road between Newmarket and South Newmarket, closed last Thursday. The proceedings commenced by a petition to the supreme court last summer, and the whole matter was left to the commissioners, who will now report to the court at Exeter in January next. A large number of witnesses were examined on both sides, and no little interest was manifested. A. L. Mellows appeared for the petitioners, C. H. Smith and I. T. Dodge for the remonstrants.

Duprez & Benedict's Minstrels will give an entertainment at Music hall tomorrow evening. They played in Newmarket on Monday evening of last week, and the *Advertiser* of that town says that "Newmarket has seldom been visited by such a first-class minstrel troupe. The programme presented by this company was full of merit. * * * Part first, the music, and the character impersonations by Harry Pierson were the features of the evening, and called forth merited applause. The clog dancing was also excellent, as was the musical ability displayed by Messrs. Bryant and Sharplie. All in all the show was a good one, and we predict for this troupe an equally full house upon their next visit to Newmarket."

Company C, Garfield and Arthur Battalion, Capt. John Pender, had a choice supper at the Kearsarge house on Saturday evening, as a wind-up to their work as an organization for this political campaign. Among the invited guest present were Maj. D. J. Vaughan, Ald. Noyes, Postmaster Peirce, Deputy Collector Young of the internal revenue department, City Marshal Entwistle, J. H. Gardiner, Esq., and others. After the supper had been duly honored Capt. Pender made a few remarks, and then called upon other gentlemen, responses being made by Messrs. Young, Vaughan and others. The exercises closed at about eleven o'clock with cheers for the result of the election, and a vote of the company to meet again in four years to celebrate the next great republican victory.

SEAMAN'S AID SOCIETY'S REPORT.

Five years ago, urgent appeals were made by many residents of this city and the Concord Seaman's Friend society, that our local society should resume active work; therefore a Temperance Home was opened, which, in spite of manifold difficulties, has become an established success.

Some idea of the amount of work accomplished is given by the fact that 68,000 *meals* have been served at the restaurant from Nov. 1, 1875, to Nov. 1, 1880. Mr. and Mrs. Stevens remain in charge, and continue the low prices already fixed, which would seem to enable both sailor and laborer to defy hard times. During the past six months

Number of meals served, 1877.
Cooked food, etc., sold and carried away, in value, $1812.01.
Number of lodgers 535.

Through the courtesy of the custom house officials, we have received the following report for the year ending Nov. 1:

Number of vessels arriving, 1178.
Number of seamen, 7294.
Amount of tonnage, 140,010.

This does not include the numerous sailors and marines who are on the government ships and navy yard. Mr. Loyne has continued his good work among the seamen. He has visited 300 vessels, and distributed 3000 tracts, papers and magazines, while he has held 114 bethel services at the rooms on Market street. The American Bible society sent a donation of bibles and testaments valued at $10, for distribution among the seamen. Papers have been sent to the reading room through the year. Donations of books and magazines are requested for the reading room, which Mr. Stevens has engaged to keep in good order and well warmed and lighted for visitors until ten P. M., or while the restaurant remains open.

Meantime as the Home enters on its sixth year, the thanks of the managers are due to the numerous members and kind friends of the society for their cordial sympathy and liberality.

TEMPERANCE RELIEF ASSO'N.

At a special meeting of the Temperance Mutual Relief Association on Saturday evening, the following preamble and resolutions were introduced by Mr. S. W. Clarke, and unanimously adopted:

Whereas The messenger of death has for the first time invaded our ranks, and we are called to mourn the departure of our esteemed and honored brother, Frank W. Miller; therefore

Resolved, That while in this sad dispensation we would humbly recognize the hand of "Him who doeth all things well," we do unanimously express our regard for the deceased as a friend and a brother, our admiration for his purity of character and honorable public career, and, above all, our appreciation of his manly and unswerving fidelity to the cause of TEMPERANCE.

Resolved, That his successful life was the result of obedience to sincere and strong convictions of duty, and in this he has left us an example worthy of all imitation.

Resolved, That with unfeigned grief we tenderly sympathize with the widow and relatives of the deceased in this sad bereavement.

Resolved, That a copy of these resolutions be sent to the bereaved family, and that they also be recorded upon the books of the Association.

The Association also voted to send a delegation to attend the funeral.

SUPREME COURT--CLARK, J.

SATURDAY, Nov. 20.

Judge Clark came in to hear the case of the Portsmouth Trust & Guarantee Co. vs. City of Portsmouth; petition for abatement of a tax alleged to have been unlawfully assessed in 1876. The case had been before heard, and has twice been to the law court. The question was at length submitted to the court to make such decision as the equity of the case might have been shown by the evidence to be just. Frank W. Hackett for plff.; Hatch and Foster for city.

POLICE COURT.

SATURDAY, Nov. 20; *Batchelder, J.*

Isaiah Cook, *alias* Charles Churchill, was before the court on a charge of stealing a harness, the property of J. Horace Kent as sheriff, and was bound over in the sum of $200 for his appearance at the April term of the supreme court. This Cook is the man who was mixed up in some kind of an irregular speculation in cattle on Peirce's island ten or a dozen years ago, and who about a year ago was charged with making improper use of the name of a Newmarket butcher in order to procure a quantity of dressed beef from a dealer in Massachusetts.

SUSPICIOUS DEATH.

At about six o'clock Sunday morning word was brought to the police station that the dead body of a man was lying in the mud of the dock between Tredick's and Goodrich's wharves, having been discovered by a Mr. Allen when on his way to look after his boat. Asst. Marshal Cole and Officer Turner had the body (which was not yet stiff) taken to the station, where it was found that there was two wounds on the back of the head, one on the right side of the forehead, one on the cheek near the eye, and one on the chin. The body was identified as that of William C. Conery, a man about thirty-two years of age, son of Wm. Harvey Conery of Blue Hill Falls, Me., formerly of Rockland. Deceased was one of the crew of schooner J. J. Clark, of Gloucester, Mass., Capt. James L. Anderson, then lying at Tredick's wharf loading apples for Grand Menan, Me. He was a good seaman and fisherman when sober, but was very abusive when drunk; he was considerably intoxicated on Saturday, and left the schooner at about a quarter past six o'clock in the evening, having borrowed twenty cents from the steward. He was seen at about seven o'clock, quite drunk; but up to noon on Sunday the police had not been able to trace him at any later hour, up to the time his dead body was found. The body was given in charge of undertakers Fletcher & Tanton to be prepared for burial, and to wait for instructions from his friends, who were telegraphed to.

SPORTING NEWS.

The Newburyport *Herald* copies an item from the CHRONICLE of Nov. 18th about a go-as-you-please duck-shooting match on the north mill-pond, says Portsmouth is not the only place where such scenes take place, and adds:

But perhaps, on the other hand, Portsmouth exports its crack shots. One morning a week or two ago, City Marshal deRochemont, who hails from Portsmouth way, went out on the Merrimac, duck shooting, sculled to eight ducks, and detained seven of them. The next morning he came across six, and none escaped him; and on the third morning five came within range of his gun, and all tumbled at the first shot. Eighteen out of a possible nineteen, which we all he saw, we call good shooting. Send some of your gunners over here, Mr. Chronicle.

We have sent some of our gunners over your way, Mr. Herald; witness your city marshal, who is a Newington man, and did his early duck-shooting on the Piscataqua river and Great bay. Had our north pond duck disturbers been on the Merrimac when he was out after birds, it is quite possible they might not have bagged eighteen ducks out of a possible nineteen, but they would certainly have bagged the city marshal of Newburyport.

YORK COUNTY ITEMS.

Melville B. Bodwell shot and fatally injured a man named Reed, who was at work in the cotton factory at Springvale, on the 17th inst. Bodwell holds that it was done in self defence, but he has been arrested.

On Wednesday of last week James D. Akerly and Frank Cleaves of Biddeford, while intoxicated, stole a schooner yacht owned by John M. Akerly, and set sail for Portland. Word was sent to the station in Portland, and on Thursday the thieves were arrested. The yacht is valued at $1,200.

The hospitable residence of Mr. Albert Fernald and wife, of Eliot, was enlivened on Friday evening last by a joyous company of friends and relatives, the occasion being the seventh anniversary of their marriage. Over seventy friends were in attendance, and many gifts were offered. After a sumptuous repast the remainder of the evening was spent in friendly congratulations, interspersed with music, and closing with "Praise God, from whom all blessings flow," in which all present heartily joined.

Cleopatra!

Her power was retained by force of personal charms. She led the old "boys" captive whenever she talked "pretty" to them and showed her teeth. History should tell us that she used SOZODONT, but it don't. The preparation she used might have had another name then.

Mrs. Winslow's Soothing Syrup.

REV. SYLVANUS COBB this writes in the *Boston Christian Freeman*:—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural and the little cherub awakes as "bright as a button." And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething stage, on any considerations whatever. Sold by all druggists. 25 cents a bottle. 5

$500 Reward!

We will pay the above reward for any case of Liver Complaint, Dyspepsia, Sick Headache, Indigestion, Constipation or Costiveness we cannot cure with West's Vegetable Liver Pills, when the directions are strictly complied with. ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

Beware of Alcoholic Bitters.

Thousands have been ruined for life by drinking popular nostrums, the principal ingredient of which was alcohol. Such "bitters" are deceptive in their effects; they cause intoxication and temporary relief, while they foster the drunkard's appetite. Dr. Kennedy's "Favorite Remedy" contains no alcohol. It does not heat and inflame the blood; it cools and purifies it. Better than this even, it has cured a raving appetite for drink. It will do you good, not evil, all the days of your life. All druggists sell it. Dr. David Kennedy, Proprietor, Rondout, N. Y.

—Capt. Bates and his wife, formerly the giants of Barnum's show, recently made the overland journey from San Francisco. They are each nearly eight feet long, and the sleeping-car berths are only six. In order to secure a comfortable bed they took the opposite sections, connected the upper berths with an adjustable piece, and laid themselves crosswise of the car, the other passengers kindly consenting to the partial obstruction of the passage at night.

A world of Good.

One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whisky drink. It is more like the old fashioned honest tea that has done a world of good. If you don't feel just right try Hop Bitters.—*Nunda News.*

—A fellow stopped at a hotel at Niagara Falls, and on settling his bill the landlord charged him seven dollars a day for five days. "Didn't you make a mistake?" said the fellow. "No," said the landlord. "Yes you did," retorted the wiry-looking fellow; "you thought you got all the money I had, but you are mistaken; I have a whole purse full in another pocket."

It gives me pleasure to say that Adamson's Botanic Balsam cured me of a serious cold to which I have been subject, especially during the winter months, and I have in many instances recommended it to my friends, and all have been benefited by its use. We think it has no equal as a cough mixture. U. L. PETTENGILL, No. 10 State St., Boston.

—An "ink" for engraving on glass is advertised in the English papers. It can be used with an ordinary pen, and the next popular amusement will be writing one's name and drawing wreaths on one's goblets and tumblers.

—An East Boston father discovered that his daughter, who had a soul for romance, proposed to elope. And he didn't sit up with a bull dog and shot-gun to waylay the fugitives. Oh, no! He went to his daughter and told her he desired her to marry a young man, naming her lover, and he would set him up in a good paying grocery business; and the young lady at once declared she'd die rather than marry any man just to please her father.

—Maggie Mitchell, the popular actress, who has been on the stage for thirty years, is not so rich as would be supposed. Some years ago her husband, Paddock, bought the Forest place at Long Branch, paying $75,000 therefor, $40,000 of which was cash down. Time ran on and interest and taxes with it, but the little commedienne is in no sense a business woman, and so she left everything to her husband. One day the remaining $35,000 fell due and could not be met. The place was sold on mortgage and brought less than the first payment, and she awoke to a realization of the fact that she had a hard time before her, and so the little woman is still on the stage. Since her first great success in New York nineteen years ago she has been a carry-all for her entire family. She lodges them, feeds them and clothes them. Her father is between seventy and eighty years old.

Corruption in our national affairs has the same effect on the government that a severe cough or cold has upon the human system. Political reform in the former and Dr. Bull's cough syrup in the latter case will remedy the evils. All the druggists sell it for 25 cents a bottle.

—Now is the time for the husband to get the paper early and cut out the advertisements of places where seal-skin sacques are sold. A cut in time often saves $175.

Many people suffer, and know not what ails them. Try D. R. V. G. If no benefit is received, your druggist will refund the money.

—It takes five gallons of whisky to cure an elephant's cold, and since this fact came out seven New York men have been sent to insane asylums, as nothing can convince them that they are not elephants suffering with colds.

A food and a medicine are combined in the most perfect manner in Malt Bitters.

BRIGHTON CATTLE MARKET.

For week ending Wednesday, Nov. 10.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 2810; sheep and lambs 3600; swine 29,160; Veals 84; number western cattle 2100; eastern cattle 302; milch cows and northern cattle 408.

Prices of beef cattle per 100 lbs, live weight—Extra quality $5 75 @ 6 25; first quality $5 @ 5 62½; second quality $4 50 @ 4 87½; third quality $4 @ 4 37½; poorest grades of oxen, bulls, etc., $3 12½ @ 3 87½.

Brighton hides 6½ @ 8c per lb.

Brighton tallow 8c per lb.

Country hides 7½ @ 8c per lb.

Country tallow 4½ @ 5c per lb.

Calf skins 10 @ 13c per lb.

Sheep and lambs skins $1 @ 1 25 each.

The trade for beef cattle has not been much different from that of one week ago, and prices remain unchanged. Cattle cost higher at the west, but the markets for beef at Boston would not warrant higher prices to be paid for cattle than was paid one week ago. A few extra cattle were sold at $6 15 per 100 lbs. live weight, but the larger portion of sales ranged at 5 @ 5½ per lb live weight. The cattle from Maine were composed largely of working oxen and milch cows, for which there has been a fair trade.

Working Oxen—Have been in fair demand and there were several very nice pairs offered in the market for sale. We quote sales of 1 pr girth 7 ft 3 and 4 in, live weight 3400 lbs for $22 50; 1 pr girth 7 ft, live weight 3200 lbs, at $149; 1 pr girth 7 ft 4 in, live weight 3200 lbs $125; 2 prs girth 6 ft 8 in, live weight 3200 lbs, for $215; 1 pr girth 6 ft 8 in, live weight 1700 lbs at $108 @ $112; 2 prs girth 6 ft 7 in, live weight 3300 lbs at $100 @ $109.

Store Cattle—Yearlings $8 to $13; two-years-olds $14 to $28; three-years-olds $22 to $45 per head. Prices for small cattle depend much upon their value for beef. We quote sales of 16 three and four-year-old steers at $35 per head; 13 two-year-olds at $13 to $20 per head.

Milch Cows—Good cows were in fair demand; we quote sales of 2 cows and calves at $42 50 each; 1 springer $38; 2 at $35 each; 2 new milch cows at $40 each; 3 very nice Ayrshire cows and calves at $60 each; 1 cow and calf at $50.

Sheep and Lambs—Those from the west coast from 4½ @ 5½c per lb live weight, all owned by G. W. Hollis, who also has most of the Maine sheep and lambs consigned to him to slaughter and market at a commission.

Fat Hogs—Prices 5½ @ 5½c per lb live weight.

Temperance With Modern Improvements.

The friends of temperance held a meeting in Boston last week in aid of the new movement on behalf of temperance reform. Gov. Long presided.

The first address was from Dr. A. P. Peabody, who said he wanted to emphasise the criminal nature of drunkenness, and its beastiality. It is the one great crime. He hoped that the day would come when the whole community would be one large temperance society. He believed in prohibition just as far as the law could be executed. The care of the drunkard and the prevention of drunkenness on the part of the rising generation should be the chief aim. Dr. Peabody lamented the present indifference to the seriousness of the evil which appears prevalent in the community. There should be some organized effort for the influencing of public spirit in the right direction. Such an influence should be felt that if the son of the richest man should be found drunk he should be sent to the house of correction to serve out his time. This vice should be recognized as a vice. Dr. Peabody closed with the hope that the work now begun may not stop, but go on to its happy consummation.

Rev. James Freeman Clarke succeeded Dr. Peabody. During fifty years, he said, great progress in temperance has been made, and in this connection he mentioned the common use of liquor in his boyhood among all classes of society. There has been a general elevation of the tastes and morals of the community, but just now there seems to be a check to the progress of the improvement. The late William B. Spooner, an ardent friend of temperance, believed that the cause is in a low state, and there is need of a new departure. Many of our best men do not believe in total abstinence, and without help it seems impossible for the reform to go on. Dr. Clarke mentioned the many pledges of a partial nature which have secured signers in New York, and asserted with approval their doctrine that it is better for a man to go a little distance in the right way than not to go at all. Several ameliatory ways of lessening the evils of drink were mentioned by Dr. Clarke. If a prohibitory law cannot be secured, let the license law be enforced. Laws are like forts, not like armies. They cannot conquer new territory, but they hold what has already been gained. At present the misery of intemperance bears particularly hard upon the laborers and the poor class. Among the wealthier class there has been a steady improvement in temperance matters within fifty years. Dr. Clarke did not believe that one man drinks rum because another drinks wine. But the poor drink to find comfort, and he would like to see temperance saloons established, and would like to see the best women of the city engage in temperance work. Their culture is given them to do good, not that they may get the most enjoyment out of it. He would even have saloons where there is lager beer. [Hisses.] He knew that some of them did not believe in that, but lager beer was better than whiskey. [Renewed hisses.] And further, places which contribute to the healthful pleasure of men are all in the interest of temperance.

Dr. Thomas Wood, a prominent surgeon of Cincinnati, died on Sunday from the effects of blood poisoning, caused by attending with chapped hands to the wounded in the recent railroad accident on the Cincinnati, Hamilton and Dayton railroad.

The wife of Crosby E. Willard, a member of the board of selectmen of Ayer, Mass., recently committed suicide by hanging. She was at the house of her sister in Townsend Harbor when the deed was done. Deceased had been insane for several years.

Dr. John Townley, aged sixty-six, a well-known physician of Carbondale, Pa., was accidentally drowned on the 21st inst., by slipping from a plank while crossing a reservoir.

CHAS. L. ROSSITER, 195 Summit St., Toledo, Ohio, says;—I would not take one thousand dollars for my excelsor Kidney Pad, if I could not get another. I have gained in three months thirty pounds.—*See Adv.*

Judge Crosby held an inquest at Lowell, Mass., Saturday, on the death of Daniel Conway, killed on the Boston and Albany railroad a few days ago. No blame is attachdd to the corporation.

D. R. V. G. is a purely vegetable compound; will do all is claimed for it. See other column.

TUESDAY, NOVEMBER 23, 1880.

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

War Secretary's Report.

The secretary of war has submitted his annual report to the President, the following being the main points:

The expenditures for all affairs under the control of this department for the fiscal year ending June 30, 1880, were $39,924,773.03. Congress has appropriated for the service of the current fiscal year $41,993,630.40. The estimates for the service for the fiscal year ending June 30, 1882, are $43,627,055.54. The estimates in detail were originally submitted to me for $62,429,770.21, but, on a revision of the same, omissions or reductions were made. Referring to the improvement of the south pass of the Mississippi river the secretary says: "The permanency of the important work seems to be assured from the fact that there has been no failure in the maintenance of the maximum channel during the six months ending August 9 last. The aggregate cost to date is $4,400,000." The secretary refers at some length to the report of the general of the army, and indorses the recommendations contained therein, especially the recommendation that the army be increased to 25,000, not including those on special service, and also the recommendation that many useless posts be abandoned and a few posts at strategic points be erected. He also devotes considerable space to a review of the reports of subordinate officers and bureau officers, and adopts all of their essential recommendations. He says the report of the chief of engineers shows that our fortifications are not in a condition for the defence of important cities and depots of military and naval supplies in case of war with any of the maritime powers. It is earnestly hoped that what the chief of engineers has stated in respect to our seacoast defences will impress congress and the country with the fact that, while other nations have been increasing their means for carrying on offensive warfare and attacking maritime cities, we have been dormant in the matter. The secretary, in conclusion, recommends an appropriation for the study and test of magazine guns; an appropriation of $50,000 to manufacture a reserve of small arms; also that details of officers as professors at colleges, etc., be made from the retired list; also that provision be made for appointment of an assistant secretary. The Mississippi river commission has notified him that it desires to renew the estimate made in its last report of $5,183,000 for works of improvement on that river, and the secretary will communicate the same to congress as a matter of special importance not included in the annual estimates for the department.

California Petroleum.

Great efforts have been made of late to bring about the fulfillment of Professor Silliman's prediction, that California would ultimately be the largest oil producing country in the world. The oil region consists of a section of coast range mountains covering 200,000 acres, and extending from Santa Cruz to Santa Barbara, a distance of 550 miles. During the past four years the Pacific Coast Oil company have got control of the most of this territory under long leases, and within the past year they have sunk wells which yield good results, built pumping works and refineries, laid down pipe lines, and established factories for the production of casks and barrels. They have now about a score of wells, and hope soon to be able to supply not only the markets of Nevada, California and Oregon, which require 3,200,000 gallons yearly, but Japan, China, Java, Australia, and Mexico, which require perhaps ten times as much oil.

News and Notes.

The Pennsylvania anthracite coal companies agreed last week to suspend mining for nine days in December, each company to select the days they will stop, provided they shall not be less than three days at a time.

Henry Van Asbern, an employe of the Delaware and Hudson Coal company, murdered his wife Sunday morning at West Hoboken, N. J. The murderer was arrested, and confessed the crime. It is said both were intoxicated. The woman was brutally beaten and kicked.

In Cumberland, R. I., Saturday, Donahue Freeman shot and probably fatally wounded Peter McConley, who had just broken open Freeman's door after being warned to go away. Freeman is a colored man, whose white wife it is charged has received attentions from McConley. All the parties were intoxicated. Freeman walked into town Monday, and gave himself up to the police.

Two children, aged seven and four years, girls, belonging to Edward Dougan, a stranger in Kankakee, Ills., died on Sunday morning from poisoning, and his remaining two children are in a dangerous condition. Dougan arrived two weeks ago bound to Canada and is living in the utmost poverty. He says the children's mother died several weeks ago. A bottle of belladonna was found in the house and Dougan will be arrested pending the coroner's investigation.

Rev. Charles F. Penney, of Maine, the leading prohibition state of the Union, has compiled statistics showing that in forty years there have been 5,356 patients received at the State Insane Asylum, one-third of whom were suffering from the effects of habitual intoxication. In fourteen years, he says, the police of Augusta, the city of his residence, have made 4,098 arrests, seven-eights for drunkenness. During the same time $94,000 have been expended for the poor and destitute.

Director of the Mint Burchard says that the statement purporting to give his opinion, that the coinage of standard silver dollars can be continued fifteen years without disturbing the actual circulation of gold, is unauthorized. On the contrary, he believes that the provision for issuing silver certificates, which prevent the circulation of standard dollars, and the opposition of bankers and business men, which drives silver dollars into the treasury, does and will prevent their circulation in this country to the extent that five-franc pieces circulate in France. For the week ending Nov. 20th, there were distributed 422,987 standard silver dollars. For the corresponding week in 1879, 346,491 were distributed.

A woman in New Vernon, Sullivan county, N. Y., placed a cartridge of giant powder in the oven to warm it. An explosion followed, blowing the stove to fragments and entirely demolishing that portion of the house. The woman was seriously, if not fatally, injured by the flying pieces of the stove, which tore the flesh from her limbs and shattered the bones.

The bursting of a smelting furnace containing twenty-five tons of molten lead destroyed the St. Louis refinery and smelting works at Chittenham, five miles from the center of St. Louis, Mo., and burned John Williams, night engineer, to a crisp while he was trying to save his clothes.

It is now reported that Gen. Bunting, formerly of the United States army, now of the army of Peru, is en route to Washington overland on an errand of peace. It is thought that he will ask the United States to interfere between his distressed country and her implacable foe, Chili, in some more positive way than she has hitherto. The statement recently made that the United States will relax her efforts to bring about peace between the belligerents is unfounded and absurd. The only question is to what extent her peace making will go. Gen. Bunting will, it is said, seek to have it amount to positive intervention. The Chilian minister will endeavor to see that it becomes no more positive than it is at present. Ministers Osborne and Christiancy have been instructed to avail themselves of every opportunity to proffer the mediation of the United States.

Daniel Burr, watchman in a Cleveland (Ohio) rail mill, returning from work on Wednesday morning, found the house locked and no sign of life; climbing through a window he was horrified to find the whole family lying senseless, and a powerful odor of gas, from a base burner stove. His little daughter who last kissed him as he left home was dead, and the mother and an eleven years old daughter on the bed and an infant on the floor unconscious; a neighbor's daughter visiting was also insensible, and a woman, a friend of the family, sitting at the foot of the bed in the same condition. The last named may recover, but the others will probably die.

The British steamship Mildred, which sailed from New York for Marseilles on the 28th of September last with a cargo of wheat, has not since been reported, and undoubtedly went down with all hands, twenty-four in number. The British steamer Ailsa, which was lost off St. Govern's head last week, had a crew of twenty men, and seven passengers; all lost.

Two negroes, Joseph Neverson, alias "Babe Bedford," and Edward Queenan, convicted of the murder of George Philip Hirth on the 7th of January, were hanged at Washington, D. C., last Friday.

Avery Smith, a prominent young farmer of Morgan township, Ill., when out hunting, Thursday, blew in the muzzle of his gun after shooting a rabbit, and the other barrel went off, blowing off the side of the head.

The number of victims of the fire in the St. Peter, Minn., insane asylum will not be less than twenty-five. Thomas O'Neal, John Riquest, and Fred Leader, who were rescued from the building have since died.

Schooner Paul and Thomas, from Newport for Amboy, went ashore on Fisher's island, Long Island Sound, Saturday night. Wreckers from New London went to her assistance.

Joseph Wade, sentenced to be hanged at Indianapolis, October 27, and respited for thirty days, has been granted an additional ninety days on account of the new trial granted Mrs. Brown.

Gov. James D. Williams, of Indiana, died last Saturday night, in the 73d year of his age.

Eight boys escaped from the Westboro, Mass., reform school, Saturday afternoon.

Sunday morning Mary Hoffman, of Rochester, N. Y., twenty-three years old, and a resident of that city, threw herself in front of a passing train and was instantly killed. The cause is said to be disappointment in love.

Mrs. Mary Naylor, a young widow, and Miss Maggie Kane, both of Quincy, Ill., in order to beautify their complexion, took a large dose of arsenic, Thursday evening. Both are in a critical condition.

A despatch from Washington says the attorney-general has rendered a decision of great interest to army officers affirming their right to receive commutation for quarters while absent from duty on what is known as commutation leave.

Seventeen of the Cape Cod Italian laborers, who are now working on a railroad near New York, got into a row in a New York saloon, Saturday night, during which Michael Barone and Venanvo Stagalia exchanged blows. The affair ended by the latter receiving a mortal stab from a sheath-knife in the hands of his opponent, who has fled the city.

William Cousins, a Greenpoint (N. Y.) youth, has within two weeks married two girls. Cousins is a pedestrian of some note, and is now in training for the coming contest for the O'Leary belt. His first wife is Isabella Remer, and she is complainant against him in a New York court. Fanny Edwards, the pedestrienne, is his second wife. Cousins married Isabella on Oct. 11th, and Fanny on election day. When Isabella was married to Cousins, Fanny acted as bridesmaid. An examination is set down for next Saturday, and Cousins, in default of bail, is in jail.

Prof. Charles Dole, of the Norwich university, Northfield, Vt., has been experimenting with stalks of the Sanford corn for syrup-making, and gives his experience in a letter to the *Green Mountain Freeman*. He finds that the corn is not in its best condition for sugar-making till the ears are at the right age for boiling for table use, and from that onward till it is fully ripe. His machinery was quite crude, plain wooden rollers, and tubs for the juice, placed under them, and not all the juice was obtained, but enough to warrant the expectation of a yield of fifty or more gallons of good syrup per acre, after the ears are harvested. The Sanford is a large white variety of field corn. Prof. Dole also experimented with early amber cane, and found the syrup of better quality, and a larger yield per acre, but the stalks are worth little for feeding, compared to corn stalks, after the juice is expressed. The amber cane has done so well in New England the past season, that many farmers will prepare for growing it on a larger scale next season.

The Maine Central railroad management has notified its engineers, conductors, brakemen and all others having anything to do with the running of freight trains that no trains will be run on Thanksgiving day, thus affording the employes an opportunity to remain home with their families. Other trains will be run for the convenience of employes and the public as well.

The Signor Blitz whose death was reported by telegraph recently was not the great Blitz whose trained canaries, fantastic tricks, ventriloquism and kindness of heart, made him so popular wherever he went, and who was personally so highly esteemed at his home in Philadelphia. The genuine and original Blitz died some years ago.

The story recently published to the effect that General Schofield was to be removed from his post at West Point because of the sentiments touching the Whittaker case expressed in his recent report is incorrect. It is quite likely that he will leave West Point and be transferred to some other post of duty, but the transfer will entail nothing of disgrace or disfavor, for it is an unwritten rule that the term of the commandant at the military academy shall be five years, and General Schofield has served there for that period. Indeed, it is reported, though not stated officially, that he asked to be relieved from duty there some time ago, and had pressed his petition to that effect before his Whittaker report was contemplated. From what can be learned at the war department no exception whatever was taken to the report on grounds of propriety, and if the transfer is to be made at all it seems likely it will be for the reason stated and no other.

The report of the lighthouse board promises to contain considerable valuable information with regard to progress made in the electric light during the past year by Prof. Morton, the scientific expert of the board, with a view to placing it in lighthouses and doing away with the oil lights now in use. In order to give the electric light a proper test before adopting it for general use, an appropriation of $50,000 will be recommended to place one new light in the Neversink lighthouse on the Highlands. The only other recommendation, in addition to the amount necessary for carrying on the work of the bureau, which amounts to about $2,500,000 a year, will be in connection with the lighthouse which was, during the last session of Congress, ordered constructed in Stamford harbor, and for which an appropriation of $7,000 was made. This amount, it is found, is not sufficient to construct the building, as it will have to be built upon the rocks. To carry out the intention of Congress an additional appropriation of $23,000 will be asked for the establishment of this lighthouse, $30,000 being the amount necessary to complete it.

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance or carelessness, through culpable neglect they render them so full sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

Parties living at a distance, (except in surgical cases,) by sending a statement of their case can be treated at home.

Rev. E. F. L. GAUSS, Galena, Ill., writes—"For over ten years I had been a great sufferer from Kidneys, which was most excruciating and at times almost insufferable. Doctoring brought no relief, and I was finally advised to go abroad and seek the climate of my youth. In Germany and Switzerland, eminent physicians, after close examination, declared my sufferings to arise from disease of the Kidneys, of long standing, and could do me no good. I was, however, benefited by the climate and consequently resumed my pastoral work, when the old trouble grew again so intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and took again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad a God's agents and great benefactors of mankind. May all the suffering be helped as I have been by earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have now used DAY'S KIDNEY PAD thirty days, and it has done me more good than any remedy I have ever tried."

LARIMORE & DEAN, Druggists, Niles, Mich.—"30 years in business.—DAY'S KIDNEY PAD is having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Merchant, Lancaster, Pa.—"I have been a great sufferer from Kidney complaint, and after using your Pad 25 days I feel better than I have in 15 years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is doing great good here. It sells every day and gives universal satisfaction."

Pads for sale by drug gists, or sent by mail (free of postage) receipt of price. Regular, Pad, $2.00; Special Pad (extra size), $3.00; Children's, $1.50. Book, "How a Life was saved," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it.

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one-tenth of the entire deaths be caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have known cases where a single dose has been effectual.

S. JACOB, Dr. D., St. John, N. B., writes:

"I had occasion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expedition and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

AROUND HOME.

Jesse E. Frisbee has been appointed postmaster at Kittery point.

The steam drill commenced operations at the well near the Eastern railroad depot on Monday.

It is hardly necessary to call attention to the advertisement of Ayers & Locke, in another column; it can easily be seen, and the reputation of the firm for liberal dealing is established.

"A Celebrated Case," a great emotional drama which was performed here some months ago to general acceptance, will be given at Music hall on Thanksgiving day, afternoon and evening. See adv't.

This evening, at Music hall, Duprez & Benedict's minstrels will give one of their old-time performances, which have always been received with such marked favor. All who enjoy a really good variety entertainment should be on hand at Music hall this evening.

A sale in the aid of the Children's Home will be held at Miss Morgan's Seminary on Friday, Nov. 26th, from three to ten o'clock P. M. Persons who desire to contribute refreshments or fancy articles, but who cannot send them to Miss Morgan's, may leave them at the St. John's rectory on Thursday afternoon or on the morning of the sale.

A new gas-light has been placed on Middle street, betwen the residence of Henry D. Ladd, Esq., and the Larkin mansion, at a much-needed point, as when the foliage is upon the trees this is apt to be, at times, a dark portion of the street. The new light has a burner which seems to be of about double the power of its neighbors, and perhaps it might be well to replace some old tips on the other public gas-lights, many of which seem feeble in their flames. This much-appreciated new gas-light is the result of the liberality of a few residents on the part of Middle street now so much better lighted, a feature for which all passers-by after sunset will be indeed grateful.

MR. MILLER'S FUNERAL.

The mortal remains of Frank W. Miller were consigned to the earth on Monday afternoon, the simple funeral ceremonies taking place at his late residence, Lincoln Hill. Rev. James DeNormandie conducted the services; two of Mr. Miller's favorite hymns, "Our days are as the grass," and "Nearer, my God, to Thee," were sung by an improvised choir of the deceased's nearest relatives and friends; and a portion of the beautiful burial service of the Grange was read. The large house was filled with persons assembled to pay a last sad tribute of respect to the departed, among them Gov. Head and wife, Ex-Governors Goodwin and Smythe, S. R. Niles and wife, of Boston, George W. Marston, of New York, and Samuel Gray, formerly partners with Mr. Miller in the management of this paper, Mayor Sise and members of the city government, Ex-Mayors Jones, Fernald, Marvin and others, members of the various municipal and county boards on which Mr. Miller had served, and delegations from the Grange and the several temperance organizations of which he has been so active and valued a member. And it was not only the men whose names are known in politics and business who helped swell the throng of mourners, for there were present many worthy toilers in the humbler walks of life, all testifying by their saddened countenances to their sense of the public loss sustained in the death of so earnest and true a worker as Frank W. Miller. The body was laid to rest in Harmony Grove cemetery.

BOW MISSION SERVICES.

On account of the storm, Saturday evening, there were very few persons present at the gospel temperance meeting.

Mr. Janvrin conducted the bethel service Sunday afternoon, taking for a theme the Sunday school lesson for the day, namely, "Joseph receiving his bethren." There was a good attendance.

The reform club held a social service at 7:30 P. M.

Gospel meetings were held at Newcastle on Saturday and Sunday evenings, by workers from this city.

PATRONS OF HUSBANDRY.

The following resolutions upon the death of Hon. Frank W. Miller are from Portsmouth Grange, Patrons of Husbandry, of which organization the deceased was a charter member, and at the time of his death was the presiding officer:

Whereas, It has seemed right in the eyes of our Heavenly Father to cause us to mourn the loss of our worthy brother, Frank W. Miller, who has so long served this Grange faithfully in every position which he was called upon to fill; therefore

Resolved, That Portsmouth Grange, No. 22, P. of H., has reason to remember the love and interest which our deceased brother has manifested in the Order, from the first organization of this Grange of which he was a charter member, and we can but realize that to his untiring zeal and earnest labor this branch of the Order owes its existence.

Resolved, That in paying to the memory of him who is by death thus taken from the highest office it was in the power of the Grange to bestow, we remember with feelings of pleasure and affection the many times he has occupied the Worthy Master's chair, and his presence has brought cheerful thoughts and happy hours to those thus assembled together. We are thus brought to realize how powerless are words of tongue or pen to do justice, or mete out the full measures of honor and respect to the memory of our deceased Worthy Master.

Resolved, That words are too feeble to express our sympathy for the companion of our brother, who was so intimately connected with him in the work of the Grange, but we can assure our beloved sister and our beloved brothers and sisters who were related to the deceased by ties of family and kindred, that our hearts bleed with theirs, and our tears blend with the tears which they may shed in this our mutual bereavement.

Resolved, That we extend to all the friends and relations of the deceased our sincere and heartfelt sympathy in their affliction, and trust the memory of an active and noble life spent in the interest of truth, and the good of humanity, may in some degree reconcile them to this affliction, and lead them to imitate, if possible, the virtues which have shone forth in his fruitful life.

Resolved, That these resolutions be placed upon the records of the Grange, and a copy transmitted to the bereaved family.

Naval Affairs.

A general court-martial ordered to meet at the navy yard in Boston on November 23d, for the trial of enlisted men was composed as follows: Captain Charles C. Carpenter, Lieutenant-Commander G. D. B. Glidden, Lieutenant-Commander George E. Wingate, Lieutenant Frank W. Nichols, Lieutenant J. A. Nickels, First Lieutenant I. H. Washburne, U. S. M. C., First-Lieutenant H. C. Fisher, U. S. M. C., members, and Captain L. E. Fagan, U. S. M. C., judge-advocate.

Lieut.-Comdr. Benj. J. Lamberton, U. S. N., and Master Lucien Young, bureau of equipment, navy department, arrived in New York Thursday night to take charge of a draft of men for California.

The funeral of Gen. Jacob Zeilin took place at Washington, Saturday. The pall-bearers were Admirals Porter and Emery, Paymaster Cutter, Maj. Graham and Capt Callum.

New Hampshire Items.

Col. Bowers, department commander G. A. R., was last week on a tour of inspection, visiting the posts in the northern part of the state.

The city of Keene has been sued by the Manchester & Keene railroad for a gratuity amounting to $140,000, voted by the city several years ago.

A fire occurred in McQuestions & Co.'s flour and grain store under the Baptist church at Nashua on Sunday. Loss on stock, $700; on building $1,000. Fully insured.

At the republican city caucus at Dover, Saturday, Col. C. Murphy was chosen candidate for Mayor. At the democratic caucus, John H. Hartford was the candidate chosen. The following were made the democratic city committee: T. L. Greene, J. D. Stratton, V. H. McDaniel, J. L. Foster, J. B. Quaid.

The children of General Garfield are Harry, who is 16, "Jim" 14, Molly 12, Irwin 10, and Abram 8. The two older boys are at school at Concord, N. H. Harry is quiet and sedate, and "Jim" is rollicking and wide-awake; Molly is described as a very quiet girl, who keeps close to her lessons. None of the photographers have been able to get a picture of Mrs. Garfield.

Political Notes.

The republicans of Maine carried all of the five Congressional districts in their state at the presidential election, four of them by majorities of 531, 1915, 731, and 1178 respectively, and the fifth by a plurality which lacked only 292 of a majority.

The republican central committee of New York city at a meeting held last week, after adopting resolutions of congratulation at republican success in the national election, discussed without action a resolution favoring a constitutional amendment to make ex-Presidents of the United States senators for life. The resolutions state that the election assures the maintenance of the national credit, the continued prosperity of American industries, a guarantee to every citizen in every state that he shall be free to vote and that his vote shall be counted, and a last evidence that the suffrages of the American people cannot be secured by slander, fraud or forgery.

Gov. Davis and council, of Maine, in canvassing the votes for state senators and representatives, came across several "defective" returns. They were mostly from fusion towns. There was but one return that was "fatally defective," and it came from the town of Fort Kent. The clerk of the town neglected to sign the return. This would invalidate the return, and "count out" Major Dickey, who had been chosen representative from that district. The major was one of the leading spirits of the Garcelon count-out last winter. But the governor and council did not administer to Major Dickey a dose of his own medicine. Instead of counting him out they notified him of the mistake, and gave him an opportunity to correct the return.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes*. Tu,th&f,&G

Wept because there were no more worlds to conquer, but the proprietors of Dr. Pierce's Family medicines, who have found it necessary to establish a World's Dispensary at London, England, in order to supply from that great commercial emporium these remedial blessings to foreign countries, where they are largely in demand, do not share the great conqueror's sentiments, as their conquests are of disease and have made happy not the conqueror, but the people who enjoy them. Dr. Pierce's Golden Medical Discovery cures all blood and skin diseases, scrofulous affections, swellings and internal soreness. Dr. Pierce's Pellets are the little giant cathartic; Dr. Pierce's Favorite Prescription—woman's tonic and nervine—Dr. Pierce's Extract of Smart-Weed, the great remedy for colds and all bowel affections, as diarrhœa, dysentery and flux. Kidney Disease of 30 Years Standing Cured.

ELK FLAT, OREGON, Jan. 12, 1880.

The second package of Kidney-Wort is nearly gone, and I enclose a dollar for another package. I am a woman fifty-six years of age and have been afflicted with kidney disease for more than thirty years. Kidney-Wort has done me more good than any other remedy I have ever taken, and I am sure will cure me.

MRS. J. T. GALLOWAY.

—There is talk of starting a line of street cars between Jerusalem and the Mount of Olives. What would Solomon have said to this? Wise man as he was, he knew nothing about the fearfully and wonderfully constructed bell-punch.

The genuine Syrup of Hypophosphites is put up in pint bottles, the name of Fellows & Co. blown on.

Should the patient have any difficulty in procuring the Compound Syrup in his vicinity, let him not be put off with any other remedy; because this article has not its equal in the diseases for which it is recommended.

The *Army and Navy Journal* says: "Chief Engineers C. H. Loring, S. L. F. Ayres and G. W. Magee, of the navy, the board appointed to examine the new steamer Anthracite, noted in former issues of this paper, have made their report, and it proves very favorable. The board says: 'The especial feature of the vessel is her machinery, the boiler pressure carried being greatly larger than that in ordinary use under other systems. It was to demonstrate that such high pressure could be safely and efficiently utilized to furnish the motive power to a vessel on an ocean voyage that the Anthracite was sent across the Atlantic. Her successful passage and the efficient condition of the machinery upon her arrival at New York ought, we think, to remove all doubts as to the practibility of the system. Its economy, its superiority to the systems now in vogue and its future career must be determined by experience, of which the record and results of the trial will form an item.'

John Staples' steam saw mills, grist mill and threshing mill at Walnut hill, Gloucester, Me., were burned on Saturday night. Loss $3,000 to $4000; insured $1400.

—Kissing is somewhat like seven-up. If he begs, and she thinks she can make points in the game, she will give him one.

Cold piercing winds and driving rains seldom fail to bring on a cough, cold or hoarseness at this season, and Dr. Bull's Cough Syrup should be kept in every house. For sale by all druggists.

—An eccentric but pious man has built a house on posts forty feet high, at Plympton, Oregon, in order that he may live nearer heaven.

Liebig Co.'s Coca Beef Tonic.

"The effect of the Cocoa borders upon the marvelous, and if not clearly authenticated by scientists of undoubted veracity would be altogether beyond belief," says Dr. Wm. S. Searle, Brooklyn, N. Y.

"Gives more tone than anything I have used or prescribed," says Professor H. Goullon, M. D., physician to the grand duke of Saxony, knight of the iron cross, etc.

It is invaluable in head affections, weakened memory, dizziness, determination of blood to the head, sick and nervous headache.

And is highly beneficial in palpitation of the heart and other forms of heart disease, in neuralgia, dropsical affections, paralysis, etc.

—The Fisk Jubilee singers, after having been invited into the presence of royalty in England, and twice entertained as invited guests at Premier Gladstone's mansion, have been refused admission to the Tecumseh house at London, Ont., on account of their color.

Women that have been bedridden for years have been entirely cured of female weakness by the use of Lydia E. Pinkham's Vegetable Compound. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamplets.

—An Attleboro' man advertised in the local paper that he would not pay any bills contracted by his wife. To this she responded in the next issue that she had supported him and the family ever since they were married, and never knew of his ever paying any bills of his own or anybody's else.

WM. H. PULLEN, Fowlerville, Mich., says: I have not rested better for months than I did last night. The "Only Lung Pad" has helped me wonderfully.—*See Adv.*

—That woman who neglects her husband's shirt front is not truly "the wife of his bosom."

Many people suffer, and know not what ails them. Try D. R. V. G. If no benefit is received, your druggist will refund the money.

—A fashion paper says that in wedding cards, "if there is a crest in the bride's family, it is engraved in white at the top of the note sheet and also on the envelope." If there is not a crest in the bride's family they should send out to the nearest drug store and get one: No family should be without one. None genuine without the proprietor's name blown into each bottle.

After spending hundreds of dollars without relief Day's Kidney Pad cured me, are the words of thousands.

—She went up stairs in her chintz apron and mob cap, with a little dab of flour on her nose, and told Henry she was learning to cook, and he told her she must not get overheated or worried out, for he didn't care whether she could cook or not; he should never want to eat when he could talk to her, and it was only sordid souls that cared for cooking. A year after, he swore at her because the biscuits were heavy.

An Odd Presentiment.

About midnight, just after a late accident in the Consolidated Imperial mine in Nevada, the wife of Mat. Winnie was found by a policeman on her way to the Imperial works. She said she had been awakened just before by her husband, who came all mangled to her bedside and told her that he had been killed in the mine. She had got up, dressed herself and started to ascertain the truth of what she was indeed only too well convinced was true. The policeman went with her to the works, ascertained there that there had in reality been a fearful accident, that Mr. Winnie was indeed killed, and then took her home. Mrs. Winnie had not been told of the accident, except as above mentioned, until after she had met Officer Sheehan. Here is a nut for mental philosophers to crack.

—Three American young ladies at an inn in the village of Limpeler filled in the column of the register headed "Occupation" with the words, "Looking for a husband."

—A Wyoming lady thus describes her first appearance as an elector: "As I went up the stone steps of the court house to cast my vote I began to realize the convenience of a strong arm to lean on, as I found myself growing weak and nervous, like one on the way to the gallows to be hung for murder, but I met crowds of ladies who had just voted, laughing and chatting along, and when I remembered the heroism and bravery of my noble forefathers, I was quite overwhelmed with shame at my own timidity, and holding up my hand like a man, felt quite reassured by the time I reached the ballot-box, and was about to cast my vote with as much *sang-froid* as a newly naturalized citizen, when a little, sharp-nosed man, with sore eyes and a very red nose, red hair and a squeaky voice, challenged my vote on the plea that I had not been a resident long enough. But some male friends standing near came to my rescue and saw my ticket at last disappear within the mysterious ballot-box, and I turned away, glad to escape the scrutiny of a dozen pairs of iron-bound spectacles which were levelled at me from behind a big table, and went home weaker and wiser than I went."

Beware of Alcoholic Bitters,

Thousands have been ruined for life by drinking popular nostrums, the principal ingredient of which was alcohol. Such "bitters" are deceptive in their effects; they cause intoxication and temporary relief, while they foster the drunkard's appetite. Dr. Kennedy's "Favorite Remedy" contains no alcohol. It does not heat and inflame the blood; it cools and purifies it. Better than this even, it has cured a raving appetite for drink. It will do you good, not evil, all the days of your life. All druggists sell it. Dr. David Kennedy, Proprietor, Rondout, N. Y.

E. B. Taylor has been nominated by the republicans of the 19th Ohio district to fill the unexpired term in Congress of General Garfield.

A world of Good.

One of the most popular medicines now before the American public, is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whisky drink. It is more like the old fashioned bone-set tea that has done a world of good. If you don't feel just right try Hop Bitters.—*Nunda News.*

A Huntington, Vt., man eighty-three years old was recently sentenced to seventy-five days in jail for intoxication, and was much disgusted when his son paid his fine, thinking it a waste of money.

Nineteen twentieths of all sickness arises from weak and impure stomachs. D. R. V. G. will purify the stomach, and all is well. Try it. Guaranteed by all druggists.

The journal clerk of the National House of Representatives is engaged in revising the calendar of business, so as to be ready for the approaching session of Congress. The calendar is already loaded with more bills than Congress could pass if it remained in continuous session for a year. Under the new rules adopted at the last session all bills favorably reported from a committee go upon the calendar. The effect of this rule made the same a very burdensome document, and not one bill in a hundred on it has any chance of becoming a law.

Pure, wholesome, nutritious and stimulating without intoxicating are Malt Bitters.

News and Notes.

The United States court at Jackson, Tenn., has awarded Jane Brown, a pretty colored woman of doubtful virtue, $3,000 damages against the Memphis & Charleston road for injuries sustained at the hands of a conductor who forcibly put her off the car assigned to white women.

For two long years James Wagonseller, a farmer of considerable means in Wallace Township, Pa., paid sweet attentions to Miss Mary Simmons, a buxom girl of twenty-seven years, giving her presents, an engagement ring, etc., and writing her warm letters. Yet he finally proved false, and refused to marry her. Mary considered this "too mean for anything," and a jury of her countrymen agreed with her, and awarded her $5,000 damages.

In 1880 the wool clip of the world was estimated at 320,000,000, pounds; in 1878 at 1,586,000,000.

One county in Mississippi is without a sheriff and chancery clerk. The two officials met a few days since, one being a democrat and the other a greenbacker, and, after telling each other their respective opinions, proceeded to shoot with so good effect that both are now dead.

A Deadwood, Dakota, despatch of Nov. 22d, says: "For months back a band of outlaws have kept the citizens of Fort Pierre, a town on the east bank of the Missouri river, in terror, until the respectable portion of the community organized a vigilance committee with the determination of ridding the place of the roughs. Last week the two opposing forces met, both strongly armed. A fight ensued, which resulted in the killing of Arkansas Joe, the leader of the band, and wounding four others. The vigilants escaped unhurt."

Queen Anne's county, Md., has gained the happy distinction of having no use for courts, jurors or jails. At a court session just closed the petit jury was not sworn, there was not a single conviction for any offence, and only four presentments were made by the grand jury. The sheriff sits in the solitude of an empty jail. All over the county there is a lively interest in schools and public education, which may account for the court being without business.

It seems that the overcrowding of railway cars has become as great an annoyance in England as in this country; but John Bull has a more summary and effective method of remedying these evils than exists in the United States. Passengers who have been forced to stand, because of the crowded condition of the cars in England, have begun to sue the railway companies, and in a number of these cases the courts have awarded substantial damages, holding that merely nominal damages are not sufficient as a punishment to the railway company for having compelled passengers to stand after they had paid for seats.

Alexander H. Stephens denies the assertion that the south is growing in wealth. Her population appears to increase, but unless such an increase is accompanied by a corresponding increase in wealth the result is only greater poverty of the masses. It costs a great deal to raise children. In his state there has been most enormous depreciation in all kinds of property values. There has been a steady decline in the material welfare of his state for a number of years. He thought that the present condition of affairs might be likened to an old wound—the gangrene had sloughed off, and new granulations were forming. Probably the latter part of this generation would see great wealth and prosperity through the south. They would hardly come before that time, in his judgment.

A St. Louis bank teller, in cashing a check, gave a woman a sealed envelope marked $500. She did not count the money until she got home, and then found only $285. She returned to the bank, but could not get the mistake rectified. She ought to have opened the envelope, the teller said, before quitting the counter. A lawsuit has resulted in a verdict for the woman, whose statement of the facts was amply corroborated. The bank will appeal.

Captain George F. Nye, who commanded the steamer Stonington on the night of the Narragansett disaster, has followed the example of Captain Young of the Narragansett, and pleaded not guilty to the charges and counts against him, and, like Capt. Young, has been placed under bonds to appear before the district court in Hartford, Conn. on the first Tuesday in December. There are two counts in the indictment of Capt. Nye. The first charges him with neglect on the night of the collision to give the signals according to the regulations governing navigation on all American waters, as established by the board of supervising inspectors. A second count charges him with neglect to give proper signals governing navigation on the waters of Long Island sound as established by the board of supervising inspectors. After the disposition of this case, United States Marshal Bates arrested Capt. Nye on complaint of United States District-Attorney Hart, charging him with misconduct and negligence in bringing about the collision with the Narragansett, and that by the effect of the collision "he did hurt, precipitate and throw from the Narragansett divers persons, to wit: Edwin J. Horton of Attleboro, Isaac Boyce of Stonington and divers other persons," causing their death, "whereby the said Nye was guilty of manslaughter." To this charge Captain Nye also pleaded not guilty, and was placed under additional bonds to appear at Hartford.

In his report to the secretary of the treasury Second Auditor Ferriss makes a statement showing the expenditures on account of the war of the rebellion chargeable to appropriations on the books of the office. The amount disbursed on account of said war up to June 30th, 1879, was $1,558,138,343.88. Fourth Auditor Beardsley, of the treasury, in his annual report to the secretary, embodies a statement giving in detail the appropriations made for the support of the navy, and the amounts expended. The aggregates are: amount appropriated, $12,393,323; amount expended, $11,196,736.

An idea of the enormous apple crop of this year may be gathered from the fact that one farmer in Salisbury sold the product of one orchard, on the trees, estimated at 400 bushels, for the sum of two dollars. More than a hundred bushels of the fruit were of good quality for family use. The purchaser turned a drove of cattle into the orchard and let them eat the apples. In the same town Baldwins were sold on the trees for fifty cents a barrel, and cider at seventy-five cents a barrel.

Ex-Judge D. P Barnard, of Brooklyn, N. Y., a well-known lawyer who has been for sixteen years president of the Constitutional Union Association, a strong democratic organization, declares that he has cast his last vote for the democratic party as now organized. He thinks there is more true democracy in the republican party now than in the democratic.

How Men Worry.

Men are rarely cheerful when apprehensive about the future, and we should say that this form of timorousness is especially prevalent in our society. Nationally we are a remarkably hopeful people, but individually we are apt to be much less so. Our chief reason for this is, we conceive, that so large a proportion of the community habitually live beyond their means. This fact if it be one, may seem to argue the predominance of the sanguine rather than the nervous temperament; to be the fruit of light-hearted prodigality, and thus seem incompatible with the depression we indicate; and this indeed would be a logical inference if the extravagant living in question were voluntary. But this, in general, is not the case. A great many men, perhaps in our large cities most men, above a certain pecuniary position, spend more money than they ought to spend, against their will. They are in the "swim," so to say; they must live in houses as handsome as other men's; their wives must be as well dressed as other men's wives; their table, their equipage, their servants, their places at the theatre or opera, their resorts in summer, their dinner parties in winter must be upon a definite and high plane of expense; and the expense is one that in sadly too many cases is what they cannot afford.

The consequence of this is that, however the matter may often be locked up in their own breasts, a large fraction of the men of our great towns are in constant worry as to how they are to pay their way. They know that they are living at a cost exceeding their incomes. They know that the house costs too much, the servants too much, dress, wines, drives, tickets, nearly everything too much. But how is a particular man to help it? He must live as other men live; to cut matters down would hurt his credit; and so he goes on and on, eating his heart, and often dying suddenly at last, as truly a victim of fret as ever a man was of plague or yellow fever.

We need more repose, a more uniform serenity of mind and body, and to get this we require a greater simplicity of life. Wants with us have grown too complex, the dread of Mrs. Grundy too pervasive, independence of thought and act in our systems of domestic economy too rare, and peace of mind is therefore proportionately impaired. Our people, in great cities at least, live too fast, spend too much money, lay too much stress on show, and on the opinions in non-essential matters of their neighbors. That "perennial hilarity, the rose of joy," which Mr. Emerson wrote of, like other mundane things must be paid for; and one of the terms of payment consists in foregoing, or eliminating from American life what at present constitute its most feverish and impressing elements.—*N. Y. Post.*

Twenty-one Number of Scribner for $5.

The richly illustrated Nov. number of *Scribner's Monthly*, the Decennial Issue, appears in a new cover, and begins the twenty-first volume. The increasing popularity of the magazine is strongly evidenced by recent sales. A year ago the monthly circulation was about 90,000 copies; during the past nine months it has averaged 115,000, while the first edition of the November issue is 125,000.

The first part of the now famous serial by Eugene Schuyler, "The life of Peter the Great," was finished in October. With November begins Part II., "Peter the Great as Ruler and Reformer," which will be an advance, in point of popular interest and wealth of illustration, upon the part already published. To enable readers to secure Part I. the publishers make the following special offers to new subscribers after October 20th, who begin with the November number.

(1.) New subscribers may obtain, for $5.00, *Scribner's Monthly* for the coming year, and the previous nine numbers, February to October, 1880, which include Part I. of "Peter the Great," Mrs. Burnett's "Louisiana," etc. In accepting this offer, twenty-one numbers will be had for $5.00.

(2.) They may obtain the previous twelve numbers of *Scribner's*, elegantly bound in olive-green cloth (two volumes), containing Part I. of Peter the Great, all of Cable's novel, "The Grandissimes," with the numbers named above, and a year's subscribtion, for $7.50. (Regular price, $10.00).

All book-sellers or news-dealers will take subscriptions and supply the numbers and volumes mentioned in the above special offers, without extra charge for postage or express; or the publishers, Scribner & Co., 743 Broadway, New York, may be adressed direct. The regular price of *Scribner's* is $4.00 a year; 35 cents a number.

A Bovine "Bender."

It is an uncommon sight to see a drove of cows intoxicated and on a jolly spree. Yet the cows on Mr. S. B. Dolson's dairy farm, located about two miles from Warwick, Orange county, New York, have had such a spree. A few days ago Mr. Dolson's cows were pasturing in a lot adjoining the orchard. At night they broke down the fences and, of course, ate until they were full, in fact, intoxicated. The actions of the animals, as described by witnesses, were ludicrous and laughable in the extreme. They staggered and reeled about, pawed the ground, and puffed and snorted like locomotives. Several battles with heads and horns took place, but none were seriously injured. After a short trial at ground and lofty tumbling the cows returned to eating apples, and then followed another spirited and amusing performance. This was kept up for some time until the bystanders interfered. A curious result of the over indulgence in the fruit was, that it shortened the drove's yield of milk very much. Not more than one-eighth of the usual amount was produced after the cows had their spree.

—Blown over—Hot coffee.

—The case of Miss Palmer, who recovered in a New York court $3,500 damages from her landlord because of injuries received from falling over a defective oil-cloth, seems unusual. It was a case of covenant, however. The landlord agreed to furnish the house with carpets and oil-cloths, and to keep them in order. The accident to Miss Palmer occurred after the landlord had received notice that the oil-cloth was out of order. A few similar decisions would make landlords a little more prompt in their responses to the complaints of tenants. We see no reason why damages should not be paid a tenant who is made ill by defective drainage or bad plumbing.

—From recent statistics issued by the Norwegian government, it appears that the mercantile marine of that country is increasing at a remarkable rate. During 1878 the increase amounted to 33,600 tons, and at the commencement of last year the fleet consisted of 7942 sailing vessels and 306 steamers, being about eighty-eight per cent of the former and twelve per cent of the latter class of vessels. The proportion of steamers to sailing vessels in most other countries is much larger than it is in Norway. The great bulk of the Norwegian sailing vessels are employed in the American trade, the export of produce from the United States alone during 1878 producing in the way of freights 34,733,000 crowns, against 25,000,000 in 1877 and 17,000,000 in 1876.

—A disgrantled German at Westfield tells his experience in sending his boy to learn a trade in one of the Westfield manufactories: "I sends mine poy to der piano shop leg down to get a shob. He vas set to work mit sandpaper on de legs piano. Ven comes night his hants vas so sore vot I tolds him he don't no longer vork at dat pishness. Next morning he goes for pay, and vas tolt dat of vat he earned out must come de cost of de sandpaper. When dey figure oup, by shimminy de sandpaper comes to more as he earned. I haf four poys, and I sits me down mit a shlade and figures dat if dey all works in dat shop it takes more as I earn mineself to pay for de sandpaper dey use more as dey don't get, and I sends mine poys dere no more."

—Hon. Edward Ashton Rollins, formerly of Great Falls, now president of the National Centennial Bank of Philadelphia, recently celebrated the twenty-fifth anniversary of his marriage, in a manner strikingly original and novel. Without ostentatious announcement of the arrival of that important event in his marital history, he in the quietest manner donated to the Congregational church of that city, and of which he and his wife are members, a beautiful silver Communion Service, and to Rev. Nathaniel Barker of Wakefield, who twenty-five years ago performed the ceremony of their marriage, they presented a check for a generous sum of money. This departure from the usual customs, when the couple celebrating are expected to be the recipients rather than the giver of suitable presents, is looked upon by the friends of Mr. Rollins as an innovation worthy of commendation, and deserving of imitation, on the part of many other couples similarly situated, and as abundantly able to give as himself. Mr. Rollins married a daughter of Josiah Hobbs, a prominent citizen of Wakefield, at whose residence he was married.

—The Westfield correspondent of the Springfield, Mass., *Republican* tells this story: "An illustration of what a man can accomplish in spite of adverse circumstances and bodily affliction, with a loving, willing wife to aid him, is found in Dr. C. N. Germaine, for years one of our most respected and successful physicians. Three years since his eyes began to fail, and gradually his sight weakened, until about a year ago it was entirely lost. He had no means of livelihood aside from his profession as a physician but his wife, who is a woman of broad culture and refinement, accompanied him on his visits to patients to guide him. Gradually accustoming herself to note the various symptoms of the sick, by careful study she became fully competent, when her husband's sight was wholly gone, to describe all the outward symptoms of patients to him, so that he has not been obliged to give up practice, but can be found every day going his regular rounds with his wife by his side. His former patrons, with but few exceptions, continue him as their family physician, and his blindness has not affected his skill and success in treating various forms of disease, although, of course, it prevents him from practising surgery. Every one sympathizes with Dr. Germaine in his affliction, and admires his courage and his noble wife's devotion and energy."

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

Parties living at a distance, (except in surgical cases,) by sending a statement of their case can be treated at home.

AROUND HOME.

L. V. Newell is to be supplied with a large lot of nice ducks, geese and turkeys, for Thanksgiving.

Raffle and free clam chowder at Garrity's saloon, No. 23 Daniel street, this evening. All are invited.

The thin coating of ice on the surface of the south pond was occupied by an immense flock of gulls on Monday.

There will be religious services on Thanksgiving day in the Middle street Baptist church, at eleven o'clock; sermon by Rev. Dr. Alden.

The navy yard ferry steamer Emerald took her place on the route again on Sunday, having undergone a thorough overhaul during the time she was off.

The "band-stand" which was re-erected over the Gangway rock early last week was a second time wrecked on Wednesday afternoon, and has not since been replaced. The tidal currents of the Piscataqua are not to be trifled with.

Nicholas Zambelli and Jerry Moulton, the latter quite an aged man, were on Tuesday reported to have been seriously injured by a fall of earth while at work in an excavation at the suburban residence of Hon. Frank Jones.

The body of Wm. C. Conery, found dead in the dock near Tredick's wharf on Sunday morning, was taken to Rockland, Me., on Tuesday, by his father, for burial. Mr. Conery it is said believes his son's death was accidental, resulting from intoxication.

"A Celebrated Case," which is to be performed at Music hall on Thanksgiving day, afternoon and evening, is brought here under the management of Messrs. Thayer, Smith & Moulton, under whose auspices so many first-class entertainments have been presented in Music hall.

The schooner Hattie Lewis, Garland master, was at Portsmouth bridge on Tuesday, bound for Boston with a load of brick from Pinkham's brickyard at Dover point. At the same time the schooner Emily A. Staples, Coleman master, was lying at the bridge with a cargo from Maria Raitt's brickyard at Eliot, also bound to Boston on the first "slant."

Mr. and Mrs. Joseph Whidden, formerly of Portsmouth but now residing at Cambridge, Mass., celebrated the fiftieth anniversary of their wedding on Thursday, Nov. 11th. A large number of relatives were present, and a good time was enjoyed by all. Miss Annie M. Whidden of South Abington, Mass., one of the grand-daughters, read an original poem in honor of the occasion, and a handsome sum in gold was presented by the friends during the evening.

The new steam corvette Galena is considered to be one of the best vessels in the navy. She is 216 feet in length, 37 feet breadth of beam, and 19 feet hold. She carries eight guns—one sixty pounder, one eight-inch pivot, and six nine-inch Dahlgrens—and has a crew of 190 men, exclusive of her officers. Her commander is Comdr. James O'Kane, and in her list of officers we find the names of Paymaster Edwin Putnam, with H. T. Varrell of this city as pay clerk.

The attention of our readers is called to the closing part of the new advertisement of the Star Lyceum course, which we believe is all that is necessary to do, for a perusal of it will at once convince many of them that they have a little business in the direction where tickets are sold. Some one who purchases a ticket for the course will secure an elegant $750 piano, besides the right of attending four first class entertainments for twenty-five cents each,—either of which, judging from the first one, will be worth the price for the whole.

The schooner B. Frank Nealley, of Dover, Handy master, arrived at this port last week from Perth Amboy with a large cargo of coal for Dover, and on Friday proceeded up the Cocheco in tow. At the narrows she took a rock with her keel, and hung there until low tide, and on the flood was found to have sprung a leak. She still remained in position across the channel on Tuesday, and it was feared that the cold weather, if it continued, would ruin her. The schooner Laura Robinson, Luce master, was lying up river from the B. F. Nealley, ready for sea but unable to get out of the river.

Turkeys were selling on Tuesday for twenty cents a pound, and chickens at fifteen and seventeen cents a pound,—of good quality, too.

Members of the Masonic Relief Association are reminded that at the annual meeting, which will be held this evening at Masonic hall, commencing at 7:30 o'clock, very important business will come up, rendering a full attendance desirable.

The Roman Catholic society of Dover has purchased the New Hampshire house and land for eight thousand dollars. The lot is 165 by 160 feet, and is desirably located. It has not yet been definitely determined to what use the new property will be converted,—whether for church or school purposes remains to be decided.

The thermometer was down to four above zero on Tuesday morning. Notwithstanding the cold weather, the wild geese have not as yet flown south in numbers to attract attention, which is supposed to indicate mild weather in the extreme north; but perhaps the geese have been caught by an extra cold snap, and all frozen up.

The town of Seabrook, at the late town meeting, voted to Alonzo Barton $100, as compensation for the loss of a horse which broke his leg by stepping into a hole in the bridge on the Rocks road last winter. A request was made by the meeting to the Eastern railroad, to station a flagman at Noyes' crossing on the Walton road, which has been done.

A party of boys who went on a ramble through the woods in the direction of Sagamore creek last Sunday, in search of ponds for "Thanksgiving skating," entirely failed in their search; even in Wendell's woods, which never failed them before when the weather was cold enough to make ice, not a pond could they find, the sites of former ponds being either entirely dry or showing but a narrow expanse of frozen mud.

Seabrook has three hundred and ninety-two scholars between the ages of five and fifteen, and spends $1395 for educational purposes. District one, which has but ten scholars, is allowed $110, other districts being allowed at the rate of $3.36 per pupil. District five, which includes nearly all of South Seabrook, has 197 scholars, the school being graded; Miss Withington of Newburyport teaches the primary school, and Charles S. Ward, of the senior class at Dartmouth college, has charge of the grammar school. Miss Alice Chase of Kingston is teaching the school in district four, Miss Abby Odiorne of Portsmouth in district three, and Miss Batchelder of Hampton in district six.

Sumner Beals has hired the upper room in S. E. Staples' shoe manufactory, near the Boyd schoolhouse in Seabrook, and has at work a team of six men, with a Goodyear shoe-sewing machine, making shoes for N. D. Dodge of Newburyport. Timothy Adams of New York has recently set up one of the Goodyear machines in the shop of John Locke, on the Walton road, also making for N. D. Dodge. S. E. Staples has fifteen men at work in his shop at Seabrook depot. George Small of Salem is about setting up a shoe manufactory in the house owned by Wm. Brayton. Border & Ham of Beverly have a shop on the main road, near the Baptist church. Bennett & Barnard of Lynn are having shoes made in the building of Calvin Russell, at the depot. Altogther, the shoe business is brisk in Seabrook.

Books, Magazines, Etc.

"American Poems"—Longfellow, Whittier, Bryant, Holmes, Lowell, Emerson, with biographical sketches and notes. Holiday edition; illustrated. Boston, Houghton, Mifflin & Co., (second edition) In ample season for the holidays appears this beautifully-printed collection of poems, with its numerous illustrations, making an attraction to be appreciated and admired rather than to be adequately described. The editor does not claim this to be a representative volume of American poetry, nor in a comprehensive sense of the poets whose writings are here presented; but because the poems are of themselves worthy, and the collection is American in origin, tone and style, the book has a significance which is thought to justify its patriotic title. There are brief sketches of the authors, which are of service especially to younger readers, who will be induced to more appreciatingly become familiar with their writings, by a knowledge of the gifted men whose names are written above. In its mechanical execution no less than in its other general attractiveness the book commends itself, and it will doubtless prove a most gratefully received reminder of friendship and affection, appearing as it does at a season when these manifestations are sought so considerably to be bestowed by those who have good judgment as well as liberal ideas in the selection of such reminders. Price, with red borders, gilt edges, etc., $3.00. Mr. Myers, on Congress street, has it upon his counters.

The Biddeford *Journal* gives the following as an extract from a private letter received from Liverpool by Mr. D. F. Littlefield, the proprietor of the apple factory in Saco. It shows a good prospect for our fruit growers: "The demand for apples continues excellent, and in face of the enormous arrivals, prices are well maintained. The undoubted fact is that the United States and Canadian fruit is so much superior to all other growths that this year's small crop of English is almost unsaleable, and French and German apples have been quite driven out of the market this season. American apples are being taken by many districts that have heretofore always been supplied from the home crops; even by Herefordshire and Devonshire, the great apple-producing counties of this country; and they are in such good favor that we look forward to a large demand in coming seasons, no matter how large the English or continental crop may be."

A Down Town Merchant

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed a suffering and disturbed without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and the little fellow awoke next morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering, crying babies and restless night have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudice of the mother. Sold by all Druggists. 25 cents a bottle. 6

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

To the Holders of Certificates of Indebtedness.

The Voting Register of Certificate-Holders is now making up at the Office of the Trustees, No. 23 Court Street, Boston, Mass. The names of parties to whom Certificates were originally delivered have been placed in the Register. Any subsequent purchaser or holder desiring to register may do so on presenting at said office to Mr. Joshua Crane a written statement of his name, address and the denomination and number of each certificate held by him, or, if so required by the Trustees, on producing the certificates held by him or a written order from the registered holder.

In accordance with regulations fixed by the Trustees the Voting Register will be closed on the thirtieth day of November, 1880, between which time and the Annual meeting on the second Wednesday of December, 1880, no registration will be made. Per Order of the Directors,

WHIPS! All qualities and prices; at LARRABEE'S, 26 Congress

We clip the following from the Troy, N. Y., *Times*: "Letters pour in daily, sometimes by dozens, scores from hundreds, to Dr. David Kennedy of Rondout, N. Y., in grateful acknowledgement of the great benefits received from his "Favorite Remedy." These are all read with care and interest by him, as they frequently illustrate the power of the medicine in some new, and perhaps, hitherto untested phase of operation. But it is when a sufferer comes miles to tell the story of his deliverance in person, to grasp the doctor by the hand and greet him as a true and valued friend, that the interest in his case deepens and multiplies."

Several weeks ago a married woman named Emma Reinert, aged twenty-six years, residing a few miles below Reading, Pa., died of consumption, and now the insurance companies refuse to pay $25,000 life insurance, alleging that the policies were fraudulently obtained.

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and was never well, teased me so urgently to get her some, I concluded to be humbugged again, and I am glad I did, for in less than two months use of the Bitters my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

The grand jury of Bowling Green, Ky., has indicted three newspapers in Louisville and two in Frankfort and Russellville for advertising a lottery scheme, and Judge Delaney, in delivering his charge, said: "I am free to confess that I doubt whether any of these parties will ever suffer the penalty of the law if you indict them. Executive pardon or other contrivances may intervene to shield them. But this is not for you to consider, and should not control your action."

When you want Pearline, be sure you get what you ask for. The market is full of imitations. The genuine is manufactured only by James E. Pyle, New York.

The only information the state department is ready to impart about the treaty with the Chinese government regarding the modification of the Burlingame treaty is that the terms are in accord with the policy agreed upon by the Chinese and American governments—in effect that we do not want unlimited immigration, and the Chinese government does not want its subjects to leave their country; or, as tersely expressed by one of the state department officials, "We do not want them to come, and they do not want them to go." The text of the treaty is, of course, confidential, and will remain so until it is ratified by the senate.

Darius Goff of Providence, R. I., has a clock nearly 200 years old, which, besides keeping excellent time, does considerable other work. It contains an ingenious mechanism by which the light in the front hall is turned up as darkness comes on, and again is lowered at the family bed-time. It rings a bell for the servants at dawn, another for the family an hour later, and for breakfast half an hour later, and does other curious things.

The trials of Dr. John Buchanan, Martin V. Chapman and Thomas E. Vandusen, for conspiracy to defraud the United States out of $5,000, the amount of Dr. Buchanan's bail, has been commenced in the United States district court at Philadelphia.

This is a dangerous season, and often the fondest mother's care is no protection against coughs, colds and hoarseness. Dr. Bull's Cough Syrup should be kept in readiness. Price 25 cents.

The citizens of Brooklyn have erected in Greenwood cemetery a handsome monument to the memory of the victims of the Brooklyn theatre fire. One hundred and five unrecognizable bodies were buried in one lot in the cemetery.

D. R. V. G. will cure every case of sick headache. See other column. Guaranteed by all druggists.

Mrs. Mary A. Gilbert, widow of Engineer Gilbert, killed in a collision on the Michigan Central road, last winter, has been awarded $17,000 by a jury trial. The road offered to compromise for $1800, and will probably appeal.

"Facts are stubborn things," and it is a fact that Adamson's Botanic Balsam has performed more genuine and permanent cures than any cough remedy on this or any other continent. Try it for 10 cents. Regular size, 35 and 75 cents.

Governor Davis of Maine has decided to appoint Gustavus S. Bean of Bangor as warden of the state prison. Mr. Bean is a citizen of excellent character, whose experience as a deputy sheriff should be useful in the new position.

Free from the objections of beer, yet possessing all its nourishment, are Malt Bitters.

CANTERBURY SHAKERS'

LIFE-INVIGORATING

BLOOD-PURIFYING

Prescribed by Physicians and Druggists for nearly Fifty Years.

THE SHAKER'S SARSAPARILLA is just what it purports to be.—*Dixi Crosby, M. D.* I have long prescribed it, and think it a most valuable medicine.—*Jeremiah Blake, M. D., Gilmanton, N. H.* Have known it for nearly half a century. Our confidence in it is in no way impaired.—*Carlton & Hovey, Druggists, Lowell.* I speak with confidence of it, having prescribed it for eighteen years.—*S. M. Dinsmor, M. D., Francestown, N. H.* Give me the Shakers' Sarsaparilla in preference to all others.—*C. A. Gallinette, M. D., Boston.* I have the most unbounded confidence in its healing and renovating properties.—*Wm. R. Preston, Druggist, Portsmouth, N. H.* I consider it the best preparation made.—*A. G. Wilber, Druggist, Boston.*

Do not fail to make a trial of this great Blood Purifier, Appetizer, and Tonic, the first and best of all medicines called Sarsaparilla, which is prepared from selected SHAKER ROOTS, HERBS AND BERRIES by the CANTERBURY SOCIETY OF SHAKERS, and is beyond all comparison the purest, safest, and most effective family medicine in the world. Ask for CORBETT'S SHAKER SARSAPARILLA. The genuine is signed by THOMAS CORBETT, its inventor, and sold by druggists generally.

MRS. LYDIA E. PINKHAM, OF LYNN, MASS.

DISCOVERER OF

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

The Positive Cure for all Female Complaints.

THIS PREPARATION RESTORES THE BLOOD TO ITS NATURAL CONDITION, DIRECTS THE VITAL POWER ARIGHT, STRENGTHENS THE NERVOUS SYSTEM, THE STOMACH AND LIFTS IT INTO PLACE, AND GIVES IT TONE AND STRENGTH, SO THAT THE CURE IS radical and sure. It strengthens THE BACK AND PELVIC REGION; IT GIVES TONE TO THE WHOLE NERVOUS SYSTEM; IT RESTORES DISPLACED ORGANS TO THEIR NATURAL POSITION. THAT FEELING OF BEARING DOWN, CAUSING PAIN, WEIGHT AND BACKACHE, IS ALWAYS PERMANENTLY CURED BY ITS USE.

It will, at all times and under all circumstances, act in harmony with the laws that govern the female system.

For the cure of Kidney Complaints of either sex, this Compound is unsurpassed.

Lydia E. Pinkham's Vegetable Compound is prepared at the proprietors' laboratory.

No. 233 Western Avenue, Lynn, Mass.

Price, $1. Six Bottles to one address, $5.

Mrs. Pinkham freely answers all letters of inquiry. Send for pamphlets. Address as above.

No family should be without Lydia E. Pinkham's LIVER PILLS. They cure Constipation, Biliousness, and Torpidity of the Liver. 25 cts.

SMITH'S MEDICATED PRUNES

LAXATIVE CATHARTIC.

Pleasant to the taste; Effective without Griping.

CURE CONSTIPATION, BILIOUSNESS AND LIVER TROUBLES.

They take the place of the nauseating and violent cathartics used to relieve positive ills. Price, 25 cts. CAUTION. Be sure to ask for SMITH'S MEDICATED PRUNES and take no other. For adults, one or three laxative doses as a mild laxative or cathartic. Children proportionately less. Taken at bedtime one dose is a gentle laxative. For chronic constipation, one dose taken at bedtime will relieve for 24 hours. Not a secret remedy, but a well-known and reliable preparation. Physicians recommend them. Druggists keep them.

—The value of a stolen kiss has been judicially settled in North Carolina. At Kingston, in that state, S. C. Spence, a well-to-do and intelligent merchant, was sentenced to thirty days' imprisonment for attempting to kiss Mrs. M. E. Waller, a lady highly connected. Spence's counsel took an appeal to the Superior court of the county. The case was submitted to the jury, who returned a verdict of guilty, and the judge affirmed the thirty days' imprisonment, though it was afterward changed to a fine of $50.

—The engineer's wife threw down her sewing and impatiently hastened into the back yard to settle a noisy dispute among the children. She selected Jack as the offender, and uncoupling her slipper with a quick movement she ran Master Jack on a siding and began to mark him "Bad order" without regarding his signal and piteous howls. By this time Bob, the guilty one, having run on to the secure turn-table of the back fence, so that he could run off in either direction, screamed out, "Let up, mother; shut her off, I tell you! You've cut out the wrong car, an you'll run by the right one if you aint lively!" The mother coupled up and tried to make a flying switch on the culprit, but he got out on the main line, blocked the section against her and was running wild for the first siding long before the switch engine could get out of the yard.

—The Missouri river is the nightmare of railroad men—a mysterious, shifting, slimy nightmare. It is the most inconsistent, incomprehensible and uncertain stream in the world. It cuts out a channel for itself which one would be willing to swear was the very best channel that the country affords. It jogs along apparently contented and satisfied, and seems to have the air of remarking, "Now I have got a good thing. This is what I've been looking for the past thousand years." Then all of a sudden it takes a fancy to investigate the entomological qualities of a curious sort of bug it discovers roaming off in the prairie a mile or two away, and starts for it, cutting and slashing out a path in the soft soil. The next morning it lies settled down in its new bed with an air of satisfaction that compels the conviction that it caught the bug, and that it will be quiet until it sees another one.

Rational Treatment, Positive Cures.

Dr. R. V. Pierce, President of the World's Dispensary Medical Association, is in earnest in selling his medicines under positive guarantees, and if anybody who purchases and uses any these widely celebrated remedies, does not derive benefit therefrom, the Association would like to hear from that person with description of symptoms and history of case. Organized and incorporated, as the Association is, to teach medicine and surgery and for the successful treatment of all chronic diseases, and managing annually thousands of cases through our original method of diagonis without ever seeing the patients, and having also the largest sanitarium in the world for the accommodation of the more complicated cases, and also for surgical cases, the Faculty feel themselves prepared to untertake even the most discouraging cases. They resort to all the best remedial means known to modern medical science—neglecting nothing. Address, World's Dispensary Medical Association, Buffalo, N. Y., or Great Russell Street Buildings, London, Eng.

—A man in prayer meeting at Great Springs, Ga., declared that he was ready to die, and awaited the summons with impatience. He had barely uttered the sentiment when a bullet crashed through the window and grazed his ear. A neighbor, whom he had sued for debt, had taken him at his word. He hastily hid himself under a bench.

—The modesty and honesty of Japanese beggars are worthy the imitation of their profession all the world over. To save themselves the trouble of answering the calls of mendicants, the shopkeepers of Japan hang copper coins by strings on nails in front of their shops, and when a beggar comes that way he takes one, and only one. He never abuses the merchant's generosity by taking two or more coins, nor by entering the shop to solicit a larger amount than that hung on the nail.

Extraordinary Immigration.

The total immigration to this country during the last fiscal year was 457,257, against 177,826 in 1878-9. This is a most astonishing increase, and one without a parrallel in the history of this or any other country. The arrivals for the quarter ending June 30th were 242,647, which is a much larger number than any previous entire year back to 1874. In 1874 the number was 313,339; in 1875, 227,498; in 1876 it fell to 170,000, and went on declining until the last year, when it rose to 177,826. There has been but one larger immigration than that of 1879-80; that was in 1872-73, just as the recent industrial troubles were ready to begin, the number exceeding 1879-80 by 2,546. The arrivals for the quarter ending September 30th last were 154,832, against 68,651 in 1879. This is a large falling off from the probably unprecedented number arriving in the previous quarter, but is only 23,000 less than in the whole year 1878-79. The money brought in by immigrants was formerly estimated by the Castle Garden authorities at $68 per head, and has been by others estimated as high as $100. If it be assumed as $50, in order to be very safe, the immigrants of 1879-80 should have brought nearly $23,000,000—an amount exceeding the gross regular imports of the precious metals in 1878-79, and also exceeding those of fourteen other fiscal years since 1859.

In October 61,312 immigrants came to this country, 17,517 being from Canada, 17,059 from Germany, 6,665 from England, 5,750 from Ireland, 3,486 from Sweden, 1,651 from Italy, 1,555 from Austria, 1,453 from Norway, 1,388 from Scotland, 551 from France and 474 from China.

News and Notes.

The husband of Dickie Lingard, Mr. Dalrice, manager of the Lingard-Dalrice burlesque troupe, which has been playing in Philadelphia, has "lit out," owing the members of the company $1600. A warrant was issued for his arrest, but he escaped by sliding down from a second-story back window of his hotel.

At the wedding reception of Joel Hambree and wife, at the residence of the bride's father, Col. Dail, near Kingston, Roon county, Tenn., arsenic was used by mistake for soda or salt, and twenty-seven of the guests were poisoned. Six persons had died up to the 23d inst., and it was expected three more would die.

Ben Hasselman, an insane inmate of the asylum at St. Peters, Minn., recently partially burned, has confessed that he set the fire.

A power in German politics is the wife of Oswald Ottendorfer, editor of the New York *Staats-Zeitung*. It was her father who founded that paper, which his widow was once almost tempted to sell for about $100,000. It is probably worth $600,000 to-day, beside its real estate, and is the most engaging newspaper office in New York. Mrs. Ottendorfer it is said, goes into the office or has the proofs sent to her, cuts out editorial matter, alters positions the paper has taken, and is the Amazon of the German press, because the *Staats-Zeitung* is more copied relatively than any paper in the country—not so much by the English press as by the country German papers. Somebody asked a German holding a high civil position if Mr. Ottendorfer had arrived from Europe. "I don't know," said this gentleman; "but it don't make any difference. Mrs. Ottendorfer is at home. She is about equal to three Ottendorfers. She knows all about the politics of this city, and what to prescribe for it."

Charles McLaren, a young lawyer of good standing at Grand Rapids, Mich., and a brother of Bishop McLaren of the Episcopal church, has been arrested charged with the larceny of $3,269 from the Chicago Lumbering company of Michigan, in withholding money won in a law suit. McLaren lost the money playing faro.

The supreme court at Chicago had before it, on Monday, cases of curious complications. Sometime ago William A. Sloan married a woman in Ohio, moved to Iowa, and there obtained a divorce through a Chicago divorce lawyer, and upon the same day married another woman in Iowa. The courts of the latter state declared the divorce proceedings illegal, and second marriage adulterous. On Monday the Chicago court held that the divorce was valid according to the laws of Illinois. It is, therefore, illegal for Sloan to live with either wife, although married to both, and he has children by both. He might live legally with his Ohio wife in Iowa, and with his Iowa wife in Illinois. He could not live with the Ohio wife in Illinois, or with the Iowa wife in Iowa.

A Boston doctor advises his patients through the *Globe* to take off their flannels, and gives his reasons for the advice. He thinks flannels destroy vitality, and by making people delicate, subject them to colds.

A "Woman's National Relief Association" was recently organized to supply the United States life-saving stations with beds, blankets, warm clothing and other necessaries for the preservation and comfort of persons rescued from wrecked vessels. At a meeting in New York on the 22d inst. Mrs. Rutherford B. Hayes was elected president and Mrs. Chief Justice Waite first vice president.

The steamer Narragansett, which was sunk by collision with the Stonington on Long Island sound last summer, has been repaired and has gone upon the line again. In reconstructing her she was made as nearly fire-proof as possible. If she had been built properly in the first place she would not have taken fire, and much of the horror of the disaster would have been avoided.

Commissioner of Pensions Bentley's annual report shows that on June 30th 250,802 persons were receiving pensions from the government. Exclusive of arrears the payments for the year amounted to $37,146,186, of which $12,468,191 was accrued pension in new cases. The total amount paid out for pensions during the year was $57,026,994. Commissioner Bentley estimates that it will require upward of $50,000,000 to pay the pensioners for the current year.

The annual report of United States Treasurer Gilfillan shows an increase in receipts from customs, internal revenue and sale of public lands, of over fifty-nine millions, while expenditures have increased only $695,075. The number of national banks is 2,102.

It is said that there is scarcely a doubt that the naval training school will be established at Newport, and that the secretary of the navy will soon call for 1,500 boys for the training ships.

Secretary Schurz in his annual report notes a remarkable advancement among nearly all the Indian tribes. There is a constant call for implements, and the success of a number of tribes in agriculture greatly exceeds expectation. At the present rate of progress he believes they will soon be self-supporting. The report devotes large space to the educational work of the bureau, and says the reports from the various reservations are full of encouragement. He particularizes the increased and more regular attendance of pupils and a growing interest for education on the part of parents. Persistent calls for the opening of new schools or the enlargement of the old, come to the bureau from every quarter. The report recommends the appropriation of $150,000 for the maintainance of the new schools recently established among the Indians.

Mr. Dana, of the New York *Sun*, is said to have been put in a way by Mr. Tilden to make a great deal of money, and is now devoting his whole attention to getting rich.

Secretary of War Ramsey, in his annual report seconds the recommendation of Gen. Sherman for the increase of the army to 25,000 enlisted men. He believes that the increase in the efficiency of the army would save more than the additional cost for its support. He refrains from any remarks on West Point and the Whittaker case because some of the legal questions connected with it are still under consideration. He recommends the creation by law of a deputy-secretary of war.

Mary White has recovered judgment for $2,000 against the proprietor of a Chicago candy store whose soda-water fountain burst and disfigured her face.

The total value of the exports of domestic breadstuffs from the United States during the months of October, 1880, were $27,711,468, and during October, 1879, were $33,048,607.

The great Brooklyn bridge, which is not yet finished, has already cost $12,285,178.77, and there are $87,569.48 liabilities.

Political Notes.

Republicans in Washington are talking of raising $200,000 for the purpose of establishing newspapers at the south to advocate sound political principles.

The banner greenback county in the country is in Texas. General Weaver had a majority of sixteen over both Hancock and Garfield in Walker county, in that state.

A personal friend of General Mahone, of Virginia, who conversed with the latter a few days since, says he said "The recent election and defeat of Hancock ought to teach the southern people that the northern men, the conquerors in the war of the rebellion, never intend to permit this government to pass into the hands of the conquered. That is the one great question, in the Northern mind, that has ruled in all our political contests since the war; and the sooner the southern people realize it the better for them."

A Pig Story.

Mr. Charles W. Winslow of Falmouth, has a pig which has lately been developing one of the traits of the chameleon to an alarming extent. The animal was fed with vegetable waste from the city, which evidently contained some kind of poison, perhaps Paris green. The pig was taken violently sick and it was thought would die. Efforts were made to save its life, but they apparently had little effect. The disease then took a new phase. The pig, naturally white, began to turn black at the tip of his nose. Gradually the blackness spread until his back and sides were as black as a stove funnel. He remained in this condition for about three days. Then, strange to say, he began to recover. Commencing at the tip of his nose as before the pig turned white again, and is now as well as ever. He was sick in all about week. We are aware that the above sounds a little fabulous, but the truth of it is vouched for by reliable witnesses. A large number of the inhabitants of the town, attracted by curiosity, visited Mr. Winslow's at the time and can testify as to the truth of the story. It suggested that the food of the animal contained some sort of a pigment. —*Portland Advertiser.*

A Stranger's Mistake.

A few days ago a western merchant who wanted to do some sight-seeing and buy his fall stock at the same time, entered a dry goods jobbing-house on Broadway and accosted the first person he met with: "Are you the proprietor here?" "Not exactly the proprietor," was the reply. "At present I am acting as shipping clerk, but I am cutting my cards for a partnership next year by organizing noon prayer-meetings in the basement."

The stranger passed on to a very important-looking personage with a diamond pin, and asked: "Are you the head of the house?"

"Well, no; I can't say as I am at present, but I have hopes of a partnership in January. I'm only one of the travellers just now, but I'm laying for a $200 pew in an up-town church, and that will mean a quarter interest here in less than six months."

The next man had his feet up, his hat back and a twenty-cent segar in his mouth, and looked so solid that the stranger said:

"You must run this establishment."

"Me? Well, I may run it very soon. At present I'm the bookkeeper, but I'm expecting to get into a church choir with the old man's darling and become an equal partner here."

The stranger was determined not to make another mistake. He walked around until he found a man with his coat off and busy with a case of goods, and said to him:

"The porters are kept pretty busy in here, I see."

"Yes," was the brief reply.

"But I suppose you are planning to invent a gospel hymn-book and sing the old man out of an eighth interest, aren't you?"

"Well, no, not exactly," was the quiet reply. "I'm the old man himself."

And all that the stranger said, after a long minute spent in looking the merchant over, was: "Well, durn my buttons!"

—A clerk in the office of Mr. Ingalls, President of the Indianapolis railroad at Cincinnati, obtained leave of absence to go on a hunting excursion in northern Indiana, but returned without so much as a chipmunk. On getting back he wrote a note to Mr. Ingalls thanking him for his courtesy, and begging his acceptance of a package of game as the result of his efforts. He then gave a porter $5 and told him to buy a couple of dozen quail or prairie chickens, and take them, with the note, to Mr. Ingalls. The porter could not find either quail or chickens, and so bought a dressed turkey and two cans of oysters, which he delived to Mr. Ingalls. The latter's astonishment may be imagined.

—An honest Galveston shoemaker was strolling down the avenue, when, peering into a restaurant, what should he see but one of his fashionable customers seated at a table covered with all the delicacies of the season, including a large bottle of green seal and two canvas-back ducks. Rushing in, the irate Galveston tradesman exclaimed, "You haven't got money to pay me for the boots you have got on, but you can afford to pay for all manner of delicacies." The young man wiped his moustache, and looking around to see that he was not overheard, responded in a whisper, "Don't be deceived by appearances. You must not lose confidence in me. I don't expect to pay for this little banquet any more than I expect to pay you for the boots."

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

Rev. E. F. L. GAUSS, Galena, Ill., writes: "For over ten years I had been a great sufferer from pains in the small of the back and region of the kidneys, which was most excruciating and at times almost insufferable. Doctoring brought no relief, and I was finally advised to go abroad and seek the climate of my youth. In Germany and Switzerland, eminent physicians, after close examination, declared of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No sooner had I been back and resumed my pastoral work, when the old trouble grew down so intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and look again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad Co., God's agents and great benefactors of mankind. May all the suffering be helped as I have been is my earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have now used DAY'S KIDNEY PAD thirty days, and it has done me more good than any remedy I have ever tried."

LARIMORE & DEAN, Druggists, Niles, Mich.,—30 years in business—"Day's Kidney Pad is having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from Kidney complaint, and after wearing your Pad 28 days I feel better than I have in 15 years."

LENGTH OF DAY..	9:27		5:30 P. M.

THANKSGIVING.

Again we reach that period of the year set apart for public acknowledgements of benefits and mercies received from God. The usual bustle incident to the preparation for the festival is over, and the season for Thanksgiving has arrived.

As a people we have much for which we should be thankful. The editor is thankful that the presidential election is ever, and that a few years of comparative quietness are likely to succeed the contest of the past season. The farmer enjoys good crops, and can now have the satisfaction of deploring the low prices which are apt to follow a plentiful yield from nature's store-house. The turkeys, surfeited with extra feed, have strutted for the last time; and the annual product of three kinds of pie equals, if it does not exceed, the estimates of the bureau of statistics. Relatives are invited out to dine. Thoughtful persons send a kindly remembrance to their poor proteges, and the world seem, in good humor. Let us be thankful for all we can enjoy, and in the midst of our festive pleasures let us not forget that the time-honored festival is not properly kept if we do not return to the Giver of all Good our thanksgiving for the benefits which crown us, both individually and as a happy and prosperous people.

AROUND HOME.

No paper will be issued from this office to-morrow.

Thanksgiving services will be held at St. John's church this forenoon.

Ten cases of diphtheria have appeared on High street within the past two weeks.

Mr. Alfred T. Joy of Durham, formerly of this city, is seriously ill at his residence with a heart difficulty.

The house, barn and outbuildings belonging to Mr. S. C. Davis of Hampton were destroyed by fire on Monday of this week.

Patrick Horrigan, a laboring man sixty-five years old, living on Church hill, dropped dead from heart disease on Tuesday evening.

At music hall, this afternoon and evening, "A Celebrated Case" will be presented under the management of Messrs. Thayer, Smith & Moulton.

Minute guns were fired at the navy yard on Wednesday, the 24th inst., in honor of the memory of the late Gen. Zeilin, U. S. M. C., retired list.

Hon. Frank Fuller, formerly of this city, and later governor of Utah, is to be the orator in the Thanksgiving services at the Park street church, Boston, taking for the subject of his address the struggles and successes of the president-elect, General Garfield.

The steam ferry boat "Fearless" will discontinue her trips to Kittery Point after Saturday. Early in the spring the trips will be renewed, with new landing facilities at the point. The harbor excursion by the Fearless is one of the most pleasant features of our river attractions.

Thanksgiving services will be held at the South Parish this forenoon, at the usual hour of morning service. Rev. Mr. DeNormandie's sermon will be upon "Genius or Virtue," suggested possibly by the recent arrival in this country of a woman of much notoriety who is soon to appear upon the Boston stage.

The fishing schooner Clyde, of Gloucester, Mass., which has fished out of this port for a number of winters past, ran ashore on the north side of Cape Ann on the night of Nov. 22d, during the strong northwest gale then prevailing. A tug was sent to her aid from Gloucester early next day, and it was expected she would come off at high water.

Do not fail to attend the fair and sale of fancy articles which is to be held at Miss Morgan's Seminary on Friday and Saturday, from three to ten P. M. Admission, ten cents for adults and five cents for children. This fair is in aid of the Children's Home, and any one desirous of contributing refreshments or fancy articles can send them to Miss Morgan's or leave them at St John's rectory.

Commander Sullivan P. Ames, U. S. N., formerly stationed at the navy yard opposite this city, died at Newport, R. I., on Sunday, Nov. 21st.

Mrs. Elkins, wife of the Kingston man who pleaded guilty of murder in the second degree before the supreme court recently in session in this city, died very suddenly at the residence of her parents in Haverhill, Mass., in the evening of Nov. 23d.

The city election of Dover was held on Tuesday, Nov. 23d, and passed off quietly, though there was considerable excitement over the mayoralty contest, there being three candidates for the position, viz.: Charles M. Murphy, regular republican, Joseph D. Guppey, citizen, and John H. Hartford, democrat. Mr. Guppey, the citizens' candidate, has been mayor of the city for several years, being elected on the straight republican ticket. The voting was as follows: Murphy 908, Hartford 528, Guppey 337; Murphy's majority, 48. The total vote, 1768, shows a falling off of more than 800 from the total cast at the national election. The aldermen elected are four republicans to one democrat; councilmen, eleven republicans and four democrats, a gain of one democratic councilman from the last election.

NEW SEWING-MACHINE.

Several days ago a public exhibition was given in this city of the new and novel button-sewing machine invented by James H. Morley, who owns one-third, Mr. Ed. S. Fay of this city owning the rest of the machine. Its working capacity was shown to experts and many prominent boot and shoe manufacturers, who after witnessing most thorough tests pronounced it perfect. Since then another trial of its qualities has been given, this time at Springfield, Mass., which is thus referred to by the *Republican* of that city:

The hopper feeds a uniform supply of buttons, and has a beautifully simple device for preventing the breaking of the needle in case an eyeless button is presented. The working of the machine is really a marvel. The hopper, a copper globe above the frame-work, feeds one button at a time into a trough by means of a revolving flat disc at its bottom, perforated with holes a little larger than one button. The disc is pulled by a ratchet and pawl once every other stitch, allowing a button to drop into the trough at every two stitches. The buttons in the trough are turned eyes downward by a corrugated strip of steel running back and forth above them, and they are kept in the proper position by the eyes fitting into a small groove along the bottom of the trough. When the trough curves from a horizontal to a perpendicular position, a cap pivoted to the frame of the machine keeps the buttons from falling out. This cap is loosened at every stroke, opening the mouth of the trough and dropping a button into the fingers of a carrier, which moves back and turning one-quarter over puts the button on the needle-plate and presents its eye to the ascending needle. This carries a loop through the eye, the hook needle then passes through the loop, the take-up draws the thread into the hook of the needle, the machine feeds, the needle remaining in the eye of the button, which it draws out of the carrier, and the needles descend, forming the stitch and leaving the button on the fabric. The carrier returns to the bottom of the trough for another button, the machine meanwhile feeding the distance between the button holes. When finished, the stitch looks like an overseam on one side, and a combined loop and lock stitch on the other. The patent covers nineteen claims, and letters are applied for in England, Canada, France and Belgium. Several firms have asked to manufacture it, all of them outside the city, and it is not likely that it will be made here.

REFORM CLUB RESOLUTIONS.

The following resolutions on the death of Hon. Frank W. Miller were passed by the Nashua Reform Club at their regular meeting, Monday evening, Nov. 22d.

Whereas, in the Providence of God the Hon. Frank W. Miller, of Portsmouth, has passed from the scenes of earth to "The Realm beyond the River," an untiring advocate of right, justice, truth and temperance, sowing what others might reap, and dying in harness when every moment was precious; and whereas men of his mould, whose convictions are unpurchasable, and who follow the line of duty without fear or favor, are few and far between, therefore, be it *resolved*

That we feel this visitation as a personal bereavement, and his removal from active labor in the temperance cause as little less than a public calamity, to which we are reconciled only by the thought that God overrules all for good.

That the Reform Club of Nashua seeks through this channel to express its high appreciation of the labors of our deceased brother, to endorse his virtues, to cherish his memory, and condoles in deep sincerity with his family in this hour of their affliction.

That we place a mourning badge over the president's desk with his name and date of his decease affixed.

That the family be furnished with a copy of these resolutions and the action thereon, and that the same also be furnished the Portsmouth *Weekly* and our local papers.

A Juvenile Bird-Tamer.

There lives near Harrisburg, Ohio,—an out-of-the-way place in Hancock county, about three miles west of Mount Blanchard—a very remarkable child only five years old, who seems to have the power to charm birds at will. Her mother first noticed this strange fascination that the child possesses about a year ago. The little girl was out playing in the door yard among a bevy of snow-birds, and when she spoke to them they would come and light upon her, twittering with glee. On taking them in her hands and stroking them, the birds instead of trying to get away from their fair captor, seemed to be highly pleased, and when let loose would fly away a short distance and immediately return to the child again. She took several of them into the house to show them to her mother, who, thinking she might hurt them, put them out of doors; no sooner was the door opened than the birds flew into the room again, lit upon the girl's head, and began to chirp. The birds remained about the premises all winter, flying to the little girl whenever the door was opened. The parents of the child became alarmed, believing that such strange power was an ill omen, and that the much dreaded visitor, death, was about to visit their home. But death did not come, and during last summer the child had a plenty of feathered visitors. She handles the birds so gently that a humming-bird, once in her hand, does not fail to return. Last winter a bevy of birds kept her company, and she played with them for hours at a time. Every morning the birds fly to her window, and leave only when the sun sinks in the west. The parents of the little girl are poor, superstitious people, and have been reticent about the matter until lately, fearing that some great calamity was about to befall them.

—At the opera in Brooklyn, the other evening, a party in one of the boxes made themselves very annoying to everybody in the vicinity by laughing and talking throughout the first act. The eldest gentleman in the party was subsequently handed a card upon which was written: "remember, you are not in your own house." The card was passed around, and silence reigned thereafter.

—The Princess Louise is not likely to go back to her husband at Ottawa. It is said she makes no secret of the disappointment to which she has been subjected in her endeavor to "throw a little refinement into the tone and manners", of the Canadian vice-regal court. The Princess, who has always been regarded as the artist of the royal family, finds herself completely isolated from all artistic life at Ottawa.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to allevate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, such as Hoarseness, when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Brokchial Troches*" are sold *only in boxes*. Tu,th&f,&o

PROFESSIONAL NOTICE.

Dr. L. J. Kahn, 51 East 10th St., N. Y., and Proprietor Dr. Kahn's Museum of Anatomy, 618 Broadway, N. Curious Statistics.

Somebody who has examined the statistics of some of the big battles of the war, finds that eighty soldiers, all shot above the hips, and all of one regiment, fell dead in one volley at the battle of Gettysburg. At Fair Oaks, twenty men went down, one upon another, in a square of a few feet, and never moved a limb among them after falling. One shell at Cold Harbor exploded in the ranks of an Ohio regiment, killing sixteen soldiers. At Savage Station, during McClellan's charge, a solid shot fired from a Federal piece at an infantry column marching by fours, killed twenty-one men. Near Vicksburg a gunboat threw a single shell at a rebel battery and killed eighteen men, wounding fifteen others.

Kidney Disease of 30 Years Standing Cured.

ELK FLAT, OREGON, Jan. 12, 1880.

The second package of Kidney-Wort is nearly gone, and I enclose a dollar for another package. I am a woman fifty-six years of age and have been afflicted with kidney disease for more than thirty years. Kidney-Wort has done me more good than any other remedy I have ever taken, and I am sure will cure me.

MRS. J. T. GALLOWAY.

—A gentleman made up his mind that he would give his wife a pleasant surprise by spending the evening at home. After supper he rattled himself down for a cosy time in the bosom of his family. He had no more than comfortably fixed himself, when his wife abruptly asked him if his friends didn't want him any longer. Then his mother-in-law asked him if he had exhausted his credit. The servant asked him if he was ill. One of the neighbors wanted to know if he had any trouble and was afraid of the law. All of which occurred in twenty minutes, for in exactly half an hour he was beyond questioning range in his club.

Baron Von Humboldt.

In his travels and explorations in South America, he became deeply interested in the wonderful properties of the Coca plant. Consumption and asthma, he says, is unknown among the natives who use it, and it is furthermore conducive to longevity. The Coca forms one of the ingredients of the Liebig Co.'s celebrated Coca Beef Tonic.

—A gentleman who employs a great number of hands in a manufactory in the west of Scotland, in order to encourage his work-people in a due attendance at church on Fast Day, told them that if they went to church they would receive their wages for that day in the same manner as if they had been at work, upon which a deputation was appointed to acquaint their employer that "if he would pay them for over hours they would attend likewise at the Methodist chapel in the evening."

L. B. SMITH, of Faribault, Minn., says: —I am still wearing an "Only Lung Pad," and it has helped me; I intend to have another of extra strength soon.—*See Adv.*

—Usually "through by daylight"—Sleep.

—They have an expeditious way of paying off the employes on the Hudson River railroad. Last Thursday the paymaster went over the road, paying out $150,000 in greenbacks and gold. The train ran at its highest speed, and the pay of flagmen between stations was put in envelopes, and attached to sticks, was thrown at the various flagmen as their shanties were passed. In this way some $15,000 was thrown from the pay car as the train was going at the rate of nearly a mile a minute.

—One night recently, while a policeman in Philadelphia was patrolling his beat, accompanied by his dog, a bloodhound, he was startled by cries of murder, and proceeding to the place from which the call came, he found a man named John Brannon beating his wife. The officer interfered, and Brannon turned upon him and struck him with a brick, fracturing his skull and felling him to the pavement. The prostrate policeman was immediately surrounded by a gang of ruffians, who began to kick him, but the bloodhound came to his rescue, and by the use of his teeth succeeded in scattering the assailants.

—A young lady in Springfield, Mass., stumbled and gracefully recovered herself as she was approaching a train, and an aged gentleman, filled with admiration, assisted her upon the car and took a seat beside her. An acquaintance and correspondence resulted, and the lady began to imagine that she was to be made "an old man's darling," when the venerable gentleman transferred the correspondence to his son. This was still more satisfactory, and eventually a wedding ensued, the old gentleman being very happy over the turn affairs had taken. All's well that ends well, and the stumbling young lady is now the mistress of a luxurious home in the west. And it is further observed that the Springfield girls have fallen into a general habit of stumbling when around the depot.

There is but one verdict, and that is, that in thirty-three years Dr. Bull's Cough Syrup has never failed to cure a cough, cold or general hoarseness. At drug stores. Price 25 cents.

—"A blighted life" is the title of the latest English society novel, but the name of the lady who failed to get the sealskin sacque is not given.

D. R. V. G. will cure every case of sick headache. See other column. Guaranteed by all druggists.

—Willie Winter remarks of Sarah Bernhardt that "her utterance of an impassioed speech was like the livid aerial transit of an arrow of red-hot steel."

It is a positively guaranteed cure, for diabetes, gravel, dropsy and every form of bladder and kidney trouble—Day's Kidney Pad.

—A Maryland lady was recently swindled out of $109.25 by a man who was intrusted with the money for the purpose of investing it in United States bonds. A detective heard that he was in Washington, and was able to identify him by means of a lead pencil sketch of his features which the lady drew from memory.

The aged and infirm are strengthened and faculties brightened by Malt Bitters.

THE CHALLENGE.

As the alarmed bird, whose nest
A noisy troop of boys runs nigh,
Perches where she may guard it best,
Yet hide most close its secrecy;
So hides the heart its inner light
When the intrusive world goes by,
Prompting pert questions, as its right,
Of creed, or birth, or wealth to speak.
But deeper answer should not thou ask,
As soul in soul retires to seek,
Then all my bird shall unmask
And in thy bosom's sunlight bask.

—JOHN ALBEE, in *The Rising Faith.*

Detroit is forming a company to build the Fontaine locomotive, which some railroad men think will revolutionize the construction of locomotives. The Fontaine engine differs from the standard engine in having the power applied by a single rod on each side running from the cylinder to a large drive wheel immediately above the front driver on the ordinary locomotive. The upper drive wheel is of the same diameter as the lower, but it bears upon a flange several inches smaller than the lower driver, and thus brings into play the principle of large and small pulleys in the driving of ordinary machinery. The Fontaine locomotive also has no dead centers, for the lower driver acts as a huge balance-wheel, carrying the upper wheel past the point where power is lost.

A world of Good.

One of the most popular medicines now before the American public, is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whisky drink. It is more like the old fashioned bone-set tea that has done a world of good. If you don't feel just right try Hop Bitters.—*Nunda News.*

In the national House of Representatives 202 members will be old ones, 184 re-elected from the present house, and 18 members of former chambers. This leaves 91 representatives who have never sat in the house.

Beware of Alcoholic Bitters,

Thousands have been ruined for life by drinking popular nostrums, the principal ingredient of which was alcohol. Such "bitters" are deceptive in their effects; they cause intoxication and temporary relief, while they foster the drunkard's appetite. Dr. Kennedy's "Favorite Remedy" contains no alcohol. It does not heat and inflame the blood; it cools and purifies it. Better than this even, it has cured a raving appetite for drink. It will do you good, not evil, all the days of your life. All druggists sell it. Dr. David Kennedy, Proprietor, Rondout, N. Y.

On November 2d the state of Kansas, by direct vote of the people, adopted an amendment to its Constitution forbidding forever manufacture or sale of intoxicating liquors, except for medicinal, mechanical or scientific purposes. Thus this stalwart young giant of the west takes its place before Maine on the platform of absolute prohibition. The results of this legislation will be watched with keen interest by every one intelligent enough to know that the temperance question is one of the great problems of the age.

Nineteen twentieths of all sickness arises from weak and impure stomachs. D. R. V. G. will purify the stomach, and all is well. Try it. Guaranteed by all druggists.

The money order business of the post-office department has increased from $1,000,000 in 1865 to more than $100,000,000 for the past year. Fully half the orders transmitted are for sums of less than $5, and yet the fees cover expenses and leave a slight margin of profit. Postmaster General Maynard recommends the establishment of a postal savings system and also of a postal telegraph, in imitation of the ones, now in operation in Great Britain.

Women that have been pronounced incurable by the best physicians in the country, have been completely cured of female weakness by of the use Lydia E. Pinkham's Vegetable Compound. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlets.

Miss Lizzie Burns, an employe of the Granite hosiery mills in Laconia, was robbed of her month's pay on Friday evening, Nov. 19th, while going home from her work. She stopped under a gas lamp on the street to count the money, when she was approached by two men unknown to her, and the money was taken from her. Two men named Brown and Lyford were arrested, and were brought before the police court charged with being the robbers. Miss Burns identified them, and they were required to give bonds to appear.

Statistics of the Production of Beer.

Some official tables connected with the production of beer in all the European countries and the United States have been lately issued under authority of the Austrian government. The following is a summary of the production during 1879: The whole German empire produced 38,946,510 hectolitres, or 23,811,117 British barrels; Great Britain, 22,375,019 barrels; the United States of North America, 9,1,425,252 barrels; Austria-Hungary, 6,838,090 barrels; France, 5,331,845 barrels; Belgium, 4,801,178 barrels; Russia, 406,174; the Netherlands, 978,208 barrels; Denmark, 672,518 barrrls; Sweden, 568,583 barrels; Italy, 531,900 barrels; Switzerland 448,753 barrels; Norway, 376,000 barrels. The greatest production in proportion to the population is in Belgium, where 167 litres, or a little over 34 1-2 gallons per head, were manufactured; and the smallest production was in Russia, where the ratio was only three litres, or a little more than five and one-quarter pints for every inhabitant.

Naval Affairs.

The training ship Portsmouth, when going up the Potomac river to Washington a few days ago, took the ground, and remained aground several hours, but was subsequently gotton off without injury.

The U. S. S. Kearsarge arrived at Fortress Monroe on Tuesday, Nov. 24th, from Norfolk, Va. In going down the river on Monday she towed her steam launch behind. When off Sewall's point the crew of the launch went aboard for supper. On returning to the launch the men let her drop back, and when the line came taught it drew her under and she sank. John Peters, the coxswain, of Hamburg, was drowned. The Kearsarge anchored, and recovered the launch by grappling.

The U. S. S. Saratoga arrived at Baltimore from Hampton roads, Nov. 24th.

Fatal Collision.

By a collision off Spezzia, Italy, on the morning of Nov. 24th, between the French steamship Oncle Joseph and the steamship Ortigia, the former was sunk. She had on board 300 people, of whom 250 lost their lives.

Political Notes.

The Portsmouth *Times* says none but the rich can be elected in Massachusetts. Is that the reason why Leopold Morse, the democratic member of Congress from Boston, was able to pull through in spite of the opposition of the Irish democracy of the city to his re-election? Morse's bank account is a large item. There are some persons think the cost of elections has been greatly enhanced in this state by one of the *Times'* favorite candidates, who belongs to the class the nomination of which that paper pretends to deplore.

The Concord *Monitor* seems to be making war upon Senator Dawes of Massachusetts, and given advice to the members of the Massachusetts legislature as to whom should be chosen as Mr. Dawes' successor. Let us see; was it not the *Monitor* which some time ago resented the interference of Massachusetts papers in New Hampshire politics? Perhaps the *Monitor* may seek to have some one chosen senator in New Hampshire by-and-bye, and what if some Massachusetts newspaper should nominate another candidate!

The Manchester *Mirror*, in speaking of the next speakership, says: "Thus far we hear of but two candidates for the speakership of the next House,—Henry Robinson of Concord, and Chester B. Jordan of Lancaster. Mr. Robinson was a member of the last House, and is one of the brightest of the young republicans of the state, a good lawyer, popular, and a thorough good fellow every way. Mr. Jordan is also a lawyer of fine abilities, wide reputation, and a large personal following. Both men deserve the position, and either will fill it with credit."

Representative Aiken of South Carolina, a democrat of course, says: "I know more about the rank and file of the northern democracy than all the editors in South Carolina, and never had any faith in them. They are a party with a name, but without principle."

Vice-President Wheeler says no act of his public life will give him more satisfaction than to declare James A. Garfield and Chester A. Arthur President and Vice-President of the United States. After March 4th, he expects to retire permanently to private life.

News and Notes.

A correspondent writes us from Houston, Texas, under date of Nov. 19th, that "the weather here is very beautiful, but we have had a hard freeze, which has come much earlier than usual and destroyed fully a third of the sugar crop."

The Lynn *City Item* says "it is now a common thing for pupils in our public schools to carry pocket pistols. The youthful marksmen amuse themselves with firing shots at fences on their way to school, and instances have been known of their intimidating their school mates with their pistols. The carrying of concealed weapons by men is very much to be deprecated, but when it comes to arming the schoolboys it would seem that something ought to be done."

There was a clearing out of the outlaws in the Newcastle region of Kentucky three years ago. Six of the offenders were hanged by lynchers, but Jack Simmons, the worst of the gang, escaped from his pursuers in the mountains, and was not afterward seen. It was supposed that he had made his way out of the state. The opening of a cave was recently discovered, and within was the skeleton of Simmons. He lay on a bed of straw, where he is presumed to have died of a wound received during his flight from the mob, and by his side was a tin box full of booty.

Over thirty coasting and fishing vessels are reported wrecked by recent heavy gales on the coast of Newfoundland.

Benjamin Meyers, who hung himself in the New York state prison at Sing Sing, Nov. 16th, would have been released on pardon in three days. He was in for fraud, which he confessed. The light thus let in on some forms of business is at least curious. The firm of Hirsch & Meyers bought goods on credit in large quantities, at close figures, making false representations as to their ability to pay. They sold immediately, at much lower figures than they bought, to western and New York city firms. They built of course an enormous business, and by paying instalments on their liabilities kept their game running for some time. When they failed they were $181,000 short. The creditors arrested them for fraud. But it now appears that there were thirty city firms in the ring, organized for the express purpose of the game, and that Hirsch & Meyers were merely cat's-paws, acting for these and under their suggestions. They promised to see the men through bankruptcy, but were unable to do so owing to the storm of indignation the matter raised. Meyers, who appears to have had some self respect left, although a weak man, told the whole story, and then hanged himself.

Chronicle Correspondence.

WASHINGTON, D. C., Nov. 24th.

Figures given in Postmaster-General Maynard's annual report, just published, have a significance not confined alone to his department. He reports receipts of about thirty-three millions, against about five and a half millions in 1850. In these thirty years, too, the rates of postage have been reduced. These amazing figures indicate a progress hardly to be believed, yet if we could as acurately measure the advance of the country in other matters, we should perhaps find it fully as great. The United States of 1880 is as different from the United States of 1850, as the latter was from the little stretch of Atlantic coast states which first adopted the constitution. We have railroad companies whose property is greater than the valuation of New York in revolutionary times, and whose debts would have frightened a secretary of the United States treasury thirty years ago. No part of the country can escape from the irresistible impulse. Even the most conservative people of the south feel it.

A recommendation of the secretary of war will be found in the line of these events. It is that the government shall promptly and liberally use its money for the improvement of the Mississippi river. The magnificent country drained by that river and its tributaries was in great part unknown half a century ago. Now it supplies grain to half the civilized world, is the present home of a vast population—single states having more population than the "original thirteen" had when independence was achieved,—and is destined in the early future to be the richest region on the earth. The old doctrines which prohibited the expenditure of money for the improvement of such a water course are not suited to the times we live in. If, as I think is almost certain, General Garfield's administration shall make an effort to settle finally the political questions which have wasted the time of Congress for a dozen years, that body can then take care of the material interests of our people.

KNOX.

Books, Magazines, Etc.

"Sam Lawson's Old Town Fireside Stories," by Harriet Beecher Stowe; with illustrations by Dailey. Boston; Houghton, Mifflin & Co. The announcement of a new book by Mrs. Stowe, or a new edition of a former publication, is always a signal for a rapid sale of the work. Last year appeared the elegant edition of Uncle Tom's Cabin, a work of which there is found in the British Museum alone twenty-five editions of the original text, and eight abridgments, with nineteen translations in foreign languages; while about twenty other translations are to be found elsewhere. The fireside stories are narrations by Sam Lawson, whose likeness as sitting on the top rail of a fence Mr. Dailey gives us. There are fifteen of these stories, written in the pleasing style for which Mrs. Stowe is noted. The authoress always has been successful, (if perhaps we may except one of her tales,) and in these stories there is the pleasing colloquial style of narration, all natural and true to life, which engages our attention throughout and will delight and amuse the present generation of young readers as they did when they appeared a decade since. For sale by W. G. Myers, Congress block.

The December number of the *International Review* contains an article by Hon. John Lowell, circuit judge of the United States, upon a United States bankruptcy statute. Judge Lowell, who in the administration of the bankrupt law in 1867, in the nine thousand cases which came before him as judge of the district court in Massachusetts, had an opportunity to become familiar with the practical workings of the laws, and to witness its defects and listen to the complaints of creditors and others as to its shortcomings, is peculiarly qualified to speak on the subject. The judge some time ago, at the request of leading merchants and boards of trade, prepared a bill for such a bankrupt law as it is thought the country needs, and which in its workings will avoid some of the expenses and unsatisfactory results of the late law. The article in the *International* gives the reasons for a law of this kind, and sketches briefly the defects in the old law, and the results of its modifications by Congress; some of these changes were taken from English statutes, and have been found to work badly in England, as well as in the United States. The article refers to the new bill now before Congress, and gives us information as to some of its beneficent features. Other articles in the *Review* are: State support of denominational schools in England; English philosophy and philosophers; Von Humbolt on politics; Bush life; The drink problem, an able paper by Dr. Oswald; Edward Atkinson has a reply to Prof. Price; The university of Texas, by Prof. Cooper; two little poems, Love's Gain and Lover's Gift, by F. W. Bourdiller; with the usual review of books under the head of cotemporary literature. —A Chinaman was murdered in Chicago, and there was no clue to the murderer, nor enough interest taken in the matter by the authorities to cause a thorough investigation. John Dugan, in the enthusiam of a spree, said that if every white voter would kill a Chinaman, as he had done, the country would be rid of the race. The remark led to his exposure as undoubtedly the murderer.

—A New York doctor has discovered that nervousness in an imaginary disease. This will be cheering news to the young men who have frequently thought themselves to be nervous when the sire of the beautiful being on the other end of the sofa stuck his head inside the door and remarked that it was time for everybody but burglars to be in bed. The knowledge that the unpleasant feeling is purely imaginary will be a great consolation, and nerve them to even more prolonged vigils.

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents are not at a loss of their children. Through ignorance or some law through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease. "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

Parties living at a distance, (except in surgical cases,) by sending a statement of their case can be treated at home.

IS STRONGLY ENDORSED.

Rev. E. F. L. GAUSS, Gaiena, Ill., writes—"For over ten years I had been a great sufferer from Kidneys, which was more excruciating and at times almost insufferable. Doctoring brought no relief, and I was finally advised to go abroad and seek the climate of my youth. In Germany and Switzerland eminent physicians, after close examination, declared my sufferings to arise from disease of the Kidneys, of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No sooner had I been back and resumed my pastoral work, when the old trouble grew again so intense as to make life a burden. A few months ago I came in possession of some of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and look again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad Co., God's agents and great benefactors of mankind. May all the suffering be helped as I have been is my earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston; "I have now used DAY'S KIDNEY PAD thirty days, and it has done me more good than any remedy I have ever tried."

LARIMORE & DEAN, Druggists, Niles, Mich.—"30 years in business.—DAY'S KIDNEY PAD is having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from Kidney complaint, and after wearing your Pad 25 days I feel better than I have in 15 years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is doing great good here. It sells every day and gives universal satisfaction."

For sale by drug lists, or sent by mail (free of postage) on receipt of the price—Regular Pad, $2.00; Special Pad (extra size), $3.00; Children's, $1.50. Our book, "How a Life was Saved," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it. Address,

AROUND HOME.

Plenty of Vienna Pressed Yeast in the stores this morning.

The Cocheco Manufacturing Co. of Dover pay a dividend of five per cent Dec. 1st.

The annual meeting of the stockholders of the Eastern railroad will be held in Boston on the 8th of December.

Commander A. G. Kellogg will leave on Wednesday, Dec. 1st, upon the officer detailed for his relief at the yard reporting.

Rev. W. H. Leavell of Manchester will preach in the Middle street Baptist church on Sunday, on exchange with Rev. Dr. Alden.

Miss Edith Wendell of this city, the favorite young soprano, took part in a concert in the "Star course" at Dover on the evening of Thanksgiving day, with the famous Temple quartette of Boston.

Constructor Wilson goes to Boston on Monday to serve as a member of a board of four naval constructors convened at the navy yard there to examine into the merits of certain processes said to be of utility in ship building.

The legal voters of Dover were at the recent municipal election called upon to express their opinions upon the desirability of introducing to the city the water of Willand's pond, for fire extinguishing purposes. The total vote on the question was 1083, of which 938 were yeas and 145 nays; majority in favor of bringing in the water, 793.

The schooner Union Flag, formerly of this port but now owned by parties in Portland, Me., while on the passage from St. John, N. B., to New York, with a load of laths, was run ashore on Harrington flats, near Millbridge, Me., on Tuesday, Nov. 23d, and filled with water. No particulars are given, but it is supposed she sprang a leak at sea and was beached to prevent her sinking.

Capt. Etheredge, of the schooner Elm City, was severely injured on Friday forenoon by falling into the hold of the schooner at Concord railroad wharf. He struck upon the chime of a barrel in such a way that his lip and a part of his nose were almost severed from his face, but prompt and skillful surgical aid was rendered, and probably no serious permanent disfiguration will ensue. It was a very fortunate escape from worse consequences, as death might very easily have resulted from the fall.

There was but poor skating for the boys on the millponds, Thanksgiving day, notwithstanding the intense cold of a few days previous. The north pond, which was frozen over down to the bridge on the previous day, showed open water up as far as the Eastern railroad roundhouse on Thursday, and the few skaters to be seen were all between Hale's point and the western end of the pond. The ponds in the south cemetery were cleared of snow early in the morning by a large gang of volunteers with brooms ane shovels, and there the most of the skaters congregated during the day. The staking rink on Richards avenue, which has furnished many persons, young and old, with a safe and convenient field of amusement for a number of winters past, seems to have been abandoned.

If we may credit the statements of persons who attended the performance of "A Celebrated Case" at Music hall on the evening of Thanksgiving day, the name should be changed to "A Sad Case," for it is said to have been the very worst performance ever put upon any stage, in this city or elsewhere, in ancient or modern times, from the day when the Witch of Endor gave a spiritualistic seance before Saul—we believe it was Saul—down to the present date. As the afternoon audience consisted of four boys who didn't own any skates, the matinee entertainment was omitted. In the evening the curtain was down most of the time, and that was the best part of the performance. It was stated before the show came off that it was under the management of Messrs. Thayer, Smith & Moulton, but we do not believe they had anything to do with it; if they did, we must credit them with having sent one superlatively mean show here, this being the first one of the kind connected with their name.

The members of the Workingmen's Institute sat down to an oyster supper in their reading room on Macdonough street, Thanksgiving evening. A merry social time was had.

The fishing schooner Clyde, which went ashore on Cape Ann on the night of Nov. 22d, was floated off at high water on the 23d, but little damaged. She was towed to Gloucester, Mass.

Frank Emerson, Esq., formerly of this city but now of Farmington, visited Portsmouth the day before Thanksgiving, and brought 300 lbs. of nice turkeys which he sold for twenty cents a pound.

Interesting and appropriate services were held in the Unitarian, Episcopal and Baptist churches, Thanksgiving day; the congregations were all small, but all of them together were not so small as the audience at Music hall in the evening.

The schooner Maud B. Wetherell, Hontvet master, which left this port some time ago for Prince Edward's island with a cargo of apples, it is reported is now frozen in at Summerside, P. E. I. She was loaded with potatoes and ready for sea, and was to have sailed Nov. 23d.

The following items are in the estimates of appropriations required for the ensuing year: Portsmouth navy yard—water works $5,000, yards and docks workshops $16,000; improving Exeter river, $14,000; improving Lake Winnepisaukee, $2,500; improving Kennebunk river, Me., $2,000.

A man in this city sold his vote at the recent election for thirty-five dollars, and put the money carefully away in a drawer. On going for it to get some to treat himself with, Thanksgiving day, he found that an objectionable rat had been there, and chewed the greenbacks all into little bits, destroying the whole amount.

Jay C. Brown of Northwood has been arrested, charged with committing a felonious assault on a married woman. Brown is about twenty-five years of age, respectably connected, and has heretofore borne a good reputation. He was the democratic candidate for register of deeds in Rockingham county at the last election, and a member of the democratic state central committee.

UP-RIVER NAVIGATION.

The schooner B. Frank Nealley arrived at Jones' wharf on the afternoon of Thanksgiving day, from "the narrows" of the Cocheco river, where she had been aground for several days, having got on the rocks while on her way to Dover with a cargo of coal. She was hung up at low tide with a rock under her stern and others nearly under her fore rigging, the rest of the vessel being free, and had she not been a very strong craft she must have been twisted badly out of shape. Her sternpost was split and her stern badly strained, fifteen feet of her keel carried away, and her rudder driven up through her transom. Some of her seams were calked at low tide as she lay on the rocks, and a powerful steam pump, capable of throwing a barrel of water a second, was put on board on the 24th inst.; and on the 25th she was towed to this city, with about 200 tons of her coal still on board, and was berthed at Jones' wharf to discharge preparatory to going on the marine railway for repairs. The steam pump was shipped to Boston on Friday evening, the schooner's pumps being able to keep her free.

The sloop belonging to the contractors for the removal of Gangway rock took the pump up river to the schooner, and was cut through by the ice, causing her to leak so badly that she was run ashore to prevent her sinking. She was patched up, and arrived down on Friday. The tug Ann, of Dover, is also reported to have been stove by the ice while tending on the schooner.

AN APPEAL TO OWNERS OF BOOKS

The library formerly belonging to the Young People's Union, consisting of about 1000 volumes, is about to be opened to the public as the first step toward the formation of a Public City Library. An appeal is now made to the community to aid this undertaking by donations of books or money.

Those who have always had free access to books can hardly realize the hunger for something to read felt by many who are not so fortunate; now how great a boon to such persons even a very limited library may be. Scores of families in this city have interesting or valuable books laid by, which might give enjoyment or profit to many others. To all such persons an earnest appeal is now made, for donations of such volumes as they are willing to spare.

Packages of books, with the donor's name, may be left at the post-office at any time.

RELIABLE LIFE INSURANCE.

The collapse of another co-operative life insurance company in the western country will perhaps be of no cautionary account to the average man seeking to be humbugged. The people naturally divide themselves into two distinct bodies of men. The line of demarkation is unmistakeable. There are the duped, and those who "see it." One class is constantly asking all sort of scheming men to come and relieve them of their cash; and the other class, avoiding all these chances, are never caught.

Contrasted with these frequently exposed schemes, in many of which reputable persons are found unwittingly co-operating, is legitimate life insurance, which by payment on endowment plan, or after the death of the assured, makes a certain provision oftentimes for bereaved families which otherwise would be in straightened circumstances after the death of the head of the household. Sagacious men investigate their concerns. They study their workings, examine into their history, calculate their chances and criticise their investments. When this is done, and shrewd men always do this, they invest in a life policy with a company of acknowledged stability. Pre-eminently of this class is the Mutual Life Insurance Company of New York. This well established company, so long known for its reliable character among our citizens, many of whom in times past were, and to-day are, among its policy holders, has its general agency for New Hampshire in National block in this city. When we say that this is a substantial company we know of what we affirm; and perhaps the best evidence of the truth of our assertion can be found in the fact that in nearly every instance of the decease of a prudent, far seeing and well advised citizen of our community who has in early life been of an insurable degree of health, a policy in this company has been found among the best of his effects.

C. M. Gignoux, the general agent in this city, will always be happy to inform those seeking an unquestioned kind of life insurance as to the mode by which it may be obtained.

YORK COUNTY ITEMS.

All the workmen in the department of construction and repair at the navy yard, excepting the calkers, hole-borers and painters, were suspended on Nov. 27th for the remainder of the month, owing to the funds being expended. On and after Dec. 1st, the suspended workmen go on half time.

About one o'clock in the morning, Nov. 25th, the house of the Gen. Canby hook and ladder company of Biddeford was destroyed by fire while the company were having a ball at the city hall. A man named James Welch, who went into the building and laid down to sleep while drunk, was burned to death.

—Clem Canada, the oldest negro in Virginia, has been cut off at the untimely age of one hundred and twenty years and ten months, at his home in London county.

When lips receive a rosy flush,
And teeth become a dazzling white
Beneath the efforts of the brush;
When SOZODONT is used aright,
The mouth becomes sweet, pure and warm,
And the fresh breath an odorous charm.

A Down Town Merchant

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and thoroughly convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and the little fellow awoke next morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first astonished at the deception practiced upon her, has continued to use the Syrup, and suffering, crying babies and restless night have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudice of the mother. Sold by all Druggists. 25 cents a bottle. 6

FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of Engl nd and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and Habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have known cases where a single dose has been effectual.

S. JACOB, M. D., St. John, N. B., writes:

"I had occasion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expedition and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

Portsmouth, Nov. 26th, 1880. Sheriff.

State of New Hampshire, Rockingham ss.

SUPREME COURT, October term, A. D. 1880.

IN THE ACTION, JOHN LAIGHTON of Portsmouth in said County, Trader, plaintiff, vs. ALBERT L. DODGE of the City, County and State of New York, Yeoman, defendant.

In a plea of the case, to recover of said defendant the amount of his promissory note for three hundred dollars, dated March 1, 1878, and payable to the order of the plaintiff, on demand, after date for value received, on said note are the following indorsements: October 17th, 1878, received the interest on the enclosed to March 1st 1879, eighte n dollars, ($18.00) and June 24th 1880, received the interest on the enclosed to March 1, 1880, eighteen dollars, ($18.00.)

Also, to recover of said defendant the sum of five hundred dollars for so much money received by the defendant of the plaintiff to the plaintiff's use, before August 19th 1880, the date of the plaintiff's writ.

It having been suggested to the Court that the property of the defendant in this State has been attached on the writ, and that no personal service has been made on him in this suit, he not being a resident of this State at the time of the service thereof:

It is ordered by the Court that the action be continued to the next term of said court, to be holden at Exeter within and for said County of Rockingham, on the third Tuesday of January next, and that the plaintiff give notice to the said defendant of the pendency thereof, by causing the substance of said declaration, with a copy of this order, to be published once a week for three weeks successively, in the PORTSMOUTH DAILY CHRONICLE, a newspaper printed at Portsmouth in our County of Rockingham, the last publication whereof to be at least thirty days prior to said Court, to which this action is continued.

Attest, J. G. CONNER, *Clerk.*

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

Rational Treatment, Positive Cures.

Dr. R. V. Pierce, President of the World's Dispensary Medical Association, is in earnest in selling his medicines under positive guarantees, and if anybody who purchases and uses any these widely celebrated remedies, does not derive benefit therefrom, the Association would like to hear from that person with description of symptoms and history of case. Organized and incorporated, as the Association is, to teach medicine and surgery and for the successful treatment of all chronic diseases, and managing annually thousands of cases through our original method of diagonis without ever seeing the patients, and having also the largest sanitarium in the world for the accommodation of the more complicated cases, and also for surgical cases, the Faculty feel themselves prepared to undertake even the most discouraging cases. They resort to all the best remedial means known to modern medical science—neglecting nothing. Address, World's Dispensary Medical Association, Buffalo, N. Y., or Great Russell Street Buildings, London, Eng.

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again, and I am glad I did, for in less than two months use of the Bitters my wife was cured, and she has remained so for eighteen months since. Sixty thousand immigrants and more arrived at the landing ports of the United States during October. Despite the Irish famine, followed by the Irish troubles, nearly a thousand more English than Irish immigrants came in October, and three times as many Germans as Irish.

We clip the following from the Troy, N. Y., *Times*: "Letters pour in daily, sometimes by dozens, scores and hundreds, to Dr. David Kennedy of Rondout, N. Y., in grateful acknowledgement of the great benefits received from his "Favorite Remedy." These are all read with care and interest by him, as they frequently illustrate the power of the medicine in some new, and perhaps, hitherto untested phase of operation. But it is when a sufferer comes miles to tell the story of his deliverance in person, to grasp the doctor by the hand and greet him as a true and valued friend, that the interest in his case deepens and multiplies."

HOSTETTER'S CELEBRATED

STOMACH BITTERS

Meets the requirements of the philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a blood cleanser, and an alterative. It fortifies the body against disease, invigorates and revitalizes the forces of each other, and effects a most salutary change in the entire system, when in a morbid condition.

LIEBIG CO'S **COCA BEEF TONIC.**

Highest Medals. Indorsed and Prescribed by Medical Men of all Schools.

Professor Duncan Campbell, M.D., LL.D., *President Royal College of Physicians and Surgeons*, etc., etc., says: "It has more than realized my expectations."

Professor J. M. Carnochan, M.D., *Professor of Surgery New York Medical College*, says: "My patients derive marked and decided benefit from it."

Professor H. Goullon, M.D., *Physician to the Grand Duke of Saxony; Knight of the Holy Cross*, etc., says: "It gives more tone than anything I have ever prescribed."

Sir Robert Christison, M.D., LL.D., F.R.S., *Physician to her Majesty the Queen; President Royal British Association*, etc., etc., says: "The properties of the Coca are the most remarkable of any known to the medical world. From repeated personal trials I am convinced that its use is highly beneficial and tonic."

Valuable in malaria; ague; malarial debility; dumb ague; low fever; marasmus; paralytic; spinal and nervous affections; female weakness; bilious and liver affections; weak throats; palpitation and other affections of the heart; epilepsy or falling sickness; weakness of the voice of actors, singers, public speakers and clergymen; colic; flatulency; seasickness; falling out of the hair; asthma; shortness of breath; wasting diseases; etc., etc. It is gratefully refreshing and restorative after prolonged mental and physical strain. It is pleasant and agreeable, and is readily retained by the most delicate stomach. Dr. McBean (British Medical Journal) found it of great service in consumption. Baron von Humboldt says he has never known a case of consumption or asthma among those accustomed to its use, and that they rise to a great age, retaining their mental and physical faculties to the last (Cosmos).

Daily Chronicle.

Frank W. Miller.

The following paragraphs are taken from a tribute to the memory of the recently-deceased founder of the CHRONICLE, written by a gentleman who was intimately associated with him for many years, and published in the *Portsmouth Weekly* of Nov. 27th:

The citizens of Portsmouth were surprised and saddened on Friday, Nov. 19, 1880, at the tidings of the death of the editor and proprietor of the *Portsmouth Weekly*, Hon. Frank W. Miller, whose spirit took its flight from the body at a few minutes past two of the clock on the morning of that day. And as we take our pen to write a few words of tribute to his memory, it is difficult for us to realize that he has passed away and that his familiar voice and form will be heard and seen no more among us; and from the many expressions of kindly sympathy that we have listened to concerning him since his demise, we are led to believe that by far the larger portion of this community will share with us in the feeling that a citizen has left us whose place cannot easily be filled.

* * * * *

We believe that no one of our citizens has done so much towards the development of Portsmouth as the deceased, and his love of his native city, added to an unusual esthetic taste, led him to make many public improvements from his private means. The adornment of Langdon Park, and his arduous personal labors in endeavoring to obtain a large public mall that would have been a credit to the city, and proved a lasting enjoyment to coming generations, is but a single instance of the large and unselfish interest that he always took in municipal matters. Some twelve years ago, undismayed by the presence of innumerable rocks and bushes, he bought at auction the rough and unsightly Packer pasture, and after expending much money and a vast amount of labor, clearing away the rocks and covering the barren hill-top with a liberal amount of productive soil, built for himself the beautiful dwelling and outbuildings that now adorn that attractive spot, christened by Mr. Miller as "Lincoln Hill." Here he set out a large number of choice fruit and ornamental trees, laid out and planted a garden of beautiful flowers and shrubs, and thus changed that sterile locality into a charmed retreat that has given delight to thousands of passers-by, who rarely failed to stop and admire the lovely spot, and will continue to attract in a similar manner for years to come. Besides the labor that he gave to this portion of the old pasture ground, he spent much time and money in draining it and dividing it into convenient and attractive house lots, also in laying out streets, and especially in widening and rendering easy of travel the narrow and tollsome roadway in front of his land and dwelling. The many fine residences that are now to be seen where hardly a decade since was but a feeding ground for sheep and cattle, the beautiful streets and drives in and about the locality that he thus metamorphosed, bespeak for the deceased a greater meed of praise than any words of ours can convey, and coming generations will not fail to accord to him the credit that is so justly his due.

Give fools their gold, and knaves their power,
Let fortune's bubbles rise and fall;
Who sows a field, or trains a flower,
Or plants a tree, is more than all.
For he who blesses most is blest;
And God and man shall own his worth
Who tells to leave as his bequest
An added beauty to the earth.—*Whittier.*

Words of his own selection, as will be observed in the standing heading of the *Weekly*.

* * * * *

On June 28th, 1858, Mr. Miller was united in marriage to his present wife, Miss Kate E. Weeks, daughter of the late William Weeks, at one time editor of the *N. H. Gazette*. The union thus formed proved a happy one, and his domestic life was unusually pleasant. In his home he found a retreat from the cares and perplexities incident to the vocation of a public journalist, and obtained there that rest and quietude that his brain and body needed to maintain the severe strain with which he ever taxed them. Next to his home, the Grange was ever his delight; and no more loyal member was to be found enrolled, than Patron Miller. He has been the main stay and director of the Portsmouth Grange from its beginning until a short time before his death. Besides being Master of the Grange in this city, he was President of the New Hampshire Press Association, and Rockingham County Temperance Association.

Let us linger a moment to drop a tear upon the grave of one whose faults were few, and whose virtues many and noble. Let us remember his unflagging zeal, his immense energy, his generous nature, his large social qualities, his public spirit, his untiring industry, his many benefactions; and let his example in these directions be imitated, and we shall thus be led into a nobler and broader view of life's interests. Farewell! Instructor, Friend, Companion, and Fellow-citizen! Peace to thine ashes! May thy spirit ever find pleasure and harmony in the beautiful life beyond. C. W. C.

Important Decision on Bank Taxes.

A decision has been rendered by Judge Wallace in the circuit court of the United States for the northern district of New York, in a suit brought by the National Exchange bank of Albany against the receiver of taxes at Albany to restrain the collection of taxes imposed on shares of the bank for 1879. The court decided in favor of the bank on the grounds that the act of 1866 is invalid and furnishes no authority to assessors to assess bank shares, because this act does not permit bank shareholders to deduct their debts from assessments.

The New York *Post* says: "The banks in this city will probably immediately take proceedings in the United States court, so as to secure the full benefit of this decision. They have already taken proceedings in state courts to have assessments on their shareholders for the year 1880 declared illegal. Taxes were assessed this year on bank shares in New York under the same act of 1866, and it looks as if this decision would result in the loss by the city of its taxes on bank shares. For this year the amount of taxes imposed upon bank shares in New York city is more than a million and a half of dollars."

The banks in other cities find that many of their assessments are void where assessors have taxed surplus regardless of deductions claimed by banks.

The Chinese Question.

At the cabinet meeting Friday, Secretary Evarts made the official announcement that the United States commission to China had negotiated two treaties with that country, one in regard to Chinese immigration to the United States, and the other relating to the commerce between the two countries. Both are signed, and will be sent to the senate early in December for ratification. Although no portion of the treaties will be made public until they are acted upon by the senate, it can be stated, however, that the President and Secretary Evarts are much gratified at the result of the commission's labors. Mr. Evarts expresses the opinion that under the operations of the new immigration treaty there will be no further well-grounded cause for complaint from the states of the Pacific slope on this score. The general impression appears to be that notwithstanding the fact that much censure was called forth by the action of the President in vetoing the bill restricting Chinese immigration,—which action was right and proper in the premises—his administration will receive its full meed of credit for disposing of this troublesome problem in a manner reflecting honor upon himself and his constitutional advisers, and at the same time fully recognizing the rights and dignity of the Chinese government. It is now conceded that had congress been allowed to attempt the restriction of the operations of the Burlingame treaty in the manner contemplated, the result would have been exceedingly doubtful, and the affront thus conveyed to the Chinese government would have rendered it impossible, in the negotiation of a new treaty, to have obtained those conditions which are absolutely indispensable to the many American interests involved.

Naval Affairs.

Boatswain Francis Butland is detached from the Pensacola, and placed on sick leave.

Lieut-Comdr. A. G. Kellogg has been commissioned a commander in the navy, dating from July 11th.

Med. Director Gibon and Med. Ins. Gibbs will represent the navy at the meeting of the American Public Health Association at New Orleans, Dec. 7th.

The Wachusett arrived at Panama on the 11th of November; health of crew excellent.

The Tennessee and Kearsarge will leave Hampton roads for the West Indies in a few days.

The U. S. S. Alaska left Chimbote, Peru, July 23d, for San Francisco via the Samoan islands and Honolulu.

Commodore Reigart Bohral Lowry died at the naval hospital in Brooklyn, Nov. 25th. He was born on the 4th of July, 1825, at the American consulate in Columbia, South America, and entered the navy in 1840. He was slightly wounded at Tuspan, Mexico, during the war with that country. Up to the year 1860 he had served in many vessels, and in the early part of 1861 he was appointed to the steam sloop Pawnee, on board which ship he witnessed the firing on Fort Sumter. He served as commander of the steamship Freebern in the engagement at Matthias Point and other affairs on the Potomac river. He suggested the Hatteras expedition, and in August, 1861, he received the thanks of the secretary of the navy for valuable information in regard to the naval operation. He was commander of the steamer Underwriter in Albemarle Sound, 1861, and was executive officer of the sloop Brooklyn in the battles with the forts below New Orleans, and also at the capture of the city. He took an active part in the bombardment of the Galveston batteries in January, 1863. By his death the country loses a brave and efficient officer.

The British steamship Sandringham was last week admitted to the United States dock at the Norfolk navy yard, she having been ashore on Cape Henry. As soon as the vessel was docked, her captain, without any provocation whatever, launched out in a scurrilous tirade against the American government, flag and people. His conduct was immediately reported to Commodore Hughes, commanding the Norfolk yard, who at once ordered all work on the Sandringham to cease until the secretary of the navy could be heard from. On Friday Commodore Hughes received a telegram from the secretary approving his course relative to the steamship, and ordering him to put her out of the dock at once, if not in danger of sinking, and if there was danger, to only make such repairs as would enable her to reach a private dockyard. Naval Constructor Webb examined the ship, and reported to the commodore that the ship would be able to reach Baltimore without danger of sinking. The ship was immediately ordered out of the dock.

News and Notes.

Daniel Downey of Winslow, Me., aged eighteen years, on Thanksgiving day, while climbing a fence with a gun on his shoulder, fell headlong, the gun being flung forward, bringing the muzzle against his stomach, when the contents of the gun were discharged, blowing a part of his clothing through his body. He lingered an hour. Deceased was a very promising young man.

A double murder, at present involved in great mystery, was committed at Marble hall, some miles below Bristol, Va., on Wednesday night of last week. Chas. Brown, a young merchant, had just sent his wife and two children to Bristol, and he and his clerk, James Heck, remained behind to wind up business preparatory to moving to that place. Thursday morning the dead bodies of both were found in bed horribly mangled. The affair causes great excitement, and is mysterious because both murdered men were popular, and it is impossible to ascribe a motive for the deed.

Wm. Lanshaw of East Lyme, Conn., arrested last June on a charge of robbing bodies of passengers on the ill-fated Narragansett, and discharged for want of evidence, has now been arrested again, and has confessed his guilt. Julia Clark, his paramour, was arrested with him.

Eleven robberies, three murders and forty incendiary fires have occurred in Newton, N. J., within the past two years. Every farmer and property owner on the juries which convicted the robbers has suffered more or less at the hands of the incendiaries. Efforts are being made to break up the gang.

Samuel Eagle, a Union City (Ind.) harness maker, while entering the house of his divorced wife to visit his children, Nov. 24th, was shot, and fell on the doorstep, and his ex-wife refused to let him be brought in. The man did not die immediately, but is sinking rapidly. He says the shot was fired by Henry Pierce, who fled. Pierce has been in the habit of visiting Mrs. Eagle.

The schooner L. & D. Fisk, of Bath, Me., Snowman master, loaded with phosphate, struck on the outer Diamond shoal, nine miles from Cape Hatteras, at 8:30 o'clock P. M., Nov. 22d. The crew of seven men took to the rigging, where they stayed until three o'clock in the afternoon on the 23d, when the captain and a seaman named Lewis were washed overboard and drowned. Half an hour later the masts fell, and the vessel broke up, three of the crew remaining on the bow of the wreck, and two, named G. G. Snowman and William Snowman, floating off on a piece of plank. William Snowman died from cold and exhaustion at sunset. G. G. Snowman, the only survivor of the disaster, landed on the beach a mile north of Cape Hatteras light-station on the 24th, after being in the water ten hours, and drifting and swimming about fifteen miles. He walked to the light-station, where he was cared for by the keeper.

At Salem, Va., Thanksgiving day, Marcus Hawley, who was executed on the next day for the cold-blooded murder of Zachariah Hayes, was married in jail to Nannie Hawkins, who had borne him two children. He was subsequently baptized by an Episcopal minister, who officiated at both ceremonies.

The family of Mr. George Peterman of Lancaster, Pa., has been terribly afflicted within a few months. Mr. Peterman died first, and since then seven children have been carried off by diphtheria, leaving the widow with only two survivors of her large family.

There was a quiet cremation at Dr. LeMoyne's crematory at Washington, Pa., Nov. 25th, the subject being Mrs. Lucis Noyes, wife of C. H. Noyes, Esq., a Warren, Pa., lawyer. The lady died on the 21st of November, in the 28th year of her age. The body was accompanied to the crematory by Mr. Noyes, who with his wife had pledged themselves to cremate the one that died first.

Pleuro-pneumonia of the fatal type has broken out among the cattle in Virginia. At present it seems to be confined to a narrow belt lying along the Potomac river in the neighborhood of Washington, about the same region in fact, where it appeared a year ago.

A bottle lately picked up near Cape La Have, N. S., contained a piece of brown paper, on which the following was written: "On board the St. Lawrence, for Murray bay, Wednesday, June 3, '80. Gone down in deep water. Ten lives lost, including the mate." On the other side of the paper the name of G. A. Drummond was written in a bold and legible hand. Several vessels were wrecked in that vicinity during the recent storm.

George Bates, a St. Louis negro, gave his bride a gold watch as a wedding present. He had stolen it, and when it was found on her, she was arrested. She would not betray her husband, and consequently went to prison for two years as the thief. Bates did nothing to help her, and his neglect turned her love to hatred. She spent her odd moments in sharpening a file, and when she was discharged it was as keen as a razor. She returned to her old haunts, waited until her husband presented himself, and stabbed him to death.

A dispatch from Paris says: The body of Pascal Smith, a millionaire merchant of St. Paul, Minn., has been found off the Marseilles coast. He left a lunatic asylum in May, and arrived at Marseilles with his wife and son on the 19th of November. The next evening he was missing, and is supposed to have drowned himself.

"Littell's Living Age" for 1881. In 1881 the *Living Age* enters upon its thirty-eighth year of continuous publication, and it steadily increases in value with its years. Its frequent issue and well-filled pages render it a satisfactorily fresh and complete compilation of an indispensable current literature—a literature which grows richer and more abundant every year in the work of the most eminent writers upon all topics of interest. In no other way can so much of the best of this literature be obtained so conveniently and cheaply as through the columns of this standard weekly magazine. Its value to every American reader is therefore obvious. It supplies the place of many magazines, reviews and papers, and alone enables the reader, at a small expenditure of time and money, to keep well abreast with the best thought and literature of the day. The prospectus is worthy the attention of all who are selecting their periodicals for the new year. Reduced clubbing rates with other periodicals are given; and to new subscribers remitting now for the year 1881, the intervening numbers are sent *gratis*. Littell & Co., Boston, are the publishers.

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seed and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

A DISCOVERY BY ACCIDENT,

supplying a want which men of eminent ability and have devoted years of study and experiment to find—a specific for diseases of the Kidneys, Bladder, Urinary Organs and Nervous System—and from the time of its discovery has rapidly increased in favor, gaining the approval and confidence of medical men and those who have used it; it has become a favorite with all classes and where for a short, such is its intrinsic merits and superiority, that it is now the only recognized reliable remedy.

DISEASES OF THE KIDNEYS

are the most prevalent, dangerous and fatal affections that afflict mankind, and so varied and insidious in their character, that persons often suffer for a long time before knowing what ails them. The most characteristic symptoms are gradual wasting away of the whole body; pain in the back, side or loins, a weak, feeble, exhausted feeling; loss of appetite and dread of exercise; scanty and painful discharge of variously colored urine; inability to retain or expel the urine; minute shreds or casts in the urine and, when the disease is of long duration, there is much emaciation and general nervous prostration

THE ONLY CURE.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the first and only infallible cure for every form of Kidney disease. It is the best remedy yet discovered for this complaint, and more effectual in its operation than any other treatment. By using faithfully and persistently no case will be found so inveterate as not to yield to its powerful remedial virtues.

STRONGLY ENDORSED.

We have the most unequivocal testimony to its curative powers from many persons of high character, intelligence and responsibility. Our book, "How a Life was Saved," gives the history of this new discovery, and a large record of most remarkable cures, free. Write for it.

DAY'S KIDNEY PADS are sold by druggists, or will be sent by mail (free of postage) on receipt of their price: Regular, $2.00; Special, for obstinate cases of long standing, $3.00; Children's, $1.50. Address,

AROUND HOME.

The schooner Horatio Nichols, of Exeter, is to winter at Providence, R. I.

Saturday morning was colder than any preceding one this season. The thermometer stood at zero at the Creek, at sunrise.

Telephonic communication between Haverhill, Mass., and Exeter, was opened on Thanksgiving morning. The central office is established at the office of the Exeter *Gazette*.

The rock-borers at the Eastern depot well had put the big hole they are making down to a depth of more than thirty feet into the solid rock, up to knock-off time at midnight on Saturday.

The schooner Laura Robinson, Luce master, which was blockaded above the narrows of the Cocheco river by the schooner B. Frank Nealley, and had to lie there a number of days, ready for sea, until the Neally could be floated off the rocks, was towed down the river on Friday.

The fair at Miss Morgan's school last week, in aid of the Children's Home, was a great success in every way. The attendance was very large and the visitors generous in making purchases, and the net proceeds it is said will be nearer $400 than $300. Glad of it; the Children's Home is a most worthy charity.

Mr. Will Twombly, of Sparhawk street in this city, has nearly completed a novel and neat little apparatus which he has named a burglar alarm, and has connected it by wires with all the rooms in his house—not that Will is afraid of burglars, oh no! but just to demonstrate the merits of the machine. Owing to the complex arrangement of the wires the alarm does not work satisfactorily as yet, hence there is a delay in applying for a patent.

The *Times* of Saturday evening says: "Portsmouth is to have a band. The American band of Kittery dissolved some days since, and it has again been organized as the American band of Portsmouth. A hall has been secured—that over Tebbetts' hat bleachery in Ladd street. The band met last evening for the first time in their new hall, and spent some time in practice. Mr. Frank Cate still retains the position of leader, and T. H. Critchley is the director. Let the band prosper."

The Boston English Opera Company, who are to appear in the Star lyceum course in "Martha," Dec. 14th, seem to meet with fine success, from the favorable comments of the press, and are pretty sure to receive a warm welcome here. The Dover Star course opened last Thursday evening at the city hall, and those who were there from this city say it was impossible to obtain even standing room, while the attraction offered in that course does not compare with the one in this city.

The State Executive Committee of the Young Men's Christian Association has completed arrangements for holding a series of daily and evening union gospel meetings in this city, commencing on Dec. 12th. The meetings will be held afternoons in the Middle street Congregational chapel, and evenings in the Middle street Baptist church. H. M. Moore, Geo. H. Shaw, A. C. Russell, and A. W. Dinsmore of Massachusetts have accepted invitations to be present and address the meeting. Singing from Gospel Hymns.

Miss Edith Wendell of this city was generously complimented by the Dover papers for the part she took in the opening concert of the "Star course" of entertainments in that city, last week. The *Republican* says "Miss Wendell was cordially received, and sang delightfully. Her rendering of the cavatina from 'Robert le Diable' was a piece of vocal execution of high order, and received a deserved encore. In fact, the young artiste throughout the evening was exceedingly happy in her selections, winning in her manners, gifted in her vocalism; merits promptly recognized by her discriminating auditors." The *Democrat* says "Miss Wendell sang in her usual vein, well-known to Dover people, and received two bouquets of choice flowers from the audience, which showed appreciation of her talents. She is a pleasing singer."

The seventh annual ball of Kearsarge S. F. E. Co., No. 3, will be given in Franklin hall on New Year's eve. Harlow's orchestra will supply the music.

The law term of the supreme court for Rockingham county will be held at Concord Dec. 7th. The case of Priscilla R. Lewis against the Eastern railroad, wherein a verdict was found for Mrs. Lewis at the October trial term in this city, has been transferred to this law term.

POLICE COURT.

SATURDAY, Nov. 27; *Batchelder, J.*

Samuel Pottle, accused of an assault on Patrick Moriarty, was adjudged guilty, and fined $5, costs $6.90. He appealed, and was required to furnish sureties in $100.

DIVIDENDS.

The Great Falls Manufacturing Co. pays a dividend of $3 a share.

The Eastern R. R. in New Hampshire pays the usual dividend of $2.25 per share.

The Langdon Manufacturing Co., of Manchester, pays $50 per share; the Stark Mills, Manchester, four per cent.

All these dividends are payable Dec. 1st.

Interest at rate of four and one-half per cent. per year will be paid upon the bonds (first mortgage) of the Portsmouth, Great Falls & Conway railroad. Payable Dec. 1st.

"OUT OF EGYPT."

The colored orator, Edward Walters Savage Hammond, of Lexington, Ky., will deliver his lecture, "Out of Egypt," in the Methodist church in this city this (Monday) evening. Mr. Hammond gave this lecture before the General Conference of the Methodist Episcopal Church at Cincinnati, and the *Christian Advocate*, a paper certainly not prejudiced in favor of the views entertained by the orator, thus referred to the his reception:

The audience at first looked in no patient mood upon the black man who had the temerity to delay the great business of the day by making a speech, but his graceful opening sentences opened the eyes of the critics, his apt historic allusions warmed the hearts of the scholars, his earnest pleading for his race brought tears to the eyes of the philanthropists in the assembly, and when after a lengthy interruption, he was at last permitted to finish his oration, which he wound up with those loving words of Ruth to Naomi, "Entreat me not to leave thee," the audience, in irrepressible delight, and the conference, in spite of its own rule, broke out into tumultuous applause.

Mr. Hammond lectured in Trinity church, Charlestown, on Sunday evening, the 21st, to an audience of 2000 people, and was enthusiastically received. Admission this evening, twenty cents.

YORK COUNTY ITEMS.

The schooner Frank Pierce, Parker master, with a cargo of wood from Steuben, Me., for Boston, was driven ashore in Cape Porpoise harbor on the night of Nov. 20th, but got off next day after throwing off her deck load.

On Tuesday evening of last week a middle-aged lady of Biddeford, Mrs. Mary Hunt, was knocked down on the street by two men, who stole a cashmere shawl, pair of gloves, five-dollar bill and some small change from her. Her screams brought assistance, but the ruffians escaped.

John T. Goodwin of Biddeford, a married man, thirty-nine years of age, died Friday night under circumstances which clearly indicate foul play. On Wednesday he left home, saying he was going to a raffle. He was not seen again by his family until one o'clock that night, when his wife found him upon the floor badly cut and bruised about the head, and unconscious, in which state he lay until he died Friday night. This makes the third mysterious death in that city within as many weeks.

New Hampshire Items.

The presidential electors meet at Concord on Tuesday. The vote will be cast on Wednesday.

Hale's woods in Barrington, recently sold for $35,000, for more than a century and a quarter belonged to the vast estate which had descended in regular succession to its last owner, the late Hon. Wm. Hale of Dover.

Elbridge Ladd and Chas. Dinsmore, of Meredith, during a six weeks' hunting trip caught 103 muskrats, 13 minks, 22 skunks, 5 foxes, and on the 23d of October caught a young bear in a trap, near Squam lake, weighing 178 pounds.

During the storm of Saturday night, Nov. 20th, Mrs. Eliza J. Stevens, aged sixty-three years, died by the road-side near the middle of the town of Hudson from cold and exposure. Her dead body was found the next morning, and an empty rum bottle lay close by.

Preparations for lumber operations are being made on a greater scale than ever before in the upper part of New Hampshire, and as soon as sufficent snow falls, work will begin.

The Gloucester Fisheries.

The *Cape Ann Advertiser* publishes a recapitulation of the fishing losses of Gloucester for 1880, showing a smaller loss of property than for any other year since 1857. The number of vessels lost the present year has been six—three schooners and three boats, representing a total tonage of 224.40 tons, and a value of about $15,000, on which there was an insurance in home offices to the amount of $10,972. The loss of life for the year has been forty-one, which is two more than in 1877 and six more than in 1878, but smaller than for any other year than those since 1866, when only twenty-six lives were lost. For the past twenty years the annual average loss of life has been ninety-two; last year, thirty-two vessels, valued at $128,281, and 266 lives, were lost.

There was a rare gathering in one room at Thomaston, Me., a few days ago. The persons present were Mrs. James Dinsmore, a bright and vigorous old lady ninety-one years old; her daughter, Mrs. George Wallace; Mrs. Charlotte Havener, daughter of Mrs. Wallace; Mrs. Clara Wilson, daughter of Mrs. Havener; and an infant daughter of Mrs. Wilson. A gathering which comprises five generations is not of frequent occurrence.

A Down Town Merchant

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and the little fellow awoke next morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering, crying babies and restless night have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudice of the mother. Sold by all Druggists. 25 cents a bottle. 6

PROFESSIONAL NOTICE.

Dr. L. J. Kahn, 51 East 10th St., N. Y., and Proprietor Dr. Kahn's Museum of Anatomy, 668 Broadway, N. ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again, and I am glad I did, for in less than two months use of the Bitters my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

—Mr. Cox—"Why, I hear that you took ten dollars to vote for the democrats, neighbor. Ain't you got no conscience, a sellin' of yourself that fashion?" —It don't take a very fast horse to catch the epizootic.

—Old maids are described as "embers from which the sparks have fled."

—A female patient in the hospital at New Haven well illustrates the power of the imagination. She is a weak, anæmic woman 45 years of age, with chronic gastritis and several other chronic affections, and had been in the habit of taking morphine in the form of "sleeping drops." For the first few times she was given morphia, but after this they had a bottle carefully labeled "sleeping drops," and filled with water. Of this she took a dram at bed-time. At first she complained that the medicine was too strong, and made her head feel badly the next day, so that the dose was reduced. This she did for nearly a month, sleeping nicely when she did take it, and not sleeping at all when it was withheld.

—A question of interest to physicians is before a Baltimore court. Dr. Thomas Shearer, a practitioner in good standing, attended a woman who had been hurt by falling down stairs. He said that she was suffering solely from heart disease, and treated her accordingly, but without helping her. Then she was placed in other doctors' hands, and they found that she had a spinal injury, of which she was speedily cured. Dr. Shearer sent in a bill of $100, and she refused to pay. There seems to be no doubt that his services had no good result, yet he claims that the mistake, if he made any, was not due to incompetency or carelessness, and that he should be recompensed just the same. He takes the ground that no physician can guarantee cures or guard against an occasional incorrect diagnosis.

A world of Good.

One of the most popular medicines now before the American public, is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whisky drink. It is more like the old fashioned bone-set tea that has done a world of good. If you don't feel just right try Hop Bitters.—*Numa News.*

—An editor out west was in prison for libeling a justice of the peace, and when he departed the jailor asked him to give the prison a puff.

—"Facts are stubborn things," and it is a fact that Adamson's Botanic Balsam has performed more genuine and permanent cures than any cough remedy on this or any other continent. Try it for 10 cents. Regular size, 35 and 75 cents.

—When you say that a girl's hair is black as coal, it is just as well to specify that you do not mean a red-hot coal.

L. B. SMITH, of Faribault, Minn., says:—I am still wearing an "Only Lung Pad," and it has helped me; I intend to have another of extra strength soon.—*See Adv.*

—It was getting along well into the night. She yawned and then asked him if he ever saw a snapping-turtle. "One," he replied, "in a show." Said she: "It's very funny, but do you know you remind me of that bird." "Why?" he asked. "Oh, you hang on so." He looked out of the window into the darkness, said it looked like rain and he'd better be going.

Delicate females find Malt Bitters nourishing, strengthening and purifying.

CANTERBURY SHAKERS' LIFE-INVIGORATING BLOOD-PURIFYING

Prescribed by Physicians and Druggists for nearly Fifty Years.

THE SHAKER'S SARSAPARILLA is just what it purports to be.—*Dixi Crosby, M. D.* I have long prescribed it, as I think it a most valuable medicine.—*Jeremiah Blake, M. D., Gilmanton, N. H.* Have known it for nearly half a century. Our confidence in it is in no way impaired.—*Carlton & Hovey, Druggists, Lowell.* I speak with confidence of it, having prescribed it for eighteen years.—*S. M. Dinsmor, M. D., Francestown, N. H.* Give me the shakers' Sarsaparilla in preference to all others.—*C. A. Gullette, M. D., Boston.* I have the most unbounded confidence in its healing and renovating properties.—*Wm. R. Preston, Druggist, Portsmouth, N. H.* I consider it the best preparation made.—*A. G. Wicker, Druggist, Boston.*

Do not fail to make a trial of this great Blood Purifier, Appetizer, and Tonic, the first and best of all medicines called Sarsaparilla, which is prepared from selected SHAKER ROOTS, HERBS AND BERRIES by the CANTERBURY SOCIETY OF SHAKERS, and is beyond all comparison the purest, safest, and most effective family medicine in the world. KIDNEY-WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

G. S. HOGABON, of Berkshire, says, "One package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

Big Year for Astronomers.

We are new entering a long period prolific in important astronomic events. The great southern comet of 1880 approaches so near the sun that it is swept round its perihelion passage with enormous velocity, rivalling the great comet of 1843, which was brilliant enough to be visible at midday very close to the sun, and in one day traversed three-fourths of its entire orbit. Although astronomers failed to get as good observations of this body as they would have desired, they have others in prospect. Winnecke's comet, not far behind Swift's recently discovered comet, makes its perihelion passage Dec. 4th, and is likely to be visible for some weeks afterward. Faye's comet will be at perihelion Jan. 22d, 1881, followed in November by Encke's, and before it is due a lookout will be kept for the comet of 1812. Four eclipses, two of the sun and two of the moon (one a total eclipse), occur in 1881, while in the same year, as ringed Saturn hastens toward the sun, his mysterious belts will offer astronomers increasing opportunity to study their texture. These and similar phenomena so soon to take place will open the way to test the theories which make our atmospheric envelope a delicate sensorium, promptly responding to every wave of physical energy that beats on it from stellar space.

A Western Fable.

A farmer once led two turkeys into his granary and told them to eat, drink and be merry. One of the turkeys was wise and the other foolish. The foolish bird indulged excessively in the pleasures of the abundant stores of the stable, unsuspicious of the future, but the wise fowl, in order that he might not be fattened, and slaughtered, fasted continually, mortified his flesh and devoted himself to gloomy reflections upon the brevity of life. When Thanksgiving approached, the honest farmer killed both turkeys, and by placing a rock in the interior of the prudent turkey made him weigh more than his plumper brother. Moral—As we travel through life let us live by the way.—*Milwaukee Sun.*

Wasn't Scared.

A tramp gave a woman living in the suburbs of a western town some impudence. So she rushed in, and came out with a shot gun. She did not see the tramp at first, but he rushed out into the street in plain view, and told her to shoot, which she did, and missed him, of course. He went up the street smiling, and remarked to his confederate: "That was a close call. If she had fired without seeing where I was, she would have plugged me certain; but as she drawed down on me I felt that my time hadn't come yet. I've been there five times before. It is singular that it is impossible for a woman to fire off a gun without shutting her eyes and turning her head away."

—It is said that wheat flour is probably the best article to throw over a fire caused by the spilling and igniting of kerosene. Flour is always within convenient reach, and often valuable articles of clothing, blankets, etc., are destroyed in extinguishing such fires. Ashes and sand are almost as good as flour.

Beware of Alcoholic Bitters,

Thousands have been ruined for life by drinking popular nostrums, the principal ingredient of which was alcohol. Such "bitters" are deceptive in their effects; they cause intoxication and temporary relief, while they foster the drunkard's appetite. Dr. Kennedy's "Favorite Remedy" contains no alcohol. It does not heat and inflame the blood; it cools and purifies it. Better than this even, it has cured a raving appetite for drink. It will do you good, not evil, all the days of your life. All druggists sell it. Dr. David Kennedy, Proprietor, Rondout, N. Y.

Cotton-raising in the Salt-river valley of Arizona has proved so successful, and the Southern Pacific railroad affords such good facilities for marketing it, that the valley will probably be added to the cotton belt of the United States.

Were Fellows' Compound Syrup of Hypophosphites useless in all other diseases, the benefit which it undoubtedly yields in consumption would vindicate its claim to the attention of every medical practitioner.

The barn of J. C. Paterson, at Sussex, N. B., was burned Friday morning, and while endeavoring to save the cattle, a young man named George Thompson was burned to death. The barn contained thirty head of cattle, a large quantity of farm produce, implements, etc.

Nineteen twentieths of all sickness arises from weak and impure stomachs. D. R. V. G. will purify the stomach, and all is well. Try it. Guaranteed by all druggists.

The North German Lloyds line of steamships will deliver according to contract 3,000 Roumanian Jews in New York during the month of December. This is the beginning of a large immigration of this people, driven from Roumania by persecution.

Feeble and exhausted constitutions restored to health and strength by Malt Bitters.

Sad Tragedy.

At East Stoughton, Mass., Nov. 27th, Albert Littlefield, the twelve-year-old son of Isaac Littlefield, died with symptoms of poisoning, having been taken ill the previous Friday, as was also the father, immediately after Mrs. Littlefield had given them a drink of cider. Mrs. Littlefield was suspected of having poisoned her husband and child, as subsequently proved to be true, as she shot herself dead with a revolver on the 29th, and left the following note pinned to her dress:

I did it all, intending we should go, but oh, Isaac, you have got to save yourself from torture which I told you of before. Don't hate, Isaac, for I love you, and would save you if I could. We all took morphine.

There is no question that Mrs. Littlefield was insane, her father, the late Minot Thayer, who for a long time kept a hotel at Milton Mills, having died insane, and she having shown symptoms of insanity for many months.

Perils of the Ocean.

The barque Oriono, from Quebec with a cargo of lumber, bound for Montevideo, is a total wreck near Cow Bay, N. S. The crew were six days on deck exposed, without water, and with no food but a few raw frozen vegetables. When the steamer Nebo came in sight of the wreck a gale was blowing with great violence, and snow falling, so that the wreck could not be approached. The steamer remained by three hours, and officers and crew pluckily launched boats and got as near the barque as possible. The crew of the latter, sixteen in all, jumped overboard and were picked up by the boats. All were frozen, and in a much exhausted condition.

Barque Moselle, from Montreal for Hamburn with grain, has arrived at Sydney, C. B., dismasted, with one man frozen to death and five others badly frost-bitten.

The captain, second mate and five men of the Hamburg ship Johanna Heinrich arrived at San Diego, Cal., Nov. 27th, in an open boat, having abandoned the vessel in a sinking condition 280 miles from shore. The first mate's boat was not seen after the second day of their abandonment of the vessel, and the captain fears the boat is lost, as they experienced heavy weather on the 24th. The party were in the boat ten days, and lost one of their number, a seaman named Henry Warneke.

The barque Brazilian has been wrecked on Anticosti island; four of the crew were frozen to death, and the remainder are in a terrible condition.

The propeller Simcoe, of the Chicago & Collingwood (Ont.) line, left Chicago Nov. 18th with a cargo of grain and a crew of twenty-two men, and was lost on Lake Huron with all hands.

News and Notes.

George B. Robinson, lieutenant-governor elect of Colorado, was fatally shot at Roberson's Camp, twenty miles from Leadville, Saturday night, in some trouble about the ownership of a mine.

Father Moran, Catholic priest at Ware, Mass., on Thanksgiving eve stood at the door of a hall where the Hibernians gave a ball, warning away all of his parishioners. The ball was a failure. The priest had previously denounced the ball from his pulpit. The Hibernians say he has opposed them for years and even forbidden his own parishioners belonging to recognize him on the street, and that he once broke up one of their temperance societies. He says their dances are immoral and he has to oppose them from a sense of duty. Leading Protestant citizens claim that the dances are proper, and that the society is made up of the best Irish people of the village.

Hiram Brisset, a Frenchman, was walking on the railroad track from Palmer to his home in Three Rivers, Mass., Thursday afternoon, when, hearing an appearing train near Shearer's crossing, he stepped on the wrong track and was instantly killed.

A small sample trunk containing $7000 worth of jewelry, belonging to J. H. Morrow, travelling salesman for three Philadelphian wholesale jewelry houses, was stolen at Chicago, on Friday night, from the sidewalk in front of the Clifton house. Morrow had taken a bus to go to the train and his baggage was on the sidewalk awaiting the arrival of an express wagon, when the thief picked up the trunk and walked off with it. The trunk under the one stolen contained $25,000 worth of jewelry.

Ship building in this country the past year decreased 35,620 tons since '79, while the number of vessels built was 230 smaller than last year.

There is a water famine in eastern Pennsylvania, which has compelled a large number of iron manufactories and other industrial establishments to close. Farmers are compelled to drive their stock miles for water, and household supplies of water are hauled long distances, and sell at fifty cents per barrel. Hundreds of working people are looking ahead to a worse water famine than they have ever yet experienced.

California has a perpetual skating pond. There is a lake on Saw Tooth mountains, at an attitude of 12,000 feet, which is constantly frozen. It was discovered in August of last year by a party of prospectors, and named Ice lake. The sun seemed to have no effect upon it except in places adjoining the shore.

The dramatic critic of the New York *Tribune* fairly slops over with ridiculous gush in his review of Bernhardt. He tells her that, although she isn't so great as Rachel and Seebach, or greater than Modjeska and Neilson, yet she is "a power, a wonder, a charm," who "conquers, as all strangely beautiful creatures in nature have ever conquered, by an inherent power and right of fascination." He says she is as sweet as sweet can be, that she has "the lava-like temperament of a strange exotic genius," and exerts "the influence that lives in a strain of distant music, or the rustling of the leaves in fragrant summer nights."

The Lowell *Courier* says an intoxicated man and his wife went to the police station in that city Wednesday afternoon and expressed a desire for a divorce or separation. The marshal separated them by locking the man up and sending the woman home. A few hours after, the man becoming sober, he was released at the earnest appeal of his wife.

The action of the English postoffice department against the telephones comes on next week. The company plead that the telephone is not a telegraph. The postoffice officials say that it will jeopardize the rights for which the country has paid eight millions sterling.

A remarkable instance of the power of woman's affection has been shown in Indiana. In February last, a man beat his wife and servant girl with an ax helve, crushing in both their skulls and leaving them for dead, after which he disappeared. The women subsequently recovered. The strange part of the story is that the wife has now left her home and started for Nebraska, where she expects to rejoin her husband, whom she has forgiven for his attempted butchery. She says that before the terrible attack upon her he was a good husband to her, and that he must have been crazy when he attempted to take her life.

A remarkable fact is told of the census in Philadelphia. The native-born population has increased in greater proportion than the foreign-born. As Philadelphia is a great manufacturing as well as commercial city, it is evident that the native American is not dying out as some have feared. One paper suggests that "Perhaps it is because Philadelphia is a republican city;" we should say that perhaps the reason Philadelphia is a republican city is because of its greater proportion of American-born citizens.

The census of 1880 shows that in the state of Connecticut less than one-fourth of its inhabitants, paying less than one-tenth of the annual taxation, choose a majority of the legislature. The anomaly in representation proceeds from the arrangement made sixty years ago. At that time all the towns which had corporate existence were given two representatives each, while those incorporated after that year received but one. Many of these towns have either gained nothing in population or have suffered a decrease, while many of the most populous towns in the state had no existence when the constitution went into effect. Hartford, for instance, has 42,000 people and two representatives; Marlborough has 391 persons within its limits, and also sends two representatives. The small towns are rapidly decreasing in population, while Hartford, New Haven, New London and other cities show considerable gains. The demand for a new apportionment which is made by the large cities is therefore very reasonable.

James L. Westervelt, who died at Port Jarvis, N. Y., a few days ago, was one of the greatest numismatists in this country. His collection was worth many thousand dollars, and included all the coins ever issued in the United States, and many others, some ante-dating the Christian era.

Chicago is the only one of the five leading cities in the United States, the others being New York, Philadelphia, Brooklyn and Boston, in which the males are in excess of the females by the present census. There are 35,000 more females than males in Philadelphia, and yet some people wonder why some girls marry bow-legged men.

A western bound express train on the Wabash road was flagged, the other day, when about four or five miles from Toledo, O. The train stopped, and a little boy not much bigger than a hitching-post got on. Stepping up to the conductor he said in a loud, shrill voice: "You may make up your mind to stop here every day, mister, for I'm going to git on here reg'lar, after this."

Chelsea (Orange county, Vermont,) jail has an inmate, committed on a private suit of a man for the seduction of his daughter, who steadily asserts his innocence, and will not allow his kindred to pay the judgment, saying he would prefer to rot in jail rather than feel that a cent of money could be wrung from him in this unjust manner. His case was originally entered at the June term, 1877, of the Orange county court. Judgment by default was obtained at the June term, 1878, and damages were assessed by the jury at the December term, 1878, at $841, of which $241 was exemplary damages. The case went to the supreme court, which affirmed the judgment below and issued a certified execution for $841 damages and $166 costs. On this he was committed April 12th, 1879. He has twice petitioned the court for a release and been refused each time, though at the last hearing in June, 1880, the court offered to scale the judgment down to $400.

A soda-water manufacturer of Vienna writes that he is ready to compete with Dr. Tanner, with beer against water; he asserts that he can fast on beer for forty-four days.

The house and outbuildings of Elbridge Howard, in Rochester, were burned last Friday afternoon, some children having kindled a fire in the woodshed. Loss $800; no insurance.

Congressman Farr, member of Congress from the third district, and member-elect of the next Congress, is reported dangerously ill with pneumonia.

BRIGHTON CATTLE MARKET.

For week ending Wednesday, Nov. 24.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 1304; sheep and lambs 4400; swine 18,600; Veals 60; common western cattle 796; eastern cattle 235; milch cows and northern cattle 275.

Prices of beef cattle per 100 lbs, live weight—Extra quality $5@5 6 25; first quality $5 12½ @ 5 75; second quality $4 50 @ 5 00; third quality $4 @ 4 37½; poorest grades of oxen, bulls, etc., $3 12½ @ 3 75.

Brighton hides 8½ @ 9c per lb.

Brighton tallow 3c per lb.

Country hides 7½ @ 8c per lb.

Country tallow 4½ @ 5c per lb.

Calf skins 10 @ 12c per lb.

Sheep and Lambs skins $1 @ 1 25 each.

The supply of cattle in market for the week is the lightest of that of any week for several months past. The trade for beef cattle has been slow. Cattle cost higher at the west, and the best grades sold fully ½c per lb higher than the same grades sold one week ago. A few extra beeves were sold at $6 30 per 100 lbs live weight. Common grades of cattle sold dull, and the supply, although small, was as large as the demand required.

Working Oxen—There was a fair supply in market from Maine, but the trains did not get in until late on Tuesday and there has been only a moderate demand for them. Good working oxen have been in fair demand of late, but those of an ordinary grade have been selling dull at low prices.

Milch Cows—Extra $45 @ 65; ordinary $20 @ 44; farrow cows $18 @ 28; springers $20 @ 35 per head. Good cows have been in fair demand, but those of an inferior grade sold slow at low prices. Many of the cows that are in fair condition are sold to butchers to slaughter.

Store Cattle—Yearlings $9 to $11; two-years-olds $13 to $20; three-years-olds $23 to $45 per head. Prices for small cattle depend much upon their value for beef. There has not been a very large supply of store cattle offered on the markets at any time during the season.

Sheep and Lambs—These from the west were all owned by G W Hollis, and cost, landed at Brighton, from 4½ @ 5½c per lb live weight. Those from Maine were consigned to the same party to slaughter and market at a commission.

Swine—Fat Hogs—Prices remain unchanged, dressed, landed at the slaughter houses, 5½ @ 5½c per lb live weight.

When lips receive a rosy flush,
And teeth become a dazzling white
Beneath the efforts of the brush;
When SOZODONT is used aright,
The mouth becomes sweet, pure and warm,
And the fresh breath an odorous charm.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes*. Tu,th&f,&o

FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

Consumption—Bronchitis—Asthma.

WERE FELLOWS' COMPOUND SYRUP useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as is that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

Will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have known cases where a single dose has been effectual.

S. JACOB, M. D., St. John, N. B., writes:

"I had occasion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expedition and entire satisfaction."

☞ Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this, under any circumstances.

HOSTETTER'S CELEBRATED STOMACH BITTERS

Meets the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and revitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

AROUND HOME.

Mr. Peter Emery, who fell and fractured an ankle about three weeks since, is rapidly recovering, notwithstanding his advanced age.

Mr. W. S. Kusel, the advance agent of the "Constable Hook" company, was three years ago connected with the Direct Cable Co. at Rye beach.

The thermometer in Dover, at "New Jerusalem," indicated six degrees below zero at sunrise on Saturday last. Many gas-pipes were frozen up.

Messrs. Sides, Stone & Co. have taken the "American Dime Show" to Manchester—trained and untrained bears, seven-legged calf, mud-turtles, orguinette and all.

The New Hampshire hotel at Dover, an ancient hostelry, is to be closed Dec. 7th, and shortly afterward the furniture will be sold at auction. This is one of the oldest hotels in the state, and has had many owners in times past. It has been purchased by the Catholics.

The *Army and Navy Register* of last week says: "A strong effort has been made to have the Guard, now lying in ordinary at the Portsmouth, N. H., navy yard, fitted up as a receiving ship at that yard, but it is somewhat doubtful if the amount of money needed for this purpose can be set apart this year."

The schooner W. S. Jordan was on Monday lying at one of the wharves near the Spring market, loading with apples for Philadelphia. Charles H. Hayes put on board 1500 barrels; Charles W. Varrell 300 barrels. The schooner Elm City was loading with apples for Baltimore at the Concord railroad wharf, on the same date, Mr. Varrell shipping 800 barrels by this vessel.

The small boys had a beautiful time on Pleasant street, Monday. Early in the day they discovered a large barred owl on a limb of a tree on the premises of Mr. M. H. Wentworth, and from that time until sundown a dozen or more of them might have at any time been seen busily engaged in snow-balling that owl. The bird took no notice of missiles that whizzed by him, but once in a while he would get hit with a snowball, when he would lazily turn his head to see what was the matter, though apparently taking no great interest in the proceedings anyway. At nightfall he flew away, happily unconscious that he had been badly treated all through the day.

BOW MISSION SERVICES.

The meetings the past week were all of an interesting character, with a very fair attendance. The Saturday evening meeting, usually conducted by a lady, was in charge of W. A. Loyne.

Mr. Joseph T. French conducted the bethel service Sunday afternoon.

The reform club held a social service Sunday evening, conducted by Mr. James Marden, acting president. Remarks for the good of the cause were made by members of the club, and also by Dr. D. W. Jones, who for the first time addressed the meeting; his remarks were of a very practical nature, and will undoubtedly be remembered. These meetings are again increasing in interest and the numbers attending, and it is to be hoped by all true friends of the cause that politics will be kept out. L.

"CONSTABLE HOOK."

On Friday evening, Dec. 3d, at Franklin theatre, will be presented the play of "Constable Hook," a New England drama which has been favorably received everywhere. Mr. John Murray takes the part of Jotham Hook, Sr., and Miss Grace Cartland that of Blanche Redmond. The St. John, N. B., *Telegraph* of Oct. 16th says of this play:

For this evening, the popular Constable Hook is to be repeated by special request. The last opportunity of witnessing this amusing play during the present season should not be lost. To this play rather more than ordinary interest is attached from the fact of its being connected with the renowned story of "Moll Pitcher," a queer personage who figured in the story books concerning New England, years ago. The dramatist has given in the "old constable" a character which Mr. Murray portrays wonderfully well. He is the veritable old-timer, one of the corner grocery geniuses whose identities are as well known in country places as the "taown pump." It is truly refreshing to hear the quaint expressions, the honest voice of the "old constable," who always "happens" around just in time; and in every instance is he entirely entertaining, not only with his dialogue, his odd sayings and the like, but with his perfect naturalness. "Constable Hook" is one of those rare characters whose coming on the stage is always pleasantly anticipated. Of the play, we can only say, it is one of the few good realistic dramas which the theatre-going people are willing to patronize, and we venture the opinion that no one would willingly let slip an opportunity of seeing "Constable Hook" after the excellence of the play has been made apparent, unless Mr. John Murray was not with the company, and even then they would want to see the "old chap" and imagine it was him. The play is well staged and the support good. Miss Grace Cartland is a sweet, tender heroine, and enacts the character with much grace and artistic earnestness. The other parts are taken in an excellent manner.

The company performed in Portland for five nights of last week, and of "Constable Hook" the *Press* of that city said;

It seemed like the days of twenty years ago, when melodrama ruled at the old National, and before the present society plays had obtained a footing on the stage. There was a fascination attached to the performance which held the spectators, which was due in part to the acting.

The sale of seats commences this morning at Stavers & Marston's.

YORK COUNTY AFFAIRS.

The crops of York, and of the western part of York county in general, this year were very good. Commonly speaking, the farmers in this section are well-to-do, as is evidenced by the buildings being well kept up, and the general air of thrift.

Rev. A. E. Boynton, formerly pastor of one of the churches in Kittery but now located at Strafford, N. H., is much encouraged in his new field of labor. Revival meetings are held every evening, and a good number of hitherto careless ones have started on what it is hoped will prove a permanent pilgrimage.

Mr. Andrew Webber, who cut a large quantity of ice on his pond near the beach at York last winter, disposed of the same upon favorable terms last summer. During the dry season he enlarged the surface of the pond, which is of just sufficient depth to be convenient for freezing, and is fed by springs of pure water. He anticipates storing a much larger crop of ice this winter than he did last.

Prentice Garland, fifteen years old, and Leslie Pierce, fourteen years old, ran away from their homes in Biddeford, a few days ago, and went to the American house in Fitchburg. Their supply of money running short they notified their parents of their location, and requested some money. They were finally compelled to apply for lodgings at the police station, and wait for their parents to come for them.

The village of Cape Neddick, York, is still a place of considerable importance, there being located in the vicinity three stores, conducted by Joseph Weare, Asahel Goodwin and George Currier; a blacksmith shop, by Wilbur F. Norton; Chase's mills, at "head of the river," the water supplied from a large pond; a saw-mill and a grist mill, belonging to John K. Weare; and Todd's shingle, planing and edging mill. The water has been so low the past season, that the mills have been unable to run. Also here is the well known Cape Neddick house, now carried on by Mr. Grant. The oldest mill in the village, Norton's, has been gone fifteen years. Goodwin's saw mill was burned some time since. There was formerly a saw and grist mill lower down, at the harbor. Cape Neddick river runs down a mile below the main village, at the harbor, where it empties into the sea. The harbor, in spite of the decay of commerce, is still frequented by numerous coasters.

Books, Magazines, Etc.

"The United Service" for December has the following list of contents: Facts in favor of compulsory retirement; The Mariner's Compass; French field artillery; Lieut. Very's "Navies of the World;" Cavalry, third paper; The Meadow-Lark's Colors, poem; Marine signaling; Trials of Staff-officers, second paper; Naval apprentices; Admiral Preble's "History of the Flag;" The signal-Service organization; Young Hero; editorial notes, and "service literature." Philadelphia; L. R. Hamersly & Co., publishers; $5 per year, single number fifty cents.

"Andrews' Bazar" for December. On previous occasions we have spoken in terms of praise of this journal. The December number is a superior one. From the Christmas picture, "Santa Claus at Home" on the title-page, to the last page with its comic pictures and always sprightly "Turtle Tracks," it is good. The literary features, its stories, miscellany, etc., are of a sort peculiarly pleasing at holiday-time. In addition to its usual wealth of fashion intelligence, all yearly subscribers receive with this number a Christmas gift in the form of a gigantic supplement, the full size of the the Bazar itself, filled with its useful and beautiful designs that can be used as patterns in fashioning many articles suitable for holiday gifts; also designs for printing on china, silk and satin, for embroideries, etc. Subscription, $1 a year; every subscriber is entitled to a premium, and if they begin with the December number they will secure the Christmas supplement.

The fifteenth volume of the "Nursery" will begin with the January number, which the publishers promise shall surpass all previous issues, having a new dress, a new and elegant cover, and other improvements. Price $1.50 a year, in advance. New subscribers will get an extra number by subscribing now. Send in your subscriptions to the Nursery Publishing Co., 33 Bromfield street, Boston.

A Paper House and Furniture.

The multiplying applications of paper are strikingly illustrated by the fact that in the Sidney exhibition there was shown a house built and furnished throughout with this material. The structure was one story high, and its skeleton made of wood. The exterior was moulded in carton-pierre, while the interior was covered with the same material, being plain on the floor, forming splendid arabesques on the walls, and moulded in imitation of plaster on the ceilings. The doors, cupboards and shelves were of the same material, whilst the entire furniture, including chandeliers and a stove in which a fire could be lighted, was made of papier-mache. The carpets and curtains were of paper, and there was a bedroom, in which there was not only a large bedstead made of papier-mache, but blankets, sheets, quilts, and female clothing, dresses and bonnets, in the latest style, composed solely of carton-pate. A series of banquets were given in this building, in which the plates, dishes, knives, forks and glasses were all of paper.

—When a man stands for office, his opponents sit down on him at the same time that they lie for him.

—The editor of the Marlborough *Times* recently saw Mark Twain, and was much impressed with him. Says the editor: "Below his necktie Mr. Twain is as personable and presentable a man as any. The terror is all in his head. And such a head! A little way off he has the appearance of a Hungarian grenadier, and reminds one of a thistle in bloom. Detached from the rest of him, what a window-washer his head would make!"

—Nicholas Bonifas' wife deserted him and went to San Francisco, where she married again. He followed and begged her to return to him and their children. She refused. They had a final interview in her house, and it ended with his shooting her four times. Neighbors ran in on hearing the reports, and found her alone. She was in mortal agony, and was told by the doctor that she could not possibly recover. They asked who had shot her. "I don't know," she replied; "he was a stranger—I never saw him before." But her effort to shield the murderer was useless, for his body was soon found in the back yard, where he had killed himself.

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

National Treatment, Positive Cures.

Dr. R. V. Pierce, President of the World's Dispensary Medical Association, is in earnest in selling his medicines under positive guarantees, and if anybody who purchases and uses any these widely celebrated remedies, does not derive benefit therefrom, the Association would like to hear from that person with description of symptons and history of case. Organized and incorporated, as the Association is, to teach medicine and surgery and for the successful treatment of all chronic diseases, and managing annually thousands of cases through our original method of diagonis without ever seeing the patients, and having also the largest sanitarium in the world for the accommodation of the more complicated cases, and also for surgical cases, the Faculty feel themselves prepared to undertake even the most discouraging cases. They resort to all the best remedial means known to modern medical science—neglecting nothing. Address, World's Dispensary Medical Association, Buffalo, N. Y., or Great Russell Street Buildings, London, Eng.

From the annual report of the Indian bureau it appears that the number of Indians in the United States, exclusive of Alaska, is 225,944.

We clip the following from the Troy, N. Y., *Times*: "Letters pour in daily, sometimes by dozens, scores and hundreds, to Dr. David Kennedy of Rondout, N. Y., in grateful acknowledgement of the great benefits received from his "Favorite Remedy." These are all read with care and interest by him, as they frequently illustrate the power of the medicine in some new, and perhaps, hitherto untested phase of operation. But it is when a sufferer comes miles to tell the story of his deliverance in person, to grasp the doctor by the hand and greet him as a true and valued friend, that the interest in his case deepens and multiplies."

Alpheus Foote, of La Crosse, Wis., recently partner of "Brick" Pomeroy in running the *Democrat*, has been convicted of forgery, and sentenced to five years in the penitentiary, three days of each year in solitary confinement.

D. R. V. G. will cure every case of sick headache. See other column. Guaranteed by all druggists.

A Relic.

There was received at the White House on Tuesday of last week a massive desk, or writing table, presented by Queen Victoria to the President of the United States. It is made of live oak, weighs 1300 pounds, is elaborately carved, and is a magnificent specimen of workmanship. It bears the following inscription: "H. M. S. Resolute, forming part of the expedition sent in search of Sir John Franklin in 1852, was abandoned in lat. 74.41 N., long. 101.22 W., on the 15th of May, 1854. She was discovered and extricated September, 1855, in lat. 67 N., by Capt. Buddington, of the United States whaler George Henry. The ship was purchased, fitted out and sent to England as a gift to Her Majesty, Queen Victoria, by the President and people of the United States, as a token of good will and friendship. This table was made from timbers when she was broken up, and is presented by the Queen of Great Britain and Ireland to the President of the United States as a memorial of the courtesy and loving kindness which dictated the offer of the gift of the Resolute."

There is now about $58,000,000 in gold bullion standing to the credit of the United States treasurer, out of which it has been decided to coin monthly $10,000,000 of the denominations of $5 and $10.

Safe, reliable, harmless and cheap is Dr. Bull's Cough Syrup. We therefore do not wonder at the popularity of this old family medicine. The price is only 25 cents a bottle.

The storm raised about his ears has induced Manager Abbey of New York to give up his proposed production of the "Passion Play."

Women that have been pronounced incurable by the best physicians in the country, have been completely cured of female weakness by of the use Lydia E. Pinkham's Vegetable Compound. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlets.

By an avalanche on the Denver & Rio Grand railroad near Chalk creek, Col., Nov. 27th, sixty men were buried, one being killed and nineteen others badly hurt.

Baron Von Humboldt.

In his travels and explorations in South America, he became deeply interested in the wonderful properties of the Coca plant. Consumption and asthma, he says, is unknown among the natives who use it, and it is furthermore conducive to longevity. The Coca forms one of the ingredients of the Liebig Co.'s celebrated Coca Beef Tonic.

The British Parliament is to be summoned to meet Jan. 6th, to take measures for the pacification of Ireland.

Deep-seated coughs, and catarrh extending to the lungs, cured by Malt Bitters.

DAY'S Kidney PAD

A CERTAIN CURE FOR EVERY BLOOD AND KIDNEY DISEASE.

employing a want which men of eminent ability have devoted years of study and experiment to fill. A specific for diseases of the Kidneys, Bladder, Urinary Organs and Nervous System—and from the time of its discovery has rapidly increased in favor, gaining the approval and endorsement of medical men and those who have used it; it has become a favorite with all classes of people. Gradually and Surely it has superseded all other treatments, in short, such is its intrinsic merits and superiority, that it is now the only recognized reliable remedy.

DISEASES OF THE KIDNEYS

are the most prevalent, dangerous and fatal affections that afflict mankind, and so varied and insidious in their character, that persons often suffer for a long time before knowing what ails them. The most characteristic symptoms are gradual wasting away of the whole body; pain in the back, side or loins, a weak, feeble, exhausted feeling; loss of appetite and dread of exertion; scanty and painful discharge of variously colored urine, inability to retain or void the urine; minute stones or casts in the urine; and, when the disease is of long duration, there is much emaciation and great nervous prostration.

THE ONLY CURE.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the first and only infallible cure for every form of Kidney disease. It is the best remedy yet discovered for this complaint, and more effectual in its operation than any other treatment. By using faithfully and persistently no case will be found so inveterate as not to yield to its powerful remedial virtues.

STRONGLY ENDORSED.

We have the most unequivocal testimony to its curative powers from many persons of high character, intelligence and responsibility. Our motto "How a Life was Saved," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it.

DAY'S KIDNEY PAD is for sale by druggists, or will be sent by mail (free of postage) on receipt of the price. Regular, $1.00. Special, for obstinate cases of long standing, $3.00; Children's, $1.50. Address

"Under the Olives." This is the title of a neat little book of poems just issued by Messrs. Houghton, Osgood & Company, of Park street, Boston, from the pen of Mrs. Annie Fields, who, as many of our readers know, is the wife of James T. Fields, one of the men whom Portsmouth has sent to Boston, where he seems either as a man of business, a poet or a lecturer, to have "nailed up his horseshoe the *right* way." Nearly all the poems of Mrs. Fields are upon classical subjects, as The Last Contest of Æschylus, Sophocles, Euripides, Hero and Leander, Helena, Herakles, Artemis, Antenous and others. They evince in addition to the poetic requisites, an enlarged acquaintance with the subjects, and a research of no little extent. They show a scholarly research; and while they are written in a style at once inviting and entertaining, they are by no means commonplace in their structure. One of these poems, the "Return of Persephone," several years since appeared in press privately, and was highly commended for its poetic excellence. The ancient myth of this queen of the Hades is given in the form of a drama, and is wrought with most pleasing effect. "Theocritus," before seen in a "Masque of Poets," has had many appreciating admirers. "Pandora," a festive play, has we are told been subjected to a careful revision by a distinguished critic. The poems as a whole are of a character which give the writer a high place in the world of letters, and Boston may be pardonably proud of this new candidate for literary honors. The book is an 18 mo., a little gem in its style of mechanical execution; price $1.25; for sale by W. G. Myers.

A short serial by Mrs. Burnett, author of "That Lass o' Lowries," etc., will begin in the February "Scribner." Meantime Mrs. Burnett is writing what promises to be her longest novel, for Scribner's Monthly. Its scene is laid in Washington. Mr. Cable's new serial, "Madame Delphine," will also begin in February, and run through three or four numbers. Mrs. Schayer's "Tiger-Lily" will be concluded in the January number.

—Little Freddie Balder of San Antonio, Texas, stole some cake from the pantry, and was sitting on a fence eating it, when a stroke of lightning knocked him off. He had been told by his mother that God would punish him if he misbehaved, and he is now a firm believer in her doctrine.

— Two sisters in Neversink, N. Y., live near two brothers, and both couples have been engaged for some time. One night before the recent election the elder sister asked her intended to accompany her to a democratic meeting. Being ardently republican, he refused to do so. Thereupon she asked his brother to escort her, and he did so. The two thus unmated and left behind felt very indignant, and discussion showed that both were republican in sentiment, while the others were both democratic. Finally a proposition was made and accepted to break off the old loves, and form a new alliance. When the others returned, it was found that they, too, had resolved on the same course. A double wedding of considerable political significance is expected to take place during the holidays.

—A fashionable Galveston young man, says the Galveston *News*, has acquired considerable fame as a musical bore on the violin. One night at a social gathering he announced that he was going to send for a violin, and draw a few of Bethoven's immortal symphonies out of it by the tail, as it were. To his amazement all the gentlemen present volunteered to go for the fiddle, and up to date none of them have got back with it.

The human system is a kind of machine. If one part is seriously out of order the whole goes wrong. The blood in circulation is the mainspring. Keep this all right and you will not suffer from kidney and liver disorders, piles and constipation. And in offering you Dr. Kennedy's "Favorite Remedy" as the most successful regulator of the human machine ever discovered, we oblige the sick and suffering more than we oblige Dr. Kennedy. Invest one dollar for a bottle at the store, or walk all the way to the doctor's office in Rondout, N. Y., rather than not get it.

WEDNESDAY, DECEMBER 1, 1880.

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

Evarts W. Farr.

The telegraph on Tuesday brought us the sad tidings of the death of Congressman Farr, which occurred at Littleton on that day.

Evarts W. Farr was a son of John Farr, a lawyer and a leading citizen of Littleton, and was born at Littleton Oct. 10th, 1840; after a common school and academic education, he graduated at Thetford academy, Vermont, July 1st, 1859, and entered Dartmouth college.

At the breaking out of the rebellion he was the first man to enlist from Littleton, and helped organize the company which came to Portsmouth to assist in forming the gallant Second New Hampshire Volunteers. The command of the company was tendered to him, though he was but twenty years of age. He was commissioned as Lieut. of his company (Co. G,) June 4th, 1861, and promoted to captaincy Jan. 1st, 1862, resigning Sept. 4th, 1862, to join the 11th N. H. Vols., of which regiment he was commissioned Major Sept. 9th, 1862. He lost an arm in the service.

While the 2d N. H. Regiment was being organized, Major Farr on the 19th of May, 1861, was married to Miss Ellen F. Burpee, daughter of Dr. Augustus Burpee of New Hampton. Miss Burpee had been a teacher in the New Hampton Literary Institution.

Returned from the war, Major Farr studied law, and was admitted to the bar in July, 1867, and has since practiced his profession at Littleton. He was an Assessor of Internal Revenue for the Third District of the state, from July, 1870, till the time these offices were abolished in 1873; was County Solicitor of Grafton county in 1873, and re-appointed in 1876, and on the last-named year was chosen a member of the Governor's Council. He was elected a Representative to the Forty-sixth Congress, and at the recent election was again returned by a handsome majority.

Maj. Farr was a noble soldier, a firm friend and an agreeable acquantance. He was of manly bearing, frank in his manners, and amiable in his disposition. He was popular in his section of the state, and always was handsomely supported at the polls when a candidate. His loss will be keenly felt in the town of Littleton, where he had very many strong personal friends, as well as in many other sections of the state. His health had been poor of late, and last summer when he came here in the Tallapoosa from Washington he had been very ill, but had recovered on the voyage sufficiently to enable him to return to Washington and resume his seat in the House, then in session. At the Capital he had many friends. During his last congressional term he kept house quite near the spot where, on the first Sunday morning of his service in the Eleventh regiment after he left this state, his regiment rested on its arrival at Washington.

The unexpected death of Maj. Farr will be mourned by his comrades in arms, as by his fellow members in the Congress of the United States; and to the state at large this bereavement is a public loss.

News and Notes.

At Provincetown, Mass., Monday night, Capt. D. H. Atkins of the life-saving station, and Elisha N. Taylor and Frank Mayo, members of the life-saving crew, were drowned in an attempt to rescue the crew of sloop C. E. Trumbull, Capt. Elwell, which was ashore. Three of the sloop's crew were taken ashore in the surf-boat, but on the next trip the boat was capsized by the sloop's boom. Soon after the disaster the sloop drifted away with the captain and pilot still on board.

Four bodies were taken from the Hudson river tunnel at Jersey City on Monday—the last of the twenty who perished when the tunnel collapsed some months ago.

Nellie Hubbard, daughter of an ex-governor of Connecticut, who created such a sensation by running away and marrying her father's coachman, is now a seamstress in Hartford, and her husband still drives a coach.

John Barton, aged twelve years, rescued two little girls, aged respectively seven and five years, from drowning in the canal at Jersey City, Nov. 27th, they having broken through the ice. Annie Artis, the younger of the girls, died in the boy's arms before he reached the shore.

A railroad wreck was prevented on the Hannibal and St. Joseph road, near Macon, Mo., the other day, by the bravery of Mrs. Nagle and Mrs. Rowe. Wreckers had placed a flat-car loaded with timber on the track, but the women took a lamp from the house and carried it to the track, though one of them burnt her hand to a blister holding it over the chimney to keep the wind from blowing out the beacon-light. The engineer saw it, and stopped the train a few feet from the obstruction.

Greenbacks are exceedingly scarce in Wall street, New York, causing much inconvenience. Nothing is to be had of the banks and money-changers but coin. Banks are compelling their customers to take gold in payment for checks. A man who was paid $500 in $10 gold pieces by a bank, could not get rid of the coin, even by offering to sell it at a discount. At all the exchange offices in Wall street, between Broadway and William street, the invariable answer was that they had no notes to spare at any price. The "Rag Baby" seems to be appreciated now.

A paper was recently read before the French Academy of Medicine by one Dr. Delaunay, which contained matter of great importance to all persons interested in the opera. Dr. Delaunay maintained that tenor voices abound only among people who are in a low state of civilization; that the constant tendency of civilization is to deepen the voice, and that the time will finally come when, all mankind being civilized, both men and women will have bass voices of tremendous depth.

Comptroller Knox of the United States treasury favors a law limiting state taxation of the national banks. The system is oppressive, and was organized at the south to crush out the banks on account of their national character. A movement was once begun in Congress to relieve them from the burden, but the panic renewed the prejudice against them, and a fierce war was inaugurated against them by the democratic party, which did not cease even after the resumption act had proved a success. Time has demonstrated the usefulness of the banks, proved them to be the safest ever devised, and shown them to be very profitable to the country. Nevertheless the capital invested in them has been subjected to unjust and severe discriminations in several states. The next Congress will undoubtedly comply with Mr. Knox's suggestion, and fix a limit to the taxation of their shares, beyond which the states cannot go.

Professor Baird recently said that American fishermen take about 150,000,000 codfish each year. The average weight of these fish, at four years of age, is about ten pounds each. Nine million eggs have been taken from a single female fish of that species, and Professor Baird says it is a poor fish indeed that does not yield 1,500,000 eggs. Even at that rate 100 female codfish alone will yield each year a quantity of eggs equal in number to the whole number of codfish taken. Professor Baird, therefore, knows no reason why American waters may not be so abundantly stocked that our fishermen will not be obliged to seek this fish elsewhere.

The republican municipal convention of Boston on Monday evening nominated Soloman B. Stebbins as a candidate for mayor.

The official vote of the state of Maine has been canvassed as follows: Garfield electors, 74,039; Hancock, 65,171; Weaver, 4,480; Dow, 92; scattering, 127. Garfield's majority over all is 4,169.

The new Alabama senator, Hon. J. L. Pugh, on the day of his election, in a speech before the "assembled wisdom" of that state, said: "I shall go into the Senate of the United States with the proud satisfaction that I feel I am a representative man of the solid south—the glorious solid south." This sentiment was loudly cheered by the men who had just elected him.

Alexander H. Stephens has been relieving his mind in regard to the stupid, personal campaign against Garfield. He sas: "But our precious National Executive Committee kept up the torrent of abuse and slander. They seemed to think that the going about and marking '329' on men's doorsteps was a powerful political argument. That man Barnum and his companions perpetrated crime after crime—for such blunders as they made were crimes—until their disgrace culminated in an attempt to give currency to a villainous forgery. It almost made one ashamed of his party to see such weapons used in its behalf. One of those fac-similes of the Morey letter was sent to me. A single glance told me that it was a forgery, and I needed no denial from Garfield to convince me."

New Hampshire Items.

Wentworth's block in Rochester was totally destroyed by fire, Tuesday morning, with all its contents; the store of D. Hanson, druggist, was also burned, and the Norway Plains savings bank much injured. Wentworth's block was occupied as follows: C. W. Howe, druggist; Fifield & Co., tailors; Mrs. F. C. Hayes, millinery; M. H. Osgood, jeweler; A. S. Parshley, insurance agent; Dr. L. W. Sibley, dentist; J. Fifield, job printer.

Charles Paine, eighteen years old, while skating on Waukewan lake at Meredith, Saturday, broke through the thin ice and was drowned. He was not missed until Sunday morning.

Thomas Ashley, of Franklin, was instantly killed at Central City, Dakota, Monday, by falling down a mine shaft seventy feet deep.

An unusual amount of sickness of a mild type prevails in Manchester, which is attributed by physicians to the use of river water, temporarily served to citizens in lieu of Massabesic lake water.

A branch of the Irish National Land League has been organized at Concord, with a membership of over sixty. The officers are: President, Daniel B. Donovan; vice president, Timothy P. Sullivan; secretary, Michael T. Donovan; treasurer, Dennis Sweeny.

New Hampshire is supposed to have produced the oldest voter at the late presidential election. He is Mr. William Masters, and he lives in Stratford. His age is 110, so that he is about half a dozen years older than the nation; and he ought to remember the first appearance of the Declaration of Independence. How he voted is not stated.

In some remarks at Concord, on Saturday, Col. John H. George claimed that the summer business of New Hampshire aggregated six millions of dollars annually. He bases his estimate on the railroad receipts of $600,000 from this business, which he thinks is ten per cent of the whole. Other estimates place the aggregate amount to $2,000,000 per annum. Whatever the amount, it must be very large, and the business is still in its infancy. There are those who believe that the business will reach fifty millions a year for New England before the close of the century.

Warren Moore's paper mill, and two stores, in Alstead, were burned Saturday night. Total loss $9,500; insurance $5,000.

—In Philadelphia two ladies met on the street, and one said to the other, "Why, you look very happy this morning; what's happened?" "Oh, I've just been up having my fortune told," was the reply, "and the woman says I'm to marry twice more, have diamonds and a camel's hair shawl, and that I can go to the opera six nights in a week if I want to." "Dear me! I don't wonder that you are happy. But you won't say anything to your husband?" "Oh, of course not. Poor man! he's good to me, and it might hurt his feelings to know that I am going to marry twice more. I think I'll tell him that I'm likely to die first."

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients wnatever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

The schooner Walter Franklin was loading with apples at Tredick's wharf on Tuesday.

The Dover Democrat calls the city hall of Dover a "dingy hog-pen" and "the disgrace of the city."

There is to be a union prayer meeting at the Court street Christian church this evening at 7:30 o'clock.

Now the moon is no longer seen nights, how would it do to have the glass of the street lanterns cleaned?

Seven cars loaded with grain from the west, over the New York & New England railroad, arrived at the Eldredge Brewing Company's yard on Tuesday.

Exeter and this city are connected by telephone. Messages are sent for fifteen cents each, for a conversation of three minutes. A telephone exchange is to be built in Exeter this week.

An unknown woodchopper fell from the Eastern railroad bridge at Dover, Monday night, upon the frozen river, a distance of sixty feet. His feet, hands and neck were broken, and he died instantly. He was of a sandy complexion, and about fifty-five years old. He was drunk at the time of the accident. An inquest was ordered.

A bit of excitement was caused on Water street, Tuesday afternoon, by the falling of a horse near the head of Tredick's wharf. The horse was drawing a load of apples destined for the schooner Walter Franklin, and being smooth shod slipped on the ice. The help of a half-dozen men was required to get the animal on his feet.

The remainder of the cargo of coal discharged from the schooner B. Frank Neally and placed on Jones' wharf, was loaded into gondolas on Tuesday afternoon and in the night. The scows as soon as laden were started in tow of tugboat Ann for Dover, as the consignee feared a freeze upon the Cocheco, now that winter has arrived.

At the annual communication of St. Andrew's Lodge, No. 56, F. & A. M., the following officers were elected: Master, Wm. A. Hodgcon; S. Warden, John H. Rose; J. Warden, James H. Broughton; Treasurer, Wingate N. Ilsley; Secretary, John Pender; Standing Committee, Stephen W. Clarke, Samuel C. Whittier; Representative to Grand Lodge, John Pender.

The Eastern railroad's new freight depot in Dover was opened to the public Monday morning. The building is 180 feet in length by thirty feet in width, high studded, well lighted, and easy of approach by heavily loaded teams. The freight and passenger agent, Henry S. Gray, expects to move into the new office on Monday next, by which time it will be thoroughly furnished, heated and ready for occupancy.

The Dover *Democrat* says that on Sunday morning "one of the men connected with the steam tug Ann discovered the little craft to be half filled with water which leaked through a patched hole in the vessel's side. Several men set to work with pails, but the water was found to come in faster than it was bailed out, and the Tiger engine was hauled down to the scene near the gas house wharf, where after hard work she was completely pumped out. She was afterward hauled down to the old steam mill and beached, where her leakage was stopped. The leak was caused by collision with the ice."

Mr. Harry W. French, who is to appear at Music hall on Tuesday evening, Dec. 28th, in the Star Lyceum course, thus refers to the Hindoo jugglers imported expressly for the purpose of illustrating his entertainment: "The jugglers are simply astonishing, and do tricks that would have made Heller or Hermann open their eyes with wonder. They surprised me beyond measure. I have often read of such things, but had never seen anything until now. I think I have brought to this country one of the greatest novelties that our public has seen for years. They have cost me about $10,000 already, but I am more than satisfied." Some of these jugglers are Brahmins and some Mahometans, and as a Brahmin can eat nothing cooked by a Musselman, while the latter will eat nothing cooked by a Brahmin, and neither will eat what is cooked by a Christian, special culinary arrangements have to be made in advance at every place they visit, and an advance agent has already been at the Gibson house for this purpose. We should fancy it would not be hard for them to get cooks enough in this country not open to the objection of being Christians, if that is all that is required.

Rev. Dr. Wm. R. Clark, of Boston, has been engaged to supply the pulpit of the Methodist church in Dover for the rest of the conference year, or until April next. Dr. Clark commenced his labors there last Sunday.

PORTSMOUTH BREWING CO.

At the adjourned annual meeting of this company, held on Tuesday, the following officers were elected:

Directors—Arthur Harris, New York; James F. Jenness, John Conlon, Daniel M. Lanigan, George Scott, William H. Palmer, Portsmouth; Charles Mullen, Portland. President—Arthur Harris. Vice President—James F. Jenness. Treasurer—John Conlon. Clerk—William C. Robinson.

MISS NORAH BARTLETT.

Miss Norah Bartlett of this city made her first appearance as one of the Boston Museum company on Monday evening, in "The Guy'nor." The *Post* says: "She is a lady of pleasing appearance and good stage presence, and played with grace. That she possesses talent and will make many friends among theatre-goers may by safely predicted." The *Globe* says: "She took the part of Butterscotch's young wife very gracefully and easily, and made a very favorable impression." The *Journal* says: "With an agreeable presence, a pleasant face, and a good figure, she combines a graceful and quiet plan of action which was favorably commented upon." The *Transcript* speaks as follows:

Another event in this production is the first appearance of the new member of the company, Miss Norah Bartlett, the Portsmouth young lady who made her debut at a benefit performance at the Boston theatre last season. Miss Bartlett is an acquisition of just the right kind to our favorite comedy company, and gives every promise of taking very high position. A flashing smile of speaking significance, and capable of many delicate but clear shades of meaning, is her best reliance; though back of this, of course, is the fine intelligence that lights up every feature, and her whole countenance, which is a singularly mobile and expressive as well as pretty one. The young artist is of a stature difficult to carry at once with perfect ease upon the stage, but when once fully under control the more effective for its height, as in the case of Miss Annie Clarke or of Mme. Modjeska, whose peculiar distinction and superior ladyhood of manner upon the stage Miss Bartlett's acting recalls. With a most musical voice and well-trained enunciation her equipment for the stage appears singularly fortunate and complete, and fine things may surely be looked for as opportunity favors.

YORK COUNTY AFFAIRS.

The schooner B. Frank Neally, recently ashore in the Cocheco, is to be thoroughly repaired under superintendence of Mr. Warren Keen. She goes on the marine railway at Kittery to-day.

Mr. and Mrs. Alexander Shapleigh, of Eliot, celebrated the fiftieth anniversary of their wedding on Thursday of last week. The occasion was one of unusual pleasure to all of the many friends present, and none seemed to enjoy it more than the noble host and hostess, who invited their guests to a bountiful repast, *served on the same* "Tea Service" which characterized and beautified that festive board *just fifty years previous!* The fresh and florid countenances of the host and hostess, as they appeared while seated at the table, rendered it difficult for the beholder to realize that the occasion symbolized a period of fifty years in their history; centainly, time has dealt very mildly with them. The occasion will long be remembered by all who participated therein, and the many beautiful gifts bestowed indicate in a small degree the high esteem in which Mr. and Mrs. Shapleigh are held in our community.

ELIOT, Nov. 20th. D.

—An eloping couple on a Somerset & Cambria (Pa.) railroad train were accosted by a man who said he was a justice of the peace, and offered to marry them on the spot for $5. In order to save time they employed him. After a week's honeymoon they found out that he was an imposter.

—Some three years ago an intelligent mineralogist discovered specimens of pitchblende on the waste dumps of Denver City, Col., and, recognizing the value of the mineral, gathered a quantity and sent it to Swansea, where it brought five shillings a pound, or at the rate of $2,500 a ton. To what extent the mineral occurs in that region does not appear; but, remarks the *Scientific American*, the incident affords another illustration of the facility with which unscientific miners may throw away minerals of more value than those they are looking for. Pitchblende, or uranite, is an oxide of uranium, obtained in Saxony and Bohemia, and used in fine glass making. Glass colored with uranium has the peculiar property of showing green when looked at, although perfectly and purely yellow when looked through.

The Florence Nightingale of the Nursery.

The following is an extract from a letter written to the *German Reformed Messenger*, at Chambersburgh, Penn:—

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's soothing Syrup relieves the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the pewer we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle. 1

Man Never is--But Always to be Blest.

At the time of reckoning, which comes to all at the approaching close of the year, how many will recall with sorrow and regret cents spent in delusive schemes of speculation. The natural course of a sensible man is to woo the fickle Goddess Fortune once again, and in sending the always reliable statements contained in the advertisement of the Louisiana State Lottery Company determine to send M. A. Dauphin, No. 319 Broadway, New York City, or the same person at New Orleans, La., ten dollars in time, by Tuesday, 14th of December, to be invested in the Grand Extraordinary Drawing under the person I care and supervision of generals G. T. Beauregard, of La., and Jubal A. Early, of Va., stand a share of $522,500. Why not?

PROFESSIONAL NOTICE.

Dr. L. J. Kahn, 51 East 10th St., N. Y., and Proprietor Dr. Kahn's Museum of Anatomy, 618 Broadway, N. Our Shipping.

The annual report of G. W. Schofield, register of the treasury, states that the tonnage of the vessels of the country exhibits a decrease of 101,566 tons, the enrolled coast-wise tonnage having increased 37,751 tons, while the registered (foreign trade) tonnage decreased 138,723 tons and the licensed (under 20 tons) 594 tons. The large tonnage has decreased 83,250 tons under the operation of the act of Congress approved June 30, 1879, leaving 18,316 tons as the estimated decrease in tonnage during the past year. The steam tonnage increased 35,386 tons, the canal boat tonnage 2,852 tons, while the sailing tonnage has decreased 56,555 tons. During the past year the amount of ship building has been less by 35,620 tons than the preceding year. Connecticut has 4,584 tons employed by fisheries. Of the whole tonnage in the whale fishery nearly ninety per cent belongs in New Bedford.

Happiness and prosperity depend to a very great extent upon good health. All those suffering from hoarseness, colds or coughs, should try Dr. Bull's Cough Syrup. It cures and costs only twenty-five cents.

A French woman, the wife of Felix Jandson, was burned to death at Lincoln, Me., a few days ago. The case is peculiarly sad from the fact eleven children are left destitute, the father having decamped several years since.

Help One Another!

Of course. What else are we here for? For example: Mr. Ass F. Bearse, of Cotuit, Mass., had been troubled for years with diseased liver and could get no relief. He was not fit for business, and carried his life like a burden on his back. Just then his friend, Capt. Handy, said: "Ass, why don't you send to Dr. David Kennedy, of Rondout, N. Y., and get a bottle of his 'Favorite Remedy.' It will only cost you a dollar, and may do you good." Bearse did so, and after a short time was sound as the dollar with which he bought the medicine. To be sure, let us help one another. Sold by all druggists.

The attempt of Father Moran to break up the Hibernian ball at Ware, Mass., Thanksgiving eve, makes a sensation in that place. The Hibernians will probably bring suit against the priest, who has been in Ware seventeen years, and in the church forty-five years.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful practitioners* with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1849, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

LIPPINCOTT'S MAGAZINE

A POPULAR ILLUSTRATED MONTHLY OF LITERATURE, SCIENCE, ART, AND TRAVEL.

Announcement for 1881.

With the January Number LIPPINCOTT'S MAGAZINE will enter upon a NEW SERIES, a change which will be marked by many improvements and a material reduction in price. Maintaining the same high literary standard as in the past, but presenting

NEW AND ATTRACTIVE FEATURES,

rendering the Magazine somewhat lighter in character than hitherto, its conductors will spare no effort to secure for it the distinctive reputation of a thoroughly

POPULAR AND FIRST-CLASS FAMILY MAGAZINE.

The rapid development of periodical literature during recent years has been attended not only by a vast increase in the number of readers, but by a proportionate advance in their requirements. Some Magazines address themselves to particular classes engaged in special studies, others seek to meet the general demands of the mass of intelligent readers. Ranking itself among the latter, LIPPINCOTT'S will aim to furnish entertainment and a healthy stimulant to those of both sexes who find their best mental refreshment in

LIGHT AND ATTRACTIVE READING.

Its new scheme will embrace a great variety of topics, giving special prominence to those that concern actual life, its interests, social aspects, and various phases, pathetic and amusing, presented in vivid pictures and graphic sketches. The list of writers will include many new contributors, fresh editorial departments will be added, and illustrations, carefully executed, will continue to hold a place.

Daily Chronicle.

Books, Magazines, Etc.

"Wild Roses of Cape Ann, and other poems," by Lucy Larcom; 16-mo, 272 pp., with flexible cover. Boston; Houghton, Mifflin & Co.

Miss Larcom dedicates her volume to the public—"not critics but friends"—as if the critics were not the best friends the authoress could have. "True friendship's laws are by this rule express," if the critics endeavor to do their duty in an impartial manner and in a generous spirit.

Miss Larcom, as she trips from the Bass to the Beareamp, and soars from Cape Ann to the Chocoura, brings to our view many noted spots between her home in the Essex region and the coasts of Maine and the hills of New Hampshire.

She does not assume in her descriptive pieces to rise so far above the appreciation of the average reader as to deprive one of the enjoyment of her subject, and the manner in which it is treated. We recognize the familiar spots. We are not carried into a region of impossibilities or asked to consider a series of improbable events. We are permitted to listen to rhymes not meaningless, and are asked to admire natural beauty, and hear of events partaking of reality. We look out upon the strip of blue sea, we hear the fog bell, we pass the gambrel-roofed house, we listen to the swash of the restless wave against the rock-bound shores of the Cape. We recall in memory the mountain height, and we incline to appreciate the poems because they never distant nature, but rather enable us to re-enjoy her beautious works in the graceful lines of the poet. For sale by Myers, Congress street.

Harper's Magazine in England.

Beginning with the current number for December (the opening of its 62d volume,) "Harper's Magazine" will be issued simultaneously in England and America. The London edition will, in the editorial department, be adapted to suit the wants of British readers. The new serial story by Thomas Hardy will be accessible to his English admirers only through the pages of Harper's. The publishers are equally fortunate in securing the first novel written by Miss C. F. Woolson. Two weeks before its issue in London fifteen thousand copies were ordered. Practically there is no limit to the circulation or influence of a magazine conducted in a spirit so broad and Catholic, always vitalized by the strongest impulse of current thought and action, and always availing itself of every improvement in the higher arts that may add to its attractiveness. In England it will be, as it has been in America, one of the most important public educators; and by making the middle-class Englishman more familiar with the culture, as well as with the material resources of the new world, it will have a marked effect upon immigration—inviting to our shores a more useful and enlightened class.

—The apprenticeship system has been revived by a manufacturer at Springfield. The boys bind themselves for six years, and are to receive from five cents an hour at the beginning to twelve at the end. In addition, two cents an hour will be placed to their credit, and paid on their discharge, thus providing for each about $400 for a start on his own account. The employer stipulates for fifty-eight hours of work a week and nine for study.

Many complaints of small children arise from indigestion. If your child is sick give it D. R. V. G. You will be surprised at the charming effect.

—The Boston girl who asked the conductor of a horse car, one night last week, to place his back against the glass panel of the car door, that she might have a mirror by which she could settle her hat to her satisfaction, will doubtless succeed in life. The conductor was very obliging, the hat received its proper setting, and the passengers were, as may be supposed, highly amused.

W. A. Titus, 62 Ashland Avenue, Toledo, Ohio, says:—My wife is now as strong as ever, her regained health being directly due to the use of the Excelsior Kidney Pad. We can heartily recommend it to all kidney troubled persons.—*See Adv.*

—The owners of two adjoining farms in Missouri disagreed about the boundary line. Although the ground in dispute was a strip only six inches wide, they got into a violent controversy over it. While they were angrily discussing the question, one ordered the other to stand off the narrow space in question, and then deliberately chopped off one of his feet with an axe.

A nourishing agent for the weak, emaciated and dropsical.—Malt Bitters.

—A correspondent of the San Francisco *Bulletin* writes that King Kalakaua of Hawaii desires to leave on an extended tour to the United States and Europe, and may start in the November steamer if his ministers shall decide that the step is a desirable one. He will be accompanied by Col. Judd, his chamberlain, and one or two personal friends, and proposes to travel very quietly.

Portsmouth Chronicle.

THURSDAY, DECEMBER 2, 1880.

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

The Congressional Vacancy.

The claim is made that the governor and council, when they shall have examined and canvassed the votes for members of Congress, must declare Mr. Bingham elected in the Third District, because Mr. Farr, having deceased, is not a person, and the law requires that "the person having the largest number of votes in any district shall be declared duly elected."

The claim is further made that no vacancy exists in the 47th Congress, as the votes cast at the late election cannot be counted until within twenty days of the first Wednesday of June next, and in any event a new election for the 47th Congress cannot be ordered until after those votes are counted.

The Constitution requires that town clerks' certificates of votes for senator shall be returned to the secretary of state "at least twenty days before the first Wednesday of June," and that the governor and council shall "as soon as may be" examine the same, and the governor shall issue his certificate to the persons elected fourteen days before the first Wednesday of June.

The General Laws provide that the returns of votes for representatives in Congress shall be "made out, signed, certified, sealed, directed, transmitted, received, for, examined and counted, at the same time and in the same manner as provided for the return of votes for senators," that "the person having the largest number of votes returned in any district shall be declared elected, and that the governor shall transmit to the person so elected a certificate of such election.

This law is to be so construed as to carry out if possible the will of the people as expressed at the polls. There is no doubt that the people elected Mr. Farr and refused to elect Mr. Bingham. It is the duty of the governor and council to count the votes for congressman and declare the person having the largest number of votes returned elected. Mr. Farr was that person; he was living when the votes were cast, and the governor and council must act upon the returns without inquiring whether the successful candidate has deceased since the election. The declaration must be that he is elected. In no case is any other person entitled to the certificate. Mr. Farr was the person for whom the largest number of votes were cast in the district; he will be found to be that person when the returns are examined, and he only must be declared elected. After the official examination and the declaration, the governor and council being satisfied that such person has deceased, should declare that a vacancy exists, and order a new election.

When shall the returns be examined? The time allowed to the town clerks to forward the returns expires twenty days before the first Wednesday of June, and the examination shall take place "as soon as may be." Whenever the returns are all in, whether on the last limit of the time specified, or at any time sooner, the constitution' duty of the governor and council to examine them is in force. They may do it "as soon as may be," that is after the returns are all in; they must do it without a specified time, but whether the returns are all in or not, if they have received all the returns they need not delay, but may proceed to perform their constitutional duty of examining them.

It is a doubtful question whether a new election can be ordered before the constitutional examination of the returns. The question is of no practical importance, however, in the present case, unless there should be an extra session of Congress. In view of that possibility, it is one that should be considered fully. If in order to its solution an extra session of the legislature is desirable, let it be called.

But whether at an extra or a regular session of the legislature, by all means let the stupid requirements of our present law be altered as soon as possible, so that the votes for members of Congress may be returned and examined without unnecessary delay. E.

The Electoral College.

The presidential electors of New Hampshire chosen at the recent election met in Concord on Tuesday, the 30th ult., as required by law, the whole number being present, as follows:

Aretas Blood, Manchester; Ezra H. Winchester, Portsmouth; Albert L. Eastman, Hampstead; John A. Spalding, Nashua; and Henry L. Tilton, Littleton.

A temporary organization was effected by the selection of Albert L. Eastman as chairman, and John A. Spalding as secretary. The college then proceeded to organize permanently by electing Aretas Blood chairman, and Benjamin F. Prescott secretary.

The electors then notified the governor and council (who were in session in the executive chamber) of their presence, of the acceptance of their offices, and of their readiness to proceed with the discharge of their duties.

An adjournment was then taken to ten o'clock Wednesday forenoon.

The electoral college again assembled on Wednesday, cast the five electoral votes of New Hampshire for James A. Garfield for President, and for Chester A. Arthur for Vice President of the United States, and elected Henry H. Huse, chairman of the republican state committee, as messenger to carry the vote to Washington.

Naval Bureau Reports.

Naval Constructor Easby, chief of the bureau of construction and repair, in his report to the secretary of the navy shows a balance on hand, on the 1st of July last, of $26,165.54 for timber; of $104,528.77 for sundries. There are now in commission twenty-nine steamers, four sailing ships and monitors and two torpedo boats, (total forty-three) besides receiving ships, store ships, those on stocks and at the naval academy, with public marine school ships and tugs of all kinds at the yards, making with those in commission, a total of 139. In conclusion he says: "A brief inspection of the foregoing list of vessels will show the necessity of an increase in the number of efficient vessels for the navy. The finishing of five monitors and two cruising ships, now commenced, and improvements and repairs to the Dictator, are of the first importance. This addition to our small navy would be of great advantage. We have now in the bureau a number of plans of unarmored cruisers and of iron armored rams furnished by the naval constructors attached to the different yards under order of the bureau. These plans can be made use of at any time the department may direct, but for the present I respectfully recommend the building of two armored ships of a displacement of 5,500 tons each, and of three unarmored gun boats, having each a displacement of 700 tons. The estimated cost of these vessels under this bureau is $2,900,000, but an appropriation of only $1,500,000 will be required for the first year. The appropriations asked for this bureau during the next session of Congress are summed up as follows: For the preservation and repair of vessels, the purchase of tools, materials, etc., finishing the New York and the Mohican, and repairing the Dictator, $2,500,000; for building three gun boats and commencing work on two armored cruising ships, $1,500,000; for finishing and repairing the monitors Terror, Puritan, Amphitrite, Monadnoc and Miantonomah, $3,122,836; total appropriations asked for, $7,122,836."

Chief Engineer Shock, chief of the bureau of steam engineering, renews his recommendation that the double-turreted monitors be completed, and it is recommended that an appropriation of $1,165,000 be made for the completion of the machinery of the double turretted monitors Puritan, Amphitrite, Terror and Monadnock.

Commodore Jeffers, chief of the bureau of ordnance, says one of the first and most pressing wants of the navy is guns of the latest and most approved system; there is not a single ship afloat armed with the latest type of effective ordnance. He is satisfied that such guns as the navy requires and demands cannot be made here. Steel is the proper material for our armaments, and the only foreign guns that have proved satisfactory are those of Krupp. It is recommended that at least four machine guns be supplied to the smaller vessels and six to the larger.

Devoted to "Civil Service Reform."

The democratic papers are cheerful over the proposition to have the incoming republican administration adopt the so-called civil service rule. In speaking of Postmaster James of New York, the *World* says:

Mr. James is a strong party man who has nevertheless kept politics out of his office, as the *World* would like to see politics kept out of all details of administration; and the result is that, strong republican as he is, no democratic administration would have thought of displacing Mr. James. The question came up for discussion after Mr. Tilden had been elected and before Mr. Hayes had been counted in, and it was agreed on all hands that no change should be made in the postmastership of New York. If Mr. Tilden had been inaugurated, a proposition to remove Mr. James would have been opposed as strenuously by the *World* as by any republican journal in the country.

Fancy the New York democracy—if Mr. Tilden had been elected instead of being defeated—insisting upon James' retention; or imagine Mr. James willing to remain in the office with the threats of Tammany held over him! It is as good as a play to see how anxious the democracy are to-day that only competent men should remain in or be appointed to office, when the sad words "It might have been," would have shown the liveliest scramble.

Another Humble Hero.

A noble deed of self-sacrifice is recorded on the part of John Williams, the engineer of the St. Louis smelting and refining works, recently destroyed by fire. The furnace containing the melted ore gave away, and the liquid metal, flowing from the break, spread through the works, causing an instant conflagration. A few minutes later it burst into the engine room, and drove Williams from the building. Then, suddenly remembering that he had neglected to turn off the steam, he rushed back into the burning engine room, groping his way through the smoke toward the engine. The faithful Welshman knew that, with the head of steam left on the engine, the boiler would explode in a few minutes, blow the works to atoms, and kill many of the crowd which had gathered around. He reached the safety-valve, jerked it open, and turned to escape. A few steps forward and the fire caught him. He fell on his face, with his arms extended, and probably died instantly, as the heat was intense, and the melted silver, which ran over his outstretched hands, burned them completely off.

A Rigorous Priest.

Bishop Elder of Cincinnati, O., Archbishop Purcell's coadjutor and prospective successor, who some time ago excommunicated a body of Catholic knights for Sunday parading and picknicking, and issued a bull against banged and frizzled hair, and warned the Catholic young women not to attend balls and places of entertainment unattended, has now undertaken to reform the music in the cathedral and churches in his charge. He proposes a substitution of simpler and more religious music for the gymnastic performances of modern choirs.

—"Have you cologne?" she asked. "No, ma'am," replied the druggist. "I have no scents at all." She said he didn't look as though he had.

—Some excitement has been occasioned at Oyster Bay, L. I., over a mysterious discovery made by two gunners. While crossing a boggy swamp they came upon what appeared to be a newly made grave, and suspecting that some foul crime had been perpetrated and the victim buried there, went to a village and procured help. Returning to the spot, they opened the supposed grave, when two duelling swords, apparently new, and each having spots of blood on the blade, were found. They have been under ground only a short time. Since the discovery nothing has transpired to throw any light upon the mystery.

A Foul-mouthed Woman

is even worse than a foul-mouthed man. But no one need be foul-mouthed if they will only use SOZODONT and rub it in well. Don't spare the brush and spoil the mouth, as some parents do with their children when they withhold the rod.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes*. Tu,th&f,&G

AROUND HOME.

Snow shovels, sleigh bells, skates and Holly saws at A. P. Wendell's, No. 3 Market square.

The proceeds of the recent fair at Miss Morgan's school, in aid of the Children's Home, were $468.

George Ryer, advance agent of the "Deacon Crankett Co.," arrived at the Gibson house on the 3d inst.

The man who was killed by falling from the Eastern railroad bridge in Dover while drunk, on the evening of the 29th ult., was identified as Isaac Jones of West Lebanon, Me.

The Scottish Troubadurs who are to appear in a concert on Sunday evening next are said to be among the finest vocalists and intrumentalists ever in this country. The novelty of the entertainment will probably draw a large attendance.

Grand chance to get groceries enough to last all winter, at the sheriff's sale of the stock in store Nos. 39, 43 and 45 Market street, lately occupied by C. L. Brown. Sale *positive*; to take place at 10:30 o'clock this forenoon. See advertisement.

At a meeting in Concord of the governor and council, on the afternoon of Nov. 30th, the petitioners for the pardon from the state prison of Jeremiah Marden of Portsmouth, who was sentenced in April, 1880, to two years imprisonment for burglary, had leave to withdraw.

At Hutchinson's jewelry store, Market square, can be found one of the largest and best-selected stocks in that line ever shown in this city. Of articles suitable for holiday presents Mr. Hutchinson has an almost inexhaustible variety; a few of the more prominent lines of goods which he exhibits are mentioned in another column.

The following Newburyport schooners arrived at this port on Tuesday of this week, to get ready for winter fishing out of this harbor: Forest Maid, Post master; Mary E. Smith, Short master; Ella M. Johnson, Furlong master; Josie Johnson, Hodgdon master; Hermit, Robinson master; Lydia A. Davis, Pettengill master; Guinevere, Norton master; Mary J. Marden, Perkins master; Lydia Adams, Randall master. The Sarah E. Babson, Kenney master, was to have arrived on Wednesday, but was delayed by the storm.

POLICE COURT.

"CONSTABLE HOOK."

On Friday evening Mr. John Murray and Miss Grace Cartland, supported by Shelby's dramatic company, will appear at the Franklin theatre in the pronounced success, "Constable Hook." The scene is laid in Lynn, and the period is 1790. The play takes the audience back nearly a century in the history of our country, to that remarkable era of "Witchcraft" which caused in portions of New England a reign of terror, and placed upon the pages of her history the familiar tales of widespread superstition, warping the judgment of the clergy, courts and people. The Portland *Advertiser* says:

The drama of "Constable Hook" is a piece of considerable interest and entertaining qualities, dealing in the superstitious notions prevalant in New England a century ago. The play is a dramatized version of the old story of the witch Moll Pitcher. Blanche Redmond, a daughter of wealth and luxury, early in the play becomes a victim of a plot, and is forced to wed a hypocritical clergyman, who is an ex-pirate chief, and has assumed the disguise to accomplish his purpose. He is finally foiled by the efforts of "Moll." But the tragic element is subordinated to the comic, and the leading character and central figure is a town constable, who is talkative, consequential, superstitious, and with the best of intentions concerns himself in everybody's business but his own. Mr. John Murray's characterization of the constable was a remarkably easy, natural and finished piece of acting; there was no appearance of the stage about it; his make-up was perfect; and his imitation of the constable's nasal twang was natural as life. Miss Grace Cartland well deserved the hearty applause she received; her Blanche Redmond was a most finished performance. Phineas Leach filled the role of the piratical curate admirably, and the other parts were taken in an excellent manner.

This talented company have just finished one week's engagement at the New Portland theatre, where they made an immense hit; the theatre on Thanksgiving day not being near large enough to hold the numbers who desired to see "Constable Hook."

Naval Affairs.

The training ship Constitution arrived at League island on the afternoon of Nov. 29th, in tow of steamer Tallapoosa.

A Washington despatch of Nov. 30th says the U. S. S. Vandalia will be repaired in ten days at the Brooklyn navy yard from the damage by the recent collision, but will be detained a considerable time for a new piston rod, the one now in the vessel, made in the Washington navy yard, proving worthless.

News and Notes.

A desperate fight took place Sunday, Nov. 28th, between two gangs of railroad laborers near Tottston station, Ind. The battle was purely on account of race hate, one party being Irish and the other Germans. Though all were badly hurt and many seriously wounded, none were killed outright.

The cases of several naturalized citizens arrested in Alsace and Lorraine on charge of owing military service have been decided in accordance with the claim of the United States government.

Lucius Hotchkiss, a retired merchant and banker of New Haven, Conn., died very suddenly, Nov. 29th. A few minutes before his death, his wife, who had gone in to see him, on being informed that he was dying, fell dead on the bed on which he was lying. Mr. Hotchkiss was seventy-eight years old, and his wife seventy-two.

A number of prominent St. Louis ministers who belong to the Evangelical Alliance in that city met recently and freely discussed the question of the violation of the Sunday laws. It was finally decided to bring suits against the saloons, theatres and other places of amusement, and all violators of Sunday laws, and an advisory board of association was instructed to prepare a plan of operations.

There are 615,000 females in New York city, and 590,000 males.

The total debt of the United States is now $1,908,500,000. At the end of August, 1865, when the debt was at its maximum, it amounted to $3,000,000,000, so that within the past fifteen years they have paid off no less than $1,091,500,000 of the liabilities incurred during the late war. In the debt of England during the same period the reduction has been $205,000,000.

A brakeman on a belated Baltimore & Ohio railroad train was sent back to signal an approachng locomotive. The weather was very cold, and sitting down on the track by a fire to warm himself, he soon fell asleep. The locomotive came without warning, and there was a collision, in which the slumberer was killed.

Miss Gardiner, who has achieved distinction by having evicted a good many of her tenants in Ireland, lives in a house defended by iron bars, chains, and by several policemen. She has been shot at through a window of the building, and she carries a revolver in the pocket of her shooting-jacket. Her only companion is a lady named Miss Pringle.

The coinage at the United States mints during the month of November amounted to 7,550,840 pieces. Of these 158,400 were eagles, 187,280 half eagles, 2,960 quarter eagles, 1,600 gold dollars, 1,000,000 silver dollars, 200 each of five and three-cent pieces, and 6,200,200 cents.

At Westboro', Mass., Nov. 29th, Mrs. E. C. Williamson, twenty years old, attempted suicide at her house by shooting. The ball entered her breast, narrowly escaping her heart. Slight hopes are entertained of her recovery. She says she was impelled to the act by an uncontrollable impulse, and had no wish to live. She had been subject to severe headaches. The husband and wife are said to have been devotedly attached to each other.

The druggists and medicine venders throughout the land will be made happy when they hear that the next Congress is likely to abolish the stamp tax on their proprietary goods. Mr. Raum, the internal revenue commissioner, has given out that he will recommend such a measure, and it is believed that Sherman will not oppose it. This tax law has been more generally denounced than all the other features of the revenue laws combined.

It is now stated that the shooting of Lieut. Gov. Robinson, of Colorado, at Roberson's Camp, was accidental.

Two colored boys, brothers, aged fifteen and eighteen years, pupils in a colored free school at Danville, Va., attacked the teacher, a colored man, with knives on the 30th ult., and mortally wounded him. The attack was caused by the teacher punishing the younger boy for playing with the girls.

Emeline Meeker, on trial for some days past in the Washington county, Vermont, court, for the murder of Alice Meeker, was on the 30th ult. found guilty by the jury. Her son, Almon Meeker, indicted for the same crime, pleaded guilty.

Silas M. Waite, the Brattleboro', Vt., defaulter and wholesale thief, is reported to be seriously ill with some lung complaint.

Josh Hart, proprietor of the New York *Truth*, the paper in which the fac simile of the forged Morey letter was first printed, has sued the New York *Times* for libel, claiming that his reputation has suffered to the amount of $50,000!

Five survivors of the steamer Simcoe, wrecked on Lake Huron, have arrived at Owen Sound, Ont. The vessel foundered Nov. 24th, and ten men and two women were drowned. The survivors escaped in a boat.

Ex-Gov. Seymour of New York, who some time ago was reported as being very ill, has recovered his usual health.

John W. Forney is mentioned as the democratic candidate for mayor of Philadelphia.

About 350,000 barrels of apples have been shipped from the port of Boston thus far this season against 50,000 for the same period last season.

A planter near Savannah, Ga., who had had previous experience in the cultivation of the tea plant in India, has now 25,000 plants growing, and the New York experts prononnce the samples to be fully equal to imported tea worth fifty cents a pound.

Collecting the revenue is difficult and dangerous business. It appears by the report of the commissioner of internal revenue that during the term of the present administration nearly 4000 illicit stills have been seized, and over 7000 persons have been arrested for illicit distilling, while twenty-five officers and employes have been killed, and more than twice that number have been wounded while attempting to enforce the revenue laws.

The national board of trade offered prizes amounting to $1,000, at its meeting in Washington last December, for "the best act or acts, accompanied by an essay, designed to prevent injurious adulteration, and to regulate the sale of food without imposing unnecessary burdens upon commerce." The competition closed on October 1st, and the committee of award has just made its report. The prizes are awarded to G. W. Wigner, F. C. S., of London; Vernon M. Davis of New York, and William H. Newell of Jersey City Heights.

At a meeting of the governor and council, held in the executive chamber at Concord on the 30th ult., the nomination of Hon. Isaac N. Blodgett of Franklin to fill the vacancy as associate justice on the supreme bench, made vacant by the resignation of Hon. Geo. E. Bingham of Littleton, was confirmed.

There will be an adjourned meeting of the Rockingham Masonic Mutual Relief Association, at Masonic hall Thursday evening, Dec. 2d, at 7:30 o'clock,

AMOS S. FOSTER, *Secretary.*

Fairbairn's "Scottish Troubadours" are to give a sacred concert in Music hall on Sunday evening. They are said to be splendid musicians. Ticket are on sale at Preston's—15, 25 and 35 cents, according to location.

WHITINSVILLE, MASS Feb. 28th, 1878.

Your Lotion by chance found its way to this place, and met with such favor that more of it is wanted. I have not yet succeeded in finding a place where it can be obtained. Will you please inform me by return mail price per dozen bottles. Yours truly, E. P. HOPKINS.

J. T. Robinson, successor to H. W. Dinslow & Co., writes:

RICHMOND, ME., March 9th, 1877.

Dear Sir: I have used your Lotion for Chapped Hands in my family, and will say that I have never used anything that is equal to it, and don't know of the first case where it has been sold, that it has not given entire satisfaction.

Yours truly, J. T. ROBINSON.

A western lady, writes:

DELPHIN, IND., Aug. 4th, 1876.

Dear Sir: I sent to you some time ago for three bottles of your Lotion for Tetter, on my aunt's hands, of five or six years standing; it has entirely cured her. Please send me price per dozen, as the expressage on three bottles is $1.50.

Catarrh Sometimes

commences with a cold, but its cure always commences with the use of Sage's Catarrh Remedy. This old, reliable, and well-known remedy has stood the test of years, and was never more popular than now.

Mrs. Theresa Reinschneider, *alias* Graw and a dozen or more other names, has been arrested in Brooklyn for bigamy and grand larceny. She is a handsome woman about twenty-five years old, and it is said has married eighteen men, robbing and deserting each one at the earliest opportunity.

The fund of $1600 which has been contributed by many of the passengers of the Scawanhaka for the heroic captain, has been handed to Captain Smith, with hearty assurances of the gratitude and esteem of the contributors.

S. H. Irwin, of Ute Creek, Colfax, Co., New Mexico, says:—My wife has been cured of a cough of thirty years' standing by wearing an "Only Lung Pad."—*See Adv.*

The Achard electric brake is a new French invention which operates on the wheel brakes by means of electricity generated during the motion of the train, and applied at pleasure. The experiments so far have been successful, a loaded train having been stopped in 660 feet. Friction is applied to a cylinder under the car in about the same way that air pressure is used in the Westinghouse system.

Dr. B. Joy Jeffries has tested the scholars of the Chauncey Hall school, Boston, for color blindness, and found that out of 109 boys twelve were color blind, while of fifty-four girls none had defective sight.

—Certain "upper circles" of Chicago are seriously disturbed by the discovery that the beautiful and brilliant wife of a rich German emigrant, who brought letters of introduction which opened the most exclusive doors, is a former well known trapeze performer, who disappeared from public view some time ago, after a terrible fall received in a Vienna theatre. It was a runaway match, and the exposure was made by a former husband of the woman, from whom she supposed she had been freed by his desertion. Society promptly closed its doors against the pair, but a legal divorce was procured, a remarriage had, and the husband's father, a wealthy Viennese, telegraphed: "Come back with your wife, and all will be forgiven."

Endorsed by the faculty. The reputation of Dr. Bull's Cough Syrup has been solely achieved on account of its merits. Physicians prescribe it.

—An old Vermont farmer came home drunk the other night, and become the victim of an irrepressible desire to get still drunker. So he thought he would bring out his wagon and drive over to Shelburne Falls for more whiskey. Just as he was about putting the finishing touches on the harnessing arrangements he said to himself, "This horse has got horns!" He brought out his lantern and found he had harnessed the cow to the wagon. He muttered, "I'm drunk enough now," unhitched the beast and went into the house to sleep it off.

Kidney Disease of 30 Years Standing Cured.

ELK FLAT, OREGON, Jan. 12, 1880.

The second package of Kidney-Wort is nearly gone, and I enclose a dollar for another package. I am a woman fifty-six years of age and have been afflicted with kidney disease for more than thirty years. Kidney-Wort has done me more good than any other remedy I have ever taken, and I am sure will cure me.

CANTERBURY SHAKERS' LIFE-INVIGORATING SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Vegetation Extract that any other contains,) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. T. E. CROS. BY, M.D., W. D. BUCK, M. D., S. BUNTON, M. D., J. S. ELLIOT, M. D., JAMES BABB, M. D., Z. COLEMAN, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. GALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefitted by other Sarsaparillas should not fail to make a single trial of the Blood Purifying and Life Invigorating Compound of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Black Cohosh, Garget, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by Thos. Corbett, its inventor. Sold everywhere. Inquire for Corbett's Shakers' Sarsaparilla.

MALT AND HOPS **BITTERS**

A DISCOVERY BY ACCIDENT,

supplying a want which men of eminent ability have devoted years of study and experiment to find—a specific for **Disease of the Kidneys, Bladder, Urinary Organs and Nervous System**—and from the time of its discovery has rapidly increased in favor, gaining the approval and confidence of medical men and those who have used it; it has become a favorite with all classes and, where introduced, has superseded all other treatments. In short, it is the greatest discovery of modern times, that it is now the only recognized reliable remedy.

DISEASES OF THE KIDNEYS

are the most prevalent, dangerous and fatal affections that afflict mankind; and so varied and insidious are their symptoms, that persons often suffer for a long time before knowing the nature of their disease. The most characteristic symptoms are gradual wasting away of the whole body, with its pains and aches, loss of appetite and dread of exertion, scanty and painful discharge of variously colored urine; inability to retain, or expel the urine; minute sediment in the urine; and, when the disease is of long duration, there is much emaciation and general nervous prostration.

THE ONLY CURE.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only infallible cure for every form of Kidney disease. It is the best remedy yet discovered for this complaint, and more effectual in its operation than any other treatment. By using faithfully one bottle, scarcely no case will be found so inveterate as not to yield to its powerful remedial virtues.

STRONGLY ENDORSED.

We have the most unequivocal testimony to its curative powers from many persons of high character, intelligence and responsibility. Our book, "Day's Life was Saved," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it.

DAY'S KIDNEY PADS are sold by druggists, or will be sent by mail (free of postage) on receipt of their price: Regular size, $1.00; Specials, for obstinate cases of long standing, $2.00; Children's, $1.50.

Chronicle Correspondence.

WASHINGTON, D. C., Nov. 30th.

Some one has just set afloat a story that a combination has been formed, in which Fair of Nevada is to have a part, to enable the republicans to organize the Senate. The conservative elements necessary to the success of this scheme have, it is said, definite and satisfactory assurances as to the character of the coming administration.

The leading newspapers of the country will have very full corps of correspondents here this winter; not so large, perhaps, as the exciting events of 1876-77 brought, but larger than at any time previous to that. In point of numbers of persons sent here, the New York papers exceed all others; but in the employment of various agencies through which the news and sensations of the capital are gathered in times of great interest, several of the western papers exhibit more energy and liberality than even the New York *Herald* or *Sun*. Political events are those which make Washington life worth expensive reporting, and the interesting figures in our late national politics are western rather than eastern and the reading population of the west is rapidly increasing, while that of the east is nearly stationary.

General Garfield expects to leave tonight, but may be detained. As was certain to be the case, politicians have taken up most of the time since he reached here. Senator Blaine has been gaanted the longest interview. It is now held to be certain that, whatever "policy" the general may attempt to carry out, he will attempt it with the advice of those republican leaders who have the confidence of the republican masses.

Many influential citizens of the District of Columbia will this year repeat the effort of the last, to secure a liberal appropriation from Congress for the improvement of Washington harbor. That harbor is becoming a marsh, slowly—but surely. A comparatively small sum, judiciously expended now, will prevent the total ruin of the water front, or save an enormous expenditure at a later date. It is a curious fact that every President during the past generation has earnestly recommended government action in this matter, and that nothing more has been done than might have been done for the trout streams annually provided for in the river and harbor bills.

The National Grange, Patrons of Husbandry, closed its annual session on Saturday. It voted to maintain an office in this city. The daily sessions of this year have been very pleasant, and the "Patrons" have created a most favorable impression. This city will be the place of meeting again next year.

Reports received here do not confirm rumors of a revival of "Exodus" feeling among the negroes of the southwest. I am able to say, from personal observation, that the North Carolina craze among negroes on this subject is over. KNOX.

George E. Chipman's Thanksgiving Present.

Many blessings are showered upon the heads of many people at this time of year, and the governors of all the states ask their constituents to set aside one day for specially noting what they have to be grateful for. Taken all in all we presume the great majority of people are better off, and will have a happier Thanksgiving this year than they have at any time previous to the panic of 1873, which hung on like a toothache and brought so much misery and misfortune in its train. Now people are more prosperous in all the walks of life, and though many here and there feel thankful, happy and good-natured, no one in this vicinity will sit down to his Thanksgiving dinner with a better appetite than the genial George E. Chipman, of the well-known firm of Chipman Brothers, dealers in gents' furnishing goods, at the corner of Washington and Court streets. He is a cautious and conservative merchant, who would as soon think of buying a corner lot of thin ice in Labrador as of purchasing a lottery ticket; but he accidentally did do this latter thing the other day, with a result which rather surprised him. More as a joke than anything else he passed a dollar to Mr. L. F. Crosby, the New England agent of the Louisiana Lottery Company, when the latter was buying a necktie of the latest style, and received one-half of ticket No. 85,498. The reader can judge of Mr. Chipman's surprize when he was informed that he had drawn $15,000, one-half of the capital prize in the regular drawing at New Orleans, November 9, 1880. He had not paid any attention to the date or the ticket, and his surprise was all the greater. A little investigation of such news was, of course, worth making, and the statement was confirmed. Mr. Chipman is not a man who is unduly elated by good news or unduly depressed if bad news comes. He quietly went to New York, receipted at the office of Adams Express Company for three bags of gold containing $5,000 each, took the train for home with his precious baggage, put it where it would be productive of the greatest good, and went about his business as quietly and as energetically as though he had simply received an invoice of a hun-

dred dozen neckties. Mr. Chipman does not usually get on the housetops to give vent to his feelings when he is doing a big business or has a piece of good luck, neither does he groan when hard work is needed to overcome obstacles. He is not inclined to talk much about this purely accidental windfall, and his immediate friends who know of it really seem to enjoy his good fortune better than he does himself, so far as outward appearances are an index of feeling. He is attending to business with the same care, caution and industry as ever, and is to be congratulated on his even and non-excitable temperament.—*Boston Globe, Nov. 26.*

R. H. Berdell, ex-president of the Erie railroad, has been indicted by the grand jury in New York for perjury.

Help One Another!

Of course. What else are we here for? For example: Mr. Asa F. Bearse, of Cotuit, Mass., had been troubled for years with diseased liver and could get no relief. He was not fit for business, and carried his life like a burden on his back. Just then his friend, Capt. Handy, said: "Asa, why don't you send to Dr. David Kennedy, of Rondout, N. Y., and get a bottle of his 'Favorite Remedy.' It will only cost you a dollar, and may do you good." Bearse did so, and after a short time was sound as the dollar with which he bought the medicine. To be sure, let us help one another. Sold by all druggists.

A new democratic paper is to be started in Brooklyn. It is said that several wealthy gentlemen have pledged $150,000 to the new enterprise.

Many complaints of small children arise from indigestion. If your child is sick give it D. R. V. G. You will be surprised at the charming effect.

From Waterford, Ireland, comes a statement that arms are being sold to an extraordinary extent, and that the whole country is armed to the teeth.

W. A. Titus, 62 Ashland Avenue, Toledo, Ohio, says:—My wife is now as strong as ever, her regained health being directly due to the use of the Excelsior Kidney Pad. We can heartily recommend it to all kidney troubled persons.—*See Adv.*

A disgraceful scene occurred at Lonsdale, R. I., a few days ago, at a funeral. A man, supposed to have been under the influence of liquor, tried to drive past the hearse in a funeral procession, and in doing so ran over one of the pall bearers. He was arrested.

Emaciation, dropsy, mental and physical weakness arrested by Malt Bitters.

News and Notes.

George Alfred Townsend, better known as "Gath," the New York correspondent of the Cincinnati *Enquirer*, has given bail in a $16,000 libel suit brought against him by Josh Hart, the *Truth* man. Whitelaw Reid and Gen. Anson G. McCook became Townsend's bondsmen. The suit grew out of the forged Morey letter, and the perjuries by which it was sought to be sustained until after the election.

Twenty-five thousand Chilians, with 5,000 cavalry and 100 cannon, left Arica on the 5th ult. and arrived at Pisco on the 25th. A great battle was expected near the end of November. The Peruvians were estimated to number nearly twice as many as the Chilians.

Anne Pearson of Springfield, Mass., aged thirty-five years, killed herself on the 1st inst., with Paris green. She became crazed because her husband deserted her and her four children. Pearson, who is a cigar maker, has gone to New York city.

Northampton, Mass., was much excited on the 30th ult. over the discovery of an organized system of robbery among clerks in various stores. The boys have been living fast, and it is found that they have been receiving all the goods they wanted from each other's stores, without pay. Ten or a dozen young men have already been caught, and there are thought to be many others and that the thefts are large, but it is not known definitely. There have been no arrests. The boys are from the best families in the town.

All of the freight from steamer Rhode Island which was picked up and taken to Newport, R. I., has been satisfactorily settled for, and turned over to the authorized agents of the insurance companies and steamboat company.

An official report recently published shows that there are now in operation in Georgia fifty gold mills, with nearly 500 stamps, representing a capital of nearly $500,000 brought into the state from the north and west during the last five years, and that new investments are constantly being made. As evidence of Georgia's mineral wealth it is reported that iron ore has been found in seventy-one counties, gold ore in sixty-one, limestone in forty-eight, granite in forty-five, quartz in forty-six, soapstone in twenty-five, asbestos in twenty-eight, corundum in nine, manganese in fifteen, marble in six, kaolin in eleven, and copper in twenty-seven.

A letter or package containing $70,000 in drafts was mailed from New Orleans, October 8th, to New York city, and arrived there October 12th. Thence it was sent by steamer to England, but was returned, and finally it turned up in the dead-letter office, where it was opened, and finally it found its way back to the sender. Much inquiry had been made for the missing package, and suspicions strong enough to make several post-office officials uneasy were directed against them. Once it was hinted to the sender that he might have misdirected the package, but he was positive of having been accurate on this point. When it came back from its long journey, however, it was found to have been addressed to "———, New York, England."

The residence of Herbert Eaton, located at Barber's beach, near Calais, Me., was saved from burning recently by Mr. Eaton's house-cat pawing him in the face. When he awoke his room was on fire, and had it not been for his cat he might have perished with the house.

Richard Hunnewell of South Auburn, Me., recently caught in a trap an animal to which nobody is yet able to give a name. It is about four feet long, with black fur, except on the top of its head, where the color is grey, and has a tail about the size of a man's arm. Some think it is the creature which has been prowling around that section of country killing calves, sheep, etc.

At Linares, Spain, lately, three miners were sinking a shaft, and after charging the bore holes with dynamite, two climbed to the gallery above, while the third reminded to light the fuses attached to the charges. Having done so he signalled to his comrades, and was being hoisted up, when on nearing the top he lost his hold, and fell a distance of fifty feet to the bottom, where he lay, stunned and disabled, close to the lighted fuses. One of his comrades instantly put his knife between his teeth, and descending by a chain ladder, severed the fuses as they were about igniting.

A few nights ago a sneak thief went through a Pullman car in the vicinity of Baltimore, and made quite a haul. John Alley, of Macon, Ga., missed a package of government four per cents, worth $2,000, $400 in money, and a watch and chain worth $150. Robert Brewster, a traveling salesman for a Pittsburg iron house, lost $187 in money, a watch chain worth $200, and a diamond stud and collar button worth $100. Mrs. Josephine Houshing, of New York, lost $48 in money and some jewelry worth $50. Mrs. Reed, of Washington, lost a bracelet valued at $20 and $32 in money. Francis B. Reighter missed a bundle of bonds of the Selma, Rome & Dalton railroad, whose face value was $3,000. Two other passengers lost sums of money, swelling the total to somewhere near $7,000. All of the passengers gave satisfactory accounts of themselves, and so the matter was left in the hands of the "detectives," the passengers going on their way not with "rejoicings."

A gentleman recently came to New Orleans for the purpose of investing some $700,000 in mortgage securities. He approached one of our ablest financiers, who was on a visit north this summer, and requested him to place the money in loans upon real estate. The banker referred to declined to undertake the disposition of the sum in the manner indicated, but advised the capitalist to come to our city, investigate the situation, and exercise his own judgment in the matter. He did so, and after a sojourn among us of some days departed without investing a single dollar.—*New Orleans Times.*

Political Notes.

It is said that the vote of Georgia is likely to be lost to Hancock and English, the members of the electoral college not having met on the first Wednesday in December and cast their votes, as the revised statutes of the United States provide shall be done in every state of the Union. The law of Georgia directs the electors of the state to assemble on the first Monday in December, to be ready to vote on the following Wednesday, which this year is the 8th day of the month; so the electors of Georgia did not vote on the 1st inst., though those of every other state did. If the vote of Georgia is cast on the 8th, and counted by the constitutional authorities on the 4th of March, it will be an acknowledgment that the statutes of Georgia can annul or over-ride those of the Nation.

Says the *Herald*: "The suggestion that the vacancy in the next Congress, caused by Maj. Farr's death, cannot be filled before the 4th of March, does not strike us favorably. The governor, like everybody else, knows the facts, and if he gives a duly elected man his certificate, why should it not be respected? Presently the people will sit down on the politicians, who are continually scheming to defeat their will." This sounds nicely, but will the *Herald* please tell us how the governor is to know the facts before the votes are counted. If we mistake not the New Hampshire statute says the votes cast for congressmen shall be counted at the same time as those cast for state senators. This is in June.—*Post.*

For the Holidays--Beauty in Mistature.

Refinement loves elegance, and personal adornment is a first duty of civilization. The refined man or woman rejoices in the beautiful; art, music, flowers, all charm the polished mind, while the taste for perfumes, odorous applications for preserving the beauty of the hair, skin and teeth, and all those artistic appliances of the toilette which science has produced are dear to the cultivated taste. The body is God's temple, and a perfect care of it in cleanliness and adornment is the parent of pure thoughts and happy ideas. When we see any one neglectful of personal attractions, we expect no exalted ideas, no marks of a cultivated mind. How much does a traveler, accustomed to a bountifully furnished toilette table, miss these adjuncts to a stylish appearance when on a journey. To obviate this, Joseph Burnett & Co., Boston, have invented a beautiful little article known as "*Burnett's Miniature Toilet*," and by its aid travelers of either sex can indulge in luxurious adornment wherever they may be. Prettily made and delicately fitted with the leading articles of Joseph Burnett's unequalled preparations in miniature size, it occupies no more room than a small despatch case, and yet is furnished with Burnett's Cologne, Florimal for the handkerchief, Cocoaine for the hair, Kalliston for the skin, and Oriental Tooth Wash, and a beautiful brochure of advice for the toilette, and other matter which has already become very popular, and is used by the principal artists of the drama and opera. We will only add that this *petite* and *recherche* Toilet Companion is admirably adapted for the holidays. Examine it at any fashionable drug store, and it will be found as neat and suitable a present both for home and traveling use as anything that can be purchased at such a small cost. Druggists should order it early.

—"Young ladies have the privilege of saying anything they please during leap year," she said, eyeing him out of the corner of her eyes with a sweet look. His heart gave a great bound, and while he wondered if she was going to ask him the question which he had so long desired and feared to do, he answered, "yes." "And the young men must not refuse," she said. "No, no! how could they," sighed the young man. "Well, then," said she, "will you take a—" He fell on his knees and said: "Anything you ask, darling." "Wait till I get through. Will you take a walk, and not hang around our house so much?" He walked.

—A suit for damages against the city of Cleveland was recently decided by the measurement in court of the plaintiff's foot. The claimant, a married woman, sued for $15,000 damages for bodily injuries received in falling into a hole in a bridge, while passing over it at night, receiving abrasions on the leg to the knee and seriously injuring one arm. The defense proved the hole was a very small one, being only a foot long and three inches wide, and held that the accident could not have occurred as alleged. The plaintiff's attorney sent for a foot rule, and, measuring his client's foot, triumphantly showed the jury it was but two and half inches wide at the broadest part, and only eight inches long with the shoe on. The verdict was for the plaintiff in the sum of $1,000.

ORDINANCES OF THE CITY OF PORTSMOUTH.

CHAPTER XIV.

SEC. 3. The occupants, or, if unoccupied, the owners, of all the buildings and land situated within the city, shall keep the sidewalks adjoining their respective premises, in all cases where a sidewalk has been or may be constructed, free from snow, by causing the snow to be removed into the street, and evenly spread, and when any of said sidewalks are covered with ice, so as to make the passing dangerous, said owners or occupants shall spread over said sidewalk ashes, sand or salt, in such manner as to prevent the same from being dangerous, within six hours after the cessation of every fall thereof or when the snow shall have blown or drifted upon said sidewalk by the wind. The time herein allowed for the performance of the work, to be computed from sunrise the succeeding morning whenever the fall of snow shall have ceased in the night time.

SEC 4. Any person disregarding or offending against the provisions of this ordinance, shall upon conviction therefor, forfeit and pay a fine not exceeding TEN DOLLARS for each and every offence, with costs of prosecution; and it shall be the duty of the City Marshal, under the counsel and the direction of the Mayor, to cause this chapter to be enforce d.

Notice is hereby given that, by direction of the Mayor, the above ordinance will be strictly enforced in every instance, during the ensuing winter.

THOMAS E. TWISTLE,
Dec3 City Marshal.

Pay Inspector George L. Davis is ordered to this navy yard as inspector of provisions and clothing, relieving Pay Inspecter Edward May.

"Constable Hook" at Franklin theatre to-night, with John Murray as the constable and Miss Grace Cartland in the leading female part, supported by Shelby's dramatic company.

The milkmen of Dover have raised the price of milk to six cents a quart, alleging that they cannot sell at the former price, five cents a quart, without loss, owing to the large advance in the price of hay, corn and shorts.

Charles E. Rowe, a shoemaker, thirty-five years old, was found in an insensible condition in Gale's court, Haverhill, Mass., on the morning of the 30th ult., and died the next night from concussion of the brain caused by falling, and from exposure. He belonged in Seabrook.

The stock of groceries in the store recently occupied by Cyrus L. Brown was sold at auction Thursday forenoon, to M. S. Ayers & Co., of Boston. The purchase price was $6286.66—seventy-two per cent of the appraised value, which is regarded by business men as a very fair price to secure.

Dr. Nathaniel Batchelder, of Epping, died Dec. 1st, at the age of seventy-seven years. He was one of the old land-marks of the town; was born there, and with the exception of a few years has always been a resident of the town and a practicing physician, as was his father before him, who lived to be seventy-eight years of age.

Oscar Laighton and Mrs. Thaxter have visited London, and are to pass the winter in Italy. So far the travelling "Lord of the Isles" finds nothing which satisfies him as do the rocky shores of his home at Appledore. Cedric Laighton has gone on a trip to Florida. Oscar will return in abundant season to give his guests a friendly grip of welcome next summer at his old quarters.

There was a go-as-you-please foot-race in New Bedford, Mass., ending on the 27th ult., for a purse of $600, the contestants being an English runner named Warburton, and Hiram Jackson of Dover, a mule spinner. The race was to be six hours per day for three days, and at the end of the twelfth hour, Friday night, Warburton was four miles ahead. Saturday reversed this, for on the eighty-third mile Warburton gave out, having broken down with indigestion in the fourteenth hour, leaving Jackson to win easily.

Mr. Editor:—At the regular meeting of the Dover Reform Club, held at American hall, Sunday afternoon, Nov. 28th, the following resolution was offered and unanimously adopted by the club by a rising vote:

Resolved by the Dover Reform Club, That in the death of Hon. Frank W. Miller, editor of the *Portsmouth Weekly*, the good cause of temperance in all its phases and branches lost one of its most devoted, unflinching advocates, and the community at large one of the most sterling and outspoken editors in the country; and we tender our heartfelt sympathies to the widow and relatives of the lamented deceased.

Resolved, That these resolutions be published in the Dover and Portsmouth papers.

MRS. GEO. T. WENTWORTH, Secretary.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening, Dec. 2d:

Alfred Stavers was granted an annual licence for Franklin theatre for one hundred dollars.

Executions against the city in favor of Dr. Brainard Dearborn and Abbey Sides were ordered to be paid.

The subject of a new furnace at High school was referred to committee on school-houses to report at next meeting.

Mrs. Gordon was granted permission to cut down some cherry trees on State street.

New Hampshire Items.

Nathaniel K. Clark of Plaistow writes to the *Mirror* that he raised on two acres and 142 rods of land 510 bushels of ears of sound corn, which weighed from 38 to 40 pounds per bushel (the rule being 36 1-2.) This makes the yield very nearly a hundred bushels per acre.

Hon. Simon Warner died at the residence of his daughter in Whitefield, Nov. 29th, aged ninety-four years. He was one of the first settlers and the oldest citizen living in the town at the time of his death. He had always been a firm democrat, and had served in the house, senate and as a member of the governor's council. He was a veteran of the war of 1812.

Warden Dodge removed the prisoners from the old to the new state prison in Concord on Tuesday, the 30th ult. The removal was easily and speedily made. It will be a surprise to most of the prisoners to find themselves in so good quarters.

At a meeting of the governor and council on the 1st inst., Attorney General Tappan was present, and the whole session was devoted to the consideration of the complications in the third congressional district. No definite action was taken, and the matter was postponed until Friday morning. The executive body proceeded to count the votes in the three congressional districts.

Seamen Massacred.

The *Herald* of Sidney, New South Wales, gives the following particulars of recent massacres of white men by South Sea islanders:

The brigantine Borealis, while seeking harbor at Urn, near Maloyta, in the Solomon group, was attacked by natives, who captured the vessel. Of the crew, five whites and one Fijian were killed. Capt. McKenzie, the government agent, and a boat's crew, who were ashore at the time, pulled a distance of forty miles to procure three other vessels. They returned, and recaptured the vessel. George Wood was severely wounded, but managed to conceal himself till the vessel was retaken, when six native men, a woman and a boy were captured, and taken to Lemka.

The cutter Idaho, Capt. McMillan, was recuiting labor at the island of Sante. The natives boarded her, under pretence of engaging for labor, and in the absence of a boat's crew to the shore, tomahawked the captain and the native crew remaining on board, all except two, who got below, obtained muskets and drove the murderers overboard. The boat's crew were attacked at the same time and all killed but two, who reached the cutter and sailed away. The shooting of some natives about three months ago was one of the causes of the attack. The natives are armed with many modern weapons, obtained from Queensland, Australia, and grow daily more dangerous and insolent. Traders assert that no one's life is safe among the islanders, nor will be until there is a radical change in their relations.

Books, Magazines, Etc.

"Memoir of Gov. Andrew, with personal reminiscences," by Peleg W. Chandler; with hitherto unpublished literary discourses, and valedictory address." Boston; Roberts Brothers. This memoir of the distinguished war governor of Massachusetts, by one of the leading members of the Suffolk bar, was originally written at the request of the Massachusetts Historical society. The Messrs. Roberts having obtained consent to reproduce it, the author at their request has added some personal reminiscences. There are also inserted two literary discourses of Gov. Andrew, now first published — the oration before the Athenæan society of Bowdoin college in 1844, and an address given in July, 1859, at the Maine Female Seminary at Gorham. Mr. Chandler gives us a succinct but satisfactory glimpse at the salient traits of this distinguished man, and our admiration of his many excellent qualities is revived by this memorial reminder. The work has four illustrations; a portrait of the governor, a fac simile of his handwriting, a view of his birthplace in Windham, near Portland, Me., and his monument at Hingham. It is a most readable book. Price, one dollar. For sale by W. G. Myers.

"Certain Men of Mark: Studies of living Characters," by George Makepeace Towle. Roberts Brothers, Boston; pp. 242; price $1.00. There is, as the editor of a magazine remarked to us recently, a constant desire upon the part of readers to know the traits and characters of living men of prominence. While we are ready to reverence the distinguished dead, we insist upon being well acquainted with the living men who to-day, in a measure, control the destinies of other nations and are prominent in the enactment of current events. Mr. Towle has supplied this want, heretofore felt, in his new book. He describes Beaconsfield, Gladstone and John Bright, Bismarck, Gambetta, Castelar and Victor Hugo, and three Emperers in Europe, the Czar Alexander of Russia, King William of Prussia, (now Emperor of Germany,) and Emperor Francis Joseph of Austria. Just at this moment it is interesting to every reader of foreign news to become acquainted through the personal observation of Mr. Towle, with the three English statesmen above mentioned, and the sketches give us just what we wish to know of these men, of whose public acts we are daily reading it in the public prints. Myers has it.

—A sensational story is making the round of the German papers. Some eight years ago a young German lady murdered her husband. She was condemned to death, but made her escape from prison. She fled to Russia, where she supported herself by teaching. Her beauty was remarkable, and she recently married a Russian merchant. His business took him to Kalisch, where his wife was recognized by some agents of the German police, who denounced her to the German authorities. She has been surrendered, and now awaits the action of German justice.

—A plan for photographing a great expanse of underlying country by means of cameras elevated on balloons and actuated by electricity has recently been tried with great success at Rouen in France. It is an invention of M. Paul Desmarets, and consists in fitting a camera, loaded with its sensitive plate, to a captive balloon so as to point downward on the earth below. Instantaneous exposure of the sensitive plate is effected by an electric current sent from a battery on the ground to the camera by means of wires attached to the rope restraining the balloon. The Rouen photographs were obtained in this manner at an altitude of more than 1,000 yards, and one of them comprises a piece of land 300 yards square, with houses, gardens, and roads upon it, while another shows a considerable stretch of the Seine together with the Rouen railway bridge. By magnifying the picture the details can be brought out with great distinctness, and a natural map of a whole district obtained. Indeed so excellent are these photographs and so much more interesting to the public than ordinary maps, that steps are being taken to photograph all Paris in the same way.

There will be an adjourned meeting of the Rockingham Masonic Mutual Relief Association, at Masonic hall Thursday evening, Dec. 2d, at 7:30 o'clock.

The Best Hair Dressing in the World.

BURNETT'S COCOAINE allays irritation, removes all tendency to dandruff, invigorates the action of the capillaries in the highest degree, and has earned a deserved reputation for promoting the growth and preserving the beauty of the human hair. Ladies dressing their hair elaborately for the evening will find that it imparts a healthy natural gloss to the hair, and will cause it to retain its shape for hours.

BURNETT'S FLAVORING EXTRACTS are used and endorsed by the best Hotels, Confectioners, and Grocers throughout the country. They are perfectly pure.

A Foul-mouthed Woman

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Testimonials are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes*. Tu,th&f,&G

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

Parties living at a distance, (except in surgical cases,) by sending a statement of their case can be treated at home.

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

A Living Clock.

The human system is a kind of machine. If one part is seriously out of order the whole goes wrong. The blood in circulation is the mainspring. Keep this all right and you will not suffer from kidney and liver disorders, piles and constipation. And in offering you Dr. Kennedy's "Favorite Remedy" as the most successful regulator of the human machine ever discovered, we oblige the sick and suffering more than we oblige Dr. Kennedy. Invest one dollar for a bottle at the store, or walk all the way to the doctor's office in Rondout, N. Y., rather than not get it.

—When a young man at a West End boarding house found the girl he adored was flirting with another man, he didn't try to make either believe the other false. He hired the waiter to bawl out in the kitchen, loud enough to be heard in the dining room, "Second plate o' pork, another helping o' onions an' some more pertaters, and a fresh plate o' bread for Miss Blank." And the other fellow of course heard it, and dropped her.

See advertisement in other column, of the great and reliable dyspepsia remedy, D. R. V. G., guaranteed by all druggists.

—"You can't play that on me!" said the piano to the amateur who broke down on a difficult piece of music.

S. H. Irwin, of Ute Creek, Colfax, Co., New Mexico, says:—My wife has been cured of a cough of thirty years' standing by wearing an "Only Lung Pad."—*See Adv.*

—A gentleman went home the other night with a severe cold, and said to his wife: "I have to-day been told to take hot teas—penny-royal tea, barley tea, baked-lemon tea, beef tea, curry tea, hop tea, celery tea, liquorice tea, red pepper tea, baked-onion tea, mint tea, hay tea, baked-apple tea and burnt-sugar tea." "Well," said the sympathizing wife, "which do you think you will take?" "If you have no objection," said he, "I think I will take the hot gin sling."

SIR ROBERT CHRISTISON, physician to her Majesty the Queen of England, speaking of the Coca plant says, "The properties of this wonderful plant are the most remarkable of any known to the medical world. From repeated personal trials I am convinced that its use is highly beneficial and tonic."

To Build up a Broken Down System use the Liebig Co.'s Coca Beef Tonic, indorsed and recommended by the foremost physicians of Europe and America.

Sweetness.

The annual sugar production of the world is about 5,500,000 tons, or, in round numbers, twelve thousand million pounds, of which about three-fourths is the product of sugar cane and about one-fourth of the sugar beet, the quantity from other sources being comparatively insignificant. The countries producing cane sugar, named in the order of their importance, are the West Indies—Cuba and Porto Rico—with an annual product of at least 750,000 tons; British India, China, the islands of the East Indian Archipelago, Brazil, the British and French West Indies, the Guianas, the United States (80,000 tons), Peru, Egypt, and Central America. But there is hardly any tropical region which does not produce sugar, from which it is obtainable by commercial intercourse. The beet-sugar crop is not important either in England or in the United States, the centres of production being—First, France; second, Germany; third, Russia; fourth, Belgium, with a notably smaller product in Austria and Holland, and very little in Sweden and Italy. Grape sugar is not referred to in the forgoing figures. Great Britain and the United States use about one-third of the cane and the beet sugar that is produced in the world. The per capita consumption of Great Britian in 1877 was 64.9 pounds. Germany consumes about nineteen pounds per capita, while Russia consumes only about seven pounds per capita.

The avenues leading to an early grave have often been opened by a cough or cold. Thousands have been cured and saved by Dr. Bull's Cough Syrup. It is cheap, only 25 cents a bottle.

—A gang of commercial travellers call themselves the drum corps. They beat the world.

Pain in the back, resulting from strain, spinal affection, overwork or disorder of the kidneys, yields to the remarkable strengthening powers of Day's Kidney Pad.

—Cabinet makers in Illinois are kept busy making furniture owned and used by Abraham Lincoln.

No purer, safer, more unobjectionable stimulant in medicine than Malt Bitters.

Daily Chronicle.

A Poetic Story.

There is quite a singular fact in connection with Stiles' hill, in the town of Southbury, Conn., known to the country residents living within sight of that eminence. For six decades two elm trees stood side by side, a little distance apart, upon the topmost point of the elevation; these trees were visible for many miles around, and from this fact they became noted land-marks. More than sixty years ago two little girls were won't to pass over the summit of this hill daily, during the summer season, to drive their father's cows to pasture. They were impressed by the sightly attributes of the elevation, and often tarried to view the widespread landscape. One day they conceived the idea of planting each a tree upon the high summit, which should be to them a reminder of their childhood days in the years to come. They put their idea into effect, and two slender elm shoots soon waved their green branches as solitary sentinels in the open space round about. Years passed by and the shoots grew into tall, stalwart trees. The girls grew to womanhood, and passed out of the parental home into the great, wide world. Occasionally they meet one another and allude to the living reminders of youthful days, and often they would visit the familiar haunts of their girlhood and would sit beneath the wide-spread branches of the mammoth elms. About five years ago one of the girls died, an aged lady of almost eighty. Scarcely had the intelligence of her death reached the neighborhood of her youth than the residents observed that one of the elms was dying. Its leaves wilted and withered as though scorched by flame, and although midsummer the foliage fell to the ground, leaving the naked, lifeless branches and stock looking desolate enough. Decay quickly followed in the great tree trunk, and during a high wind, one night the following winter, it fell to the earth. The other girl, though an octogenarian, still lives, and the old elm which she planted in her fresh young girlhood still lives. But the people, to whom the above circumstances are known, watch it with interest, feeling that a subtle relationship exists between the two lives, and that the one will cease with the other.

Impromptu Ingenuity.

A Spanish steamer, while crossing the Bay of Biscay in a severe storm, gave such indications, by an unusual noise the stern, as led the English engineer to suspect that there was something wrong with the screw propeller, or its shaft, outside of the ship—that is, in the open space between the stern and the rudder posts, where the screw revolves. There was no dry dock in any of the ports on the coast where the ship could go to be examined; and on arrival at Vigo, it appeared as if there was no alternative but to remove the cargo from the stern, and, by placing it forward, thus lift the screw propeller and shaft to the surface of the water. The alternative, simple as it was, meant a serious delay and great expense. Before commencing to remove the cargo another consultation was held. It was then decided to put the stern of the ship over a bed of light-colored sand, and as the water was very clear, there might be a possibility of ascertaining the extent or cause of the mishap. For two days after the vessel was so placed, the wind caused a ripple on the water, which effectually prevented anything being seen. It was then suggested by some one on board to try the use of oil on the surface of the water round the stern of the ship. The effect was most satisfactory. The water was so calmed as if by magic, and it was then seen that the wedge or key which keeps the propeller in its place on the shaft had come partly out, and thus left the screw loose on the shaft, which caused the noise. By continuing the use of oil for a few hours, the wedge was ultimately driven into its place and secured. In this instance, many days of detention and the use of costly appliances and labor were thus saved.

An Old-Fashioned Sunday.

When New England was young, and the United States still an English colony, Sunday was a different day from what it is now-a-days. At about nine o'clock in the morning people were called to church, or to "meeting," as they called it, by a horn, or a drum, or possibly a bell. They had to come, too, for an officer was appointed on purpose to hunt up stragglers, and make them attend the service. Every man took his gun with him, and a sentry was posted before the door to watch for enemies. Near the door were stocks, in which people who did not go to church were fastened, so that all the world could see their shame. Inside the church it was different also; families did not sit together as they do now, but the men by themselves, the women by themselves, and the boys on the pulpit stairs and the gallery stairs. Maybe you think they had fine times together, but I assure you they were kept in better order than they sometimes are now. They had a special guard of constables around, with a curious weapon. It was a stick, having on one end the foot of a hare, and on the other a tail of the same animal. If a boy was restless or sleepy, he got a rap from the hare's foot, but if a grown-up person was drowsy, he was roused by a brush of the tail. It must have been a useful weapon, for the services were sometimes three or four hours long. Clocks were not in common use, and the time was marked by an hour glass which stood before the minister, where all could see it, and it was turned over every hour by the sexton.—*Ex.*

A Paper Barrel.

There is a paper barrel manufactory in Hartford, and the *Times* says it has been experimenting on barrels suitable for kerosene oil, and they have succeeded in turning out something that will answer admirably. The oil dealers urged as a possible objection that the paper barrels would not be strong enough to stand the pressure, when filled with oil, and packed in tiers ten barrels high. In this case the bottom barrels of the tier would have to sustain a weight of two tons. One of the paper barrels, nine-sixteenths of an inch thick, was put to the test, and it took a weight of three and one-half tons to crush it. Which is pretty good for a paper barrel.

SILK VERSUS SATIN.

Black silk is always black silk. But the black silk dress is now no longer the inevitable thing it once was, and this because the satin family has of late usurped a leading position. Manufacturers have expended their best efforts upon satin; there are differing varieties, while importers consider themselves at liberty to devise different names for what may be perhaps the same thing, until the uninitiated doubtless are sorely puzzled as they wander uncertainly among high-resounding epithets, where there is often a distinction without a difference. In all, we observe a toning down of the old-time lustre, and in consequence the satin of today is a much less conspicuous material than formerly. In view of this, some of the leading houses are showing satin skirts ready made in black and all fashionable colors. The prices asked are moderate, and all that is needed for a stylish costume is to make up one of those brocaded basques that are now so much worn with skirts of plain goods. Bear in mind, however, that satin is not so lasting as silk, being apt to fray out; and therefore, in choosing, you will have to put durability in one scale and "high style" in another. It remains with yourself which shall hang heaviest. Just now furthermore, it seems appropriate to add a hint concerning the utility of a brocaded basque for the purpose of replacing a worn corsage. As we know to our sorrow, the waist of a dress is often shabby while the skirt remains good. Don't worry about that used up corsage; discard it without ceremony, and replace it with one of brocade; being careful however, also to rip off any additions of brocade which may be on the skirt. Have it plain; or if brocade there must be, get it to match the basque. If you are about making up a walking skirt, I can recommend the Marcia as a new model, desirable because at once simple and graceful, having an overskirt irregularly draped in front and falling in a point at either side. It is slightly bouffant at the back, with pointed drapery, and is suitable either for plain goods or combined with brocade. The Idalia basque would combine prettily, and could be made either of brocade or plain material, or of the two together. The Rosalba model is much more dressy, and is adapted to a reception or evening toilet. It is close on the hips, having the back separated into long sashes gathered at the ends and finished with a bow, the sides forming long panels which extend to the bottom of the skirt. The train is slightly rounded, sleeves to the elbow, and neck heart-shaped.

NOVELTIES.

This season consists less in design than in material. Of course we have new models coming up constantly, but after all the same general ideas prevail. In material, however, it needs only to mention the plaided woollens, English cheviots, the brocades of enormous patterns or the universal predominance of plush, to show that there are original ideas so far as fabric goes. About plush, indeed, too much can hardly be said. It is seen in all sorts of combinations, both in costumes and millinery; forms the favorite material for cuffs, collars and pocket flaps, and frequently constitutes the entire garment. Let stout people beware of plush, though, no matter how fashionable. It never was intended for them, as it exaggerates just where effects of diminution are demanded. Nothing is more novel in idea than cloaks in visite or dolman shape, made of huge brocaded black silk. I don't mean that the material is huge, but the designs portrayed thereupon are certainly opt of all reason, and such as we would in ordinary times have considered worthy of lunatics. Large, wide-open roses, dahlias or sunflowers are chosen, and some unique garments are wrought in pronounced feather patterns. I must go back and apologize too, for having used the word "silk" a moment previous. The ground-work of these brocades is satin, and it was only from habit that I used the former word. Elegant cloaks of similar shapes are made of plain satin, Sicilienne, velvet or plush, and both plain and brocaded fabrics are often lined with red, old gold or lavender satin or plush. The Valetta is a handsome model recently brought out for rich goods such as have been mentioned, though quite suitable really for any class of goods, being in dolman or visite style.

A BABY'S OUTFIT.

I must tell you something of the display of an infant's outfit which was an astonishment even to New Yorkers. The father of the happy baby is an Italian Marquis who married a young lady of this city, and the order for its first wardrobe having been entrusted to Lord & Taylor, they filled it so magnificently as to attract thousands of interested visitors. The crib was of willow, lined with blue satin and covered with Valenciennes lace caught by bows of blue satin ribbon. Mattresses and pillows were covered with blue silk; the sheets, of fine linen, were edged with Valenciennes lace a quarter of a yard wide; the douro coverlid, of blue satin bordered with wide lace, the monogram and coronet of the Marquis embroidered in the centre. There were three dozen dresses and slips, and other things to correspond; most beautiful of all, perhaps, the christening robe of Valenciennes over white satin. One of the two cloaks was of white satin faille richly embroidered; the other, white damasse ornamented with pearl trimming; both lined with quilted white satin and edged with wide Brussels lace. Caps and hats to match. Sheets, coverlid, etc., were prepared for the mamma to correspond; while two superb "sitting-up" wrappers, one of white cashmere, embroidered and trimmed with eight dozen yards of real Languedoc lace, the other of mull profusely trimmed with Valenciennes and blue satin ribbon, were added. It was impossible to decide which was the prettier. All the city papers gave long notices of the display, but the best account I have seen is in Demorest's *Monthly* for December.

LUCY CARTER.

NEW YORK, Dec. 1st.

Special Congressional Election.

The Governor and Council, at an extra session held in Concord on Thursday evening, voted to issue a precept calling for a special election to be held in the Third Congressional District on Tuesday, Dec. 28th. The conclusion reached by Attorney General Tappan, in which the Governor and Council concurred, is that one person may be voted for to serve out the late Major Farr's unexpired term, and also to serve the full term in the next, or Forty-seventh Congress.

Important Capture.

Some time ago a man named Doyle was arrested by government detectives as he was about to leave a train in Chicago, and excellently-executed counterfeit government bonds to the amount of $207,000 found in his luggage. Closely following on this arrest a notorious counterfeiter named Wm. E. Brockway, and an engraver of remarkable skill, named Smythe, were taken into custody. The secret service officials were very reticent, but the papers repeatedly declared the captures to be of great importance. Recently Brockway was released, after pleading guilty to two indictments, either of which would have carried a penalty of imprisonment for life.

The reason for his release is now apparent, for on the 1st inst. Messrs. Drummond and Gage, two secret service officer, entered the office of United States District Attorney Tenney in the United States court building, in Brooklyn, bearing heavy packages containing plates of counterfeit national bank notes, and $1,000 government six per cent bonds. Mr. Drummond also produced a number of rolls of $100 counterfeit national bank bills, difficult to determine from the genuine. He said there were $45,000 worth of them, all ready for the market. They are on six different banks—the National Revere bank of Boston, the Second National bank of Wilkesbarre, the National Exchange bank of Baltimore, the Pittsfield National bank of Pittsfield, Mass., the Merchants' National bank of New Bedford, Mass., and the National Bank of Commerce of Pittsburg. There were $9,000 worth of counterfeit $100 bills on the latter bank partially completed, and there were some partially completed on the Maryland bank. Some of these bills are on fibre paper—the kind of paper the government uses for treasury notes.

The plates are all copper, with the exception of one of steel, which is said to be the finest plate ever engraved. It forms the centre piece for the backs of all the $100 national bank notes, and is a representation of the signing of the Declaration of Independence. Not more than three or four of these bills have been issued, with the exception of those on the Pittsburg National Bank of Commerce. Ninety of the $100 bills on this bank were disposed of. Mr. Drummond then shew the plates from which he counterfeit government bonds were printed, $207,000 worth of which were found in possession of Doyle in Chicago. There were five coupons attached to each bond. The plate for the coupons was engraved separately, and was for 1865. Some of the plates were electrotyped by Brockway, and the work was done in the very best manner. Smythe, the engraver, said he was forced to do the engraving by Brockway. The plates, $45,700 in notes done up in a glass jar, and $4,000 in lead pipe, were found at different points near Richmond Hill, and 520 coupon plates, together with the original dies and "counter" of the $100 notes, were found in another place. Fibre paper was also found.

District Attorney Tenney said Brockway had made these surrenders, and had been released upon condition that he should plead guilty to the two indictments against him and refrain from ever again counterfeiting. By taking this course the government had come into possession of information of great value, the precise nature of which, however, he could not at present disclose.

Anxious to Pay Her Wager.

A real good-looking young lady in Ellenville, Ulster county, N. Y., made a wager with a young gentleman in that place of three bugs and eighteen kisses, payable on demand, against three pairs of Alexander kid gloves and one pair of red stockings with white stripe around the center, she to win if Hancock was elected, and he to win if Garfield was elected. The gentleman was asked, when the result was heard, to take his winnings, but he said: Oh, no; he was in no hurry, he wasn't ready to make the demand just yet. The lady now wonders how long he means to wait, for if she should get married to some other man and the demand be made then upon her it might create some surprise, to say the least, on the part of her husband; for, she remarks, "I am no squealer."

BRIGHTON CATTLE MARKET.

For week ending Wednesday, Dec. 1.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 2613; sheep and lambs 6771; swine 13,340; Veals 60; number Western cattle 1574; western cattle 479; milch cows and northern cattle 260.

Prices on beef cattle per 100 lbs, live weight—Extra quality $6 00 @ 6 25; first quality $5 12½ @ 5 87½; second quality $4 50 @ 5 00; third quality $4 @ 4 87½; poorest grades of oxen, bulls, etc., $3 12½ @ 4 25.

Brighton hides 8½ @ 9c per lb.
Brighton tallow 3c per lb.
Country hides 7½ @ 8c per lb.
Country tallow 4½ @ 5c per lb.
Calf skins 10 @ 12c per lb.
Sheep and lambs skins $1 @ 1 25 each.

The trade for beef cattle has been quite active, and nearly all the western cattle were sold out early on Tuesday. The quality of the beeves offered on the market for sale was not so good as those on one week ago. Cattle cost higher at the west, and the best grades sold at an advance of ½c per lb over those obtained on a week ago. There were but a few lots of cattle sold to butchers for more than 6c per lb live weight. The cattle from Maine consisted largely of working oxen and store cattle, there being a light supply of milch cows and beef cattle among them.

Working Oxen—Have been in moderate demand. The quality of those in market was not so good as they have been of late. We quote sales 1 pr girth 6 ft 10 in, live weight 2820 lbs at $119; 1 pr girth 6 ft 8 in, live weight 2820 lbs, $100; 1 pr girth 6 ft 2 in live weight 2060 lbs, $76; 1 pr girth 7 ft, live weight 3 00 lbs, $140; 4 prs girth 6 ft 6 in, live weight 2500 lbs, for $ 0 per pair; 2 prs girth 6 ft 8 in, live weight 2600 lbs, at $216.

Store Cattle—We quote sales of 16 yearlings at $31 each; 8 yearlings at $8 each; 6 three-year-olds steers at $36 each. Prices for small cattle depend much upon their value for beef. There was a fair supply in market.

Milch Cows—We quote sales of 2 springers, at $60 each; 1 milch cow $38; 1 springer $24; 1 milch cow $50; 2 springers at $45 each; 3 cows and calves at $40 each; 2 do $37 50 each; 1 do $42; 1 do $47.

Sheep and Lambs—Those from the west cost from 5 to 6c per lb landed at the Abattoir, all owned by butchers. Those from Maine were consigned to butchers to slaughter and market at a commission.

Swine—Fat Hogs—5½ @ 6c per lb live weight.

ORDINANCES OF THE CITY OF PORTSMOUTH.

CHAPTER XIV.

SEC. 3. The occupants, or, if unoccupied, the owners, of all the buildings and land situated within the city, shall keep the sidewalks adjoining their respective premises, in all cases where a sidewalk has been or may be constructed, free from snow, by causing the snow to be removed into the street, and evenly spread, and when any of said sidewalks are covered with ice, so as to make the passing dangerous, said owners or occupants shall spread over said sidewalk ashes, sand or salt, in such manner as to prevent the same from being dangerous, within six hours after the cessation of every fall thereof or when the snow shall have blown or drifted upon said sidewalk by the wind. The time herein allowed for the performance of the work, to be computed from sunrise the succeeding morning whenever the fall of snow shall have ceased in the night time.

SEC. 4. Any person disregarding or offending against the provisions of this ordinance, shall upon conviction thereof, forfeit and pay a fine not exceeding TEN DOLLARS for each and every offence, with costs of prosecution; and it shall be the duty of the City Marshal, under the counsel and the direction of the Mayor, to cause this chapter to be enforce."

Notice is hereby given, that, by direction of the Mayor, the above ordinance will be strictly enforced in every instance, during the ensuing winter.

Her age was about seventy-five years. Her sister, Miss Susan Penhallow, died very suddenly on the night of the 27th ult., of heart disease.

Butler & Laighton, of No. 1 Market square, announce a large stock of Christmas groceries. This firm have been long before the public, and their reputation for keeping the best in the market, and fair dealing at reasonable prices, has won for them a large share of the best trade in Portsmouth and vicinity, which is good proof that customers appreciate a fine class of goods.

The brig Clara J. Adams, which once occupied the Beacon ledge in this river almost long enough to gain a legal residence here, has arrived at Chester, Pa., from St. Croix, and reports that in a gale on the 22d ult. she sprang a leak, and was compelled to throw her deck load overboard. Capt. Laithewaite, how commanded the brig at the time she was wrecked in our harbor, was in this port a few days ago, in command of the barque Minnie Hunter, from Baltimore.

The Fairbairn Family gave one of their unique entertainments in the Association hall, last evening. All the seats and standing-room were occupied. The programme consisted of eighteen numbers, and almost as many encores. The greatest enthusiasm prevailed; the entire audience remaining until ten o'clock, and reluctantly leaving even then. There was a delegation present from the Caledonian Club, in full Highland costume, who were highly applauded as they entered the hall, just after the singing of "A man's a man for a' that." The explanations of the origin and incidents of the songs, by Mr. Angus Fairbairn, were of equal interest with the rendering of the music. No entertainment of the kind, of equal merit, has been given in Boston by other parties; and it is hoped that the public may have a speedy opportunity to hear these justly-celebrated vocalists again.—*Boston Journal.*

This company will give a concert in Music hall to-morrow (Sunday) evening.

YORK COUNTY AFFAIRS.

Superintendent Kimball of the life-saving service in his annual report recommends the establishing of a station at Gerrish's island, at the entrance of this harbor.

It was reported on Friday that the schooner B. Frank Nealley would not go on the railway at Kittery as at first proposed, but that application would be made to the navy department for permission to use the dry dock at the navy yard for the purpose of effecting the necessary repairs.

The coroner's jury at Biddeford decided that John T. Gosdwin of that city, who was found by his wife on the floor of his house at a late hour at night, suffering from injuries which resulted in his death, received the injuries by falling down stairs. The evidence showed that the man was drunk at the time of the accident.

A movement is on foot to build a branch railroad from the Boston & Maine road to Kennebunkport. The distance is only three miles and a half, and good judges say the road can be built for $30,000, as the route is very level. This proposed road would give the Boston & Maine communication with tide water, and enable the manufacturers at Kennebunk to get their coal at a small expense.

James Lewis and John J. Hall, two of the crew of the schooner Mary Willey, Capt. Williams, which arrived at this port on the 2d inst. from Bangor, Me., were on Friday arrested on a charge of receiving stolen goods in Bangor, and taken to that city to answer to the charge. The accused men belong at Kittery Point, and it is said the stolen goods, consisting of flour and leather, were found at the point. Lewis was mate of the schooner, and Hill cook. No suspicion whatever attaches to Capt. Williams.

The Episcopal Church in New Hampshire.

A pamphlet containing the 80th annual report of the Episcopal Diocese of New Hampshire has been issued, and from it the following interesting facts are compiled:—There are now in this state twenty-eight Episcopal parishes, with the total number of communicants reaching 2077, being a gain of 110 since 1879. In the Sunday schools there are 165 teachers and 1338 scholars. The total cash contributions the past ecclesiastical year, including those for the missionary cause, the Orphan's Home in Concord and parochial purposes, were $19,234.31. The permanent fund for the support of the episcopate has reached $17,837, the increase since the convention of 1879 being $2063.-11; the intention is to increase this sum until it shall reach a point where its income will support the bishopric and thus relieve the parishes from their annual assessment on this account. The salary of the Bishop is $2500, and the heaviest levies upon the churches for this sum are St. John's of Portsmouth, $500; St. Paul's of Concord, and Trinity of Claremont, each $362. An idea of the growth of the Episcopal church in New Hampshire may be learned from the fact that the increase of the communicants from 1870 to 1880 is more than seventy-seven per cent, an occurrence we believe unparallelled in the Protestant history of this state. The material progress made in this denomination during the last decade is equally wonderful. Among the largest parishes, as rated by their number of communicants, are Portsmouth, 318; Manchester, 229; Concord, 207; Trinity of Claremont, 185; Nashua, 134; Chapel of St. Paul's School in Concord, 111; and Dover, 106. The cash receipts at the Orphan's Home in Milville, Concord, for the last year were $2267.37. In addition to moneyed contributions, there were many gifts of provisions, clothing and other things needed at the Home.

Secretary Thompson's Report.

The annual report of Secretary Thompson, showing the condition and operations of the navy department for the fiscal year ending June 30th, 1880, is made public. After a review of the position of the ships of the various squadrons and their commanders, the secretary says: The total gross amount available for the year was $14,706,642.29, subject to a deduction by the surplus fund warrant of $1,998.07, which leaves the net amount $14,704,-644.22. The expenditures were $12,917,-639.45, leaving a balance unexpended at the end of the year of $1,788,004.77. To this, however, should be added the net amount unexpended in the hands of pay officers, $353,677.46, which shows the net expenditures for the fiscal year were $2,141,682.23 less than the amount applicable therefor. The number of navy pensions on the rolls June 30, 1880, was 3,-930, and the amount paid during the year on account of pensions $752,771.97. The total available for operations the present fiscal year, ending June 30, 1881, is $15-095,061.45; and the total estimates for the year ending June 30, 1882, are $15,953,-761.61. The secretary recommends the enactment of such a law as will enable the secretary of the navy, through the disbursing officers of floating vessels, to draw upon the common fund for extraordinary expenses for the loss or waste, and loss in excess of the allowance to each ship as established by law.

The Florence Nightingale of the Nursery.

The following is an extract from a letter written to the *German Reformed Messenger*, at Chambersburgh, Penn:—

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's soothing Syrup relieves the child from pain, and cures dysentery and diarrhœa; softens the gums, reduces inflammation, cures wind colic, and carries the infant through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle. 1

PROFESSIONAL NOTICE.

FELLOWS' Compound Syrup of HYPO-PHOS-PHITES

WASTING DISEASES

Such as Consumption, Bronchitis, Asthma, General Debility, Brain Exhaustion, Chronic Constipation, Chronic Diarrhœa, Dyspepsia, or

Loss of Nervous Power,

Are positively cured by FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

As phosphorus enters so largely into the animal economy, it becomes *par excellence* the best vehicle with which to associate the other vitalizing ingredients of healthy Blood, Nerve and Muscle. In Fellows' Syrup of Hypophosphites are combined all the substances found necessary to insure robust health, and whereas it was invented with a view to supply every deficiency, it certainly has performed some wonderful cures.

MANCHESTER, N. H., June 18, 1880.

MR. JAMES I. FELLOWS.

Dear Sir: I wish to acknowledge the great benefit I have received from the use of "Fellows' Compound Syrup of Hypophosphites." I have been an invalid for nearly two years, with a throat affection that had become chronic. In the fall of 1878 I had a physician, eighty days in succession, besides the counsel of several others. They gave me but little encouragement, some of them none. Last July I was advised to give your remedy a trial. I did so, and in less than one week there was a marked improvement for the better. I have continued its use from that time until the present, improving all the time, and I can truthfully say am more than a hundred per cent better than when I commenced its use. I have increased in weight about fifteen pounds, and my cough, which was severe, has nearly disappeared. I believe had it not been for your Syrup, I should ere this have been beyond the cares of life. Very truly yours,

ALBERT STORY.

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

"A Dead Sure Thing."

A new game is being worked on trains now with more success than the old fashioned three card monte or other confidence rackets. A man dressed like an honest farmer engages in conversation with his confederate, who plays the part of a stranger. The apparent farmer rambles on, telling of trials in life and at last remarks, "But the most infortunate thing was when my son John died." "Unfortunate you mean," exclaims the other. "No, infortunate," says the supposed countryman. A dispute ensues, leading to an offer from the farmer to bet $100 that there is such a word as infortunate and that he has used it properly. The other man declares himself short of money but easily collects the necessary amount from the passengers to bet on a "dead sure thing." The money is put up, and a dictionary is consulted, and it is found that there is such a word as infortunate, and that it means unfortunate. The pair of operators thus scoop in the money.

Fish--Quality and High Prices.

There is a line of fish kept down by their abundance or by an unjustifiable prejudice, that deserves to rank high. The haddock is one. Cod fishermen go after cod. It vexes the fishers to get haddock, and they sell their plundering victims cheap, but it is a queer palate that doesn't find haddock sweeter and more satisfying than the cod. Its only fault is that it is cheap. A case of the other kind is the black bass, really no bass at all, but a member of the perch family. It is sold on the good name and fame of the striped bass and generally brings as much as that standard fish. Call it the mud-perch and it would go low, but now it sells among the high priced fishes. Of course supply and demand regulate prices, but there are other ways to tell a good fish than by the cost of it.—*Hartford Courant.*

Women that have been given up by their dearest friends as beyond help, have been permanently cured by the use of Lydia E. Pinkham's Vegetable Compound. It is a positive cure for all female complaints. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlets.

A story of woman's trust and man's deceit comes from Newburyport. He courted her, she got her trousseau ready, and on Thanksgiving day he went out of town and returned with another wife.

Fellows' Syrup will cure pulmonary consumption in the first, and will give great relief and prolong life in the second and third stages.

Kearney says the Chinese must go, but before they go we wish to inform them and everybody else that Adamson's Botanic Balsam continues to win the day in curing coughs, colds, and all difficult breathing. Price, 35 and 75 cts. Trial bottles, 10 cts.

On Thursday last, at Toronto, Ont., Mrs. James Casey, a lumberman's wife, was found drunk in bed, in a room with the dead bodies of her two children, aged respectively five months and three years. The children had evidently been burned to death, and from appearances it was suspected that the drunken mother poured coal oil on them and then set it on fire. Some years ago she had two children burned to death under suspicious circumstances. She is under arrest.

Night sweats, coughs, emaciation and decline prevented by Malt Bitters.

Father Julian Benvort, pastor of St. Peter's Catholic church, at Fort Wayne, Ind., died of apoplexy while coming down to breakfast, Thursday morning.

LIEBIG CO'S COCA BEEF TONIC.

Highest Medals. Indorsed and Prescribed by Medical Men of all Schools.

Professor Duncan Campbell, M.D., LL.D., *President Royal College of Physicians and Surgeons*, etc., etc., says: "It has more than realized my expectations."

Professor J. M. Carnochan, M.D., *Professor of Surgery New York Medical College*, says: "My patients derive marked and decided benefit from it."

Professor M. Goulion, M.D., *Physician to the Grand Duke of Saxony; Knight of the Holy Cross*, etc., says: "It gives more tone than anything I have ever prescribed."

Sir Robert Christison, M.D., LL.D., F.R.S., *Physician to her Majesty the Queen; President Royal British Association*, etc., etc., says: "The properties of the Coca are the most remarkable of any known to the medical world. From repeated personal trials I am convinced that its use is highly beneficial and tonic."

Valuable in malaria; ague; malarial debility; dumbness; low fever; mania; paralytic spinal and nervous affections; female weaknesses; bilious and liver affections; weak throats; palpitation and other affections of the heart; dropsy or fatty diseases; weakness of the voice of actors, singers, public speakers and clergymen; colic; flatulency; sensickness; falling out of the hair; asthma; shortness of breath; wasting diseases; etc., etc. It is gratefully refreshing and restorative after prolonged mental and physical strain. It is pleasant and agreeable, and is readily retained by the most delicate stomach. Dr. McBean (British Medical Journal) found it of great service in consumption. Baron von Humboldt says he has most known a case of consumption or asthma among those accustomed to its use, and that they live to a great age, retaining their mental and physical faculties to the last (Cosmos).

A discovery which cures by the natural process.

ABSORPTION.

all diseases of the **Kidneys, Bladder, Urinary Organs and Nervous Debility** yield to this agent, nothing else can. It is comfortable to the patient, positive in its effects, and the first cure for those painful and much dreaded affections,

Diabetes and Bright's Disease,

while its cures of **Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back,** seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, find their greatest relief in the use of **DAY'S KIDNEY PAD**, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK,

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality imparted by the errors of youth or to close application to business or work, may be restored and manhood regained.

Avoid all Kidney medicines which are taken into the system by way of the stomach; it is an old treatment well tried and proven ineffectual, from some time; offering apparent cures of one complaint, they sow the seeds of more troublesome and permanent disorders. The price of our Pad brings it within the reach of all, and it will annually save many times its cost in doctors bills, medicines and plasters, which at best give but temporary relief. It can be used without fear or harm, and with certainty of a permanent cure. For sale by druggists generally, or sent by mail (free of postage) on receipt of the price. Regular Pad, $2.00; Child's Pad (for incontinence of urine in children), $1.50; Special extra size, $3.00. Our book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures sent free. Write for it. Address

Hon. Evarts W. Farr was the fifth member of the present House of Representatives whose death occurred during the term. The others were Smith of New York, who died on the day of election, Schleicher of Texas, Clark of Iowa, and Ray of Missouri. Among senators only one death has occurred, that of Houston of Alabama. Mr. Farr heads the mortality list of the Forty-seventh Congress.

At Salem, Nov. 27th, Eliza A. Newcomb, aged seventeen years, daughter of Benjamin A. Newcomb, died of diphtheria, she being the fourth child of Mr. Newcomb's to die with that disease since Oct. 9th.

An important suit, involving about $13,000, debt and interest, has been on trial at Manchester, before J. S. H. Frink of Greenland, referee. The parties are Henry L. Clark, administrator of the estate of Edward Linder, late of New York, agent of the Amoskeag Manufacturing company, to recover one-half of a royalty of $1.50 on each of 6,000 Linder carbines manufactured by the defendant during the war under contract with the United States government. The guns were not accepted by the government. Suit was brought to recover damages, in which the Amoskeag company prevailed. A. M. Eastman, late of Manchester, deceased, held an assignment of the other half of the royalty, which was adjusted by the Amoskeag company, who sold the guns to Schuyler Hartley. J. Graham of New York, the defendant, claims that Linder was not to receive anything by way of royalty until the guns were accepted and paid for by the government, and also claims about $3,200 as set off on a previous gun contract. The suit has attracted considerable interest. The final hearing was adjourned to Dec. 22d.

A needle was discovered just below the skin of a lady in Nashua, recently, and taken out, which was black and well worn in places. It is supposed that she swallowed it in her younger days, and it has been travelling since to the surface. She has no recollection of ever having felt the needle, or suffered any inconvenience from it.

The second annual gathering of the New Hampshire National Guard Association will be held in Concord, January 13th, 1881. A business meeting will occur in the afternoon, followed by a banquet, concert and levee in the evening. The organization is composed of the present and past officers of the state military, as now constituted. Gen. J. N. Patterson is president, and Major Geo. Cook secretary.

The Concord *People and Patriot* says it will have to suspend its daily issue, after a year's trial, unless it has better support. The paper has done good work, and it will be a pity to have it prove the assertion that the good die young.

The republican state committee have issued a call for a convention in the third congressional district "to nominate a candidate for representative in the Forty-sixth Congress to fill the unexpired portion of the term made vacant by the death of Evarts W. Farr, late member from said district, and also a candidate for representative to the Forty-seventh Congress from said district for the term commencing March 4, 1881." The convention will be held at Lebanon on the 14th inst.

A Living Clock.

The human system is a kind of machine. If one part is seriously out of order the whole goes wrong. The blood in circulation is the mainspring. Keep this all right and you will not suffer from kidney and liver disorders, piles and constipation. And in offering you Dr. Kennedy's "Favorite Remedy" as the most successful regulator of the human machine ever discovered, we oblige the sick and suffering more than we oblige Dr. Kennedy. Invest one dollar for a bottle at the store, or walk all the way to the doctor's office in Rondout, N. Y., rather than not get it.

The Bond Owners.

From the returns collected in July, Mr. Porter, a special agent of the census bureau, has been able to inform the country in regard to the ownership of the government bonds just issued. Of the four per cents $271,435,909 are owned by individuals, $136,526,700 by national banks, $113,316,900 by state banks and trust companies, and $6,831,450 by foreigners. Of the 4 1-2 per cents $72,010,900 are held by individuals, $39,461,950 by national banks, $53,620,400 by state banks and trust companies, $5,187,550 by foreigners. It will be seen that considerably more than half the bonds are held by individuals, including foreigners, though the latter hold but 1 3-4 per cent of the whole. Of the total of $698,381,750 of registered four and 4 1-2 per cent bonds, only $9,280,300 are held in the southern states, while in the eastern states $18,313,250 are owned by women.

News and Notes.

John Callahan was hanged at Wooster, Ohio, Friday, for the murder of Benjamin Formie on the 20th of October, 1879. Five other persons who were present at the time of the murder, and aided and abetted, are in the penitentiary for terms of various lengths.

The Yale Lock company have brought a suit before the United States courts, a claim for royalty for the use of their locks in the various post-offices and treasury offices of the country. The sum involved will be heavy. The postmaster-general, secretary of the treasury and Postmaster James of the New York post-office have been notified of the suit.

A Canadian journal sounds a sharp note of alarm over the continued heavy emigration from Canada to the United States. The number of such emigrants is not known, but for the year ending June 30, 1879, it reached 75,439 in the ports of the district of Huron alone. The enticement of settlers to Manitoba seems a vain policy in view of the larger stream that is flowing to the United States with increasing volume yearly.

Leary L. Key died at Springfield, Ill., Dec. 2d. He was sergeant of the Sixth-teenth Illinois cavalry during the war, and was captured at Cumberland Gap, and taken to the confederate prison-pen at Andersonville where he organized and commanded the prison regulators. In this position he arrested and tried the raiding prisoners who were robbing the sick and dying, and condemned six of them to be hung, the sentence being carried out under his supervision. He was a man of strong constitution and of great stature, but the horrors of the prison destroyed his health.

It was said of Moltke, in equal praise of his reticence and linguistic abilities, that he could hold his tongue in seven different languages. No less remarkable as a linguist was the German gentleman recently pulled out of a gutter in Cleveland, who made practical manifestation to the policeman of his ability to be drunk in eight languages, including Coptic.

Henry M. Weston made his appearance among the "bucket shop" speculators of Chicago two months ago, rapidly got on terms of good fellowship with the proprietors, told them he had been a confidential operator with Russell Sage, and gave them points on which they rarely failed to make money. All this was done with a purpose, for he finally led them into an operation by which he cleaned them out of about $100,000, and compelled them to close their shops.

Mrs. Casey, whose two children were burned to death in Toronto, Ont., while the mother was drunk, died in the hospital to which she was taken on the 3d inst.

Mrs. Annie E. Wilson, widow of Capt. Wilson, formerly of Boston, who will be remembered as the woman who saved her husband's ship and navigated it successfully after his death, has been appointed an inspector in the New York custom house by Collector Merritt.

Thomas Coleman, forty years old, of Fall River, Mass., registered at the Putnam house, New York, on the 2d inst., and retired early. A smell of gas from his apartment attracted attention during the night, and the door was broken open, when Coleman was found unconscious, having blown out the gas, death resulting before a physician could be summoned.

Diptheria of a virulent type is raging in several large districts in Virginia.

It is said that the new treaty with China provides that Americans shall not import opium into China, nor carry the product coastwise, nor sell it.

Matters in Ireland look very serious. The dissatisfaction is immense, and a single mistake on either side may result in fearful consequences. There can be no question that the people of that unhappy country have grave cause for complaint, and if they can only be kept within bounds so as not to give the government any opportunity for extreme measures, they must ultimately win their cause. What Ireland needs is education. If the people there were as well educated as they are in New England they would be ten times more formidable than they are now.

Over 1,110,000 hogs were received at Chicago, Ill., during November, a larger number than was ever before received in one month at any market.

Gen. Miles is now spoken of as likely to succeed Gen. Schofield in command of the academy, but began life as a dry goods clerk in Boston, entered the volunteer army as a captain in 1861, and earned the rank of major-general by hard fighting. At the close of the war he was made a colonel in the regular army, and has since distinguished himself in several campaigns. He will be useful at West Point, for he is not a military snob, and has no prejudice against color.

Some friends of Wendell Phillips, remembering that Nov. 29th was his sixty-ninth birthday, called on him at his home to congratulate him on the anniversary. Beautiful floral designs were presented to him by friends; one from Mr. Pierce A. Doherty, being an offering made in behalf of Mr. Phillips' Irish admirers, was a magnificent floral harp. Mr. Phillips responded in fitting language.

Assistant Postmaster-General Thomas J. Brady has purchased from A. M. Clapp and others a controlling interest in the *National Republican* of Washington, D. C., and will assume control within a short time. It is understood that General Brady's interest will be represented during his continuance in his present official position by Mr. Hallet Kilbourne, of Washington.

A meeting of leading Chicago butter dealers was held Wednesday afternoon of last week, to devise means to protect the trade against the sale of a spurious article sold as butter. Over 100 interested parties were present, and resolutions were adopted calling on the produce exchange to take immediate action to prosecute parties guilty of violating the state law, which makes it an offence to sell either butter or cheese which is adulterated, except under some appropriate name. Over $1000 has been subscribed to defray the expenses of prosecution, and as much is promised as may be necessary to stamp out the fraudulent practice now in vogue of manufacturing and selling doctored lard as genuine butter. The city council was also petitioned to pass a city ordinance against the sale of any spurious article as butter, unless it was placarded as to its composition.

Gen. Butler says he is willing to go to Ireland and defend the land leaguers, without legal fee, at any time after January 3d, when he has an important case for trial at Washington. Mr. Parnell has been cabled an inquiry if American counsel would be likely to be admitted to defend the accused. It is the impression among our lawyers that it would not be allowed unless they took an oath of allegiance to Great Britain.

It is stated that Chicago sailmakers get $3 a day and $6 on Sunday. A recent canvass shows that they are anxious to have next year's almanac made with six Sundays in a week and only one week day.

Naval Gazette.

Medical Inspector Charles H. Burbank is detached from the Portsmouth navy yard, and placed on waiting orders.

Medical Inspector Thos. W. Leach is detached from the Boston navy yard, and ordered to the Portsmouth yard.

Boatswain Charles E. Hawkins, attached to the training ship Saratoga, is granted leave of absence for one month.

Capt. L. E. Fagan, U. S. M. C., is granted leave of absence for thirty days, from Dec. 1st.

Comdr. Byron Wilson is detached from command of the Wachusett, on the Pacific station, and ordered home. Comdr. Edward P. Lull is ordered to command the Wachusett.

The Powhatan arrived at Newport, R. I., Dec. 2d, having on board Commodore English, Captains Chandler, Luce and Franklin, and Lieut. Comdr. Chadwick, a board appointed by Secretary Thompson to examine the place to see if it is suitable for a naval training school.

The U. S. S. Alaska arrived at San Francisco on the 2d inst., from Honolulu.

The Yantic arrived at Portsmouth, Va., Dec. 2d, from Chesapeake bay, where she went to make a trial of her speed.

The Ticonderoga, at San Francisco, has been ordered to Hampton roads.

Political Notes.

Mr. Robert Lincoln, son of the martyred President, received more votes than any other candidate for presidential elector in Illinois at the late election.

Gen. Garfield's exact official majority over Gen. Hancock in Iowa is 78,056. The only counties in the state that the democrats carried are named Davis, Jackson, Johnson, and Lee.

Abram S. Hewitt is evidently very much dissatisfied with the opinion of the people concerning his connection with the publication of the forged Morey letter, and has written a long screed endeavoring to show that he really did believe the clumsily-forged signature was genuine, and that he had good reasons for believing so. Alexander H. Stephens, of Georgia, says "a single glance" at the Morey letter satisfied *him* that it was a forgery, and that he needed no denial from Gen. Garfield to convince him of that fact.

Judge E. B. Taylor has been elected General Garfield's successor for the unexpired term in Congress.

Colonel Lowe, the greenback congressman from Alabama, has no doubt that he will be seated in the next Congress. The majority against him was only forty-three, and many votes were thrown out on technicalities.

What has been done in New York will not be forgotten. The loyalty of the Irish-American element to the democratic party has not been as reliable lately as it once was. The action of a large portion of the party in New York is a direct insult to that element. It is equivalent to a declaration from 18,000 democrats that they will not only not vote for a Catholic candidate, on a democratic ticket, but they will vote against him.—*New York Tablet, (Catholic).*

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

A Public Calamity.

Kearsarge Mills Burned.

On Saturday morning last the Kearsarge Mills took fire in the southeast corner of the fifth story, and before the flames were under control the buildings were almost wholly destroyed.

The mill was built for the Portsmouth Steam Factory in 1845—46. The main building was 204 feet long and seventy feet wide, six stories high, with two ells each 100 feet by thirty, and two stories high. It originally contained 21,250 spindles, but many changes were made in its subsequent operations. Between the ells, at the rear of the main building, were the boiler house and a low storehouse. East of the eastern ell was the machine shop, a wooden building; and east of the latter the cloth hall, also built of wood.

The main building, eastern ell, machine shop, and storehouse between the ells, were destroyed, and the cloth hall ruined. The western ell, containing the engine room and picker room, was badly damaged, and the roof of the boiler house burned. The two engines, of two hundred and three hundred horse-power respectively, were saved in a damaged condition, and the four huge boilers are apparently unhurt. The baled cotton and manufactured cloth on hand were saved. The western wall of the main building appears to be still good, and the opinion is expressed that all the walls would have stood had it not been for the granite trimmings, which crumbled away with the heat and thus weakened the brick-work.

The Kearsarge Mills were incorporated July 31st, 1866, after the failure of the Portsmouth Steam Factory. The capital stock allowed by the charter was one million of dollars; the actual amount of capital was $600,000, but it was too large to afford any but the smallest amount of dividend. It was owned largely by non-residents. The stock owned in this city was held by the estates of Wm. P. Jones, A. L. Jones and Wm. Simes, and by Mark H. Wentworth, John Stavers, Wm. D. Fernald, Wm. Stearns, William H. Hackett and a few others. The insurance amounted to $411,000, of which $373,000 was on the mill, and 38,000 on the cloth hall and store-house.

The establishment has at different times employed as many as 480 operatives. At the time of the fire the mill was giving employment to 320 persons; and should it not be rebuilt, the fire of Saturday may be set down as one of the heaviest blows to the city's prosperity since the great fire of 1813. We can but hope that the costly foundations, the lofty chimney, the boilers and the large amount of still serviceable material on the ground, all which is worth many thousands of dollars to use on the spot but would be of little value to remove, may be utilized in the erection of another mill. In any event the fire is a public calamity, and must cause much suffering among the former operatives and their families.

The conflagration was the result of an accident, to which no blame can possibly be attached. At a few minutes before six a man was cleaning a shaft, and while wiping it dropped a piece of waste, which in its descent to the floor passed through the flame of a gas-jet and was ignited; and the moment it touched the floor the fire flashed out in all directions, defying the efforts of all the persons in the room to stop its progress, and obliging them to leave their clothing behind in their flight. Two of them, Nathan Woods and William Warburton, were very seriously burned. Mr. James Greenwood, an elderly man employed on that floor, and who was noted for his faithfulness and extreme caution in respect to fire, was last seen endeavoring to beat back the flames, and undoubtedly perished. If the fire had started a half-hour later, when the operatives would all have been in the mill, more than one life must have been lost, though there were good fire escapes on each end of the building.

The fire spread rapidly and burned furiously, sending out intense heat and showers of large cinders, which were borne by a strong northwest wind to a long distance. The fire department soon arrived, but it was hopeless to attempt saving the mill, and the streams were directed upon the adjacent buildings, many of which took fire. At one time we noticed the belfry of the Pearl street church, and three dwellings at considerable distances apart, all on fire at once, and for awhile it seemed impossible that a general conflagration could be avoided; but the firemen worked magnificently, and their well directed efforts were successful in preventing the spread of the flames, the ice and snow on distant roofs protecting them in a great degree from the flying cinders. At the time affairs looked the worst Mayor Sise telegraphed to Newburyport for aid, but the most imminent danger was soon over and the call was countermanded. Commodore Beaumont, commanding the navy yard, sent over a steamer and crew which assisted greatly in saving so much of the western ell of the mill as was saved.

The Pearl street church was damaged to the amount of from $500 to $1000, largely by water. The Baptist church on Middle street also caught fire in the belfry, but the smoke was observed by a man in the street, and the doors were burst in and the fire extinguished. A number of other buildings are reported to have taken fire from cinders, some of them a long way from the mill.

UNION GOSPEL MEETINGS.

A series of union gospel meetings, conducted by the state executive committee of the Young Men's Christian association and churches of the state, commences in the Middle street Baptist church this (Monday) evening, to continue through the week, with services each afternoon and evening, the afternoon meetings commencing at two o'clock and the evening meeting at seven o'clock, the latter opening with a praise service of half an hour, to which all singers are invited; singing book used, Gospel Hymns combined.

THE BURNT KEARSARGE MILLS.

MAYOR'S OFFICE.
December 6th, 1880.

The destruction by fire of the Kearsarge Mills is the most serious blow to the welfare of our city that it has received for years, and it is the duty of all to do what they can to encourage their rebuilding. I would therefore respectfully request our citizens to meet in the Common Council Room this evening at 8 o'clock, to take such action as they may deem expedient in the premises.

WILLIAM H. SISE, *Mayor.*

DISTRICT COURT OF THE UNITED STATES.

SATURDAY, Dec. 4th; *Clark, J.*

The case Murphy, libellant for salvage against schooner Mary S. Hontvet, was heard. The libellant with his associates claims salvage for services rendered when the schooner went on the rocks in the river Piscataqua last summer, and subsequently floated out to sea. The hearing occupied the day, and is to be renewed on the 8th inst. The evidence for the libellants was heard.

Hatch for libellants; Batchelder for other claimants; Frank Goodwin of Boston, and Page, for the owners of the schooner.

POLICE COURT.

SATURDAY, Dec. 4; *Batchelder, J.*

George Laskey and James Aspall, for drunkenness, were each assessed $9.90, fine and costs. Brentwood in default of payment.

AROUND HOME.

Several mill overseers from Great Falls were in this city on Sunday, to engage a large number of operatives to work in the factories at that place.

A young man named William Hudson was badly hurt about the head and arm while running to the fire with a hose-carriage, Saturday morning. He fell, and was run over by the carriage.

"Deacon Crankett," which had a big run at the Globe theatre in Boston last week, closed at that place on Saturday, Sarah Berhardt appearing there this evening. Deacon Crankett, with Ben. Maginley as the deacon, will be given at Music hall on Wednesday evening.

Rev. Mr. DeNormandie's discourse on Sunday morning contained an appeal regarding the necessity of systematic charity in our community, in view of the recent fire, which in some respects was more disastrous in its effects upon a certain class of our population than any similar previous calamity.

Miss Annie B. Torrey, formerly operator in this city for the American Union Telegraph Co., died on Sunday morning in Boston, of diphtheria. She was a very estimable young lady, and made many friends by her modest demeanor and unvarying courtesy, during her brief residence in this city. Her age was about twenty years.

The performance of "Constable Hook" by John Murray, and Shelby's dramatic company, at the Franklin theatre on Friday evening, was not largely attended; but it was a decidedly good entertainment—very much better than the average—and pleased the audience greatly. Murray, as the constable, was capital; Miss Cartland played her part finely, besides delighting the ladies with her rich costumes; and the support was really good. They are coming again, and will have a big audience next time.

Mayor Sise in another column invites the citizens of Portsmouth to meet in the Common Council chamber this evening at eight o'clock, to consider about what action can be taken to encourage the rebuilding of the Kearsarge Mills. There should be a large attendance of our business men.

The *Journal* says: "We understand that W. W. Chapman, the popular ticket agent for the Eastern railroad at Salem, has resigned, to accept a better position in the Mercantile National bank in that city. He is succeeded by Lewis Marden, who has been assistant in the ticket office in Salem."

John Kelley, alias Lynch, was arrested at Lowell, Mass., on Friday, for obtaining money by false pretences. He claimed to be an agent of Jones' brewery in this city, and other similar establishments, and has collected, so far as ascertained, $75 to $100. Some months ago he was arrested in Dover for pretending to represent Patrick Lynch of Lowell in the same business.

YORK COUNTY AFFAIRS.

Fire broke out Friday night in the large cotton store-house of the Pepperell company at Biddeford, connected with the cloth hall and close to No. 2 mill. The store contained 1500 bales of cotton, of which about half was saved in a damaged condition. It was with great difficulty the mill was saved. The total loss is estimated at $60,000.

The Kennebunkport Seashore company propose to erect a number of cottages for occupancy next summer, and work upon them will commence soon. The company have had every year more applications for cottages than they could supply, which shows the high estimation the place is held in as a summer resort. Cottages that cost only $1,000 are readily rented at from $150 to $200 per annum.

The Florence Nightingale of the Nursery.

The following is an extract from a letter written to the *German Reformed Messenger*, at Chambersburgh, Penn:—

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's Soothing Syrup relieves the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle. 1

ORDINANCES OF THE CITY OF PORTSMOUTH.

CHAPTER XIV.

SEC. 3. The occupants, or, if unoccupied, the owners, of all the buildings and land situated within the city, shall keep the sidewalks adjoining their respective premises, in all cases where a sidewalk has been or may be constructed, free from snow, by causing the snow to be removed into the street, and evenly spread, and when any of said sidewalks are covered with ice, so as to make the passing dangerous, said owners or occupants shall spread over said sidewalk ashes, sand or salt, in such manner as to prevent the same from being dangerous, within six hours after the cessation of every fall thereof or when the snow shall have blown or drifted upon said sidewalk by the wind. The time herein allowed for the performance of the work, to be computed from sunrise the succeeding morning whenever the fall of snow shall have ceased in the night time.

SEC. 4. Any person disregarding or offending against the provisions of this ordinance, shall upon conviction thereof, forfeit and pay a fine not exceeding TEN DOLLARS for each and every offence, with costs of prosecution; and it shall be the duty of the City Marshal, under the counsel and the direction of the Mayor, to cause this chapter to be enforced."

Notice is hereby given, that, by direction of the Mayor, the above ordinance will be strictly enforced in every instance, during the ensuing winter.

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

To the Holders of Certificates of Indebtedness.

The Voting Register of Certificate-Holders is now making up at the Office of the Trustees, No. 24 Court Street, Boston, Mass. The names of parties to whom Certificates were originally delivered have been placed in the Register. Any subsequent purchaser or holder desiring to register may do so on presenting at said office to Mr. Joshua Crane a written statement of his name, address and the denomination and number of each certificate held by him, or, if so required by the Trustees, on producing the certificates held by him or a written order from the last-registered holder.

In accordance with regulations fixed by the Trustees the Voting Register will be closed on the thirtieth day of November, 1880, between which time and the Annual meeting on the second Wednesday of December, 1880, no registration will be made. Per Order of the Directors,

FRANCIS I. AMORY, Clerk.

Help One Another?

Of course. What else are we here for? For example: Mr. Asa F. Bearse, of Cotuit, Mass, had been troubled for years with diseased liver and could get no relief. He was not fit for business, and carried his life like a burden on his back. Just then his friend, Capt. Handy, said: "Asa, why don't you send to Dr. David Kennedy, of Rondout, N. Y., and get a bottle of his 'Favorite Remedy.' It will only cost you a dollar, and may do you good." Bearse did so, and after a short time was sound as the dollar with which he bought the medicine. To be sure, it did not help one another. Sold by all druggists.

—The virtue of a man ought to be measured not by his extraordinary exertions, but by his every day conduct.—*Pascal.*

See advertisement in other column, of the great and reliable dyspepsia remedy, D. R. V. G., guaranteed by all druggists.

—The Prince of Wales has been nominated grand master of the English Freemasons for the seventh time.

W. A. Titus, 62 Ashland Avenue, Toledo, Ohio, says:—My wife is now as strong as ever, her regained health being directly due to the use of the Excelsior Kidney Pad. We can heartily recommend it to all kidney troubled persons.—*See Adv.*

—Charles Dickens said of Robinson Crusoe that it is the only instance of a universally popular book that could make no one either laugh or cry.

GEO. W. HARPER, of Strait Creek, Va., says he has been afflicted with nervous debility for ten years and that Day's Kidney Pad has entirely cured him.

—Kate Field says the marked difference between English and American newspapers is that the latter have a capacity for keen and witty paragraphs, while the former often devote a column to what might be condensed in a dozen lines.

Kearney says the Chinese must go, but before they go we wish to inform them and everybody else that Adamson's Botanic Balsam continues to win the day in curing coughs, colds, and all difficult breathing. Price, 35 and 75 cts. Trial bottles, 10 cts.

Peculiar Matrimonial Relations.

Adolphus Andrew Hoagland, of Shadeville, Va., is seventy years old, and has had three wives. The first was a widow when he married her, and had a little daughter. When this wife died her daughter was a widowed mother, and Hoagland within a few years married her. There was some feeling, he says, against his making his stepdaughter his wife, but they were a happy couple, and the prejudice died out. Ten years ago the second wife died. Her daughter was then fifteen. Five years elapsed, and then he again married his step-grand-daughter, who was also his step-daughter. She is still living, and her husband's age, aside from the fact that she had no daughter when she became his wife, precludes the idea of his peculiar system being carried any further. He has children of his own by each of the three wives, and the complications of their relationships are almost endless. Hoagland declares that his matrimonial experience, covering about fifty years, has been exceptionally happy. The last two wives inherited the good qualities of their mothers, and all were so much alike that they have seemed to him the same woman, with her youth occasionally renewed.

—Order of night hood—Put on your night cap!

—A Galveston school teacher, who lost all patience with a very stupid boy, finally told the boy's father, "Your son is getting worse and worse every day." "I don't think he can be quite that bad," remonstrated the partial parent. "Well, then, he is at least getting worse and worse every other day, or say three times a week."

FASHION NOTES.—Fur collars are little worn by ladies this season, and this will give rise to many severe coughs and colds. Dr. Bull's Cough Syrup is a certain and safe cure in every case. Price 25 cents.

—A boy in San Antonio, Texas, was recently struck by lightning while sitting on a gatepost and eating bread and butter. The moral is obvious, and in future mothers will allow their boys to stay in the house and dip their buttered bread in the sugar-bowl.

The careworn and overworked find comfort and strength in Malt Bitters.

It is therefore invaluable to every American reader, as the only satisfactorily fresh and Comprehensive compilation of an indispensable current literature,—indispensable because it embraces the productions of the

Ablest Living Writers.

"In no other form can so much thoroughly good reading be got for so little money; in no other form can the results of so much laborious research be got in so small a space."—*Philadelphia Times.*

"There is no other publication like it. It is known and read by all who desire to keep abreast with the cultivated thought of the English-speaking world."—*Episcopal Register, Philadelphia.*

"It reproduces so fully the choicest articles from the foreign magazine that one who takes it does not feel the need of anything else in the way of foreign periodical literature."—*The Advance, Chicago.*

"Its frequent issue and ample space enable it to give all that the very ablest of living writers furnish to periodical literature on science, history, biography, philosophy, poetry, theology, politics and criticism, and to add to this the full complement of the best that there is in fiction."—*The Interior, Chicago.*

"Gives the best of all at the price of one."—*New York Independent.*

"Teems with the choicest literature of the day."—*New York Tribune.*

"Like, by all odds, the best eclectic published."—*Southern Churchman.*

"It combines reader, at a trifling expense, considering the quantity and quality of the reading furnished, to keep with the best thought and literary work of our time."—*Christian Union, New York.*

"One cannot read everything.... No man will be behind the literature of the times who reads The Living Age."—*Boston Herald, Boston.*

"We know of no investment of eight dollars, in the world of literature, that will yield equal returns."—*The Presbyterian, Philadelphia.*

"It has no rival."—*New York Evening Post.*

CANTERBURY SHAKERS'

LIFE-INVIGORATING

SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Vegetation Extract that any other contains,) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and efficacy. T. R. CROSBY, M. D., W. D. BUCK, M. D., S. BUNTON, M. D., J. S. ELLIOT, M. D., JAMES BABB, M. D., Z. COLBURN, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. CALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefitted by other Sarsaparillas should not fail to make a single trial of the Blood Purifying and Life Invigorating Compound of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Black Root, Burgot, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by Thos. Corbett, its inventor. Sold everywhere. Inquire for Corbett's Shakers' Sarsaparilla.

Daily Chronicle.

Books, Magazines, Etc.

We have recieved the "Folio" for December, which contains the usual amount of music, songs and miscellaneous reading matter, besides a fine portrait of Sara Bernhardt. White, Smith & Co., Boston, publishers.

"A Strong Arm and a Mother's Blessing," by Elijah Kellogg, the author of "Elm Island Stories," and other works of juvenile appreciation. We need only hint to our young readers that the story of Arthur Lennox is full of interest; and to our friends seeking a book combining amusement and instruction with a healthful tone throughout, to present to the juveniles, that this is just the work they should select. Published by Lee & Shepard, of Boston, at $1.25, and for sale by Mercer Goodrich, No. 1 Market street.

"A Guernsey Lily; or, how the feud was healed;—a story for girls and boys," by Susan Coolidge. This is an elegantly bound and liberally embellished work, written by the authoress of the famous "What Katy Did." This is an interesting narrative of a family's visit to Guernsey island, which the youthful reader will discover to be one of what are termed the "Channel Islands," situated about seventy miles from England and forty-six from France, a spot well adapted for English invalids and frequently visited by such persons. The sojourn of the English rector's family at Guernsey, the voyage thither and the incidents of the summer are told with unflagging interest, and the one hundred and thirty illustrations, all well executed, add to the interest which every youthful reader will show on taking up the book. Published by Roberts Brothers, of Boston, and for sale at the bookstores.

"Ego," a novel by Harry W. French, author of "Germs of Genius," etc.; Boston, Lee & Shepard. The author undertakes to make his hero achieve success by showing that the great feats of valor, moral and intellectual, are not results of accidental incidents, but are accomplished by the direct assertion of the potent "I," in positive opposition frequently to the most powerful influences of surrounding circumstances. Starting with this idea, the author has it pretty much his own way, takes us across the Atlantic, gives his hero a bath, and changes him from a New York gamin to a leading member of society and a millionaire. Indeed, the author shows powers in results, if his hero should be thought to fail in this respect. Price $1.50; for sale at the bookstores.

We have received from the publishers, Fowler & Wells of New York, "The Moral Lesson of Gen. Garfield's Life," a speech delivered by Hon. Frank Fuller, ex-governor of Utah, to the young men of New York, at Cooper Institute on Sunday, Oct. 31st.

With the December number "The Sanitarian" closes its eighth volume, and an index of the whole eight volumes, 1873 to 1880, inclusive. With the evidence of this index before the reader, there is no risk in stating that the Sanitarian is the most complete cyclopædia of practical sanitation extant. In no other publication on the subject is there to be found such a choice collection of essays and excerpts by equally numerous and distinguished sanitarians, comprehending all branches of sanitary science. The leading papers of this number are: "How to Avoid Yellow Fever," by Dr. Don Victor Perez, giving a large experience of preventive means used in Cuba and other yellow fever countries; "The Dangers of Childhood," by Dr. Horatio Donkin, an exceedingly interesting and valuable paper, giving the peculiar liability of children to diseases and accidents, and the best means of avoiding them, which all parents and school teachers should read; the final "Sanitary Report on the U. S. S. Plymouth," giving the still lurking sources of yellow fever poison after the several attempts to disinfect her, an instructive paper to all naval and marine architects and masters, on whom the lesson should not be lost; "Quinine Production in India;" "Menu" is, as usual, full of excellent tidbits for all housekeepers. $3.00 a year; thirty cents a number. "The Sanitarian," New York.

Many complaints of small children arise from indigestion. If your child is sick give it D. R. V. G. You will be surprised at the charming effect.

Hugh McGuire, aged sixty-five years, who arrived at Patterson, N. J., from Ireland with his wife and seven children on Thursday last, cut his throat Saturday, and died in a few minutes.

Consumptives gain in flesh, strength and spirits under a daily use of Malt Bitters.

Congress.

The Forty-sixth Congress re-assembled on Monday, Dec. 6th. In the Senate there were forty-eight members present. In the House there was much more than a quorum. The President's message was read. It is a very long document.

Strict Church Discipline.

Bishop Elder, successor of Archbishop Purcell in the Cincinnati diocese, evidently proposes that "the church" shall rule. Some time ago he forbade the women of his congregation to "bang" their hair or wear frizzes, and later he ordered a change in the style of music in his diocese. On the 4th inst. he refused to allow the burial rites of the church to be performed over the body of John Fiedeldey, late a prominent Catholic and democratic politician. Fiedeldey, before his death, requested that his body be buried in Spring Grove cemetery, the leading Protestant burial ground. It was the intention of his family that the funeral should take place in St. Xavier church, Rev. Father Driscoll, an old friend of the deceased, officiating. Hearing this, Bishop Elder gave an order that do priest could conduct the funeral or go near the late residence of the dead man, unless the body was buried in the consecrated ground. Mrs. Fiedeldey and her son, though devout Catholics, decided to adhere to the dead man's request, and Rev. J. Stanger, rector of Christ church, was summoned, and officiated at the funeral. Bishop Elder believes the Catholic church should be brought back under its former strict discipline.

News and Notes.

Louis Almon Meaker, the young man who confessed to murdering Alice Meaker by poison on April 23d, 1880, was sentenced at Montpelier, Vt., Saturday, to be hanged at Windsor on the second Friday in February, between one and two o'clock in the afternoon. The criminal was the coolest man in court.

Edward Rickard, a Chicago reporter, one evening last week shot his landlady, Mrs. Lena Wilson, because she refused to go to the theatre with him. The ball shattered her lower jaw and entered her neck, and she died on the 4th inst. Rickard was drunk at the time of the murder, and claims that it was an accident.

William Hawley, alias Shang Morris, one of the convicts who escaped from the penitentiary at Sing Sing, N. Y., a few years ago, by capturing a locomotive, was arrested Sunday night for burglary in New York city.

One hundred and eighty passengers on the French steamer Ville de Marseilles have signed a statement to the emigrant commissioners of New York, stating that the accommodations, attendance, food and everything else on that vessel were filthy, insufficient and fit only for beasts.

The annual meeting of the stockholders of the Boston and Maine railroad is to be held at Lawrence on Wednesday. Stockholders' train leaves Great Falls at 7 A. M. for Lawrence, and leaves Lawrence to return at 12 M. The report of the directors shows the business of the road to have largely increased, and the property to be in excellent condition, for which result no little credit is due to Mr. James T. Furber, the general superintendent, of whose ability a suitable acknowledgement appears in the report.

In a race on the Thames at London, Saturday, between Wallace Ross of St. John, N. B., and Edward Trickett of Sydney, New South Wales, for £400, Ross won easily.

Two girls named Nellie Edward and Bertie Crawford were burned to death by a fire in a saloon at Toronto, Ont., Dec. 3d. The saloon keeper narrowly escaped with his life.

It is stated that Commissioner Raum has ordered breach-loading rifles to be sent to New Orleans immediately, to arm a civil posse to protect Deputy Collector Lanier in the discharge of his official duties.

The grand jury in New York has presented indictments against Samuel Sullivan Morey for perjury, and against Joseph Hart, Louis T. Post, Kenward Philp and Charles A. Bryne, for publishing in the *Truth* a criminal libel upon Gen. Garfield, the penalty for the latter offence being a year in the penitentiary and a fine of $250.

On Sunday, Nov. 28th, at Yanceyville, Caswell county, N. C., Mrs. Gertrude Neal, wife of Mr. Lewis Neal, a prominent merchant of that village, was burned to death by her clothing igniting from the fire on the hearth of her room, where she was kneeling beside her infant in prayer preparatory to attending church. She had been married only a year, and was not twenty years old.

Gen. Wm. B. Hazen has been appointed chief signal officer of the army.

News has been received of the death, in Egypt, of Mme. Vandervest, formerly the wife of Gen. A. G. Lawrence, son of William Beach Lawrence of Newport, R. I. Her maiden name was Eva Taylor; she was a daughter of Col. Joseph H. Taylor, U. S. A., a grand-niece of President Taylor, and a grand-daughter of Judge McLean of the United States supreme court. At the age of seventeen Eva Taylor married Col. Kingsbury, a gallant officer who was killed at Antietam a few months after his marriage. A son was born after his death. She afterward became the wife of Gen. Lawrence, the marriage being disolved about three years ago on account of her relations with Vandervest, then secretary of the Belgian legation at Washington.

David Long was passing along Pennsylvania avenue in Pittsburg, Pa., Saturday, with a package of money amounting to $1,800 under his coat, when a young man, after tapping him on the shoulder to attract his attention, seized the package and sped away. Several parties started in pursuit, but were not successful in capturing the thief, who fired several shots at his pursuers.

Robert R. Brown has been arrested at Folsom, Cal., for counterfeiting silver quarters and dimes. Six sets of dies and a quantity of counterfeit coins were captured.

The will of the late Frank Leslie, which has been bitterly contested by his two sons, Henry and Alfred, has been finally admitted to probate. The will was made December 27th, 1879, a few days before Mr. Leslie's death, and gave nearly his entire property, including all his rights in his publications, to his second wife, Mrs. Miriam Florence Leslie. Mrs. Leslie was a divorced woman when Leslie married her, and Leslie was divorced from his first wife. He was a great publisher, but no great shakes of a man.

News has been received at Newport, R. I., that Col. Charles Potter, step-son of Gov. Van Zandt, has been shot and killed by Mexicans in Colorado. He was engaged in the United States geological survey.

The starch factories at Maple Grove and Presque Isle, Me., have closed for the season. They have ground, this season, about 300,000 bushels of potatoes.

Among the wedding presents received by a Philadelphia bride, was a note from her father's counsel, agreeing to conduct her divorce suit free of charge.

New Hampshire Items.

At the sixth annual meeting of the Peterboro' Oak Park association, Saturday, C. H. Brooks was elected president and Joseph Farnum secretary and treasurer. The treasurer's report shows a balance on hand of $828 after paying all premiums and expenses.

The supreme court at Lancaster adjourned Saturday night, until Jan. 18th, when the trial of equity suits against the Lancaster Starch company will be concluded. The case of the State vs. the Grand Trunk Railway, involving the liability of the company for the killing of John E. Willis at West Milan station, three years ago, was given to the jury Saturday noon. The jury failed to agree, and at midnight were discharged.

Number 1, Vol. 1, of the *Derry News*, was issued at Derry on Friday, Dec. 3d. It is a weekly paper published at $1 per year, edited by N. C. Bartlett, and will be devoted principally to the interests of the western part of Rockingham county. The first number is well printed and edited, and it promises to deserve support.

Among the once powerful Indian tribes of Oregon that are fast becoming extinct are the Umpquas, the prehistoric inhabitants of the valley of that name. Those Indians are dying out very fast. At the roll call of 1856 there were 213; in the present year there are only six or seven left.

Burnett's Cocoaine.

The Best Hair Dressing in the World.

BURNETT'S COCOAINE allays irritation, removes all tendency to dandruff, invigorates the action of the capillaries in the highest degree, and has earned a deserved reputation for promoting the growth and preserving the beauty of the human hair. Ladies dressing their hair elaborately for the evening will find that it imparts a healthy natural gloss to the hair, and will cause it to retain its shape for hours.

BURNETT'S FLAVORING EXTRACTS are used and endorsed by the best Hotels, Confectioners, and Grocers throughout the country. They are perfectly pure.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold only in boxes. Tu,Th&S,6G

HELPHENSTINE & BENTLEY.

WHITINSVILLE, MASS., Feb. 28th, 1875.

Your Lotion by chance found its way to this place, and met with such favor that more of it is wanted. I have not yet succeeded in finding a place where it can be obtained. Will you please inform me by return mail price per dozen bottles. Yours truly, E. P. HOPKINS.

J. T. Robinson, successor to H. W. Dinslow & Co., writes:

RICHMOND, ME., March 9th, 1877.

Dear Sir: I have used your Lotion for Chapped Hands in my family, and will say that I have never used anything that is equal to it, and don't know of the first case where it has been sold, that it has not given entire satisfaction.
Yours truly, J. T. ROBINSON.

AROUND HOME.

There was no meeting of stockholders or directors of the Kearsarge Mills in this city on Monday, as was reported.

Rev. Eleazer Owen, formerly pastor of the Pearl street church in this city, was installed as pastor of the Free Baptist church at Lyndon Center, Vt., on the 1st inst.

The Hanover street reservoir paid good interest on its cost, Saturday. Three engines drew water from it during the continuance of the fire, and it contained four feet of water at the end.

The regular annual meeting of Portsmouth Grange, P. of H., occurs on Thursday evening, Dec. 9th, at Grange hall. A full attendance is earnestly requested, as business of the utmost importance is to come before the meeting.

Mr. Taylor Gunnison, who was recently stricken with insanity, which is hereditary in his family, was on Monday conveyed to the asylum at Brentwood. We are informed that there is but little hope that he will ever recover.

The Fairbairn "Scotttsh Trombadours" gave a very pleasing entertainment at Music hall on Sunday evening, to an audience quite as large as could have been expected to gather during such weather. Those who did attend the concert enjoyed it very much.

On Saturday there were over two hundred applications made to Mr. Knights, superintendent of the shoe factory, for work, most of the applicants being hands lately employed in the Kearsarge Mills. It is estimated that nearly one-eighth of our entire population was supported by earnings from the Kearsarge Mills.

Mr. George Herbert has recently bought three small trips of daddock, caught off the Shoals, for smoking. He intends to ship smoked haddock and frozen fish to Canada during the winter. The smoking of haddock is said to be becoming a common industry along the coast, there being two firms engaged in it at Portland.

We are pleased to hear that the two men, Warburton and Woods, who were so severely burned at the Kearsarge mills fire, are now comparatively comfortable. During the visit to this city on Saturday of Mr. Thompson, treasurer of the corporation, he called to see the unfortunate men, and directed that everything possible should be done for their welfare, and he would take care of the expense.

While the Kearsarge mills were burning, Saturday morning, twenty-nine "shots" of hose bursted. As a shot of hose is fifty feet long, the total amount of hose rendered unserviceable was 1450 feet, out of about 5000 feet laid down. From this we infer that the procuring of several thousand feet of new hose would be a good investment for the city, even though it should cost considerable money, for the delay occasioned by the replacing of a bursted length of hose at a critical moment might cause the loss of many thousands of dollars. The best of engines and the most active firemen can amount to but little without good hose.

In connection with the Hindoos who are to appear in the Star course will be Mr. Harry W. French, who has been an extensive traveller, and will display a series of magnificent views of scenery and life in India, and in conjunction therewith will be performed some wonderful feats by Hindoo jugglers and Hindoo snake-charmers, who have just been brought to America by Mr. French. A rich Bombay merchant, Esoofally Hiptalla, who visits this country as the guest of Mr. French, and Abdoolalli Esmailjee, the manager of a theatre in Bombay, will be upon the stage. The juggling tricks will include several marvellous feats which have been related by travellers, such as the basket feat, wherein a boy is made to disappear in the most mysterious manner, a basket in which he has just been placed being thrown up and caught upon a sword, and the equally wonderful phenomenon of making a tree grow upon the stage. The snake-charmer brought with him two live cobras, one ten feet long and the other seven feet, a live scorpion, and a mongoose, a curious little animal that is death on serpents. Music hall is likely to be crowded to overflowing on the evening when they appear here.

Sam Harrison, agent of "The Harrisons," is in town making arrangements for a performance sometime next week.

The adjusters of the insurance companies which had risks on the Kearsarge Mills were in this city on Monday, and had a meeting in the vestry of the Pearl street church in the afternoon.

The crew of the schooner Maud B. Wetherell arrived home on Monday from Summerside, Prince Edward's Island, where they left the vessel frozen in, with a number of others. The ice was three and a half feet thick, it having drifted into the harbor and packed, the cold weather then cementing it into a solid mass. The ice generally breaks away in May or June, and until then the imprisoned vessels will be held fast.

A large number of fishing vessels arrived on Monday, some with fair trips and others with very poor ones. The schooner Mary E. Caswell, Capt. Downs, brought in a fare of between 6,000 and 7,000 lbs.; the Celia, Capt. Jos. B. Haley, 9,000; the Flora Temple, Capt. Oren Caswell, 7,000; the Flying Cloud, Capt. White, 9,000; the Mary E. Smith, Capt. Short, 8,000; the Northern Star, Capt. Woodbury, 7,000; the Christie Campbell, Capt. Jameson, 29,000 lbs. of large cod.

MECHANICS' FIRE ASSOCIATION.

At the annual meeting, Friday evening, the Mechanics' Fire Association, organized in 1821, elected the following board of officers for the ensuing year:

Stephen W. Clarke, president;

Edmund M. Brown, secretary and treasurer;

John R. Holbrook and S. S. Fletcher, wardens.

The meeting was at the Rockingham, and the supper of course was of the best. Mr. Joseph H. Gardiner being the host of the evening. It is hinted that some of the brethren are contemplating legal action against Messrs. Coffin and Hilton, for making their ribs ache with continued merriment. A. C. Hoyt, Esq., a new member, was present on this occasion for the first time.

DEACON CRANKETT.

Of this play, which is to be presented at Music hall to-morrow evening, the New York *Herald* says:

The piece is written with great literary finish, is strong in character, healthy in tone, and evoked two or three calls at the end of every act. Nearly the entire action of the play is laid upon a Massachusetts farm owned by the Deacon, who is an entirely new type. He is not the sneaking, mean deacon that even Mr. Habberton has occasionally portrayed, but a big-hearted, jovial fellow, who goes about radiating kindness and good-will to everybody. This is the central character around which the others revolve, and it is truthful to life and clean cut as a cameo. The entire action of the piece is simple and consecutive, and all the "points" are reached without forcing and by perfectly natural means. The sympathies of the spectators are aroused, and their mirth is excited almost in the same breath. Something new in this field of the drama is the clever and witty dialogue that marks the entire work, and the absence of even the suspicion of a questionable joke. As to the actors, it would seem that Mr. Maginley's measure had been taken for his character.

The Washington *Post* says:

"Deacon Crankett" will be an ever-welcomed guest in every city where there is taste for pure domestic drama, free from mawkish sentiment and nasty situations.

PUBLIC MEETING.

The common council room was crowded Monday evening, many of the most substantial men of the city being of the number, in response to a call for a meeting for consideration of the rebuilding of the Kearsarge Mills. There seemed to be a determination on the part of the gentlemen present that every effort should be made for the accomplishment of the object.

The meeting was organized by choice of Mayor Sise for chairman, and Wallace Hackett, secretary.

Messrs. John Laighton, Wm. D. Fernald and Frank W. Hilton, a committee for that purpose, nominated the following gentlemen as a committee to confer with the directors of the mill relative to rebuilding, and to pledge a subscription by the citizens of Portsmouth, who were accordingly appointed, as follows: Frank Jones, Charles H. Mendum, F. E. Potter, Joseph Sise and Benjamin F. Webster.

After considerable discussion, it was voted without dissent, "That it is the sentiment of this meeting that the city councils should exempt the property of the corporation from taxation for the term of ten years."

The meeting then adjourned to the call of the mayor, to hear the report of the committee.

BOW MISSION SERVICES.

"The fire" was the general topic of conversation at the Saturday evening meeting. Several of the regular attendants at the mission services were employed at the mill. Terrible as the fire may have been, with all its attendant influences, yet it is not to be compared to the fire of rum, that maddens the brain and "sets on fire the course of nature, and is set on fire of hell." Mrs. James Sanborn conducted the service and several friends made interesting remarks.

On account of the rain there was a small attendance of the bethel service, Sunday afternoon. A hymn was sung, and the meeting adjourned.

The reform club held a social service Sunday evening. L.

CIRCUIT COURT OF THE UNITED STATES.

MONDAY, Dec. 6th; *Lowell, J.*

Alfred F. Howard, assignee of Hill & Carr in bankruptcy vs. C. Warren Brown, appellee.

This is a hearing upon an appeal from the decree of the District Court, allowing the claim of Brown against the bankrupts, who were alleged to be interested in a purchase of land of the Carey Improvement Co., for which Brown gave a mortgage, Oct. 5th, 1871, for land bought at auction in connection with Mr. J. C. Carr, whom Brown contended acted for himself and Hill & Carr, J. Dearborn, and B. Cheever. Mr. Brown it is alleged paid the notes given for this purchase, and now seeks to prove the same as debts against the estate of Carr and of Hill & Carr as guarantors of notes to the First National bank of Newburyport. The land was of the value of $1200, and this sum was to be deducted from the debts proved. The question submitted was: 1st, was this a claim against the bankrupts? and if so, can it be proved against the several estates of J. C. Carr and A. H. Hill? Brown was a real estate agent in Boston in 1871, and is a nephew of Mr. Carr. The real estate was at Powder horn hill, in Chelsea. The trial by jury was waived, and the case was heard by the Court. The cash paid at the sale came from Mr. J. C. Carr. The notes amounted to $6050.44, and were guaranteed May 15, 1876, to the bank by Hill & Carr and J. C. Carr; but it did not appear that Hill & Carr, or the purchasers of J. C. Carr of the four-fifths interest in the land, had made any written contract relative to the land, and it was contended that this was a contract within the statute of frauds, and to charge the appellant should be in writing.

Heard, and decision reserved.

Frink for Howard, assignee; H. S. Clark for Brown.

UNION GOSPEL MEETINGS.

A large congregation gathered at the Middle street church last evening, at the first Gospel meeting of the Young Men's Christian convention. The convention will meet every day this week, afternoons at the North Chapel and evenings at the Middle street church.

The praise service was conducted by C. J. Jackson. Prayer was offered by Dr. Alden. The first speaker, Rev. F. V. D. Garretson, said "what we want each evening is the Holy Spirit," for which all were asked to pray. Prayer was offered by Bro. Goss. The speaker said "we all assume the power of God, and his readiness to give. We want holy zeal." M. B. Critchett was the next speaker, who requested the musical director to sing, "What are you going to do, brother?" Mr. Critchett then said "we are coming before a King; let us bring large petitions." His remarks were very interesting. The several pastors were then called upon for short remarks, which was responded to by Revs. W. H. Alden, J. A. Goss, J. H. Yeoman and J. M. White. The meeting closed with prayer by Rev. W. A. McGinley.

The order of exercises for the week is as follows, subject to change of topic if thought desirable:

Tuesday afternoon, topic "The cry for a cleansed heart, and restoration to God's favor." Evening, topic "The Lord's controversy with His people."

Wednesday afternoon, topic "Divine quickening and growth in grace—how secured?" Evening, topic "Heaven's password, 'Jesus, only Jesus.'"

Thursday afternoon, topic "Persevering faith triumphant." Evening, topic "Who touched me?"

Friday afternoon, topic "Hearty consecration and self-sacrificing effort the conditions of Christian success." Evening, topic "The joyfulness of a true life, in contrast with the unrest of a false life."

Saturday afternoon, children's service; Lord's prayer, 23d Psalm, etc.; brief addresses on the importance of bible study. Evening, topic "Sowing and reaping; or, the two harvests."

Sunday, 9:30 o'clock A. M., prayer-meeting; 10:30, singing, responsive reading of scriptures, prayer, singing, and bible reading or brief addresses on topic "God's way of salvation—reconciliation by the cross; the instrumentalities He employs." Afternoon, 1:15 o'clock, singing, prayer, etc., and brief addresses on topic "The children the hope of the church; the home the hope of the children." Evening, closing appeals, founded on John 7:37, Rev. 22:17.

The schooner B. Frank Nealley went on the marine railway at Kittery on the 4th inst.

SYRUP OF

HYPO-PHOS-PHITES

WASTING DISEASES

Such as Consumption, Bronchitis, Asthma, General Debility, Brain Exhaustion, Chronic Constipation, Chronic Diarrhœa, Dyspepsia, or

Loss of Nervous Power,

Are positively cured by FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

As phosphorus enters so largely into the animal economy, it becomes *par excellence* the best vehicle with which to associate the other vitalizing ingredients of healthy Blood, Nerve and Muscle. In Fellows' Syrup of Hypophosphites are combined all the substances found necessary to insure robust health, and whereas it was invented with a view to supply every deficiency, it certainly has performed some wonderful cures.

MANCHESTER, N. H., June 18, 1880.

MR. JAMES I. FELLOWS,

Dear Sir: I wish to acknowledge the great benefit I have received from the use of "Fellows' Compound Syrup of Hypophosphites." I have been an invalid for nearly two years, with a bronchial affection that had become chronic. In the fall of 1878 I had a physician eighty days in succession, besides the counsel of several others. They gave me but little encouragement, some of them none. Last July I was advised to give your remedy a trial. I did so, and in less than one week there was a marked improvement for the better. I have continued its use from that time until the present, improving all the time, and I can truthfully say I am more than one hundred per cent. better than when I commenced its use. I have increased in weight about fifteen pounds, and my cough, which was marked, has nearly disappeared. I believe had it not been for your Syrup, I should ere this have been beyond the cares of life. Very truly yours,

ALBERT STORY.

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

ORDINANCES OF THE CITY OF PORTSMOUTH.

CHAPTER XIV.

SEC. 3. The occupants, or, if unoccupied, the owners, of all the buildings and land situated within the city, shall keep the sidewalks adjoining their respective premises, in all cases where a sidewalk has been or may be constructed, free from snow, by causing the snow to be removed into the street, and evenly spread, and when any of said sidewalks are covered with ice, so as to make the passing dangerous, said owners or occupants shall spread over said sidewalk ashes, sand or salt, in such manner as to prevent the same from being dangerous, within six hours after the cessation of every fall thereof or when the snow shall have blown or drifted upon said sidewalk by the wind. The time herein allowed for the performance of the work, to be computed from sunrise the succeeding morning whenever the fall of snow shall have ceased in the night time.

SEC. 4. Any person disregarding or offending against the provisions of this ordinance, shall upon conviction thereof, forfeit and pay a fine not exceeding TEN DOLLARS for each and every offence, with costs of prosecution; and it shall be the duty of the City Marshal, under the counsel and the direction of the Mayor, to cause this chapter to be enforce."

Notice is hereby given, that, by direction of the Mayor, the above ordinance will be strictly enforced, in every instance, during the ensuing winter.

Kidney Disease of 30 Years Standing Cured.

ELK FLAT, OREGON, Jan. 12, 1880.

The second package of Kidney-Wort is nearly gone, and I enclose a dollar for another package. I am a woman fifty-six years of age and have been afflicted with kidney disease for more than thirty years. Kidney-Wort has done me more good than any other remedy I have ever taken, and I am sure will cure me.

MRS. J. T. GALLOWAY.

—A Bombay merchant arrived in New York recently, with his four wives, and a large retinue, on the steamer City of Brussels from Liverpool. His name is Escofally Hiptala, and he is one of the richest merchants in Bombay. His youngest wife is twelve years old, and she was married to him four years ago. Mr. Hiptala comes to visit and see the land and the people.

SIR ROBERT CHRISTISON, physician to her Majesty the Queen of England, speaking of the Coca plant says, "The properties of this wonderful plant are the most remarkable of any known to the medical world. From repeated personal trials I am convinced that its use is highly beneficial and tonic."

To Build up a Broken Down System use the Liebig Co.'s Coca Beef Tonic, indorsed and recommended by the foremost physicians of Europe and America.

—It must be rather trying to be married to an emotional actress, to have her clutching you by the throat at three A. M., and shouting in a hoarse stage whisper, "Slave, didst lock the kitchen door; the key, where is't, quick; I'll strangle thee; didst lay the milk pitcher on the outer battlements; aye, me good lord, I'm mad."

Catarrh Sometimes

commences with a cold, but its cure always commences with the use of Sage's Catarrh Remedy. This old, reliable, and well-known remedy has stood the test of years, and was never more popular than now.

—A member of the North Carolina legislature, dining at a Raleigh hotel, saw a pod of red pepper on a dish near at hand. He thought it was a new kind of fruit, and took a bite. The tears streamed down his cheeks as he put the pod down, saying: "You lay there and cool."

See advertisement in other column, of the great and reliable dyspepsia remedy, D. R. V. G., guaranteed by all druggists.

—Efforts are being made for the restoration of the parish church at Stratford on-Avon, which contains the tomb of Shakspeare. It is estimated that about £20,000 will be required to complete the work.

Another Foreign "Lord."

In New York, Dec. 4th, on complaint of Alfred G. P. Speyer, Mr. C. Pelham Clinton, alias Sir Hugh Courtenay, alias A. Cunningham Dennison, alias Lord Maurice Lapierce Beresford, was held for examination in default of $1,000 bail. Mr. Speyer charges that, on the 30th of January, 1880, Clinton made false representations to him, on the strength of which he loaned him $100. When called on to answer, the accused wanted to have his examination postponed, and expressed a wish to see the British consul or ambassador. He was told he would have ample time to see any one he wished. He then gave his name as C. Pelham Clinton, saying he was a clerk by occupation, and was not guilty. He was locked up. This great "lord" some time ago cut quite a figure in Portland, Me., as Lieut. Dennison of Her Majesty's service, and lots of silly women—and not a few still more silly men—were very much "smitten" by him.

The cross bill for divorce, filed by Minister Christiancy against his young wife, in which she was charged with adultery, has failed. The witnesses in the case identified quite another woman from Mrs. Christiancy as the party involved, and the cross bill falls. Mrs. Christiancy will not only gain her divorce and alimony, but her counsel assert that they will be able to demonstrate to the satisfaction of those interested that she has been an outrageously-treated wife and foully-slandered lady.

AMUSEMENTS.—Theatre goers and all such as keep late hours are very liable to contract a severe cough or cold. A safe and reliable cure is Dr. Bull's Cough Syrup. The price is only 25 cents.

—A young lady, whose beauty formed a matter of general admiration and discussion, in passing a group of officers in the street, heard one of them exclaim to his fellow, "By heaven, she's painted." "Yes, sir, and by heaven only," she quickly replied. The officer acknowledged the full force of the rebuke, and apologized.

Women that have been given up by their dearest friends as beyond help, have been permanently cured by the use of Lydia E. Pinkham's Vegetable Compound. It is a positive cure for all female complaints. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlets.

—A London magistrate has pronounced the bicycle "a most abominable and dangerous nuisance."

Fellows' Syrup will cure pulmonary consumption in the first, and will give great relief and prolong life in the second and third stages.

In restoring persons suffering from the effects of diphtheria and the cough following typhoid fever, prevalent in this region, it acts with expedition and entire satisfaction.

The GREATEST LIVING AUTHORS, such as Prof. MAX MULLER, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, E. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Frances Power Cobbe, Prof. Goodwin Smith, The Duke of Argyll, Wm. Black, Mrs. Thackeray, Mrs. Muloch-Craik, Geo. MacDonald, Mrs. Oliphant, Jean Ingelow, Thos. Hardy, Matthew Arnold, Henry Kingsley, W. W. Story, Lowell, Carlyle, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

In 1881 THE LIVING AGE enters upon its thirty-eight year, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, above-named and many others; embracing the choicest Serial and Short Stories by the Leading Foreign Novelists, and an amount

Unapproached by any other Periodical

in the world, of the most valuable literary and Scientific matter of the day, from the pen of the foremost Essayists, Scientists, Critics, Discoverers, and Editors, representing every department of Knowledge and Progress.

The Living Age is a weekly magazine giving more than

Three and a Quarter Thousand

double column octavo pages of reading-matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific, Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

It is therefore invaluable to every American reader, as the only satisfactory fresh and Complete compilation of an indispensable current literature,—indispensable because it embraces the productions of the

Ablest Living Writers.

"In no other form can so much thoroughly good reading be got for so little money; in no other form can so much instruction and entertainment be got in so small a space."—*Philadelphia Times.*

"There is no other publication like it. It is known and read by all who desire to keep abreast with the cultivated thought of the English-speaking world."—*Episcopal Register, Philadelphia.*

"It reproduces in full the choicest articles from the foreign magazine that one who takes it does not feel the need of anything else in the way of foreign periodical literature."—*The Advance, Chicago.*

"Its frequent issue and ample space enable it to give all that the very choicest of living writers furnish to periodical literature on science, history, biography, philosophy, poetry, theology, politics and criticism, and to add to this the full complement of the best that there is in fiction."—*The Interior, Chicago.*

"Gives the best of all at the price of one."—*New York Independent.*

"Teems with the choicest literature of the day."—*New York Tribune.*

"Its, by all odds, the best eclectic published."—*Southern Churchman.*

"It enables the reader, at a trifling expense, considering the quantity and quality of the reading furnished, to keep with the best thoughts and literary work of our time."—*Christian Union, New York.*

"One cannot read everything.... No man will be behind the literature of the times who reads The Living Age."—*Zion's Herald, Boston.*

"We know of no investment of eight dollars, in the world of literature, that will yield equal returns."—*The Presbyterian, Philadelphia.*

"It has no rival."—*New York Evening Post.*

Published Weekly at $8.00 a year, free of postage.

☞ TO NEW SUBSCRIBERS for the year 1881, remitting before Jan. 1st, the numbers of 1880 issued after the receipt of their subscriptions, will be sent gratis.

Club-Prices for the Home and Foreign Literature.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Vegetation Extract than in other contains) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. —There was quite a scene in the Galveston court house the other day. A young lawyer had just finished an impassioned appeal, and dropped, as he thought, into a chair, but missed the chair. As he struck the floor there was an explosion, as if a young cannon had gone off, creating much excitement. The prevailing opinion was that a pistol had exploded in his pocket, but, upon raising him up, it was found he had flattened out a beautiful silk hat. It seems that an old but reckless member of the bar was to blame for the explosion. When the younger lawyer was about to sit down, the elder pulled the chair away, but he had forgotten that his own silk hat was under the very chair. The elder lawyer laughed boisterously until he identified the mutilated hat as his own, and then he smiled a sickly smile.

—The Emperor of Austria recently visited Olmutz to witness some rifle shooting, and inscribed his name in the visitors' book, which is ruled with the usual columns for "name," "profession," "residence," etc. The secretary of the shooting club, after the Emperor had written "Francis Joseph" at the head of the page, proceeded faithfully to fill out the line, "profession, Emperor," "residence, Vienna," etc.

The human system is a kind of machine. If one part is seriously out of order the whole goes wrong. The blood in circulation is the mainspring. Keep this all right and you will not suffer from kidney and liver disorders, piles and constipation. And in offering you Dr. Kennedy's "Favorite Remedy" as the most successful regulator of the human machine ever discovered, we oblige the sick and suffering more than we oblige Dr. Kennedy. Invest one dollar for a bottle at the store, or walk all the way to the doctor's office in Rondout, N. Y., rather than not get it.

—There are two classes of four actresses each, who are antithetical mysteries. They are Fanny Davenport, Maud Granger, Kate Claxton and Rose Eytinge on one hand, and Charlotte Thompson, Mrs. D. P. Bowers, Mrs. Chanfrau and Janauschek on the other. The mystery is how the former quartette have made so much money with so little talent, and the latter, four so little money with so much talent. —*New York Mercury.*

FELLOWS' Compound Syrup of HYPO-PHOS-PHITES

WASTING DISEASES

Such as Consumption, Bronchitis, Asthma, General Debility, Brain Exhaustion, Chronic Constipation, Chronic Diarrhœa, Dyspepsia, or

Loss of Nervous Power,

Are positively cured by FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

As phosphorus enters so largely into the animal economy, it becomes *par excellence* the best vehicle with which to associate the other vitalizing ingredients of healthy Blood, Nerve and Muscle. In Fellows' Syrup of Hypophosphites are combined all the substances found necessary to insure robust health, and whereas it was invented with a view to supply every deficiency, it certainly has performed some wonderful cures.

MANCHESTER, N. H., June 18, 1880.

MR. JAMES I. FELLOWS,

Dear Sir: I wish to acknowledge the great benefit I have received from the use of "Fellows' Compound Syrup of Hypophosphites." I have been an invalid for nearly two years, with a bronchial affection that had become chronic. In the fall of 1878 I had a physician eighty days in succession, besides the counsel of several others. They gave me but little encouragement, some of them none. Last July I was advised to give your remedy a trial. I did so, and in less than one week there was a marked improvement for the better. I have continued its use from that time until the present, improving all the time, and I can truthfully say I am more than a hundred per cent. better than when I commenced its use. I have increased in weight about fifteen pounds, and my cough, which was fearful, has nearly disappeared. I believe had it not been for your Syrup, I should ere this have been beyond the cares of life. Very truly yours,

ALBERT STORY.

WEDNESDAY, DECEMBER 8, 1880.

[Entered at the Post Office at Portsmouth, N.H., as second-class matter.]

The President's Message.

The message opens with a description of the prosperous condition of the country, and refers at some length to the causes which have led to this prosperity. Our condition is contrasted with that of a few years ago, when strikes and the clamor of discontent filled the land, when labor found inadequate employment and dangerous dissatisfaction appeared in all the industrial centres. The President congratulates the country upon the happy turn our affairs have taken, and points out that all the signs of the time indicate a continuance of this prosperity.

The southern question comes next, and this branch of the subject is really a review of the administration of President Hayes. He claims that there has been a steady improvement in the condition of the south, although it is still unsatisfactory. He refers to the suppression of the colored vote, and suggests that some measures be taken to secure a free ballot. In this matter he takes ground that will be satisfactory to the most advanced republicans. He declares that the agitation of this subject will continue so long as any considerable portion of the vote of southern electors is suppressed, or they are defrauded of their rights as electors through any of the numerous means recently employed.

The President thinks a great work has been accomplished in the direction of the reforms he promised at the beginning of his administration, and that the tone and efficiency of all branches of the public service have been improved. Much, however, still remains to be done.

The subject of the finances receives considerable attention. The excellent condition of the financial affairs of the nation, the success of the great work of refunding and the maintenance of specie payments are mentioned with evident satisfaction. So far as the work remaining to be done is concerned, the President cites Congress to the exhaustive report of Secretary Sherman, and makes no recommendations himself. He refers at length to the success of refunding, and gives figures showing the saving in interest, etc. He refers to the successful maintenance of specie payments as making the refunding of the debt possible.

Secretary Schurz gets a highly complimentary allusion to his success in Indian management, and a broad indorsement of his Indian policy.

The section devoted to affairs in Utah is very emphatic. There is no mistaking the tone of this part of the message. It is as strongly anti-polygamy as any document that has come from the White House. The President makes no allusion to his Utah visit last summer, but argues the question in a general way, as he has done in previous messages, except that his language this time is unusually strong.

The efficiency of the consular service in its new duty of gathering full statistics of foreign commerce is commented on.

The success of the negotiations with the government of China upon the subject of restricting the emigration of citizens of that empire is announced. There will be a special message on this subject when the treaty covering this difficult question and one relating to new commercial agreements are transmitted to the Senate for its action.

The fishery disputes growing out of the late award and the Fortune Bay disturbances, are in a fair way to satisfactory adjustment.

The attention of Congress is called to the failure to provide money to enforce the national election laws, and the well-known position of the President in regard to this matter is again set forth. This paragraph is somewhat sarcastic.

Under the head of affairs in the District of Columbia, the subject of the completion of the Washington monument, and the excellent work now in progress in that direction, is brought to the attention of Congress, and suitable appropriations asked for to complete the work. The great need of improvement of the Potomac river is also set forth.

There is much in the message which is the result of the President's observations on his recent tour to the far west, and is embraced under the heads of Indian affairs, public land system and Chinese question. The message, as a whole, is a review of the administration, and the most interesting portion is that in which it treats of the southern question. It is an encouraging document, and breathes a hopeful spirit throughout.

News and Notes.

Joseph Denver was drowned in New York, Monday, while being chased by ferry hands for trying to evade paying two cents ferriage at Catharine ferry.

The damage to the coal fleet on the way from Pittsburg to Cincinnati by collision and sinking, is reported at $140,000. The river is on a regular boom, and other damage is expected.

Saturday last Elisha Estes was fatally shot by J. W. Alverson near Cascade, Pittsylvania county, Va. They were farmers, and neighbors. Estes was on horseback, and riding on Alverson's premises, when he was ordered off. He refused to go, and was shot.

Calvin C. Hamilton, yardmaster of the Pennsylvania Railroad company's coal port at Trenton, N. J., committed suicide Saturday by shooting himself through the head. Cause, disappointed love.

Three young men dressed in white sprang out on a young man named Chapman while he was passing a graveyard at Fort Lawrence, Cumberland county, N. S., the other night, and he is now a raving maniac.

Wm. McMahon of Columbia, O., promised to marry Carrie Platt, the niece of President Hayes, and then annulled the contract on account of religious scruples. The action of McMahon caused Miss Platt to be prostrated with brain fever, from which she is slowly recovering. McMahon is a Catholic, and Miss Platt an Episcopalian.

Edward Wilkins, a customs officer in New York, was on Monday night forcibly carried into an alley on Clinton place, robbed of nearly all his clothes and money, and left unconscious, by a gang of ruffians, five of whom have been arrested and held for trial.

At Pine Bluff, Ark., on Monday, a negro named James Anderson criminally assaulted Mrs. Joseph Miller. He was arrested by the police, but the mob took him from the officers and hanged him to a telegraph pole in front of the court house.

It was rumored in Washington on Tuesday that General Howard will probably be ordered to the command of West Point, although General Sherman is earnestly opposed to it. General Howard when a cadet at West Point was for a time "sent to Coventry" by the southern cadets and some of their northern friends, on account of his anti-slavery views; and he is the man of all men to eradicate the old but still ruling spirit of caste from the military academy.

Saturday morning, as Gen. Spinner and Miss Raaleson of Mohawk, N. Y., who is on a visit to the general's family, were going into Jacksonville, Fla., they attempted to cross a railroad trestle as a train was backing, and stepped on the timbers to let the train pass. The young lady became dizzy and sat down, thoughtlessly putting her hand on the rail. The engine crushed the hand, but physicians think it can be saved except the thumb.

Monday night of last week a most diabolical attempt was made to blow up Beers & Son's store at Cornwall, Conn. A fuse was laid from the front of the store to a large oil tank in the rear; the fuse burnt up to the kerosene, and there went out; thus only the ignorance of the villians interfered to prevent the accomplishment of their nefarious plot. In this store are kept the town records, and close by is a chapel and several dwelling houses which would have been completely destroyed had the plot succeeded. A large reward has been offered for the conviction of the offenders.

A young man of Temple, Pa., Henry Lemon by name, was arrested for robbing his grandmother. When before the justice he pleaded not guilty, and said that he hoped the Almighty would paralyze him and strike him dumb if he was guilty. While in jail, curious to relate, he was stricken with paralysis, which sudden and startling answer has created quite a sensation in the neighborhood.

Chester A. Arthur is the seventh New York man who has been elected Vice President; the others were Aaron Burr, George Clinton, Daniel D. Tompkins, Martin Van Buren, Millard Fillmore and William A. Wheeler. The only President elected from that state was Martin Van Buren, though the Empire State has been very prolific in presidential candidates and aspirants.

William C. Hanham has been arrested for robbing the Brookline gas company of 1,000,000 cubic feet of gas, valued at $3,000. The gas had been shut off from his house once, but he had made connections with the main, and used the gas not only for illumination, but for heating his house and cooking also.

Charles E. Anchisi, alias Charles Archer, who escaped from New York last July, while under arrest for embezzlement, is swindling southern merchants very heavily by pretending that he is a secret service agent in search of counterfeit and forged bonds. His operations aggregate several thousand dollars.

The citizens of New York are alarmed over the discovery of several cases of small pox in that city. The authorities are urged to adopt effective measures of precaution and vigilance. That terrible scourge, diphtheria, is spreading in New York, Brooklyn and Staten Island, and scarlet fever is also making ravages in the same places. As there seems to be an epidemic of diphtheria, the health authorities of all the cities should be on the alert.

Francis and Jacob Vervalen, brothers, are under arrest for the murder of Miss Brower at Tappan, New York, last July. She was choked to death, and the prints of the fingers on her throat showed that one of the murderers had lost a finger. One of the brothers is thus maimed.

A fifteen-year-old Hartford girl, who was arrested Saturday evening for stealing a few articles of little value from a variety store, and released on promise of good behavior, so felt her shame that during the night she took a large dose of arsenic, so large that the stomach refused to contain it, throwing it off, thereby saving her life.

Sarah Jeffrey, of Long Branch, N. J., has received $5,000 from William Hendrickson, because his ferocious dog mangled her.

Mr. Edison announces that he is nearly ready to make his long promised experiment with the electric light. It is his intention, at an early date, to operate hundreds of lamps through eight miles of wire. The 1550 horse power dynamo electric machine is rapidly approaching completion.

Depot restaurants are more profitable than many hotels. The dining room in the Boston passenger depot of one of the leading railroads was leased five years ago to a young man whose sole capital amounted to $700. He was obliged to incur some indebtedness in assuming the business, but his net profits for five years from the time he entered into possession amounted $60,000.

Georgia takes care of the maimed confederate soldiers, and last year spent nearly $70,000 in buying artificial limbs for them. Good for Georgia! Let all the ex-confederate states follow suit.

New Jersey is said to be full of leafless apple trees that are still laden with fruit. This is because of the unprecedentedly large crop, which was too abundant to be entirely gathered. At the cider mills hundreds of bushels of apples lie unprotected and ruined on the ground, the capacity of the presses not being equal to the demands upon them. A Duchess county farmer says that his apples sent to New York netted him, after all expenses were paid, just five and one-half cents a barrel. Apple jack is almost as free as water in New Jersey, two little counties alone having distilled more than 100,000 gallons.

"If the signs don't fail," says an exchange, "the coming winter will be the coldest experienced in this latitude since this country was discovered by a man named Colombus. The squirrels are laying up their winter coal, the beavers are putting heaters in the basement of their lodges, the bees have killed all the drones and lined their hives with sheet-iron, the muskrats are flying south, wild ducks are committing suicide, the goosebone is black sixteen inches deep, editors are soliciting wood in exchange for subscriptions, poor families are buying an extra dog, and we are having a new collar put on our overcoat."

United States senators, it is not generally known, are shaved at government expense, while the representatives have to pay for tonsorial operations.

Judge Dandy has decided, at Omaha, in the Ponca Indian case to recover their old reservation and establish their title to it, that the Poncas have a legal estate in the reservation, and are entitled to its possession.

Judge Houston of Delaware, republican candidate for Congress, has announced his purpose to contest the seat of Edward L. Martin. The ground is alleged fraud.

The New York *Star* says: "Investigations go to prove that the Morey letter was written by a journalist of Brooklyn, who first offered it to the *Sun* for $700, but that paper refused it." The *Star* says this man is one of the witnesses against Philp.

The annual meeting of the stock and bondholders of the Eastern railroad will be held in Boston to-day.

Attention is invited to a change in the advertisement of Messrs. Ayers & Locke, who announce an extensive and varied assortment of goods especially suited for the holiday trade, just put in.

Springs supposed to have valuable medicinal qualities were lately discovered on the premises of G. H. Jenness, Esq., at Rye. Samples of water from each spring have been sent to experts for examination. Possibly the bonanza has been struck, as Rye with its numerous and valuable acquisitions as a watering place, is greatly in need of a medicinal spring to complete its attractions.—*Journal.*

At the meeting of citizens in the common council chamber, Monday evening, Mr. Robert B. Adams, agent of the Kearsarge Mills, was called upon, and stated that during the past twelve years the corporation had, after paying out the sum of $260,000 for new machinery, declared dividends amounting to $104,000, besides having a surplus, which in January, 1880, would have been $60,000, being ten per cent on the capital stock.

On Sunday last, at Dover, the police found two fourteen-years-old boys named John H. Clark and Owen Timmons lying in an entry way, dead drunk. On Monday, in the police court, they testified that they bought the beer on which they got drunk at three drinking dens on "the landing," kept by Catharine Howley, Catharine Cosker and Patrick Cassidy. The three saloon keepers were brought into court, on charges of selling liquor and violating the Sunday ordinance. On the former charge all three were bound over for trial before the supreme court, in $200 each; for keeping open on Sunday the two women were fined $10 each, and Cassidy $20, the costs in each case being $17.90; all appealed.

The union gospel meeting at the Baptist church, Tuesday evening, was preceded by a service of praise. After prayer, Mr. Jackson sang "Say, is your light burning, my brother?" The subject of the discourse was "God's controversy with his people." The speaker said "the churches are not aggressive," and the cause is an acknowledged defect in our personal piety; and what is the remedy? We think it is to be found in a genuine, general revival of God's work. Rev. W. W. Smith also made some interesting remarks. It was announced that a morning meeting will be held in the North Parish chapel at 9:30 o'clock each day for the rest of the week, and that the afternoon meetings will commence at 2:30 o'clock.

"The Harrisons" musical comedy company, which will appear at Franklin theatre on Monday evening next in the musical eccentricity "Photos," written by the author of the "Mighty Dollar," consists of Miss Alice Harrison, Mr. Louis Harrison, Mr. R. E. Graham, (formerly of the Colville party,) Miss Carrie Daniels, Mr. W. H. Thompson, Miss Therese Wood, Mr. H. Warren, Geo. Gaston and Mr. C. Lacey. The company has met with remarkable success throughout the country, being now at the Park theatre, Boston, playing to large houses. A Boston paper says: "The consummate acting of the Harrisons in their new piece stamps it as one of the most successful eccentric comedies of the day. It is one of those peculiar productions which, while it gives both Alice and Louis Harrison an opportunity to display their dramatic talent and versatility, yet withal brings each member of the company prominently forward, keeping an audience interested and amused throughout, from the rise to the fall of the curtain. There is none of that drag so palpably manifest in most plays similarly constructed, and which during the momentary absence of the principals wearies the house with mediocre acting and worse 'business' from the lesser lights of the company."

The annual meeting of the New Hampshire Society for the Prevention of Cruelty to Animals was held at the aldermen's room on Monday evening.

The secretary's report showed 131 cases investigated and remedied during the past year.

The treasurer's report showed the receipt of $343.48; expenses, $308.54; cash on hand, $35.94. A committee was appointed to audit the treasurer's report, and found the same correct and properly vouched.

The thanks of the society were tendered the president for the energetic manner in which he has performed the duties of his office during the past year.

The following directors were elected: Miss Eliza Rice, Miss E. H. Pearson, Mrs. J. J. Pickering, Mrs. Alfred W. Haven, Mrs. H. C. Knight, Miss Carrie A. Morrison, Mrs. F. W. Miller, Miss Mary R. Lyman, Miss Mary A. Foster, Miss Susan E. Christie, James R. May, Augustus W. Odiorne, Charles W. Gardner, Joseph B. Upham, Jr., Miss Annie F. Jenness.

The meeting of the general society then adjourned, and a meeting of the directors was held in the same room.

The president, in behalf of Mrs. Pickering, tendered the society the gratuitous use of the office over Mr. Goodrich's store. The offer was accepted, and the thanks of the society were voted to Mrs. Pickering for the same.

Dr. J. R. May was tendered a vote of thanks for the gratuitous use of his office for the past year, and was elected a life member by the society.

Proceeded to the election of officers, and the following were elected:

President, Thomas E. O. Marvin;

Vice Presidents, Mrs. E. H. Winchester, Mrs. Stanton Parker, Mrs. Albert L. Jones, Mrs. Ichabod Goodwin, A. H. Ladd, J. S. H. Frink, Frank Jones, Alfred O. Larkin;

Secretary, C. E. Batchelder;

Treasurer, James R. May;

Trustees of permanent fund, Mrs. J. J. Pickering, Portsmouth; Fred. Smythe, Manchester; Josiah B. Sanborn, Concord;

Counsel, J. S. H. Frink.

The following agents were elected: Mrs. B. B. Tobie, Franklin; F. W. Ballou, Plymouth; Margaret Sunderland Cooper, Lake Village; C. A. Chase, Rumney.

DEACON CRANKETT.

This evening, at Music hall, the favorite new drama by John Habberton, author of "Helen's Babies," will be presented, with Mr. Ben. Maginley as "Deacon Crankett." Of the play "Jennie June" thus speaks: "It is not a weak play; it possesses several very strong dramatic situations; yet it is a healthy, clean and pure play, that Sunday school children might be taken to see, and be all the better for it. Above all, the Deacon is a new type. He is not the lying, sanctimonious hypocrite that stage deacons always have been, but a jolly, hearty, hospitable, jovial individual, whom even his wife has not been able to repress." The Philadelphia *Enquirer* says: "The lives of the honest country yeoman, the true-hearted lover, the city belle, the motherly but childless matron and the repentant robber are sharply drawn, with only so much exaggeration as is warranted by poetic license and the canons of the drama. 'Deacon Crankett' is so original in the make-up that it cannot be compared with any other play of the period, and so it must be seen to be appreciated." The New York *World* says: "The new play is one of real excellence—simple, pure and lovable throughout;" and the Albany *Argus* calls it "a beautiful idyl."

YORK COUNTY AFFAIRS.

A special election was held in the classed towns of Berwick and North Berwick, on Thursday of last week, to choose a representative to the legislature. At the regular election the vote was a tie between Lorenzo R. Hersom, republican, and C. H. Horne, fusion greenbacker; at the special election Mr. Hersom was elected by 243 majority, Horne having but forty votes in the two towns, and E. H. Hayes, the democratic candidate, 119. This election makes the Maine legislature complete in both branches; the lower house consists of eighty-four republicans and sixty-seven fusionists; and the senate of twenty-two republicans and nine fusionists—a republican majority of thirty on joint ballot.

Two recent violent deaths in Biddeford directly traceable to intoxicating liquors—in one case a drunken man being burned to death, and the other a drunken man falling down stairs and receiving fatal injuries—seem to have aroused the temperance element of Biddeford and Saco to insist on the actual enforcement of the prohibitory law. As a consequence, the liquor dealers are having a hard time of it. The city marshal of Biddeford has notified the owners of buildings where intoxicating liquors are supposed to be sold that they will be held responsible, and prosecuted according to law. On Tuesday of last week the saloon of Tom Boyers was raided, and two gallons each of wine and whiskey, a barrel of ale and two hundred bottles of beer seized; and on Friday the officers visited eight places, capturing whiskey, rum and gin in two, and five kegs of beer at a third. At the Boston & Maine depot in Saco, Monday, seventeen gallons of whiskey was captured; and in the same city on Friday a twenty-gallon seizure was made. "Open bars" in the two cities are in a rapid decline.

The Pittsburg Snow Flake.

Did you ever see a Pittsburger get a flake of soot off his face? He never rubs it off. To rub off a flake of soot discloses the stranger. It also leaves a streak of black, half an inch wide, in place of the flake of soot as big as a three-cent piece. This is not an improvement. The Pittsburger, to the manner born, blows it off. He is an adept in the art. If the flake nestles on his nose he protudes his under lip, gives one vigorous whiff, and the obnoxious Pittsburg snow-flake leaves his face without a mark. If it lights on either cheek, the mouth is puckered and stretched around in the direction of the smut, with the unerring accuracy of a garden hoe. It is astonishing what almost inaccessible portions of the face and head can be reached by a native burgher in this way. I have seen one who could puff a black flake off the back of his neck. Sometimes the beauty spot will nestle close behind the left ear, where it is apparently as secure from a blow as a calm centre. But the native simply gives it a puff clear around his head, from left to right; the current passes over the left ear, caroms on the right and comes back and picks up the wanderer and blows him away. They blow these sable flakes in any position, as easily as a weekly paper puffs the summer circus. — *Burlington Hawkeye.*

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has specially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—*Ladies' Visitor*, New York City. Sold by all druggists. 25 cents a bottle. 2

In the Sacred Name of Charity.

The care of the sick, the homeless, the weary ones of earth's children, maimed, crushed, bruised, burning with fever, or by disease, is the highest mission of man on earth. The support of a world-renowned Charity Hospital in New Orleans has been by legislative enactment and constitutional recognition placed for twenty-five years from 1868 on a liberal subsidy secured from the Louisiana State Lottery Company. The next, or Grand semi-Annual Drawing takes place on Tuesday, December 14th, when $32,000 is distributed in prizes to holders of $10 tickets or fractional parts thereof, full information of which can be had of M. A. Dauphin, No. 319 Broadway, New York City, or same person at New Orleans, La. Write at once.

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients wrstever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

Parties living at a distance, (except in surgical cases,) by sending a statement of their case can be treated at home.

Help One Another?

Of course. What else are we here for? For example: Mr. Asa F. Bearse, of Cotuit, Mass., had been troubled for years with diseased liver and could get no relief. He was not fit for business, and carried his life like a burden on his back. Just then his friend, Capt. Handy, said: "Asa, why don't you send to 'Dr. David Kennedy, of Rondout, N. Y., and get a bottle of his 'Favorite Remedy.' It will only cost you a dollar, and may do you good." Bearse did so, and after a short time was sound as the dollar with which he bought the medicine. To be sure, he as help one another. Sold by all druggists.

Daggett's Boomerang.

When Congressman Daggett first went to Washington, two years ago, he was charged $16.50 for extra baggage at Omaha. This angered the congressman so that he vowed to make life a burden for every official on the Union Pacific and Central Pacific railroads. When he got to Washington he began to ship tons and tons of *Congressional Records*, which the Union Pacific and Central Pacific railroads are obliged to carry free of charge, according to a stipulation with Uncle Sam, made when he granted them so much of his broad public domain. Daggett shipped boxes of these documents over the road, addressed to himself and accompanied by his big frank and the words "Congressional documents, free." During the first session he sent seventeen tons of this class of matter over the road, and as soon as he reached home he sent it back again. Daggett's big boxes of "Pub. Docs." soon became notorious, and the face and figure of the congressman were also pretty well known. Wherever he stopped he was sure to ask some of the freight agents if they had seen any of "my free freight lately." He always made himself known, and was sure to add, "You must handle those boxes gently; they contain the speeches of some of the greatest men of the nation. If you damage any of them I'll sue the road for the full value." On election day the boys got their revenge, and every mother's son of them voted and worked against Daggett. Those who ran on the Utah division located their voting places in Nevada in time to get their work in on election day, and they raked Daggett fore and aft from sunrise to sundown. When it was known that he was defeated nearly every freight and baggage man on the line got drunk, and for a couple of days the road was utterly demoralized.—*Carson (Nevada) Appeal.*

A California Betting Story.

John Mackay, the mining millionaire, has in his employ at Carson, Nev., an expert named Maurice Hoeflich, who always offers to back his opinions by betting. This annoys Mackay, who does not like to be disputed, and is further fretted by the fact that Hoeflich usually proves to be in the right. One day Hoeflich was playing with an enormous grasshopper. It could jump over twenty feet, and he said:

"I'll ped you $50, Mr. Mackay, dot you can't find a hopper to peat him."

The rest of the story, as told by the *Appeal*, is as follows:

Mackay sent a trusted emissary down to Carson Valley to secure a contestant. The man spent nearly a week in catching hoppers, and reported that the best gait any of them had was seventeen feet. He doubted if a bigger jumper could be secured.

The next day he had about a dozen hoppers, and Mackay gave them quarters in his room as Vanderbilt would have stabled his stud. Each had a cigar-box to himself, and every morning they were taken out and put through their paces. It was impossible, however, to get one to jump over eighteen feet. Mackay was in despair; but one morning a hopper sniffed at a bottle of ammonia on the table, and immediately jumped thirty feet. Next day Mackay announced to Hoeflich that he was ready for the match. The expert came an hour before the time, with his pet hopper. Not finding Mackay in, he noticed the bottle of ammonia. A light broke upon him. Grabbing the bottle, he rushed to a drug store, threw away the ammonia, and order it filled with chloroform. Mackay soon arrived with half-a-dozen mining superintendents whom he had invited to see him have some fun with Hoeflich. They were hardly seated when Hoeflich came in with the hopper in a cigar-box under his arm.

"I vas a leetle late, Mr. Mackay, but I'm here bind der hopper and der coin."

He laid down the money, which was covered promptly. Mackay got behind somebody and let his hopper sniff at the ammonia bottle, which held Hoeflich's chloroform. Time being called, the hoppers were placed side by side on the piazza, and at the word "go," each was touched on the back with a straw. Hoeflich's entry scored twenty-four feet. Mackay's gave a lazy lurch of some four inches, and folding its legs fell fast asleep.

—Efforts are being made for the restoration of the parish church at Stratford-on-Avon, which contains the tomb of Shakspeare. It is estimated that about £20,000 will be required to complete the work.

—A French chemist asserts that he has concocted a substance by means of which tenants in Ireland, or elsewhere, who will not pay their rents, may be evicted without difficulty, and without the expenses attendant on legal proceedings. The mixture is in the form of a powder; a small quantity of it sprinkled before sunrise on parts of the land adjacent to the tenant's dwelling, will render it absolutely impossible for any human being to remain within half a mile of the spot where the sprinkling has taken place for at least seven days, when the process should, if necessary, be repeated. The effect of the powder is to produce violent nausea and other feelings of so uncomfortable a kind as to be quite unbearable. It is, however not dangerous to life, and produces no injurious effects on cattle.

TRADE MARK. DAY'S Kidney PAD

A discovery which cures by the natural process.

ABSORPTION.

All diseases of the Kidneys, Bladder, Urinary Organs and Nervous System, when nothing else can. It is comfortable to the patient, positive in its effects, and the first cure for those painful and much dreaded affections,

Diabetes and Bright's Disease,

while its cures of Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth or to close application to business or work, may be restored and manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment well tried and proven inefficient, though sometimes effecting apparent cures of one complaint, they sow the seed of more troublesome and permanent disorders. The price of our Pad brings it within the reach of all, and it will annually save many times its cost in doctors bills, medicines and patent nostrums, at best give but temporary relief. It can be used without fear or harm, and with certainty of a permanent cure. For sale by druggists generally, or sent by mail (free of postage) on receipt of the price. Regular Pad, $2.00. Child's Pad (for incontinence of urine in children), $1.50. Special (extra size, $3.00. Our book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures sent free. Write for it. Address

DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it our duty to the afflicted to warn them. Ask for DAY'S KIDNEY PAD, and take no other.

KIDNEY-WORT

PERMANENTLY CURES

KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. R. H. GLADE, South Hero, Vt., says: "In cases of KIDNEY TROUBLES it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to relieve."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGARTH, of Berkshire, says, "One package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female disorders.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

CANTERBURY SHAKERS'

LIFE-INVIGORATING

SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. COR. BETTS' SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the consumer as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, there being in a given amount of Syrup twice the amount of Vegetable Extract that any other contains, the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. T. R. CROS. BY, M. D., W. D. BEECK, M. D., S. B. BUNTON, M. D., J. S. ELLIOT, M. D., JAMES BARR, M. D., Z. COLBURN, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH OSGOOD, M. D., A. G. GALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefitted by other Sarsaparillas should not fail to make a single trial of the Blood Purifying and Life Invigorating Compound of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Black Cohosh, Gargetroot, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by Thos. Corbett, its inventor. Sold everywhere. Inquire for Corbett's Shakers' Sarsaparilla.

Daily Chronicle.

—Some photographer in New York is sold to have two hundred and fifty-three "distinct negatives" of Miss Maud Branscombe. Evidently a fellow who will not take no for an answer.

—Mr. Longfellow can take a worthless sheet of paper, and by writing a poem on it make it worth $50. That's genius. Mr. Vanderbilt can write fewer words on a similar sheet, and make it worth $50,000,000. That's capital.

—It is rumored that the feelings of the young ladies in Boston have been "aroused" by the demand by young men for wives who are good cooks. Some of them have formed a club pledging themselves not to marry a man who cannot sew on buttons, darn his own stockings, black his own boots, and take care of himself in every way. Another club will be composed of girls pledged not to marry any man who has not learned how to take care of a furnace and a range, how to drive nails and mend water pipes, and who is not able to shovel snow well.

—There is a little story about a wedding that will take place in East Vincent, Pa., during the holidays. In the heat of the campaign the maiden, who ardently longed for the success of Hancock, made an agreement with her lover that she would marry him this year should Hancock be elected, and that if Garfield should win she would remain single four years longer. The result of the election apparently knocked the bridegroom's hopes higher than the price of coal, but the girl now declares the bet off, and tells her lover to fetch on the parson. Love laughs at election bets.

—The city fathers of London induced Prince Leopold, the Queen's youngest son, to unveil their unpopular Temple Bar monument for them. It has cost some $75,000, and is a hideous structure, resembling a German stove, with statues of the Queen and Prince of Wales in arches at each side of it, and the whole surmounted by a huge bronze dragon. The ceremony took place amid the derisive shouts and groans of an immense crowd, and so much unpopularity has been called forth by this waste of money, and the renewed obstruction to the streets, that half a dozen stalwart policemen stand on guard day and night over the "monstrosity," as it is now called, to protect it from injury.

THE SUN FOR 1881.

Everybody reads THE SUN. In the editions of this newspaper throughout the year to come every body will find:

I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eyesight. THE SUN long ago discovered the golden mean between redundant fulness and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continued story of the lives of real men and women, and of their aims, plans, loves, hates, and troubles. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest comment. THE SUN's habit is to speak out fearless about men and things.

V. Equal candor in dealing with both political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republican.

VI. Absolute independence of parties organizations, but unswerving loyalty to sound Democratic principles. THE SUN believes that the Government which the Constitution gives us is a good one to keep. Its function of duty is to resist to the utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the year immediately following will probably decide this supremely important contest. THE SUN believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings for imperial power.

Our terms are as follows:

For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage free.

The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.

The price of the Weekly SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free. Address, I. W. ENGLAND,

Publisher of THE SUN, New York City.

FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

WASTING DISEASES

Such as Consumption, Bronchitis, Asthma, General Debility, Brain Exhaustion, Chronic Constipation, Chronic Diarrhœa, Dyspepsia, or

Loss of Nervous Power,

Are positively cured by FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

As phosphorus enters so largely into the animal economy, it becomes *per excellence* the best vehicle with which to associate the other vitalizing ingredients of healthy Blood, Nerve and Muscle. In Fellows' Syrup of Hypophosphites are combined all the substances found necessary to insure robust health, and whereas it was invented with a view to supply every deficiency, it certainly has performed some wonderful cures.

MR. JAMES I. FELLOWS,

Dear Sir: I wish to acknowledge the great benefit I have received from the use of "Fellows' Compound Syrup of Hypophosphites." I have been an invalid for nearly two years, with a bronchial affection that had become chronic. In the fall of 1878 I had a physician eighty days in succession, besides the counsel of several others. They gave me but little encouragement, some of them none. Last July I was advised to give your remedy a trial. I did so, and in less than one week there was a marked improvement for the better. I have continued its use from that time until the present, improving all the time, and I can truthfully say I am more than a hundred per cent. better than when I commenced its use. I have increased in weight about fifteen pounds, and my cough, which was fearful, has nearly disappeared. I believe had it not been for your Syrup, I should ere this have been beyond the cares of life. Very truly yours,

ALBERT STORY.

Do not be deceived by worthless preparations of a similar name; no other preparation is a substitute for this, under any circumstances.

Big Failure.

B. G. Arnold & Co., a great coffee-importing house in New York, have failed; liabilities estimated as highly as $2,000,000. Their friends say they will probably be able to pay one hundred cents on a dollar, and have a surplus of $200,000 or $300,000.

Books, Magazines, Etc.

"Little Women; or Meg, Jo, Beth and Amy," by Louisa M. Alcott. Boston; Roberts Brothers; 580pp.; elegantly illustrated, with a likeness of the authoress. When "Little Women" appeared a dozen or so years since, it took the readers of this country by storm. There was something so decidedly original in her narration that it took everywhere and was read by every one. Now, like Mrs. Stowe's "Uncle Tom's Cabin," the book is issued with elegant bindings, gilt edges on superior paper, and most profusely illustrated. To the early readers of Miss Alcott's work the volume comes freighted with attractiveness for a perusal; while to those who have begun to read books since the "Little Women" came out and attracted so much notice, there is a fund of enjoyment indescribable and to be appreciated solely in the satisfaction of reading the famous work which has been so successful a candidate for public admiration.

Volume 18 of the "Little Classics," edited by Rossiter Johnson, and published by Houghton, Mifflin & Co., of Boston, contains "Churning with a Scoop" by Charles Warren Stoddard, "Dr. Marigold" by Dickens, "A Brace of Boys" by Fitz Hugh Ludlow, "George the Third" by Wm. M. Thackeray, "Juket" by Anna Jameson, and "Is Life Worth Living?" by William Howell Mallock, — a very readable volume; price $1.00. For sale by W. G. Myers.

Wanted a Good Team.

A good story is told of a prominent Boston merchant, a native of Maine, who on one day last winter at one of the cities on the Maine Central determined, instead of waiting the slow movement of the stage, that he would drive eighteen miles across the country to the place where he first saw the light of this world. He was clad in fur, and the cautious stable man evidently did not suppose he was dealing with a man who could buy his whole livery stock without a preceptible diminution of his bank account.

"I want to be driven over to B—— with a pair of horses," said he of the Hub.

"Well, sir," said the stabler, "I shall have to charge something handsome for a *pair* to go there," apparently judging that his customer enveloped in rough furs was of the class who could only afford one horse.

"How's the road?" calmly rejoined the Bostonian.

"Pretty good sleighing," said the down-easter.

"Have you a good-sized sleigh?" enquired the merchant.

"Yaas," said he of Maine. "Do you know anybody over there?" as if seeking for a reference.

"Well, no; I can't say as I do," was the answer.

The man, considering that he was to furnish a driver, concluded that his team would be returned, but still persisted. He should "have to charge a large price for two horses for such a distance." This was about as much as the merchant prince from Boston could stand. His credit was never doubted on State street, nor his ability to pay questioned in London or Paris. He astonished the livery man by quietly remarking, "I guess I will be driven over behind four horses!" and in that style he was whisked over the hills of Penobscot — with many an inward chuckle, no doubt, at the mis-calculation of the owner of the steeds regarded his patron.

News and Notes.

Senator Thurman, it is reported, intends to live permanently in Washington, and practice at the bar of the supreme court.

A tornado passed through a portion of Missouri just south of Carthage on the night of the 4th inst., destroying buildings and trees, and causing the loss of several lives. The storm was accompanied by thunder and lightning.

Near Chester, Ill., on the morning of the 7th inst., an insane man named Louis Tochstein broke loose from his guards and ran to the house of Thomas Ryan, where he killed Ryan, his widowed daughter and the latter's twelve-years-old girl, with an axe. The maniac then went to the next house and told a servant girl there that he had come to kill her, but help arrived and he was secured.

A railroad train was thrown from the track east of Atchison, Kan., on the 7th last, by a broken rail, and rolled down an embankment, taking fire at the bottom and being entirely destroyed. The train mail agent was caught in the wreck, and burned to death. Six other persons were injured, but none fatally.

John Livingstone, a miner, while drunk in Excelsior, Iowa, on the 3d inst., attempted to kill Margaret Stewart and her two-year-old child with an axe. Both were struck in the head, and fatally hurt. Lynching was threatened.

The body of Albert Bisset, a fireman on a locomotive, was found cut to pieces on the track near Turners, N. Y., Dec. 7th. He accidentally fell from the cars.

The Toronto *Globe* says if Lord Granville has actually proposed to concede all that President Hayes states, it will be the duty of the Dominion government to enter a firm protest in behalf of Canadian rights.

John Koons, clerk, and William Smith, telegraph operator, at Packerton, Pa., were killed Dec. 6th by an engine of the Lehigh Valley railroad, which was thrown off the track at Lehigh Gap by a land slide.

John Smith, with several aliases, has been arrested for passing counterfeit coin in Fall River, Mass. He had about $70 in good money and considerable counterfeit in his possession when arrested. He is thought to have passed about $100 there.

Prof. Hind, of the Halifax Fishery Commission, has issued a pamphlet charging the authorities at Ottawa with falsifying the official statistics of commerce to make it appear that the provinces were not dependent upon imports from America.

Marian Mordaunt, an actress who was recently shot at the St. Louis Comique theatre by the accidental discharge of a gun, has sued the manager, Wm. H. Smith, for $5,000 damages.

Mrs. Mower, ex-postmistress of New London, Conn., is unable to collect the judgment of $4,956 against William H. Tubbs, her successor, the sheriff finding no attachable property belonging to him.

The reformed church in the village of Bolleman, near Reading, Pa., having voted to expel Rev. Mr. Appel, his friends on Sunday, the 5th inst., endeavored to have him hold services. The majority were opposed, and a fight ensued, in which the church furniture was demolished and several people hurt. The sheriff dispersed the rioters, but the fight was renewed on Monday, when twenty-five of the rioters were arrested. Some more reforming would not hurt that church.

New Hampshire Items.

The *Blade*, the new republican daily at Concord, has suspended after running twelve weeks. Lack of capital was the cause, Nathaniel White, its backer, having died.

The New Hampshire Supreme Court, fall bench, met at Concord on the 7th inst., and arranged the circuit for 1880 as follows: Manchester, January 4th, Smith, J.; Exeter, January 18th, Clark, J.; Newport, January 25th, Allen, J.; Concord, February 1st, Foster, J.; Dover, February 8th, Blodgett, J.; Laconia, March 22d, Smith, J.; Haverhill, March 22d, Stanley, J.; Concord, April 5th, Clark, J.; Keene, April 5th, Allen, J.; Exeter, April 12th, Stanley, J.; Lancaster, April 12th, Foster, J.; Ossipee, April 19th, Blodgett, J.; Nashua, May 3d, Blodgett, J.; Plymouth, May 3d, Allen, J.

—Abraham Lincoln's old home at Springfield is reported by the Sangamon, Illinois, *Monitor* to be a calaboose for vagrants. The building was vacated by a boarding-house keeper recently and since then tramps have found lodgings therein.

Burnett's Cocoaine.

The Best Hair Dressing in the World.

BURNETT'S COCOAINE allays irritation, removes all tendency to dandruff, invigorates the action of the capillaries in the highest degree, and has earned a deserved reputation for promoting the growth and preserving the beauty of the human hair. Ladies dressing their hair elaborately for the evening will find that it imparts a healthy natural gloss to the hair, and will cause it to retain its shape for hours.

BURNETT'S FLAVORING EXTRACTS are used and endorsed by the best Hotels, Confectioners, and Grocers throughout the country. They are perfectly pure.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold only in boxes. Tu,Th&S,6.0

ECLECTIC MAGAZINE.

— OF —

Foreign Literature, Science, and Art.

ENLARGED AND IMPROVED.

The Eclectic Magazine reproduces from foreign periodicals all those articles which are valuable to American readers. Its field of selection embraces all the leading Foreign Reviews, Magazines, and Journals, and the tastes of all classes of readers are consulted in the articles presented. Its plan includes Science, Art, History, Biography, Sketches, Travels, Poetry, Novels, Short Stories, etc., etc.

With the number for January, 1881, the Eclectic Magazine will be enlarged in such an extent as will give about Twenty-five Pages of Additional reading matter during the year.

This increase of space will afford the opportunity not merely for an increase quantity but for a much greater variety of reading matter, and the publisher confidently promises that the opinion universally expressed that the Eclectic will be more valuable, more readable, and more satisfactory than ever before. The same pains will be taken as hitherto to exclude articles which are trivial in character, or of merely transient interest; but larger space will be assigned to articles of a popular and entertaining character, and with ample materials of the best quality at command, the Eclectic will be made the ideal Family Magazine.

The following list of contributors to the selections from which the Eclectic is selected will give some idea of the value of its contents: Rt. Hon. W. E. Gladstone, Alfred Tennyson, Prof. Huxley, Prof. Tyndall, Richard A. Proctor, B. A., J. Norman Lockyer, F. R. S., Dr. W. B. Carpenter, E. B. Tylor, Prof. Max Muller, Prof. Owen, Matthew Arnold, A. Freeman, D. C. L., James Anthony Froude, Thomas Hughes, Anthony Trollope, W. Black, Mrs. Oliphant, Turgenieff, Miss Thackeray, etc.

☞ The English periodicals are the great storehouse from which are drawn many of the best and most popular books of the time. The Eclectic reprints this material fresh from the authors' hands, and at a price far lower than it costs in book form.

Terms: single copies, 45 cents; one copy, one year, $5; five copies, $20. Trial subscription for three months, $1. The Eclectic and any $4 magazine to one address, $8. Postage free to all subscribers.

The members of Kearsarge fire-engine company propose to give a grand firemen's ball on New Year's eve.

The schooner C. H. Trickey arrived at this port on the 6th inst., with a load of coal for Dover. On the 8th she was putting some of it into gondolas.

A lady belonging in Rye slipped on the sidewalk near the head of Market street, on the afternoon of the 8th inst., and broke a small bone in one of her ankles.

At the municipal election in Cambridge, Mass., on Tuesday, the 7th inst., Frank Goodwin, Esq., son of Ex-Gov. Goodwin of this city, headed the ticket for school committee and was handsomely elected.

The schooner Ida Hudson arrived here on the 8th inst. with a cargo of coal from Hoboken for South Newmarket. The up-river navigation being stopped by ice, the coal will go to its destination by rail.

A press despatch from Halifax, N. S., of the 8th inst., says that the ice at Summerside, Prince Edward's Island, where the schooner Maud B. Wetherell of this port is frozen in, is fourteen inches thick, and that thirteen vessels are held there by it.

Walter O. Shute and Herbert Caswell of Newmarket captured a leopard seal in Great bay on Saturday afternoon, the 4th inst. The animal weighed 700 pounds, and the species is a rarity in this latitude. After the captors had killed it they saw its mate near by, but did not venture near it.

Of Dr. Nathaniel Batchelder of Epping, who died in that town on the 1st inst., at the age of seventy-seven years, the Dover *Republican* says: "Dr. Batchelder was placed in Fort Constitution, Portsmouth, for a short time, during the war of the rebellion, for disloyal utterances, but he soon came to the conclusion that he did not possess the material of which martyrs are made, and was released. We believe he was the only man in New Hampshire who received such discipline. He never was so active in politics afterwards."

"The Harrisons," which are to appear at Franklin theatre on Monday, Dec. 13th, are claimed to be the best artists in their line in America, and are now playing a successful engagement at the Park theatre, Boston. The press of that city commends the performance as follows: "The Harrison's company is not large, but it is of first quality, and the party are thoroughly at home in the matter of entertaining an audience. The entertainment is brim-full of good things, and a merrier two hours and a half than it affords we are not likely to have this season."

EASTERN RAILROAD.

The fourth annual meeting of the stockholders of the Eastern railroad and of the holders of certificates of indebtedness, for the choice of directors, six by the certificate holders and three by the stockholders, was held at the Meionaon in Boston on the 8th inst. The meeting was a joint one, Elijah B. Phillips, of Boston, acting as president, and F. I. Amory, of Boston, as clerk, of the stockholders; and Willard P. Phillips, of Salem, as president, and Joshua Crane, of Brookline, as secretary of the certificate-holders. The report of the directors was read and approved by both parties. The following-named gentlemen were elected directors:

On the part of the certificate holders—Elijah B. Phillips, Alfred P. Rockwell, George P. King, George S. Morrison, Richard Olney, and John Cummings. On the part of the stockholders—Jacob C. Rogers, William B. Bacon and Stephen J. Young.

The director's report states that the net results of the business of the past year have been the most satisfactory of any in the history of the road. The earnings for transportation of freight have largely exceeded those of any previous year, and the number of passengers carried is also largely in excess of any other year, but the gross receipts from passengers are a little below the reported earnings of two other years. There has been an increase in gross earnings of $419,078.21, and an increase of expenses of $328,935.56, leaving as the result of the year, $1,084,927.-94 net earnings, or $90,142.65 more than in the previous year. After paying interest (increased one per cent over last year), rentals and the operating expenses, (which last payment has much more than maintained the property at its value at the beginning of the year,) the sum of $186,078.52 has been expended in rolling stock and the improvement of Charlestown flats.

CORRESPONDENCE.

The following correspondence explains itself:

PORTSMOUTH, Dec. 6th, 1880.

Rev. Mr. Yeoman—Dear Sir: We rejoice with you that your church was saved, although badly damaged by fire and water, and presuming that it will be some little time before you can worship in it again, we take pleasure in tendering you the use of our chapel on Middle street for your Sabbath school and prayer-meetings, and the North church for your more public services Sabbath afternoons. Our chapel is heated every Sabbath morning for our Sabbath school, which is held at 2:30 P. M.; and as we have no services in the church in the afternoon you will find that also heated and ready for your occupancy. I take this opportunity of assuring you of our good will and hearty sympathy—that which should ever exist between Christian churches—and we pray the great head of the church for His blessing to rest upon you and your people in your united efforts to build up His kingdom here.

Yours fraternally, JOHN S. RAND: For Wardens of North Parish.

Isaiah 43:2, 5.

PORTSMOUTH, Dec. 8th.

John S. Rand, and Wardens of North Parish—*Dear Sirs:* Your kind offer of the use of the North church for our Sabbath afternoon service while our church is being repaired of the damages caused by the recent fire, is most gratefully accepted. We decline with thanks the use of your chapel, because our vestry is in a condition to use. The kind words and wishes of your letter are fully reciprocated, and it is our most earnest prayer that your kind and most christianlike offer may redound to yourselves an hundred fold in spiritual blessings.

Yours for christian labor, J. HERBERT YEOMAN, *Pastor:* In behalf of the Pearl street Free Baptist church and society.

Romans 16:20.

N. H. S. P. C. A.

The following are the reports of the secretary and treasurer of the society, submitted at the annual meeting on the evening of the 6th inst.;

SECRETARY'S REPORT.

As we begin the ninth year of our corporate existence it would be pleasant to know just what has been accomplished by the New Hampshire Society during the eight years last past; but our early records are so imperfect that no list of cases investigated can be found up to the year 1876. The changed sentiment and feeling, however, in many portions of our state, concerning the treatment of animals, and the greater care exercised by their owners, testify to the work of the society more than any mere list of cases could do. Cruelty still exists among us,—shocking cruelty in some cases,—and will ever be found, so long as human nature remains the same; but it can be checked and repressed, and the cruel and careless educated so that cruelty may become the exception and not the rule. The kind treatment of animals is the end we seek, and such measures should be adopted as will best secure that result.

The law is employed, as one method. Humane education is another and very efficient means of promoting kindness. Humane example is a third. Every honorable means for accomplishing our object should be used, selecting the method employed in each case with reference to the temperament of the person whose conversion is desired. Though the past year has been uneventful in some respects, yet we have continued our humane work throughout the year, using all the methods above mentioned to prevent and punish cruelty. Whenever it seemed advisable to prosecute the offender, prosecution was begun, and usually carried through its various steps to conviction and punishment. In many cases, though cruelty was shown, sufficient evidence could not be obtained to warrant prosecution. In such cases milder but perhaps not less efficient remedies were adopted. Sometimes the complaints were groundless, due to quarrels between neighbors or other causes; but even then the investigation of the complaint was of service to the cause of humanity, testifying as it did to the watchful care of the society.

In all this work valuable assistance has been rendered by the directors, and especially by the president, who has devoted a generous share of his valuable time to works of mercy; and his services merit the thanks of all humane people.

Our legislature held no session this year, so there has been an entire absence of humane legislation. We need a law allowing the killing of worthless, abandoned animals after examination by three reputable citizens; and other changes will undoubtedly be desired when our law-makers meet in June next.

An advance has been made in the appointment of agents in different towns in the state. Four have been appointed during the year, and the result has been that reports of cruelty have been more speedily transmitted to us, and consequently have received earlier attention than in former years. I suggest the employment of an agent in each town in the state as rapidly as we can obtain trustworthy persons to fill that position.

May the good work performed by this and kindred societies go forward until every one shall willingly obey the mandate of the Indian scriptures, "Thou shalt not cause needless pain to any living creature."

The following is a list of cases investigated and attended to during the past year:

Overdriving	12
Working old, lame and worn out horses	25
Neglected and starving animals	13
Horses exposed to cold blanketed	5

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

ORDINANCES OF THE CITY OF PORTSMOUTH.

CHAPTER XIV.

SEC. 3. The occupants, or, if unoccupied, the owners, of all the buildings and land situated within the city, shall keep the sidewalks adjoining their respective premises, in all cases where a sidewalk has been or may be constructed, free from snow, by causing the snow to be removed into the street, and evenly spread, and when any of said sidewalks are covered with ice, so as to make the passing dangerous, said owners or occupants shall spread over said sidewalk ashes, sand or a [illegible], in such manner as to prevent the same from being dangerous, within six hours after the cessation of every fall thereof or when the snow shall have blown or drifted upon said sidewalk by the wind. The time herein allowed for the performance of the work, to be computed from sunrise the succeeding morning whenever the fall of snow shall have ceased in the night time.

SEC. 4. Any person disregarding or offending against the provisions of this ordinance, shall upon conviction thereof, forfeit and pay a fine not exceeding TEN DOLLARS for each and every offence, with costs of prosecution; and it shall be the duty of the City Marshal, under the counsel and the direction of the Mayor, to cause this chapter to be enforced."

Notice is hereby given, that, by direction of the Mayor, the above ordinance will be strictly enforced in every instance, during the ensuing winter.

The New Seal

of the World's Dispensary Medical Association of Buffalo, of which Dr. R. V. Pierce is president, consisting of a figure of Aesculapius, the Father of Medicine, surmounting the globe, fitly symbolizes the world-wide reputation gained by the Family Medicines of Dr. Pierce now manufactured by this incoporated company and sold in all parts of the world. With a mammoth establishment, the World's Dispensary and Invalids' Hotel in Buffalo, and a correspondingly large branch establishment in London, this Association make medicine for the whole world—not only that but they personally examine and treat with special medicines thousands of cases. Among the most celebrated of the proprietary of family medicines are Dr. Pierce's Golden Medical Discovery—the great blood-purifyer, and Dr. Pierce's Pleasant Purgative Pellets (little pills),—and Dr. Pierce's Compound Extract of Smart-Weed—for bowel affections, colds and painful attacks, as colic, neuralgia, and rheumatism.—Favorite Prescription furnishes relief from female weaknesses, and kindred affections. All sold by druggists.

Burning Coal Mines.

The failure of all the attempts to extinguish the fire in the Keeley Run colliery, near Pottsville, Pennsylvania, it is feared will add another to the perpetually burning mines that now exist in the Pennsylvania anthracite regions. The greatest of these is probably that in the Jugular vein, near Coal Castle. This has been burning since 1835. Lewis F. Dougherty opened this vein in 1833. The upper drift of the mine was above water level, and a huge fire was kept in a grate at the mouth of the mine in the winter to keep the water from freezing in the gutters. One night in the above year the timbers of the drift caught fire from the grate. When it was discovered the fire had been carried down the air hole to the lower drifts, and was beyond control. Two miners entered the mine, hoping to recover their tools. They never came out. The mine was abandoned. No effort was made to mine any of the coal near the burning vein, although it was considered the best coal in the region, until 1856. Then John McGinnis put in a slope on the east side of it, below water level. He struck the vein at a place where the coal was so thick that two miners could keep a large breaker supplied. When 400 yards of gangway had been excavated the heat from the burning Dougherty mine began to bother the miners. McGinnis attempted to open an air hole. The heat became so great that the men were paid double wages to induce them to work. They worked entirely naked, and were relieved every ten minutes. Finally the heat became so intense that work was abandoned. The mine was flooded. After being pumped out, men could again work for a few days. The mine was flooded nine times. McGinnis finally failed, and the mine was then abandoned. The fire has been raging in the vein ever since. An area of half a mile in every direction has been burned. No vegetation grows on the surface. In places the ground has caved in, forming chasms a hundred feet deep. There is but a thin shell of earth over the pit of fire. At night blue, sulphurous flames issue from the crevices in the ground. It is dangerous to walk across the spot. Several persons have mysteriously disappeared in the vicinity during the past twenty years. It is believed that in a majority of the cases they have fallen into the burning mine. Dougherty, the original proprietor of the mine, attempted to go across once. He sank to his armpits through the crust, and was only saved by courageous friends who ventured to his assistance. The stones on the ground are hot, and snow never rests there. Rain turns to vapor as fast as it falls on the roof of the burning mine. Millions of dollars' worth of the best quality of coal has been consumed by the fire.

The Summit Hill mine, near Mauch Chunk, has been burning for twenty-five years. It is believed that this mine was set on fire by discontented miners. Thousands of dollars have been expended in fruitless efforts to extinguish the flames.

The Butler mine, near Pittston, has been burning three years. It was set on fire by a party of tramps, who built a fire in the mine in 1877. The fire is in the upper drifts. It is confined to an area of forty acres by an immense ditch forty feet wide, which was excavated between the burning drift and connecting ones. The digging of the canal cost $50,000. But for that obstacle the fire would have communicated to some of the most extensive mines in the Lackawanna Valley, and a subterranean conflagration would have swept under the whole of West Pittston. Miners have worked in the lower drift of the Butler mine since the fire broke out, but there are but forty feet of rock between them and the field of fire above. The water that trickles through the roof is scalding hot. The temperature is so high that the men can wear but little clothing.

DAY'S Kidney PAD

A discovery which cures by the natural process.

ABSORPTION.

all diseases of the Kidneys, Bladder, Urinary Organs and Nervous System, when nothing else can. It is comfortable to the patient, positive in its effects, and the first cure for those painful and much dreaded affections.

Diabetes and Bright's Disease,

while its cures of Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the excess of youth or to close application to business or work, may be restored manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment worked for years without sufficient, though sometimes effecting apparent cures of one complaint, they sow the seeds of more troublesome and dangerous disorders. The price of our Pad brings it within the reach of all, and it will probably save many times its cost in doctors bills, medicines and plasters, which at best give but temporary relief. It can be used without fear or harm, and with certainty of a permanent cure. For sale by druggists generally, or sent by mail (free of postage), on receipt of the price. Regular Pad, $2.00; Child's Pad (for incontinence of urine in children), $1.50. Special (extra size), $3.00. Send book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures sent free. Write for it. Address DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it due the public to see that they ASK for DAY'S KIDNEY PAD, and take no other.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 10, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

WASTING DISEASES

Such as Consumption, Bronchitis, Asthma, General Debility, Brain Exhaustion, Chronic Constipation, Chronic Diarrhœa, Dyspepsia, or

Loss of Nervous Power,

Are positively cured by FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

As phosphorus enters so largely into the animal economy, it becomes a prominent feature the best vehicle with which to associate the other vitalizing ingredients of healthy Blood, Nerve and Muscle. In Fellows' Syrup of Hypophosphites are combined all the substances found necessary to insure robust health, and whereas it was invented with a view to a specific for consumption it certainly has performed some wonderful cures.

MANCHESTER, N. H., June 12, 1880.

MR. JAMES I. FELLOWS,

Dear Sir: I wish to acknowledge the great benefit I have received from the use of "Fellows' Compound Syrup of Hypophosphites." I have been an invalid for nearly two years, with a bronchial affection that had become chronic. In the fall of 1878 I had a physician eighty days in succession, besides the consulted of several others. They gave me but little encouragement, some of them none. Last July I was advised to give your remedy a trial. I did so, and in less than one week there was a marked improvement for the better. I have continued its use from that time until the present, improving all the time, and I can truthfully say I am more than a hundred per cent. better than when I commenced its use. I have increased in weight about fifteen pounds, and my cough, which was fearful, has nearly disappeared. I believe that it not been for your Syrup, I should ere this have been beyond the cares of life. Very truly yours,

ALBERT STORY.

RICH CONSOLIDATION.

A Brief History and Description of the Allied Mines.

In the southwestern part of Colorado lies what is familiarly known as the "San Juan," a section whose mineral actualities and possibilities are such as to merit for it the term of "Silver San Juan." It is named from that culmination of the great Sierra Madre, which lifts its peaks to tremendous heights, and forms the watershed of the Rio Grande, the Uncompahgre, the San Miguel, the Animas and the San Juan rivers.

The Uncompahgre Mountains, the highest of the Rockys, reach the average height of 14,000 feet above the sea, and it is in this remarkable range that are found some of the greatest silver leads ever opened by man. Of all the sections of Colorado to which the adventurous miner has penetrated, the San Juan region stands pre-eminent as a silver-bearing territory. Ice-capped peaks pierce the sky in all directions, and here is in fact the backbone of the continent, its dominating crest and crown.

In the musical language of the Ute, the name Uncompahgre signifies "Valley of Fountains," and it is upon the river of that name that the town of Ouray stands. It is situated in a *cul de sac* of the mountains, in a beautiful amphitheatre formed by the parting of the mountains, and it is the principal town in Ouray County. At this point the streams known as Red Mountain Creek, Poughkeepsie Fork and Canon Creek unite and form the Uncompahgre, which flows through the park of the same name, and rolls on till it is lost in the greater Gunnison.

The watershed of this system comprises the richest mineral-bearing region of the state.

Ouray stands, as it were, at the handle of a fan, its being at the convergence of such districts as the Mt. Sneffels, the San Miguel, the Imogene Basin, Red Mountain and others, all of which are justly famous for the width, strength, persistence and value of their great fissure veins of galena, gray copper and native, ruby and antimonial silver. It is a feature of this part of the country that mineral exists in such enormous bodies as to hardly be credited by those who have not gone over the region in person and seen the great bodies which can in some instances be traced for miles along the mountain sides. It is no uncommon thing there to uncover veins of solid galena, carrying a fair, and sometimes high percentage of silver, which are from fifteen to twenty feet in width, between their granitic walls.

For a long time, even among miners in other parts of the state, the reports of these vast and permanent lodes were not believed, and it is only within the last three years that the rich mineral wealth of this section has been at all comprehended, either by mining men or investors, and it now bids fair to be the mining region par excellence of Colorado.

A thoroughly schooled English engineer, commissioned by the Royal School of Mines, London, in 1879, to report on the principal mining camps of America, after having visited Mexico, New Mexico, Utah, Arizona, Black Hills, Leadville, Silver Cliff, and the San Juan country, thus speaks of the latter, in his report published in November of that year:

"My next and last place of examination was the great San Juan mining country. This is, without doubt, destined to be the future great mining camp of the world. Here the mountains, for twenty miles square, are interlaced with great fissure veins, running in all directions, that are traced for miles, and the outcrop of ore along the surface is wonderful. In all my travels and observations throughout the world never have I seen such a richness and display of ores upon the surface. Nature has truly made these mines the wonder of the nineteenth century."

About six miles above the town of Ouray, at the junction of Sneffels and Imogene creeks, lies the famous Imogene Basin, one of the mineral wonders of the San Juan country. Oval in shape, with its sides clothed with dense pine timber as high as the timber line (12,000 feet), it extends from 11,500 down to 9,500 feet above the sea, and embraces within its limits a ganglion or network of great veins of silver-bearing ore. It is in this rich basin that is located the property of the Allied Mines of Imogene Basin, Ouray County.

This argentiferous alliance embraces all of the Hidden Treasure, Gertrude, Norma, Talisman and Emily lodes, together with half of the Crusader, and two-thirds of the Yellow Rose lodes, the size of each of which is 1,500 feet by 300 feet, forming an aggregate of seventy acres of rich fissure veins. When it is remembered that true fissures, such as the Allied Mines are, cannot be exhausted in depth, it will be readily seen that this company has a property which will allow constant and profitable ore extraction to be carried on for generations to come, and that it is entirely free from the hazard incident to mining in carbonate deposits.

The property of this company is capitalized at $10,000,000, a sum by no means excessive when we consider the vast possibilities of such an alliance as this. The lodes are in heavy pine timber on both sides of the Imogene Creek, with an excellent water power and admirable mill sites. All of the lodes are true fissures, in a trachyte formation, and the ores are gray copper, very rich in silver. The vein matter is soft porphyry and clay gouge, the matrix of the metals being a white crystalline quartz. The base of the ore is generally galena of low grade, as a rule, at the surface, but increasing in richness as work has been done on the veins.

With the exception of the Gertrude, all these mines are worked by drifting on the vein, as they cross the gulch and up the mountain on both sides, and have

Congress.

In the Senate, Dec. 8th. Mr. Randolph offered a substitute for the Fitz John Porter bill, striking out the back-pay clause and providing that Porter shall be retired only as a colonel.

In the House, Gen. McCook of New York offered a bill authorizing the President to place Ex-President Grant on the retired list of the army, with the rank and pay of a general. Referred to the military committee.

The democrats of the House are endeavoring to force through the "Morgan resolution," which was reported in the Senate at the last session, and carried by a strict party vote. This resolution virtually takes from the Vice President the constitutional power to count and declare the result of the electoral vote, and vests it in Congress. The republicans will oppose its passage by every means in their power.

There appears to be a lively opposition on the part of the brewers to the proposed bill to tax malt, which if passed would help the malsters and crush out the small brewers. Indeed, this seems like an attempt of the big fish to destroy the smaller, and from the remonstrants' pressure upon Congress it is doubtful of the measure can pass.

An International Dispute.

A Mexican was arrested a few days ago in San Francisco for felony, under extradition, and turned over to the Mexican gunboat Democrata. A writ of *habeas corpus* was gotten out, and the commander of the Democrata was ordered by the court to produce the prisoner, which he refused to do, alleging want of jurisdiction. Warrants were then issued for the arrest of the prisoner and the captain of the Democrata, and the sheriff on the 8th inst. attempted to serve them, but was not allowed to do so by the Mexican commander, and was compelled to go ashore from the gunboat without making any arrest.

Fatal Explosion.

A terrible accident occurred in the northwestern part of Wendell, Mass., about three and a half miles from Miller's Falls, on the 8th inst., by which seven persons were killed and two badly injured. The boiler of a portable steam mill, located on a timber lot at that place, exploded with terrific force and was hurled against a building situated six or eight rods from the mill, and occupied by those engaged on the lot. The building was set on fire and entirely consumed. The following named persons were killed: Oscar F. Brown, Willie Brown and Geo. Brown, young men from seventeen to twenty-one years old, sons of Hosea Brown of New Salem; Messrs. Marble and Clark, proprietors of the mill; Miss Pelton, the housekeeper, and a young child named White. George Reynolds and Charles Reynolds were badly mangled.

New Hampshire Items.

John M. Stevenson, a prominent citizen of Tamworth, died in that town on the 3d inst. He was noted for his liberal charities and generous hospitalities.

The New Hampshire Club dined at Young's hotel in Boston on the 8th inst. Ex-Gov. Cheney presided.

The Salmon Falls Manufacturing Co. will pay a dividend of four per cent, Jan. 1st.

Political Notes.

The presidential electors of Georgia met on the 8th inst., and cast the eleven votes of that state for Hancock and English. By the laws of the United States the votes should have been cast on the 1st Wednesday in December, as was done in every other state in the Union; but the statutes of Georgia direct the electoral college to meet on the Wednesday following the first Monday of December, which this year fell on the 8th, and the Georgians it seems considered this state law above that of the nation. The vote being clearly illegal, and no doubt purposely made so by the state-supremacy leaders of Georgia, should be thrown aside in the counting.

Gov. Blackburn of Kentucky has during the past year pardoned over a thousand penitentiary convicts, and remitted fines amounting to $150,000. Crime must be a scarce article in Kentucky.

Books, Magazines, Etc.

"Verses, by Susan Coolidge." Boston; Roberts & Co. A neat little volume of short poems, of varied metrical character and subjects. Price $1.00; for sale by Myers.

Of the success of "Scribner's" in England, Mr. Jennings writes as follows to the New York *World*: "What I was going to tell you about was the wonderful way in which American magazines are getting on in London. 'Scribner's' has had a very large sale here for some few years past, and its circulation must now be, I think, full as great as that of any English magazine, and it would not surprise me to hear that it was greater. Its illustrations have made its way easy for it. A very distinguished wood-engraver once told me that no work done in England in his line nowadays is worthy to be compared with what he saw every month in Scribner. If I mentioned his name, there is no one on either side the Atlantic who would dispute his fitness to pronounce an opinion on such a subject. The rapid advance of Scribner's is easily accounted for, and is thoroughly well deserved."

Mr. F. B. Thurber, of New York, furnishes to the December "Scribner" a paper which will be widely read, and which bids fair to create considerable excitement. It is entitled "The Railroads and the People," and it presents the recent exposures of corruption in the great railroad monopolies of this country. The December number of Scribner contains also many striking illustrative as well as literary features. The November issue was the largest number ever printed; it contained one hundred and seventy pages, and was crowded with brilliant pictures and articles of more than usual interest.

News and Notes.

Capt. Howgate, of the signal service of the army, has tendered his unconditional resignation.

An unknown barque was wrecked on the west coast of Newfoundland several days ago, and all hands were lost except the mate, George Kadger, who refuses to tell even the name of the vessel unless he receives a large sum of money. He is badly frostbitten and has been injured about the head, and his mind is probably disordered by the sufferings he has been through.

The annual meeting of the Boston & Maine railroad stockholders was held at Lawrence, Mass., Dec. 8th, and the following persons elected directors: N. G. White of Lawrence; George G. Loud, N. J. Bradlee and John F. Osgood of Boston; James R. Nichols of Haverhill, Mass.; Samuel E. Spring of Portland, and Nathaniel W. Farwell of Lewiston, Me.; Amos Paul of South Newmarket, and Wm. S. Stevens of Dover, N. H.

Miss Mary Beebe, formerly of the Ideal Opera Co., was married in Boston on the 8th inst., to Mr. Richard G. Haskell of that city.

Mrs. Elizabeth Winters died at Newark, N. J., Dec. 7th, aged 101 years. She was the mother of nine children, and leaves forty grandchildren and 104 great-grandchildren.

At St. Louis, Mo., a few days ago, a policeman named Marus was dismissed from the force, when he drew a pistol and blew out his brains in front of the captain's desk.

John Brophy and Tom Casey, two police officers of Louisville, Ky., had a fight on the 8th inst.; Brophy was instantly killed, and Casey mortally wounded.

Cora French, wife of Albert French of Dexter, Me., dropped dead on the 7th inst., of heart disease.

James L. Burnett of New Haven, Conn., aged seventy years, was killed by a train on the Consolidated Road, Dec. 7th.

It is estimated that over one hundred deer have been shot in the woods in the vicinity of Falmouth, Mass., during the past two months.

Genl. Schofield, who is at the head of West Point academy, has put forth words in his late annual report which show that West Point is far behind Harvard and Yale, in gentlemanly treatment of the colored student. It is a disgrace to the country that such a disgusting spirit of caste, and one so foreign to the general spirit of our free institutions, pervades our national military school. At neither Yale nor Harvard is there any such social ostracism of the colored student. We think the evil originates with the officers and instructors, most of whom have fed so long at the public crib, and have lived so long in gentlemanly idleness, as military officers, that their self esteem has become morbidly and unnaturally developed. Some change is needed—men of more democratic ideas should be in charge of the school. At the trial of Whittaker, last spring, we got from the papers some idea of the social tone which exists at West Point. It is altogether too elevated for a young republic like ours.—*Derry News.*

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistake. The medicine is "Favorite Remedy" and the proprietors name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

WHITINSVILLE, MASS., Feb. 28th, 1875.

Your Lotion by chance found its way to this place, and met with such favor that more of it is wanted. I have used your Lotion for chapped Hands in my family, and will say that I have never used anything that is equal to it, and don't know of the first case where it has been sold, that it has not given entire satisfaction.

Yours truly, J. T. ROBINSON.

Zero weather, Thursday morning last. We are glad that our government has at length appointed a responsible man to take charge of the weather regulations, for between the green hands at Washington and old Vennor in Canada they have made a terrible mess of it since the demise of Gen. Myers.

The schooner Moro, of ninety-five tons register, hailing from Machias, Me., and commanded by Capt. Nothing has been heard of the vessel since that time.

Capt. Kelly, of the schooner C. H. Trickey, will not attempt to reach Dover with his vessel until navigation opens. Of Miss Fletcher, who is to lecture at Music hall on Sunday evening, giving a description of the famous "Passion Play" of Ober-Ammergau, the Cincinnati *Commercial* says: "Miss Fletcher's manner upon the platform is beautiful in its blending of womanly grace and a scholar's enthusiasm. The lectures are a very fine and rare acquisition to the progress of culture, and no one can afford to miss them."

DEACON CRANKETT.

When John Habberton's "Helen's Babies" gave so much enjoyment to every one who read it,—and certainly every one it read who could—it might have been reasonably supposed his book was an exceptional hit, and he could not again strike a popular chord which would sound with such prolonged and delighted response. But the production of "Deacon Crankett" is another happy result. The absentees from Music hall on Wednesday evening of this week sustained a positive loss. Deacon Crankett is "just splendid" as a play, and Ben Maginley knows how to represent the jolly deacon to a turn. Unlike many similar production, while there is nothing stupid, dreary or tiresome in the way of over-doing any character, there is throughout the play nothing unrefined or unwholesome; but it is all interesting, amusing and thoroughly enjoyable. Mr. Wheelock as Joe Thatcher well sustains the part. Indeed, all the company did admirably, and though the house was not filled, yet behind the footlights there did not seem to be any lack of interest in the stage business, but it was faithfully portrayed throughout. Mr. Eytinge as the New York capitalist was capitally made up, and his representations were true to life. "Deacon Crankett" will justify all the good things the press has said of it.

CIRCUIT COURT OF THE UNITED STATES.

THURSDAY, Dec. 9th; *Clark, J.*

Murphy vs. schooner Mary S. Hontvet. The hearing of this case was resumed.

The libellants offered the the testimony of Andrew J. Stimpson and A. A. Stevenson. The claimants put in the testimony of James Davidson, one of the sailors who have petitioned to share in the salvage.

The defendants without formal opening proceeded with their testimony.

Thomas H. Odion testified as to the weather and state of sea on the day the schooner was secured.

Mr. Tredick's testimony was a narration of the facts in the case; his efforts to save her, and the employment of tug and men to that end.

Mr. Tredick testified that he requested Murphy to find the captain of the Hontvet and go to the wreck and assist the captain, and Murphy, who was sailing in one of Tredick's vessels, assented to do this. The repairs on the hull were $112.-44; railway bill, including small amount of lumber, $87; sails, $276.52; rigging bill, $111.25; blocks and rigging replaced, $539.81. Cable will cost $553; not yet purchased; can be purchased at less price than the old one cost. The old cable is now in three pieces; estimated value $200. Cost of masts, repairing gaffs, etc., $282. Painter's bill estimated at $75. Wharfage, $20. Forecastle outfits, $50. Expense of recovering hatches, $10. Towage to and from railway, $20. Horse and tolls to Newcastle, $15. Recovering anchor in the river, $20. Kedge and chain lost, $20. Expense of attempting the rescue while ashore, estimated at $250. Evidence as to this latter item being objected to, Mr. Goodwin at some length explained his position as to the showing the entire series of operations after the wreck, that the sum may be computed in making up the salvage. The court admitted the evidence.

On cross-examination it was shown that the schooner cost $8000, and the outfits $1600. The schooner was bound for Western bank, provisioned for a two or three months' trip. The value of the trawls and other articles saved was shown. The schooner was insured for five thousand dollars, by two policies which were produced; outfits insured $1500. Mr. Hatch asked if he (Tredick) said anything about towing the vessel into deeper water that she might sink. Mr. Tredick denied this emphatically, and also that he said he wished she was insured for $12,000. He said he thought he knew too much about insurance to make such a remark as the latter. The cost of the vessel as stated was four years ago; it could be built now for at least two thousand dollars less.

The policies of insurance were recited as being against total loss only. One policy, of $3000, was by the Atlantic Co. of Provincetown; the other, of $2000, by the Insurance Co. of North America, of Philadelphia.

Thos. H. Rider testified that Murphy was employed by the owners under direction of Capt. Hontvet, and that the tug Clara Batemen was employed by the owners in the endeavor to secure the vessel. He went on Saturday in the tug as far as Kitt's rock buoy and out by Odiorne's point, but did not find the schooner; he also testified as to the condition of the appurtenances of the vessel after salvage. He gave the cost prices of the cable. Mr. Rider said that he made no attempt to secure the schooner after she sank, by lines fast to the mast heads. The vessel had no cargo, but some ballast. She had been under water several hours before she sank at one o'clock; he supposed the salt had melted before this. She started down the river about three o'clock. He recited the conversation between Tredick and Murphy at Newcastle when it was proposed that Murphy should go to the rescue of the vessel. The weather was thick, with a slight easterly swell. Sunday he went down with Mr. Odion, and saw a steamer near the wreck.

Dan'l Littlefield was asked to state the value of the schooner as she appeared after the wreck. This was objected to, and the competency of the question was argued by Mr. Goodwin, who shew familiarity with the principles of law as administered in the admiralty reports, in the position he assumed. The question as to value must be ascertained by the judgment of men of acknowledged familiarity. Mr. Littlefield pronounced her value as she lay at the wharf to be fifteen hundred dollars. On cross-examination he said her hull might cost four or five thousand dollars; $6500 for hull and spars a fair price at time the vessel was built. He had not seen vessel since her repairs. He made an estimate of these repairs at seven hundred and twenty dollars, including spars, calking, painting and use of railways, but did not include rigging, sails, cables, etc.,; simply hull and spars.

The deposition of Peter Anderson was read. He was left in charge of the schooner by C. M. Tredick, managing owner. He remained fast to the vessel as she moved out to sea; his boat hung attached. He rowed back to Newcastle, leaving the schooner off Kitt's rock buoy, and coming in he met Murphy going out, who enquired where the Hontvet was. Urch was near the vessel in a small boat.

Leander White, keeper of Whalesback light-house, was called by the libellants, but his evidence was not of much weight as to the facts, but related to conversations.

Thomas S. Gay, one of the persons who was on the board of survey on the schooner, testified as to the damage to the vessel found in the survey, which was made by Daniel Littlefield, Warren Keen and Jos. C. Muchmore.

Capt. Albert Rand, owner of the tug Clara Batemen, testified as to the condition of the sea, and that the schooner could have been towed in with her masts in. He said Capt. McGrath, who had charge of the tug, came to him to get the tug for Maj. Urch, but it was engaged to Mr. Tredick. He first saw the schooner at four o'clock P. M. near Whalesback; weather foggy, with some, but not heavy swell. Fog came in thick about noon. Saw the Hontvet in the afternoon off Odiorne's point, but did not pass nearer than a mile.

James McGrath, who was in charge of the tug Clara Batemen in August, testified as to his starting out for the schooner at the owners' request, and the ability to to tow the schooner into port by the tug with the masts on board.

Jos. C. Muchmore testified as to the condition of the standing rigging when he surveyed it.

Mr. Warren Keen was called by the owners to describe the condition of the schooner, and repairs which were needed. The evidence was closed at four o'clock.

The case is to be argued on Friday morning.

—A woman at Presburg, Hungary, was arrested for receiving stolen goods. She was born a Jewess, but six months before her arrest had been converted to Christianity. Her defense was that she was legally an infant and not responsible for her actions, as the Hungarian law reckons one's birth from the date of one's baptism. The court decided that the defense was valid, and released the prisoner.

He was addressing an audience of children on the subject of good habits, and taking off his hat to give three cheers for cold water, scattered a number of cigars which had been given him among the little ones. This was bad enough, but his discomfiture was completed by a little boy creeping up on the platform, and handing him one of the cigars which he had picked up.

Help One Another?

Of course. What else are we here for? For example: Mr. Asa F. Bearse, of Cotuit, Mass., had been troubled for years with diseased liver and could get no relief. He was not fit for business, and carried his life like a burden on his back. Just then his friend, Capt. Handy, said: "Asa, why don't you send to Dr. David Kennedy, of Rondout, N. Y., and get a bottle of his 'Favorite Remedy.' It will only cost you a dollar, and may do you good." Bearse did so, and after a short time was sound as the dollar with which he bought the medicine. To be sure, let us help one another. Sold by all druggists.

—A queer freak of a plant is spoken of by the South Bend (Ind.) *Tribune*, which says that a wild clematis vine has forced its way through a brick wall into the south parlor in Ex-Mayor Miller's residence in that city, and is growing like a thrifty house plant. It came into the parlor between the wall and the mop-board, and is now over two feet high.

JAY D. DUNNING, Clerk, Wabash Shops, Toledo, Ohio, says:—I am now wearing an "Only Lung Pad," and it has afforded me almost instant relief from asthma.—*See Adv.*

—Among the languages of civilized nations, English is the most widely spread. It is the mother of about 80,000,000; German of between 50,000,000 and 60,000,000; French of between 40,000,000 and 50,000,000; Spanish of 40,000,000; Italian of 28,000,000; and Russian of between 55,000,000 and 60,000,000.

Fickle in appetite, irresolute in mind, and subject to melancholy, try Malt Bitters.

—A finely dressed young woman was the complainant in a Washington police court, and the prisoner an old woman in tatters. "What charge do you make?" asked the judge. "Vagrancy," was the reply. "Do you know her?" "She is my mother, I am sorry to say." The spectators hissed, and the magistrate declined to commit the mother.

The application of Day's Kidney Pad is so simple that no one can fail to understand it.

each good sites for levels or drifts on the veins, so that they are being developed to a depth of from 300 to 500 feet without either hoisting or pumping machinery.

The greatest obstacle in the way was the absence of all means of communication between the mines and Ouray, the general point of shipment from that section of the San Juan region. This difficulty has been entirely removed by the construction of a substantial wagon road from the mines to Ouray, at a cost of about $30,000. The completion of this road has placed the mines in easy and direct communication with the two great lines of traffic that tap this section of Colorado, namely, the Denver & Rio Grande and the Denver & South Park railroads.

The first development upon these properties consisted of a level run on each of them, averaging 150 feet in length.

In order to drive sub-levels upon the company's mines, and thus obtain stoping ground to furnish product for the mill, it was found necessary to erect a series of buildings at each mine, storehouses, cabins, etc., which have now been completed in a most substantial manner at a cost of about $10,000.

In this section of Colorado the winters are so severe, and the local supply depots are so scantily furnished, that the company, in order to work a full force of men upon all of its mines during the coming winter, has had to put in its storehouses supplies for the entire year, that is, until next summer. Such supplies for 100 men have been bought at a cost of nearly $10,000, and are now being put in the company's storehouse above mentioned. Prior to this time it has been absolutely impossible, since the company got possession of the properties, to work any but a nominal force of men, for the simple reason that there were no supplies in camp for sale.

The company will treat its ores by the process of concentration, which puts five tons of ore into one, and sell this concentrated product. The mill for this purpose, which it is providing, is of a new pattern, and will treat fifty tons of ore a day. Colonel Cooper, the consulting engineer, who has been upon the ground superintending this matter, has written that the cost of concentration, by the new process which the company has secured, will be only sixty cents a ton. This reduction in the hitherto average cost of treatment is enormous, and will add largely to the company's profits. The mill will be the finest in Colorado, and surpassed by none in the country.

With this large amount of preliminary work fully completed, the company now has a force of nearly 100 men driving sublevels upon all its properties 100 feet below the original ones, and large bodies of ore, running from 140 to 150 ounces of silver to the ton, are being rapidly exposed. It will take about ninety days to run these levels upon all the mines, which when completed, as will readily be seen, will make available an enormous ore reserve, and the company will then be able to take out about $100,000 worth of ore, net, every month of the whole year.

The company has no debts whatever, as the demand for its treasury stock at the low price of $1 per share has been ample to supply it with all needed funds, and learn that the stock price will soon be advanced to $1.50, based upon the great increase of the value of the mines as shown by the development of them.

All desired information touching the mines or concerning the stock will be furnished at the offices of the company, No. 63 Broadway, New York.

These properties are under the able superintendence of William Weston, an English engineer of the first order, who is rapidly putting matters in shape for a dividend payment at a early date.

The stock of the company at $1 per share is believed to be an excellent investment, and the actual value of the mines themselves as bullion producers cannot be questioned. That it will in course of time become one of the leading corporations of the San Juan country is conceded by all who know the capacity of the Allied Mines and the high character of their management.

The following comprise the company's board of directors: General Thomas Ewing, Ohio; Hon. Preston B. Plumb, Kansas; Hon. O. H. Browning, Illinois; Geo. H. Bissell, New York city; Benjamin F. Ham (of Ham Brothers, bankers,) New York city; Josiah D. Ripley, New York city; Harvey M. Munsell, New York city; Orrin Skinner, New York city; Thomas F. Wentworth, New York city.

The following gentlemen, among others, are *bona fide* large stockholders of the company: Hon. Thomas Ewing, Ohio; Hon. Preston B. Plumb, Kansas; Hon. H. W. Blair, New Hampshire; Hon. A. H. Cragin, New Hampshire; Hon. J. G. Blaine, Maine; Hon. Thomas L. Tullock, New Hampshire; Thomas F. Wentworth, New York; Orrin Skinner, New York; Major Frank G. Wentworth, New York. By the charter of the company no stockholder can be held liable for its debts.

"A stitch in time saves nine." A bottle of Dr. Bull's Cough Syrup will often save large doctor bills. Keep it handy, for it costs only 25 cents.

—A familiar instance of color-blindness is that of a man taking a brown silk umbrella and leaving a green gingham in its place.

The best blood remedy in the world is B. R. V. G. It will clear Ladies' complexion of pimples, moth patches and sallowness. Try it. Guaranted by your own druggists.

TRADE MARK DAY'S Kidney PAD

A discovery which cures by the natural process.

ABSORPTION.

all diseases of the Kidneys, Bladder, Urinary Organs and Nervous System, when nothing else can. It is comfortable to the patient, positive in its effects, and the cure lasting for those painful and much dreaded affections,

Diabetes and Bright's Disease,

while its cures of Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth or to close application to business or work, may be restored and manhood regained.

Avoid all kidney nostrums which are taken into the system by way of the stomach; it is an old treatment well tried and proven ineffectual, though sometime effecting apparent cures of one complaint, they sow the seeds of more troublesome and permanent disease. The price of our Pad brings it within the reach of all, and it will annually save many times its cost in doctors bills, medicines and plasters, which at best give but temporary relief. It can be used without fear or hesitancy, and with certainty of a permanent cure. For sale by druggists generally, or sent by mail (free of postage) on receipt of the price, Regular Pad, $2.00; Child's Pad (for incontinence of urine in children), $1.50; Special (extra size), $3.00. Our book, "Wet and Dry Cupping," gives a history of this new discovery and a large record of most remarkable cures sent free. Write for it. Address

DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless Kidney Pads now flooding the market, we do not guarantee sales on our reputation, we desire to give the sufferer a fair trial, and take no other, but if our Pad does not do as we claim, we will refund the money. Ask for DAY'S KIDNEY PAD, and take no other.

THE SUN FOR 1881.

Everybody reads THE SUN. In the editions of this newspaper throughout the year to come everybody will find:

I. All the news, news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eyesight. THE SUN long ago discarded the golden mean between redundant fulness and unsatisfactory brevity.

II. Much of that news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continuous story of what men and women, and of their deeds, plans, loves, hates, and troubles. This story is more varied and more interesting than any romance that was ever derived.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest comment. THE SUN's habit is to speak out fearless about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy, or to rebuke what is blamable in Democrat or Republican.

VI. Absolute independence of parties or organizations, but unwavering loyalty to the Democratic principles. THE SUN believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the year immediately following will probably decide this supremely important contest. THE SUN believes that the victory will be with the people as against the Kings for monopoly, the Kings for plunder, and the Kings for imperial power.

Our terms are as follows:

For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1.50 a year, postage paid.

The price of the Weekly SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free. Address I. W. ENGLAND, Publisher of THE SUN, New York City.

CANTERBURY SHAKERS'

LIFE-INVIGORATING

SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Vegetation Extract that any other contains,) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. T. R. CROSBY, M. D., W. D. BUCK, M. D., S. BUNTON, M. D., J. S. ELLIOT, M. D., JAMES BABB, M. D., Z. COLBURN, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. GALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefitted by other Sarsaparillas should not fail to make a fair trial of the Blood Purifying and Life Invigorating Compound of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Black Cohosh, Stillingia, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by THOS. CORBETT, the inventor, in all wrappers. Inquire for Corbett's Shakers' Sarsaparilla.

Forced to Steal to Live.

For some time past a number of the residents at the South End, in Boston, have complained to the police that their door mats have been stolen, and a few nights ago Officers McCausland and Weldon arrested Fannie Meade, a woman about forty years of age, in the act of selling a stolen mat to a shopkeeper on Harrison avenue. The woman at once acknowledged that she had stolen many mats, and said that she was forced to do so to keep herself and two daughters, who are about eleven and thirteen years of age, from starving. She stated that she lived at No. 4 Rochester street, and the officers visited her home and found such a state of affairs that they at once furnished the daughters of the woman with money sufficient to obtain something to eat. The officers are special officers, well versed in criminals and their modes of working, and they say that the case is a very pitiable one, and that in spite of the mother's offence the family are most deserving people. The elder of the daughters visited her mother at the Lagrange street station, and with an indignation which appeared perfectly sincere, asked her mother why she committed the crime. The mother briefly informed her, when the daughter replied, "We would rather starve." Ten of the mats have been recovered.

The governors of the thirteen original states met at Washington, Friday, to consider, together with the joint congressional committee, the subject of the Yorktown centennial celebration.

Gen. Sickles has asked Congress to allow him to receive a decoration tendered by the French government.

The rumor seems well founded that a number of prominent citizens of Baltimore have resolved to erect a monument to the memory of the late Dr. J. W. Bull, discoverer of that wonderful remedy, Dr. Bull's Cough Syrup.

—Twelve young men in Damariscotta, Me., are taking lessons on band instruments, and the people have come to think that a railroad debt is by no means the worst thing that a town can have on its hands.

Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for all those painful complaints and weaknesses so common to our best female population. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlets.

—Rev. Mr. Shokey was preaching at Carson, Nevada, on the swallowing of Jonah by a whale. There were some sporting men in the congregation, and their faces expressed doubt of the story. Seeing this, the minister said: "I'll bet $100, coin up, that I can prove every word of it. Does anybody respond?" Nobody answered, and he went on with his discourse.

From Paris to Vienna on a Bicycle.

"I carried with me, among my scanty baggage, a small supply of Coca, an Indian tonic, by which I was able to assuage the sudden and painful hunger which sometimes accompanies continued exertion. When fatigue and sleep began to tell upon me, the marvellous Coca again supported me and gave me strength."

M. LAUMAILLE.

Who rode a bicycle from Paris to Vienna, a distance of 760 miles, in little more twelve days.

The unequalled tonic and reinvigorating powers are embodied in the Liebig Co's celebrated Coca Beef Tonic.

—The best place to find quail in the Ohio Valley is said to be along the lines of the various railroads, to which the birds are attracted by the grain which sifts through the cars. They have got so that the passage of trains does not frighten them.

The great talk about bayonets at the polls has nothing to do with the enormous sale of Adamson's Botanic Balsam, the great remedy for curing coughs, colds, and all lung troubles. New size, 10 cts. Larger size, 35 and 75 cts.

—Because one is a flowing tide and the other is a flying toad. The question has escaped us at this moment.—*Andrews' Queen.*

The best blood remedy in the world is D. R. V. G. It will clear Ladies' complexion of pimples, moth patches and sallowness. Try it. Guaranteed by your own druggists.

—There are some men so mean that they will not give others the benefit of a doubt.

Consumption or debility in its first stages promptly arrested by Malt Bitters

—The tower of Babel was the first continued story on record.

Portsmouth Chronicle.

SATURDAY, DECEMBER 11, 1880.

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

Another Coal-Mine Horror.

An explosion occurred on the morning of the 10th inst., at Penygrrig colliery in Wales, by which it was believed that eighty-seven persons perished. An exploring party discovered sixteen corpses, and search was impeded by the after-damp and debris. The pit is about a mile from the scene of the great explosion in the Dinas colliery, in the same valley, Jan. 13th, 1878, when sixty persons lost their lives.

A Good Step.

The president of the New York Central railroad has issued an order that the sale of that variety of newspaper reading known as "flash literature" shall be discontinued on all trains and in all depots of the company. In order that there shall be no evasion of this order, the papers included in the category referred to are mentioned by name. This is a step in the right direction, and is worthy of imitation by other railroad officials.

British Comment on American Finances.

The London *Times*, in a recent financial article, says "the finances of the United State may excite the envy not only of England but of Europe. The unprecedented rate of redemption is having its natural effect in raising the credit of the United States to a level with the most staid and best-paying communities in the world. In reaching that level the United States will only attain its rightful position. A country that is so faithful to its engagements, whose resources are so limitless, and whose population increases with such remarkable rapidity, ought to enjoy the best credit afforded to any state. In all probability should the conditions remain favorable Secretary Sherman will accomplish his refunding operations at a rate nearer three than four per cent. The very rapidity with which he is able to pay off debt must aid him most materially by reducing the supply of stock. This acting *pari passu* with the angmenting demand for sound investments, will give him an incalculable advantage in his operations."

New Hampshire Items.

A Lancaster correspondent of the *Statesman* says that the delegates to the republican congressional convention to be held on the 14th inst., "are solid for Ossian Ray of Lancaster, as the nominee for representative to succeed the late Major Farr." There is no doubt that Mr. Ray is the ablest man for the position that has been named. He is a well-read lawyer, experienced as a legislator, ready in debate, and one of the most industrious men in the state. He is widely known throughout his district from his extensive law practice and his prominence as a business man, and in political life. The state would have an able representative in Mr. Ray, and we should be glad to have him sent to Congress.

At Concord, on the 9th inst., the thermometer was down to twelve below zero, and at Manchester to ten below.

Jay C. Browne of Deerfield, who was recently arraigned for an attempt to commit rape upon Mrs. Charles Jones, gave bonds in $500 for further examination at Nottingham, Dec. 28th. The offence is alleged to have been committed Nov. 2d. Browne's family connections are respectable and among the wealthiest in town, and he has heretofore borne a good character.

The supreme court on the 8th inst. decided not to go behind the returns in canvassing the votes for treasurer and register of deeds of Merrimac county, as prayed for. Papers have been filed in a new proceeding to inquire why the treasurer holds the position. This will open and cover the points of the other case.

Henry M. Plummer of Rollinsford has been unanimously elected cashier of the Rochester National bank and treasurer of the Norway Plains Savings bank, to fill the vacancies caused by the death of Franklin McDuffee.

George F. Putman, Esq., has resigned the office of chairman of the democratic state committee. The committee meet at Concord on the 15th inst. to take action upon the subject.

The democratic congressional convention in the third district meets at West Lebanon on Thursday, the 16th inst.

News and Notes.

The Mexican prisoner, Cota, about whom the trouble occurred in San Francisco between the civil authorities and the captain of the Mexican gunboat Democrata, was taken to the city prison on the evening of the 8th inst., by the Mexican consul, and delivered to the court authorities. No further action against the commander of the Democrata is considered probable.

Judge Monroe has ordered an injunction to issue in the case of Hart *vs.* the state treasurer of Louisiana, ordering the state treasurer not to divert the interest fund to the general fund, as authorized by a section of the state debt ordinance passed by the constitutional convention, on the ground that said section violates or impairs the contract between the state and its creditors.

In speaking of the recent annual dinner of the old settlers of the Niagara Falls district, a Canadian newspaper says: "The knowing ones, after a careful inspection of the falls, expressed some great surprise at the wonderful alteration which had taken place in the Horseshoe falls since their last visit. They say the Canadian falls have changed more this year than in the previous twenty-five or thirty years. It is a known fact that the Horseshoe falls in the center have fallen back some seventy-five to one hundred feet."

A New York tobacco dealer confided to two strange customers the extent of his business, and showed them the money he had collected during the day. The same night they justified his confidence by breaking into his house and relieving him of his ready money. He remonstrated, but was convinced by a cocked revolver that they had only acted on his implied invitation.

Two physicians in a Toledo murder trial were asked whether the wounds, which they had already described, were the cause of death. They refused to answer, on the ground that such would be expert testimony, for which they would receive no compensation. Judge Rouse sustained them.

The electric light will be given a trial in the streets of New York during Christmas week. Every square mile of the city will be lighted by electric burners.

There is said to be a great scarcity of freight cars on all the leading railroads, and one road, the Lake Shore, is reported to be 9,000 cars short. All this proves, of course, that the transportation business is more active than ever before in the history of the country.

Mr. Springfield, the proprietor of the woolen mill in Alfred, Maine, ordered several barrels of kerosene oil a few weeks since. They were left at the depot by the freight train, and when he got them to his mill and tapped one of them he found that instead of oil he had whisky. It is supposed that it was intended for Portland, and that it was unloaded with his lot by mistake.

Those who believe that our leading clergymen are overpaid will do well to inspect the following figures: Mr. Beecher gets $20,000 a year; Dr. Hall of Fifth avenue and Dr. Dix of Trinity, $15,000 each; Mr. Talmage, $12,000; Dr. Storrs, Dr. Potter of Grace church, Dr. Tiffany and Dr. Chapin, $10,000 each. Of our leading actors, Booth earns $100,000 a year; Sothern $150,000; John E. Owens, in thirty weeks, $90,000; Joe Jefferson, forty weeks, $120,000; Maggie Mitchell from $80,000 to $50,000; Dion Boucicault, $3,000 every week he plays; and Fanny Davenport $1,000.

J. A. Carruth of Winchendon, Mass., who mysteriously disappeared from that town Nov. 15th, had hired a store and made all arrangements to open it. As he had considerable money about him when last seen, his friends entertain suspicions that he has been foully dealt with.

The Bangor train on the Main Central railroad, on the 7th inst., ran into a flock of sheep in Falmouth, and sixty of them were killed. The owner carelessly drove them on the track at a crossing. The engine also struck his horse, killing the animal and demolishing the wagon. The man was not injured.

It is said that Gen. Sherman does not like the bill restoring Grant to the roll of the army, as Grant would be the ranking officer.

The British admiralty has decided to abolish flogging in the navy.

Books, Magazines, Etc.

The "Granite Monthly" for November contains a sketch of the late Nathaniel White of Concord. Mr. White was born at Lancaster and went to Concord to work at the Columbian hotel. He reached Concord in 1826, when fifteen years of age, with one shilling in his pocket. In this respect he had a more advantageous send-off than did Frank Jones, according to Col. George, who in a recent speech comparing the career of these men claimed that Jones began his career from comparative poverty,—a mere piece of political clap-trap, as Peletiah Jones, Frank's father, had a good farm and lived generously always, with a well supplied table, and the very cause of Frank's first journey to Portsmouth was derived from the fact that Peletiah's hired man was a trifle obstinate in obeying the old gentleman's orders as to where one of three yoke of cattle should be placed in a team bound to Portsmouth with a load for market. However, Mr. White was a successful man, and acquired a competence by his persevering industry and sagacious economy, and was well appreciated at Concord and throughout the state. The other articles are "The Pemegiwasset," a reminiscence by L. W. Dodge; "Marlow," by G. F. Griffith; "Hillsborough, the birth-place of Ex-Pres. Pierce," by F. Myron Colby; "Benefit of Clergy," by Judge Sargent. Poetry, "Kearsarge," by M. J. Messer; "Autumn," by Fannie H. Runnels; "To a Cigar Stump" closes the contents. The magazine is to be found at W. G. Myers' book-store.

Burnett's Cocoaine.

The Best Hair Dressing in the World.

BURNETT'S COCOAINE allays irritation, removes all tendency to dandruff, invigorates the action of the capillaries in the highest degree, and has earned a deserved reputation for promoting the growth and preserving the beauty of the human hair. Ladies dressing their hair elaborately for the evening will find that it imparts a healthy natural gloss to the hair, and will cause it to retain its shape for hours.

BURNETT'S FLAVORING EXTRACTS are used and endorsed by the best Hotels, Confectioners, and Grocers throughout the country. They are perfectly pure.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has specially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and the millions yet in bloom will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little ones, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—*Ladies' Visitor*, New York City. Sold by all druggists. 25 cents a bottle.

AROUND HOME.

It is stated that James W. Emery, Esq., has resigned the office of superintendent of the Union Railway Co., at Cambridge, and will resume law practice in this city.

Mr. Cyrus L. Brown, as agent, announces the opening at his former stand on Market street of a large stock of groceries, West India goods, flour, teas, etc., with a full line of meats, poultry and game.

The announcement of the payment of a dividend by the assignee of the Rockingham Ten Cents Savings bank attracted a large number of holders of books to receive their ten per cent at the counter of the First National bank, on Friday.

Mr. Nathan Woods, one of the men severely burned at the Kearsarge mills fire, died at an early hour Friday morning, leaving a widow and three young children. It is said that he was burned through using a fire extinguisher until the flames cut off his escape by the stairway, and compelled him to jump down the elevator way from a height of two stories.

At Somerville, Mass., on the Saturday evening before the recent municipal election, Mr. Christopher E. Rymes, of Laighton Bros. & Co. of the Isles of Shoals, was nominated for mayor at a citizens' caucus, but declined the nomination, as if elected he could not properly attend to the duties of the office, being obliged to be absent from the city four months in the year, to attend to the Oceanic hotel on Star island.

Our New York correspondent says of Miss Alice Harrison in "Photos" that "she makes the most of the character assigned her, and a jolly evening's entertainment is in store for those who attend. Miss Cara Daniels is also a fine singer, and is piquant and effective in the 'Photo' act. She possesses a deep, rich contralto voice, and her rendering of 'Genevieve' is alone worth the price of admission." The Harrison's will appear at Franklin theatre on Monday evening next. Reserved seat tickets are but fifty cents each, and this popular price, with the attractions promised, should crowd the house.

Sheriff Kent received notice on Friday per telephone line of the robbery of three gold watches, money, notes and valuable papers from the residence of John H. Robinson at Kingston, on Thursday, the 9th inst.; the alleged thief, who gives the name of Charles Reed and says he resides at Christian Shore in this city, had not been captured on the 10th. Subsequently the sheriff received a telephone message from Deputy Sheriff Hoyt of Exeter, stating that he had found a trunk in the rear of Mr. Robinson's house, broken open and containing some of the above-mentioned papers, but the valuables were missing.

Attention is called to Miss Fletcher's lecture on "The Passion Play of Ober-Ammergau," which she witnessed under the most favorable circumstances. It is said that her powers of description and ability at word-painting invest this subject with singular interest, and enable her audiences to comprehend the play and see the different characters as though they were before them. The Boston *Commonwealth* said of this lecture: "The next best thing to seeing the play one's self, must be in listening to Miss Fletcher's relation, whose graphic account, and, above all, her deep feelings of its pathos and power, seems to bring it vividly before you." She will be at Music hall Sunday evening. See advt.

The union gospel meeting in the Middle street church, Friday evening, was well attended notwithstanding the extremely cold and blustering state of the weather, and a very interesting service was held. The individual responsibility of man was considered—the responsibility for the influence his acts may have up to the end of time, as well as for their influence during his life.

This morning there will be service in the North Parish chapel at 9:30; at 2:30 P. M., in the same place, a children's service, to which teachers are requested to bring their classes, and parents their little ones. At the evening service, in the Middle street church, Messrs. H. M. Moore, George H. Shaw and A. C. Russell, of Massachusetts, are expected to be present.

Mr. George W. Guppy has been confined to his house for some days, by rheumatism.

The steamer Faraday, which brought the direct cable to our shores some years since, is bound from London to New York, whence she is to take a grain cargo to Europe.

Samuel Webber, M. D., died at Charlestown, Dec. 5th, aged eighty-three years. He was a man of great ability, and the author of several published essays and poems. He was the father of Col. Samuel Webber, at one time agent of the Kearsarge mills in this city.

The circuit court of the United States has recently decided, in an action brought in the southern district of Illinois, in behalf of the Portsmouth Savings bank against the city of Springfield, Ill., that all questions of doubt in relation to the validity of municipal bonds should be answered in favor of their legality when the city has repeatedly recognised the validity of such bonds, and has paid interest on them for a series of years.

Coasting on Mason's hill in the moonlight evenings has been enjoyed by the young folks during the past week. The double-runners go in four directions; some from Summer street to Cabot, others from the top of the hill towards Middle street, still others going north towards the jail or south across Austin street. Large numbers have attended upon this out-of-door enjoyment, and the merry voices of the coasters is heard through the still evenings for a long distance around the hill.

UNITED STATES DISTRICT COURT.

FRIDAY, Dec. 10th; *Clark, J.*

Murphy vs. schooner Mary S. Hontvet.

Mr. Goodwin began his argument for the owners of the vessel at the opening of the court, and stated at length the legal positions he had taken as applicable to this case. He denied that the schooner was in any sense a "derelict" vessel. The wreck was in charge of one of the owners, and not a derelict. Authorities upon this point were cited. There was no abandonment; the wreck got away from Anderson, the person in charge, but was not derelict within the meaning of the salvage law. Conceding that this was a salvage case, it was one where the compensation must be small; that is, compensation to "salving hands," not to "salvors." There is no necessity of considering that vessels came in to the rescue. Salvors not claiming salvage, it redounds to the vessel and not to co-salvors. When large salvage is allowed, it is to the vessels engaged in rendering service that the greater part is allowed. The salvors are divided into three classes—Murphy and White, then Capt. Gillis of the Nichols and three others; then two others, Gilson and Campbell, with Davidson. Murphy and White, if they have not forfeited their salvage, have the greater claim. This would be allowing $20 each to the four, Jameson $12 more for his injury, which would be $92 for that set. The Nichols men $15 a piece. Murphy and White $25 a piece, with fifty dollars for the indebtedness to the tug James Sampson. This would be a total of $237. The number of salvors must be taken into the account. The amount which the owners have to pay others for their services during the disaster, as it was a continuous accident, added thus, the salvage would be $487.

Now upon what value of the propriety must this be assessed? It is the property saved, in the condition that it was after salvage. Murphy has forfeited his salvage. The law says to the wecker, open your hand. Mr. Murphy did well until the time he declined assistance and stripped the property, and tried to get his assistants to work by the day upon the notion that his possession amounted to something like nine points. The effect of the refusal of aid by salvors was commented upon, and cases cited. The vessel was towed five miles by boats, and three by the tug Sampson. If the services of the Batemen had been accepted, there would have been no necessity for taking out of the masts by Murphy and White, and these men should suffer. The assistance was refused because these men were too greedy. The stripping was in consequence of the refusal of assistance by Murphy and White. They should have no salvage or costs, and the other salvors are entitled only to a moderate sum.

Mr. Hatch in his argument rejected the idea of small salvage, or that there was any forfeiture. He said that the services were such as the owners were incompetent, or did not want, to do. This is a salvage service. If Murphy's statement is true, or the claimants' story true, there is a such a claim. There was no contract here. If Tredick intended to send Murphy to the vessel, he would have not limited it to Mr. Murphy. Salvage services were commented upon. What shall be the compensation? One of the elements is the value of the property saved. There was no appraisal of saved property, but the marshal's return has a list of articles saved. The libellants could not furnish the evidence as to the value of these articles. The owners' counsel said that the provisions were thrown overboard because they were perishable, but these were not of the saved materials and supplies. The value of the property saved was commented upon as worth, when saved and brought in, $3000 to the owners.

He contended that the property was derelict. The action of the owners was referred to in not, as was contended, making much search. The tugs Ann and Clara Batemen went out. The Ann says, "how do you lay?" The Bateman did not offer assistance, and the captain did not say "we were sent by owners," but "we can take the property from you." There was no pretence that the owners sent tugs to her assistance, and while Murphy toiled all day Sunday, the owners seem to have abandoned the vessel. This is a meritorious service in Murphy and the others, as the wreck was in the track of inward-bound coal vessels and steamers. The owners were responsible for any damages which might have arisen for neglecting to take care of the vessel. Her salvors did what the owners for some reason neglected to do. There was danger to life. The masts were cut away after a night's lying beside the craft, and waiting until two o'clock P. M., when the Sampson came up; and then it was done as the best thing to save the property, and prevent straining the vessel while it was being dragged through the water. Salvage service should be encouraged. If unsuccessful, the salvor gets nothing. They are the wards of the court; have been compelled to employ counsel, etc. The rule is definite in its principle, as between salvors; Murphy contends that he hired the men. If compensation suggested by the owners only is allowed, would the salvors start on this service. They are poor men, and need all they have earned.

Mr. Batchelder, in behalf of the men who petitioned to share in the salvage claimed by Murphy, was heard. He contended that the owners took no active measures to save the wreck which had any effect. He claimed that the vessel was derelict, abandoned on her beam ends, and would have gone on the shore at the Shoals or elsewhere. Mr. Batchelder cited Desty's Admiralty in support of his position, and claimed that the authorities shew that salvors should have a moiety of the proceeds. The petitioners for whom he appeared stand better than Murphy. They rendered valuable aid, and did not strip the vessel, and are not subject to the objections made to Murphy. Murphy was unable to control the vessel. She drifted and did not come under control until Gilson and others came out to her assistance, for which Murphy's shouts were made. Without the aid of his clients the vessel would not have been saved. Gilson and Davidson petition; Campbell has been settled with. Judge Batchelder recapitulated the extent and nature of the service for which compensation is here claimed. It is a question of compensation between Murphy and his clients. He asked, in case the court found that their services were performed under a contract (for which they have not since been paid) that the court will make an order which shall give them their compensation out of the sum allowed the libellant, the amount of which is for the court to fix.

The court stated that the decision would probably be announced at the regular term, Dec. 21st.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening, Dec. 9th.

Bills amounting to $3306.96 were ordered paid.

A request of the chief engineer of the fire department for 3000 feet of new hose, was referred to the committee on fire department, with the mayor and chief engineer added, to report.

Application of Thomas Kennedy & Son for exemption of their hosiery manufactory from taxation for a term of ten years, was referred to the committee on finance to report. It was stated that the firm contemplate a large increase in their business.

Messrs. James Lewis and John J. Hill, of Kittery Point, the mate and cook of the schooner Mary Willey, who went to Bangor on the 3d inst. to appear as witnesses against a man of whom they bought some articles which it turned out the man had stolen, have returned home. The man was arrested in Boston and taken to Bangor; he acknowledged selling the goods to Mr. Lewis, and is held to appear before the supreme judicial court to be holden at Bangor in February. The Kittery men speak very highly of their treatment by the city marshal and officers of Bangor.

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

ORDINANCES OF THE CITY OF PORTSMOUTH.

CHAPTER XIV.

SEC. 3. The occupants, or, if unoccupied, the owners, of all the buildings and land situated within the city, shall keep the sidewalks adjoining their respective premises, in all cases where a sidewalk has been or may be constructed, free from snow, by causing the snow to be removed into the street, and evenly spread, and when any of said sidewalks are covered with ice, so as to make the passing dangerous, said owners or occupants shall spread over said sidewalk ashes, sand or salt, in such manner as to prevent the same from being dangerous, within six hours after the cessation of every fall thereof or when the snow shall have blown or drifted upon said sidewalk by the wind. The time herein allowed for the performance of the work, to be computed from sunrise the succeeding morning whenever the fall or snow shall have ceased in the night time.

SEC. 4. Any person disregarding or offending against the provisions of this ordinance, shall upon conviction thereof, forfeit and pay a fine not exceeding TEN DOLLARS for each and every offence, with costs of prosecution; and it shall be the duty of the City Marshal, under the counsel and the direction of the Mayor, to cause this chapter to be enforced."

of the World's Dispensary Medical Association of Buffalo, of which Dr. R. V. Pierce is president, consisting of a figure of Aesculapius, the Father of Medicine, surmounting the globe, fitly symbolises the world-wide reputation gained by the Family Medicines of Dr. Pierce now manufactured by this incorporated company and sold in all parts of the world. With a mammoth establishment, the World's Dispensary and Invalids' Hotel in Buffalo, and a correspondingly large branch establishment in London, this Association makes medicines for the whole world—not only that but they personally examine and treat with special medicines thousands of cases. Among the most celebrated of the proprietary of family medicines are Dr. Pierce's Golden Medical Discovery—the great blood-purifier, and Dr. Pierce's Pleasant Purgative Pellets (little pills),—and Dr. Pierce's Compound Extract of Smart-Weed—for bowel affections, colds and painful attacks, as colic, neuralgia, and rheumatism,—Favorite Prescription furnishes relief from female weaknesses, and kindred affections. All sold by druggists.

—The story is told of a minister who, about to use the term "ostentatious man" in his sermon, fearing lest all might not understand its meaning, called in his footman and asked what he understood by it. "A perfect gentleman," said Thomas. His coachman being asked, replied, "A jolly good fellow, sir." The vicar substituted a less ostentatious word. A useful lesson might be learned from the clergyman's experience.—*Congregationalist.*

What is life without health? If you are not in good health try D. R. V. G. It will cure you. Guaranteed by all druggists. See other column.

—A New York umbrella mender says ladies use up their umbrellas chiefly in two ways. When walking they rub them against their clothes, or when riding in cars or omnibusses they lay them on the seat of the vehicle while paying their fares—they must have both hands disengaged—and thus get the umbrellas sat upon and broken. A crape dress or veil, he says, acts like a file upon a silk umbrella. Ten or twelve rubs are enough to make a large hole.

The invalid's hope and strength beyond all other remedies is Malt Bitters.

Political Notes.

A mutual-admiration meeting was held on Thursday evening in Boston, when Hon. F. O. Prince was nominated as a "Citizens' candidate" for mayor. It was a side-show to the democratic caucus.

Senator Ben. Hill, of Georgia, ungraciously says that if Gen. Garfield is animated by gratitude for services rendered, he will tender Wade Hampton a seat in the cabinet.

A Washington special to the New York *Herald* says: Some leading democrats in the House have conceived the brilliant idea of capturing the organization of the next House by making an alliance with the greenbackers and supporting a greenbacker, Mr. Ladd, of Maine, for the speakership.

There is a new and important discovery in relation to the Morey letter. The letter is in the handwriting of the forged letter published by the democratic national committee, which pretended to show that Gen. Weaver, the greenback candidate for President, was acting in the interest of the republicans, and was sent out to influence the vote of Indiana. It now looks as if the democratic committee had in its employ a man charged with the special duty of preparing forged correspondence.

BRIGHTON CATTLE MARKET.

For week ending Wednesday, Dec. 8.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 3577; sheep and lambs 2566; swine 26,256; Veals 60; number western cattle 3054; eastern cattle 479; milch cows and northern cattle 260.

Prices of beef cattle per 100 lbs, live weight—Extra quality $5 62½ @ 5 75; first quality $5 00 @ 5 75; second quality $4 37½ @ 4 87½; third quality $4 @ 4 25; poorest grades of oxen, bulls, etc., $3 50 @ 3 75.

Brighton hides 9c per lb.

Brighton tallow 8c per lb.

Country hides 7½ @ 8c per lb.

Country tallow 4½ @ 5c per lb.

Calf skins 10 @ 12c per lb.

Sheep and lambs skins $1 37½ @ 1 65 each.

Trade for western beef cattle has been very slow and dull at a decline in prices upon all grades of 3c per lb from those obtained one week ago. Extra beeves, which were suitable for English markets, were held at 6 @ 6½c per lb live weight, prices for butchers' cattle have ranged principally at 5 @ 5½c per lb live weight. The quality of the offerings was not much, if any, different from those offered for sale one week ago. The cattle from Maine were composed largely of working oxen and milch cows, only a few also beef cattle being brought in from that section this week.

Working Oxen—There was a good supply in market, but the trade for them has been very quiet. We quote sales 1 pr girth 6 ft 9 in, live weight 2850 lbs, at $240 per pair; 1 pr girth 6 ft 10 in, live weight 2900 lbs, at $245; 3 prs girth 6 ft 8 in, live weight 2600 lbs at $200 per pair; 1 pr extra ones, girth 7 ft, live weight 3000 lbs, at $315; 2 prs girth 6 ft 10 in, live weight 2900 lbs, at $235; 1 pr girth 6 ft 7 in, live weight 2600 lbs, at $165.

Milch Cows—Most offered for sale were of a common grade. We quote sales of 1 springer at $38; 1 do $46; 1 do $45; 2 do $35 each; 4 do $40; 2 do $37; 1 do $28; 2 do $33; 2 cows and calves at $45 each; 1 extra milch cow $75; 1 milch cow $48; 1 do $45.

Stores Cattle—Nearly all the small cattle that are in a fair condition are bought up by butchers for slaughtering purposes. There were but a few sales noted of stores to take into country for feeding purposes.

Sheep and Lambs—The supply from the west was light, all owned by G W Hollis, costing from 5 @ 6c per lb live weight landed at Brighton. Those from Maine were taken to slaughter and market for the owners.

Swine—Fat Hogs—5½ @ 5¾c per lb live weight.

JAMES PYLE'S

PEARLINE

THE GREAT INVENTION

FOR WASHING AND CLEANSING

is hard or soft water, WITHOUT SOAP, and without danger to the finest fabric.

SAVES TIME and LABOR AMAZINGLY, and is rapidly coming into general use. Sold by all Grocers; but beware of vile counterfeits. Its great success brings out dangerous imitations, but PEARLINE is the only safe article. Always bears the name of James Pyle, New York.

DAY'S Kidney PAD

IS STRONGLY ENDORSED.

Rev. E. F. L. GAUSS, Galena, Ill., writes—"For over ten years I had been a great sufferer from pains in the small of the back and region of the Kidneys, which were most excruciating and at times almost insufferable. Doctoring brought no relief, I was finally induced to go abroad and seek the eminent physicians, after close examination, declared my suffering to arise from disease of the Kidneys, of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No sooner had I been back and resumed my pastoral work, when the old trouble grew again so intense as to make life a burden. For months I took no medicine, but finally, on the advice of a friend, I procured a pad, and, to my great surprise, the pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and free as ever the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad as God's medicine and great benefactor of mankind. May all the suffering be helped as I have been to my earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have now used Dr. Kidney Pad three months, and it has done me more good than any remedy I have ever tried."

LARIMORE & DEAN, Druggists, Niles, Mich.,—(30 years in business)—"DAY'S KIDNEY PAD is having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.,—"I have been a great sufferer from kidney complaint, and after wearing your Pad 28 days I feel better than I have in 15 years."

DR. A. J. STONER, Decatur, Ill.—"Your Pad is doing a great work here. It sells every day and gives universal satisfaction."

For sale by druggists, or sent by mail (free of postage) on receipt of the price—Regular, Pad, $1.00; Special Pad, (extra size), $5.00. Children, $1.00. Our book, "How a Life was Saved," giving the history of this new discovery, and a large record of some remarkable cures, sent free. Write for it. Address,

DAY KIDNEY PAD CO., TOLEDO, O.

CAUTION. Pads now seeking a sale on our reputation, we warn the public against imitations. Ask for DAY'S KIDNEY PAD and take no other.

1881—37th YEAR.

ECLECTIC MAGAZINE.

OF

Foreign Literature, Science, and Art.

ENLARGED AND IMPROVED.

The Eclectic Magazine reproduces from foreign periodicals all those articles which are found to be of most general interest to American readers. Its field of selection embraces all the leading Foreign Reviews, Magazines, and Journals, and the taste of all classes of readers are consulted in the articles presented. Its plan includes Science, Essays, Reviews, Sketches, Travels, Poetry, Novels, Short Stories, etc., etc.

With the number for January, 1881, the Eclectic Magazine will be enlarged to such an extent as will give about Two Hundred Pages of Additional reading matter during the year.

This increased space will afford the opportunity of nearly 20 an increased quantity but for a much greater variety of reading matter; and the publisher confidently promises that the opportunity shall be so utilized that the Eclectic will be more interesting, more readable, and more satisfactory than ever before. The same care will be taken as hitherto to exclude articles which are trivial in character, or of merely transient interest; but larger space will be assigned to articles of a popular and entertaining cast, and with ample materials of the best quality at command, the Eclectic will be made the ideal Family Magazine.

The following list of contributors to the periodicals from which the Eclectic is selected, will give some idea of the value of its contents: Rt. Hon. W. E. Gladstone, Alfred Tennyson, Prof. Huxley, Prof. Tyndall, Richard A. Proctor, H. A. Taine, Max Lockyer, F. R. S., Dr. W. B. Carpenter, E. B. Tylor, Prof. Max Muller, Prof. Owen, Matthew Arnold, F. A. Freeman, D. C. L., James Anthony Froude, Thomas Hughes, Anthony Trollope, W. Black, Mrs. Oliphant, Turgenieff, Miss Thackeray, etc.

The English periodicals are the great storehouse from which the materials are drawn many of the best and most popular books of the time. The Eclectic reprints this material fresh from the authors' hands, and at a price far lower than it costs in book form.

Terms: Single copies, 45 cents; one copy, one year, $5; five copies, $20. Trial subscription, for three months, $1. The Eclectic and any $4 magazine to one address, $8. Postage free to all subscribers.

E. R. PELTON, Publisher,

25 Bond Street, New York.

The GREATEST LIVING AUTHORS, such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, E. A. Freeman, Prof. Tyndall, Dr. W. B. In 1881 THE LIVING AGE enters upon its thirty-eighth year, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, above-named and many others; embracing the choicest Serial and Short Stories by the Leading Foreign Novelists, and an amount

Unapproached by any other Periodical

in the world, of the most valuable literary and Scientific matter of the day, from the pen of the Foremost Essayists, Scientists, Critics, Discoverers, and Editors, representing every department of Knowledge and Progress.

The Living Age is a weekly magazine giving more than

Three and a Quarter Thousand

double column octavo pages of reading-matter yearly. It present in an inexpensive form, considering its great amount of matter, with unabridged, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific, Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

It is therefore invaluable to every American reader, as the only satisfactorily fresh and Complete compilation of an indispensable current literature, indispensable because it embraces the productions of the

Ablest Living Writers.

"In no other form can so much thoroughly good reading be got for so little money; in no other form can so much instruction and entertainment be got in so small a space."—*Philadelphia Times.*

"There is no other publication like it. It is known and sought by all who desire to be abreast with the cultivated thought of the English-speaking world."—*Episcopal Register, Philadelphia.*

"It comprehends all the choicest articles from the foreign magazine that one who takes it does not feel the need of anything else in the way of fresh and satisfactory reading."—*The Advance, Chicago*

"Its frequent issue and ample space enable it to give all that the very ablest of living writers furnish to periodical literature on science, history, biography, philosophy, poetry, theology, political and criticism, and to add to this the full development of the best that there is in fiction."—*The Interior, Chicago.*

"Gives the best of all at the price of one."—*New York Independent.*

"Presents the choicest literature of the day."—*New York Tribune.*

"Its, by all odds, the best eclectic published."—*Boston Traveller.*

"It combines the freshness of the current literature, and the ripe scholarship of the quarterlies."—*Christian Union, New York.*

"No cannot read everything..... No man will be behind the literature of the times who reads The Living Age."—*Zion's Herald, Boston.*

"We know of no investment of equal dollars, in the world of literature, that will yield equal returns."—*The Presbyterian, Philadelphia.*

"It has no rival."—*New York Evening Post.*

Published Weekly at $8.00 a year, free of postage.

☞ TO NEW SUBSCRIBERS for the year 1881, remitting before Jan. 1st, the numbers of 1880 issued after the receipt of their subscriptions, will be sent gratis.

Club Prices for the Home and Foreign Literature.

("Possessed of the Living Age and one or other of our gracious advertised periodicals, a subscriber will find himself in command of the whole situation."—*Phila. Sunday Bulletin.*)

For $10.50 the Living Age and any one of the American $4 monthlies (or Harper's Weekly or Bazar) will be sent for a year, postpaid; or, for $9.50 The Living Age and the St. Nicholas, or Appleton's Journal, or Lippincott's Monthly.

THE SUN FOR 1881.

Everybody reads THE SUN. In the editions of this newspaper throughout the year to come everybody will find:

I. The world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eyesight. THE SUN's news of all classes of the golden mean between redundant fulness and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continuous story of the lives of real men and women, and of their deeds, plans, loves, hates, and troubles. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest journalism. THE SUN's habit is to speak out fearless about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blameable in Democrat or Republican.

VI. Absolute independence of partisan organizations, but unwavering loyalty to true Democratic principles. THE SUN believes that the government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the year immediately following will probably decide this supremely important contest. The Sun believes that the victory will be with the people against the Rings for monopoly, the Rings for plunder, and the Rings for imperial power.

Our terms are as follows:

Daily THE SUN, a large sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of 56 columns, the price is 65 cents a month, or $7.70 a year, postage paid.

The Sunday edition of The Sun is also furnished separately at $1.20 a year, postage paid.

The price of the Weekly SUN, eight pages, fifty-six columns, is $1 a year, postage paid. Five clubs of ten sending $10 we will send an extra copy free. Address, I. W. ENGLAND,

Publisher of THE SUN, New York City.

COCA BEEF TONIC.

Highest Medals. Indorsed and Prescribed by Medical Men of all Schools.

Professor Duncan Campbell, M.D., LL.D., *President Royal College of Physicians and Surgeons*, etc., etc., says: "It has more than realized my expectations."

Professor J. M. Carnochan, M.D., *Professor of Surgery New York Medical College*, says: "My patients derive marked and decided benefit from it."

Professor B. Goullon, M.D., *Physician to the Grand Duke of Saxony; Knight of the Holy Cross*, etc., says: "It gives more tone than anything I have ever prescribed."

Sir Robert Christison, M.D., LL.D., F.R.S., *Physician to her Majesty the Queen; President Royal British Association*, etc., etc., says: "The properties of the Coca are the most remarkable of any known to the medical world. From repeated personal trials I am convinced that its use is highly beneficial and tonic."

Valuable in malaria; ague; malarial debility; dumbague; low fever; marasmus; paralytic; spinal and nervous affections; female weaknesses; bilious and liver affections; weak throats; palpitation and other affections of the heart; epilepsy or falling sickness; weakness of the voice of actors, singers, public speakers and clergymen; colic; flatulency; sea sickness; fallow out of the hair; asthma; shortness of breath; wasting diseases; etc., etc. It is gratefully refreshing and restorative after prolonged mental and physical strain. It is pleasant and agreeable, and is readily retained by the most delicate stomach. Dr. McBean (British Medical Journal) found it of great service in consumption. Baron von Humboldt says he has never known a case of consumption or asthma among those accustomed to its use, and that they live to a great age, retaining their mental and physical faculties to the last (Cosmos).

FELLOWS' Compound Syrup of HYPO-PHOS-PHITES

WASTING DISEASES

Such as Consumption, Bronchitis, Asthma, General Debility, Brain Exhaustion, Chronic Constipation, Chronic Diarrhœa, Dyspepsia, or

Loss of Nervous Power,

Are positively cured by FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

As phosphorus enters so largely into the animal economy, it becomes *par excellence* the best vehicle with which to associate the other vitalizing ingredients of healthy Blood, Nerve and Muscle. Fellows' Syrup of Hypophosphites are combined all the substances found necessary to insure robust health, and whereas it was invented with a view to supply every deficiency, it certainly has performed some wonderful cures.

MANCHESTER, N. H., June 18, 1880.

MR. JAMES I. FELLOWS,

Dear Sir: I wish to acknowledge the great benefit I have received from the use of "Fellows' Compound Syrup of Hypophosphites." I have been an invalid for nearly two years, with a bronchial affection that had become chronic. In the fall of 1878 I had a physician during days in succession, besides the counsel of several others. They gave me but little encouragement, some of them none. Last July I was advised to give your remedy a trial. I did so, and in less than one week there was a marked improvement for the better. I have continued its use from that time until the present, improving all the time, and I can truthfully say (am more than a hundred per cent better than when I commenced the use. I have increased in weight about fifteen pounds, and my cough, which was fearful, has nearly disappeared. I believe had it not been for your Syrup, I should ere this have been beyond the cares of life. Very truly yours,

ALBERT STORY.

How Liszt got his Wife.

Liszt was at Prague in the autumn of 1846. The day after his arrival a stranger called upon him and represented himself as a brother artist in distress, having expended all his means in an unsuccessful lawsuit, and asked aid to enable him to return to Nuremburg, his place of residence. Liszt gave him a hearty reception and opened his desk to get some money, but found he possessed only three ducats.

"You see," said the generous artist, "that I am as poor as yourself. However, I have credit, and can coin money with my piano. I have a miniature given me by the emperor of Austria; the painting is of little value, but the diamonds are fine; sell the diamonds and keep the money."

The stranger refused the rich gift, but Liszt compelled him to take it, and he carried it to a jeweller, who, suspecting from his miserable appearance that he had stolen it, had him arrested and thrown into prison. The stranger sent for his generous benefactor, who immediately called upon the jeweller and told him that the man was innocent, and that he had given him the diamonds.

"But who are you?" asked the jeweller.

"My name is Liszt," he replied.

"I know of no fiancier of that name," said the jeweller.

"Very possible," said Liszt.

"But do you know that those diamonds are worth 6,000 florins?"

"So much the better for him to whom I gave them."

"But you must be very rich to make such presents."

"My sole fortune consists of three ducats."

"Then you are a fool," said the jeweller.

"No," said Liszt, "I have only to move the ends of my fingers to get as much money as I want."

"Then you are a sorcerer," said the jeweller.

"I will show you the kind of a sorcery I employ," said Liszt.

Seeing a piano in the back parlor of the jeweller's shop, the eccentric artist sat down to it and began to improvise a ravishing air. A beautiful young lady made her appearance, and at the close of the performance exclaimed:

"Bravo, Liszt!"

"You know him, then?" said the jeweller to his daughter.

"I have never seen him before," she said, "but there is no one in the world but Liszt who can produce such sounds from a piano."

The jeweller was satisfied, the stranger was released and relieved, the report of Liszt being in the city flew, and he was waited upon and feted by the nobles, who besought him to give a concert in their city. The jeweller, seeing the homage that was paid to the man of genius, was ambitious of forming an alliance with him, and said:

"How do you find my daughter?"

"Adorable!" was the reply.

"What do you think of marriage?" said the jeweller.

"Well enough to try it," said Liszt.

"What do you say to a dowry of 3,000,000 of francs?" was next asked.

"I will accept it," was the reply, "and thank you too!"

"Well, my daughter likes you and you like her," said the jeweller. "The dowry is ready. Will you be my son-in-law?"

"Gladly," replied Liszt; and the marriage was celebrated the week following.

Help One Another?

Of course. What else are we here for? For example: Mr. Asa F. Bearse, of Cotuit, Mass., had been troubled for years with diseased liver and could get no relief. He was not fit for business, and carried his life like a burden on his back. Just then his friend, Capt. Handy, said: "Asa, why don't you send to Dr. David Kennedy, of Rondout, N. Y., and get a bottle of his 'Favorite Remedy.' It will only cost you a dollar, and may do you good." Bearse did so, and after a short time was sound as the dollar with which he bought the medicine. To be sure, let us help one another. Sold by all druggists.

—The ladies wear coachmen's capes this winter, probably as a protection against driving storms.

JAY D. DUNNING, Clerk, Wabash Shops, Toledo, Ohio, says:—I am now wearing an "Only Lung Pad," and it has afforded me almost instant relief from asthma.—*See Adv.*

—A cave in eastern Tennessee is two miles in length, and has openings at both ends. The owners of the ground around the entrances charged for admission, and acted as guides for visitors. Their rivalry led to serious fights in the cave, for each held the other to be a trespasser. Then one of the contestants hit upon a novel and effective means of ruining the other's business. He sunk a shaft so as to admit a large stream into the cave at about the centre, and as there was an incline in a favorable direction, the water poured out at the enemy's portal, while his own was unobstructed. The matter is to be made the subject of a law-suit.

The best blood remedy in the world is D. R. V. G. It will clear Ladies' complexion of pimples, moth patches and sallowness. Try it. Guaranteed by your own druggists.

—A star performance: Falling on the ice and striking the back of your head. Take our word for this, don't experiment.

Food is digested and assimilated by Malt Bitters. Hence increased flesh.

—Some photographer in New York is said to have two hundred and fifty-three "distinct negatives" of Miss Maud Branscombe. Evidently a fellow who will not take no for an answer.

Portsmouth Chronicle.

MONDAY, DECEMBER 13, 1880.

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

John Kelly Defeated.

Mayor Cooper of New York nominated Allen Campbell for comptroller in place of John Kelly, and the nomination was confirmed in the board of aldermen by a vote of thirteen yeas to eight nays. On Friday, the 10th instant. Four republicans, four Tammany hall democrats and five anti-Tammany democrats, made up the majority; two republicans and one anti-Tammany democrat voted with the minority. The president of the department of taxes, park commissioner, dock commissioner, and one excise commissioner and two police justices appointed, are republicans; all the other officials appointed are anti-Tammany democrats. It was apparently a bad day for the "boss."

Congress.

The House appropriations committee on the 10th reported the fortifications appropriation bill, the first of the appropriations to be reported. It is modelled upon the bill of last year, and makes no specific appropriation for New England fortifications. It appropriates a bulk sum of $550,000 for three purposes—repairs of fortifications, armaments and torpedoes. The allotment of the sum is left to the discretion of the war department.

News and Notes.

Nine-tenths of the business part of Pensacola, Fla., was burned on the night of the 10th inst. More than a hundred business establishments were destroyed, and fifty families turned out of their homes. Loss estimated at from $500,000 to $750,000, with insurance of $250,000 to $300,000. The custom house, post-office, all the hotels and printing offices, and every drug and stationery store in the city were burned.

A man giving the name of George Perkins was found locked in a freight car at Fitchburg, Mass., on the morning of Tuesday, the 7th inst. Perkins' story is that he went to Omaha to work, but was attacked with ague, and getting short of money, started east. On the morning of the 6th he entered a freight car at Albany, and was probably locked in while asleep, and was compelled to remain without food till Tuesday morning. Both feet were badly frozen, and he narrowly escaped perishing from exposure.

The grand jury of the United States district court at Hartford, Conn., failed to find indictments against Captain Nye of the steamer Stonington, and Captain Young of the steamer Narragansett, held for manslaughter. Captain Young pleaded guilty to not making out a passenger list, and paid $100 fine, and costs.

One of the escaped lunatics from the burned St. Peter asylum, Minn., was found running wild in the woods at Stevens Point, near Milwaukee, Wis., on Thursday last, so badly frozen as to necessitate the amputation of both legs and arms.

Boston parties and others are to erect four furnaces in Belfast, Me., for smelting ore from the Maine mines.

The lumbermen are going into the woods, this year, fully a month earlier than usual. The owners of the 10,000,000 or 15,000,000 logs at Turner, Me., on the Kennebec river, are apprehensive of a winter ice freshet or spring freshet, which would sweep them out to sea so irresistibly that they would be almost a total loss.

Three negroes, one woman and two men, who murdered a Mrs. Kennedy in Clarendon county, S. C., on the 5th inst., were captured on the 8th, and hung on the nearest tree to the place of the murder that would hold them.

Much dissatisfaction is felt at St. Johns, N. F., in consequence of the British government expressing a willingness to pay the American claim for alleged losses by the Fortune bay outrage. The local legislature will strongly oppose the payment.

Mrs. Glasson, a German woman of Marquette Green, Lake county, Wis., while in a fit of temporary insanity, killed her babe by cutting its head nearly off, and then cut her own throat, dying almost immediately.

Ort Hendrickson was found murdered in the woods near Wodena, Minn., on the 10th inst., by his brother. Three rifle balls were found in the body, and a knife plunged through his heart.

Gloucester is anxious about four schooners of her fishing fleet, which have been absent from port for six weeks.

A United States marshal was killed near Huntsville, Ala., Thursday, the 9th inst., by illicit distillers, and the authorities at Washington have ordered the most energetic measures taken to bring to punishment parties engaged in resistance to deputy collectors and deputy marshals resulting in the murder; also that the officers take steps to have every illicit distillery seized, and every illicit distiller arrested.

The unknown barque wrecked at St. Georges' bay, Newfoundland, from which only the mate was saved, and he in so demented a condition that he refused to tell the name of the vessel, was the Nonantum, of London, bound from Miramichi for London with a cargo of deals.

A number of Jesuits, lately expelled from France, have recently arrived in Montreal, and will be provided for by the brethren of that city.

Princess Louise has written a piece of piano music entitled, "The Doctor's Gallop." On the title page Her Royal Highness takes the name of Louise Campbell.

The Irish harvest is described this year as the best known for more than a generation. The area planted with oats was very large, and the yield has turned out to be at least seventy-five per cent in excess of last season; while the grain has brought, if anything, a better price in the market than it did last year, when the yield was so scanty. The yield of wheat has been in some parts as much as twelve barrels to the statute acre; and the quality, both red and white, has been superior to that of any harvest within living memory. The green crops, too, have as a rule given the Irish farmer satisfaction, although the potato crop has been a slight disappointment.

Another Canadian paper—the Montreal *Herald*—bewails the increasing emigration to "the states." It places the number of emigrants in October at 17,517, and the number for the year at 210,000—a number equal to the total population of New Brunswick, and fully equal to one-half the population of Nova Scotia. Being an opposition paper, the *Herald* holds the present ministry in Canada, with its "paternal and protective policy," responsible for the depopulation of the Dominion. It has no more to do with it, however, than it has with the course of the weather which Vennor predicts. Canada should join the American Union, making the 39th and 40th states, and then she would not mind the migration of her sons any more than New England minds the migration of her sons to the great west.

William Gray, convicted of the murder of Thomas Mulligan, was executed at Sherbrooke, P. Q., Friday. He protested his innocence to the last.

Charles Marshall, a noted desperado of Bellville, Nev., on the night of the 7th inst. brutally murdered an inoffensive old man named Jack McCann, who was first shot, and then kicked until dead. On the morning of the 10th inst., while the sheriff was starting with the prisoner for Aurora, a party of citizens rushed upon the sheriff and his posse and took Marshall from their custody. The prisoner was then conveyed to the outskirts of the town, and hanged.

Margaret Hackett, the oldest inhabitant of Woonsocket, R. I., died last week at the age of 103 years. She was a native of Ireland, had lived in this country thirty years, and retained her faculties to the last.

The recent large increase in the ocean steamship traffic at the port of Boston is shown by the fact that seventeen European steamers were lying at the wharves in Boston harbor on Friday last, which is the largest number ever seen there at one time. Four of them arrived during the day.

United States Deputy Marshal John Hardie of Chattanooga, Tenn., was killed by moonshiners on the 10th inst.

Fred G. Philbrick, late cashier of the Lowell, Mass., One Price Clothing company, is in jail in that city, charged with having embezzled $2800 from the concern.

Bowie, Dash & Co., of New York city, coffee importers, have failed; liabilities estimated at $1,400,000.

New Hampshire Items.

The cottage of Col. George W. Riddle in Piscataquog, Manchester, was badly damaged by fire on Saturday; loss $600; insured. The steam fire engine N. S. Bean, in going to the fire, was wrecked by colliding with a hose carriage on the canal bridge. Damage $1000. The engine was upset, and the driver, A. C. Cushing, was considerably injured.

H. H. Huse, the messenger of the New Hampshire electoral college, arrived at Washington on Friday with the vote of this state, and delivered it to Vice President Wheeler.

—The candle wick is up to snuff.

—Jones thinks a man is fortunate who has his will contested after death only. He says his will has been contested ever since he married Mrs. Jones.

—A small boy went to see his grandmother. After looking eagerly round the handsomely furnished room where she sat, he exclaimed, inquiringly, "Oh, grandmamma, where is the miserable table papa says you keep?"

—An instance of presence of mind in a dog was shown at New Brunswick, N. J., a few days ago. The animal, a little brown and white one, was playing about the depot, and during his gambols he got between the tracks just as the two lightning through trains were approaching, which pass each other directly in front of the depot. The dog apparently saw his danger, for he quickly looked in either direction and calculated that if he should attempt to cross the track on either side he would certainly be crushed to death. Now, this dog did the only thing which could have been accomplished by a human being—he stretched himself out upon all fours, placed his nose between his paws and remained in that position until the train had passed.

WOULD respectfully inform the citizens of Portsmouth and vicinity, that he has taken the commodious rooms, Nos. 6 and 7 National Block, and is now prepared to offer his patrons many more advantages than ever before.

MR. GEO. J. PARKER of Boston has been engaged as teacher of vocal Culture. Also MR. S. R. WHITNEY as teacher of Harmony. Mr. Parker is the Tenor of the "Kings Chapel" choir, also the first Tenor of the Schubert Quartette, and comes with the highest recommendations, that he is an excellent teacher as well as a reliable gentleman in every respect. Of Mr. Whitney it is only necessary to say that he is well known as one of the best musicians in this country. All desiring instruction in Harmony are requested to apply immediately, as Mr. Whitney can only spend one day a week in this city, and can therefore only receive a limited number of pupils.

Please send for circular, giving all particulars, or call between the hours of 9 and 1, or 2 and 6.

AROUND HOME.

A large leopard seal was seen in the river on Sunday, along the wharves between the Spring market and Noble's island.

The Dover milkmen, who a short time ago raised the price of milk from five cents a quart to six, have gone back to the old figure.

The adjourned annual meeting of Portsmouth Grange, P. of H., will be held on Thursday evening, Dec. 16th, when all who are in favor of retaining the charter should make it a point to be present.

Mrs. Pickering, of the N. H. S. P. C. A., was in Dover last week, so the papers tell us, and there was a lively business done in selling horse-blankets for the previously neglected horses that stood around in City Hall square.

The Eastern railroad passenger earnings for October and November, according to the official returns, show an increase of $30,000 over those for the corresponding months last year. The freight returns give even better results.

This evening, at Franklin theatre, "The Harrisons" will present the eccentric musical comedy "Photos," which has excited the mirth of large audiences wherever it has been given. Reserved seats anywhere on lower floor, fifty cents; gallery thirty-five cents.

In another column will be found an advertisement of the Portsmouth Shoe Co. calling for experienced stitchers to work in the new manufactory. Undoubtedly there are families in Portsmouth that have friends working out of the city, who could be employed at home; and now is a good time to secure the positions.

The schooner Satellite, Capt. J. M. Adderton, arrived on Friday afternoon from Boston, and proceeded to Abbott's steam brick yard in Eliot on Saturday, there to take on board her last cargo of bricks for the season. Nearly all the bricks remaining on the river yards have been sold, and the demand in Boston is still quite good.

The chairman of the committee appointed at the citizens' meeting held in the city rooms on Monday evening of last week, has received a letter from the treasurer of the Kearsarge Mills, saying that the directors of the corporation will meet the committee on Saturday, the 18th inst., at eleven o'clock in the forenoon, at the rooms of the treasurer in Boston.

Some time during Saturday night a large grey horse, one of a valuable span owned by E. H. Winchester, Esq., was stolen from his stable, the thief also taking a saddle and bridle. The horse was easily tracked in the snow from the stable to the main road, but could not be tracked any further. On Sunday the stolen animal was traced as far as Newburyport.

Owing to the illness of two of the artists of the opera company that was to have appeared at Music hall on the 14th inst., in the Star lyceum course, the managers have postponed the presentation of "Martha" until Jan. 4th, rather than to substitute any less attractive performance. The next entertainment in the course will be given Dec. 28th, by Mr. French and the Hindoo jugglers.

A tramp calling himself Charles Simons lodged at the police station Friday night. He had several railroad switch keys in his possession, and on being questioned confessed to having stolen a trunk from the depot in Newmarket some days before, while drunk, another tramp having aided him. A telegram to Newmarket brought answer that no trunk had been stolen from the depot there.

The Newburyport *Herald* of Saturday last contained two items concerning Rev. A. A. Waite, the first of which was as follows:

As will be seen by the advertisement in another column, A. A. Waite will lecture at City hall, Monday night, on "Spiritualism."

The paragraph next after this was the following, credited to the Boston *Herald*:

In this week's *Independent* Epes Sargent exposes the barguin between Rev. Mr. Waite, "Col. King" and Warren Lincoln, by which they have been duping and bleeding the public in pretended contests between Spiritualism, and tricks of legerdemain.

The Biddeford *Journal* says that "L. C. Dearborn and A. F. Wentworth are about to start a laundry in Portsmouth. Mr. Dearborn will continue his business in Biddeford as heretofore."

We have received some valuable and long-coveted Pub. Docs. from G. H. Jenness, Esq., enrolling clerk of the national House of Representatives. The knowledge that he has contributed to our happiness will be ample reward for him.

Mr. Lemuel B. Caswell has suspended his fish-curing operations at Smuttynose island, Isles of Shoals, until April. He has disposed of a large amount of the product of the fall season, but still has on hand 800 quintals of dried hake, 132 barrels of pickled herring, twenty casks of oil, thirty-two barrels of nice mackerel, and a quantity of "crom."

Mr. Amos Skiff, advance agent of the Hindoo jugglers who are to appear in the Star lyceum course Dec. 28th, to assist in illustrating the lecture on India by Mr. Harry W. French, arrived in this city on Friday from Skowhegan, Me., where the entertainment is to be given on the evening of the 27th. Mr. Skiff gave the manager of the Gibson house detailed instructions as to what must be done to accommodate the Hindoos, the main thing being to have their rooms heated to such a degree that nobody can live in them.

IN WINTER QUARTERS.

The schooner Hattie Lewis, of the "brick fleet," is laid up for the winter alongside the wharf at the Raynes shipyard; the G. W. Raitt, another "bricker," and the Triton, are lying at Call's wharf, just inside the Noble's island bridge.

The steam launches Gypsy and Pinafore are hauled out at the Rogers yard, and the Louis Irving at Fernald's wharf. A few feet from the latter is the sloop yacht Julia, and the contrastin model between the sloop and steamer is very great; one is all "bearings," and the other has none at all.

The schooner E. A. Creed, owned by Laighton Bros. & Co. of the Shoals, has for some time been lying at a wharf near Liberty bridge, where she has spent several winters, and where she will remain until the opening of the hotel "season" next summer.

The schooner Belle, which for a year and a half has laid at Portsmouth bridge, has been hauled up at Eliot.

POLICE COURT.

SATURDAY, Dec. 11; *Batchelder, J.*

Wilbur Gilbow and Ambrose Yeaton, for drunkenness, were assessed $9.90 each. Both went to the county farm.

HOWARD BENEVOLENT SOC'Y.

At the recent annual meeting of this society there was reported about $900 dispensed for groceries and provisions, besides a large disbursement of coal and wood. These grocery orders are given to the amount of one dollar each once in every two weeks to each pensioner, and many who would not accept a public charity, very gladly and thankfully receive the gifts thus bestowed. The officers for the ensuing year are as follows:

President, Hon. Ichabod Goodwin.
Secretary, Lewis W. Brewster.
Treasurer, John Stavers.
Directors, Benjamin Cheever, Samuel S. Green, John H. Broughton, Lyman D. Spalding, J. Chaplin Carr, Wm. D. Fernald, John S. Rand, T. E. O. Marvin, George Annable, William A. Vaughan, Jr., Charles H. Mendum, John T. French.

The disbursing committees are as follows: For December, Messrs. Goodwin, Annable and French; for January, 1881, Messrs. Green, Cheever and Vaughan; for February, Messrs. Stavers, Mendum and Carr; for March, Messrs. Broughton, Spalding and Marvin; for April, and rest of year to December, Messrs. Fernald, Brewster and Rand.

YORK COUNTY AFFAIRS.

The U. S. S. Tallapoosa sailed from the navy yard at eight o'clock Saturday morning for Washington, where she is to be repaired—if she can get there before the Potomac river is closed by the ice.

An old lady at Kittery Point, whose son, a seaman in the navy during the war, is employed a part of the time on the navy yard, on hearing that Secretary Thompson was to be president of the Panama Canal Co. said: "Well, I don't think Mr. Thompson is a great success in establishing a navy, but he may do to run a canal!"

Naval Gazette.

A court martial has been ordered to assemble at New York, for the trial of Lieut. Col. Thomas Y. Field, of the marine corps, on charges preferred by a captain in the navy. The detail for the court is as follows: Commodore S. P. Carter, Captains E. Y. McCauley, O. C. Badger,—Breese, L. A. Kimberly, H. Wilson and C. C. Carpenter, of the navy, and Majors A. S. Nicholson and G. Butler of the marine corps; Capt. R. W. Huntington, U. S. M. C., judge-advocate.

Passed Asst. Paymaster John W. Jordan is ordered to duty at the naval storehouse at Key West on the 1st of January.

Chief Engineer R. M. Bartleman is detached from the Lackawanna, and placed on waiting orders.

Leave of absence for one month from Dec. 13th has been granted to Lieut. Jas. E. Jones, attached to the Tallapoosa.

The U. S. S. Alliance sailed from Key West for Vera Cruz on the 10th inst.

Political Notes.

Nicholas Ford, a republican greenbacker, received a certificate of election as a member of the next Congress at St. Joseph, Mo. The vote as canvassed by the secretary of state, shows 21,770 for Ford, and 21,768 for Craig, the democratic candidate.

A Philadelphia report says a letter is published from George S. Boutwell, C. A. Arthur, Noah Davis and Roscoe Conkling, referring to a statement that Senator Bayard, in a speech delivered at Dover, Del., referred to the case of Phelps, Dodge & Co., who were compelled, some years ago, to refund the government the amount of duties unpaid on certain undervalued invoices, and declared that Senator Conkling, Noah Davis, district attorney, Mr. Arthur, collector, Mr. Jayne, special officer, and George S. Boutwell, secretary of the treasury, were present in the custom house when this money, $267,000, was paid, and that they divided it among themselves. The letter pronounces these statements false. It is not likely that Mr. Bayard ever made any such ridiculous assertions, as he is not an absolute idiot.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has specially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—*Ladies' Visitor*, New York City. Sold by all druggists. 25 cents a bottle. 2

A Living Clock.

The human system is a kind of machine. If one part is seriously out of order the whole goes wrong. The blood circulation is the mainspring. Keep this all right and you will not suffer from kidney and liver disorders, piles and constipation. And in offering you Dr. Kennedy's "Favorite Remedy" as the most successful regulator of the human machine ever discovered, we oblige the sick and suffering more than we oblige Dr. Kennedy. Invest one dollar for a bottle at the store, or walk all the way to the doctor's office in Rondout, N. Y., rather than not get it.

Books, Magazines, Etc.

"Ballads and other verses, by James T. Fields." Boston; Houghton, Mifflin & Company.

This little volume embraces, in addition to some of the finest poems of Mr. Fields previously published, the last book of which was printed for private circulation, the choicest of his pieces written during the past twenty years.

They have for the most part appeared in the leading magazines from time to time, and have been admired for their peculiar freshness, their humor and the characteristic grace which marks the poems, as well as the oratory of our former resident. Many years ago, the *North American Review*, then the leading publication of the country in matters of literary criticism, upon the appearance of an edition of Mr. Fields' poems commended the poet's verses as abounding in "pure thoughts, genial feeling, tender remembrance and lambent fancy, in natural measures and easy rhythm;" such poems, the reviewer wrote, "as always win a higher fame than they seek, and are best appreciated by those whose verdict is of the most significant import." What was true then is the universal opinion of the best critics of to-day in regard to Mr. Fields' poems. They are finished, never commonplace or ungainly, but attractive in rythm and graceful in style, as well as happy in the selection of subjects. Mr. Fields has for many years been the friend of prominent men of letters in this country and Europe. If he has seen faults in his friends he has avoided such unfortunate attributes in his own case. He seems to be always upon his good behavior, and to have especially profited by his intercourse with the leading literati on either side of the Atlantic. Some of these poems are familiar to our memory. One of them we remember to have read many years ago, when we found it on the table at a humble abode at the south end. It had been given to the then owner's ancester by the author, and from its appearance had circulated all around the region of the mill-dam, for the delight and solace of the inhabitants of that region who remembered the author in his early days.

"Patient Mercy Jones" suggests the author's powers of appreciating the inflexible good in an amiable woman who can make even a trial a blessing; while our old acquaintance the owl critic blinks at us as of yore, as when we first enjoyed the pictures of the busy artist who heard everything said in his shop.

"And the barber kept on shaving."

As Mr. Fields in his prose works and his addresses gives his reminiscences of men with a peculiar grace and genial personality, affording always a new and interesting feature for his readers and auditors to admire, so in his poems there is the entire absence of the solemn and uncomfortable feature, that repels, instead of attracting our notice. We enjoy this collection of new and old poems with a renewed relish, because of their peculiar portrayal of the author's observation, his graceful diction and his commendable common sense, which asserts itself in the moral of so many of his gracefully-told poetic incidents. To the elders, who have watched the career of our celebrated poet, the book will have renewed attractions; while to the army of younger readers, who to-day have so much difficulty in separating the golden grain from the chaff in poetry and prose, we commend the "ballads and other verses" which the poet modestly suggests are—

"Mustered from half-forgotten silent nooks,
The dusky purlieus of departed books,"

as in every way worthy their early and frequent perusal.

Published to-day, and for sale at all the bookstores.

The charming little operetta "The Land of Nod" has proved a popular hit for the Christmas number of "St. Nicholas." It is easily gotten up, at slight expense, and proves a delightful entertainment, adapted to any season of the year. It is already in active preparation in many places, and attractive additional music has been written for three or four of the recitations, which Scribner & Co. will seed to those desirous of bringing out the operetta.

It may save your life for it cures your cold and cough. Dr. Bull's Cough Syrup. Buy it. Try it. It never fails. Costs only 25 cents a bottle.

—Young man at a meeting: "I merely throw out the idea." Old fellow: "Well, I think that is the best thing you can do with it."

What is life without health? If you are not in good health try D. R. V. G. It will cure you. Guaranteed by all druggists. See other column.

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household consists chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and honor. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease. "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

Parties living at a distance, (except in surgical cases,) by sending a statement of their case can be treated at home.

TRADE MARK DAY'S Kidney PAD

IS STRONGLY ENDORSED.

Rev. E. F. L. GAUSS, Galena, Ill., writes—"For over ten years I had been a great sufferer from pains in the small of the back and region of the kidneys, which was most provoking and at times almost insufferable. Doctoring brought no relief and I was finally advised to go abroad and seek the climate of my youth. In Germany and Switzerland, eminent physicians, after close examination, declared my sufferings to arise from disease of the Kidneys of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No sooner had I been back and resumed my pastoral work, when the old trouble grew again so intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the Pad nearly two months gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and well, quite the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad Co., God's great and great benefactors of mankind. May all the suffering be helped as I have been to my earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have worn a Day's Kidney Pad for a year and it has done me more good than any remedy I have ever tried."

LAKIMORE & DEAN, Druggists, Niles, Mich.,—(30 years in business)—"Day's Kidney Pad is having a very large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from Kidney complaint, and after wearing your Pad 25 days I feel better than I have in 15 years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is doing great good here. It sells every day and gives universal satisfaction."

For sale by druggists, or sent by mail (free of postage) on receipt of the price—Regular Pad, $2.00; Special Pad, (extra size), $3.00; Children's, $1.50. Our book, "How a Life was saved," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it. Address,

THE SUN FOR 1881.

Everybody reads THE SUN. In the editions of this newspaper for 1881 throughout the year to come everybody will find:

I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eyesight. THE SUN long ago discovered that golden mean between redundant folly and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates, and troubles. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest comment. THE SUN'S habit is to speak out fearless about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blameable in Democrat or Republican.

VI. Absolute independence of parties or organizations, but unwavering loyalty to true Democratic principles. THE SUN believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to defend to its utmost; over the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the year immediately following will probably decide this supremely important contest. THE SUN believes that the victory will be with the people as against the Kings for monopoly, the Kings for plunder, and the Kings for imperial power.

Our terms are as follows:

For the Daily SUN, a four-page sheet of twenty-eight columns, the price is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.

The price of the Weekly SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free. Address, I. W. ENGLAND, Publisher of THE SUN, New York City.

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

CANTERBURY SHAKERS'

LIFE-INVIGORATING

SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most meritorious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Vegetation Extract than any other contains,) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. T. R. CROSBY, M. D., W. D. BUCK, M. D., S. BUNTON, M. D., J. S. ELLIOT, M. D., JAMES BABB, M. D., Z. COLBURN, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. GALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefited by other Sarsaparillas should fail to make a single trial of the Blood Purifying and Life Invigorating Compound of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Black Cohosh, Garget, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by Thos. Corbett, its inventor. Sold everywhere. Inquire for Corbett's Shakers' Sarsaparilla.

Daily Chronicle.

Books, Magazines, Etc.

Messrs. James R. Osgood, & Co., the well known publishers of Boston, have paid Mr. Tennyson a large sum for the privilege of first presenting to American readers his new volume, "Ballads and Other Poems." This Author's Edition is published in Boston simultaneously with its appearance in England, and is printed from advance sheets purchased from the author. The freshness of the contents of this volume, which comprises nearly one hundred pages of entirely new poems, now first published, must commend it to immediate favor with book-buyers; while the low price at which the author's edition is offered removes all possible pretext for competitive reprints. Should any such appear the publishers are confident that preference will be given to the only edition which bears the author's sanction, and in which he has a direct pecuniary interest. The volume has a likeness of the poet, and contains ballads and other poems, sonnets, etc.

The magazine publishers, like proposing reformers, always promise good things at the commencement of every year. The "Atlantic Monthly," in this respect, is not behind its neighbors in its announcements for '81. The January number has a continuance of Mr. James' story. Mr. Aldrich has a description of Smith,—not the ordinary kind of Smith we daily encounter, but Smith of London, a type of man known to every one who has sojourned in London, and of whom Thackeray and Dickens have given us pictures. "Getting married in Germany" is full of incidents perhaps exaggerated, but still entirely probable. N. L. Shaler, a well remembered contributor, gives a description of a winter in Colorado. Wm. M. Rossite begins a series of papers upon the "Wives of the poets," poor creatures. Elizabeth S. Phelps gives the first installment of a story entitled "Friends," a sketch which begins on a wet day in Boston. Mr. White writes of Sara Bernhardt, just in season for the Boston theatre goers to become posted in regard to this important personage; and Whittier furnishes a poem retrospective in sentiment. The literary department has articles treating of illustrated books, political novels, Taylor's essays, books for young people, a review of the life and letters of Horace Bushnell, etc. The origin and growth of religions, as illustrated by the religion of ancient Egypt, and other publications, are reviewed.

We are told that Mr. Howells will have a new story, and so will Mr. G. P. Lathrop and W. H. Bishop, author of "Detmold." Aldrich, Sarah O. Jewett, Mrs. Stowe, Mark Twain, Constance Fenimore Woolson, Rose Terry Cooke, and many others will contribute good things for 1881. Rev. E. E. Hale is to give a series of articles on Palestine at the time of our Saviour; and a long list of poets and prose writers will aid the publishers in their efforts to maintain the high standard of the Atlantic, which as a New England publication finds its way into so many homes in the land.

—A young lady in South Carolina lately hanged herself from mortification at the defeat of her father for the legislature.

—A new feature in some of the leading schools of New Jersey is placing daily and local newspapers in the highest department for the use of the pupils. The students are required to give an occasional abstract of the news of the day as gleaned from their columns.

When Fellows' Hypophosphites is taken into the stomach, diluted as directed, it stimulates the appetite, assists digestion, and enters the circulation with the food—it then acts upon the nerves, muscles, the blood and secretions.

—Charles Smith of Batavia, N. Y., was cleaning a revolver Sunday before last, when it exploded, and the charge killed his mother instantly. She had just been remonstrating with him for cleaning the pistol on that day.

—Abraham Lincoln's old home at Springfield is reported by the Sangamon, Illinois, *Monitor* to be a calaboose for vagrants. The building was vacated by a boarding-house keeper recently and since then tramps have found lodgings therein.

The best blood remedy in the world is D. R. V. G. It will clear Ladies' complexion of pimples, moth patches and sallowness. Try it. Guaranteed by your own druggists.

—Twelve young men in Damariscotta, Me., are taking lessons on band instruments, and the people have come to think that a railroad debt is by no means the worst thing that a town can have on its hands.

—Much unconscious humor is to be found in the menace lately sent to Lord Morris Fitzgerald by his Irish tenants, to the effect that, though he would certainly be shot, nothing would be done to frighten or annoy Lady Adela, his wife.

Equally adapted to the feeble or robust, male or female, are Malt Bitters.

Secretary Thompson and the Panama Canal.

The Boston *Advertiser's* Washington special correspondent says, under date of the 12th inst., that "Secretary Thompson has returned from New York, and has resigned his place in the cabinet. The action of Secretary Thompson is severely criticised by many persons here, and it is held that he has seriously compromised the people of the United States, if not the government. It is well known by all who are interested in schemes for building a canal across the Isthmus that the chief obstacle in the minds of capitalists abroad to taking stock in such an enterprise was the want of an assurance that the American government regarded the project favorably. These people say that the announcement in Europe that a member of the United States cabinet had accepted the position of president of the American branch of the De Lesseps company would be construed in but one way, —namely, that the government favored the project. No European cabinet officer would venture to permit the use of his name in such a connection unless the scheme was one the administration desired to succeed. The conduct of Secretary Thompson is sharply contrasted with that of General Grant, to whom the place was offered before it was offered to Thompson, and who replied that he did not think it proper for him to take a prominent position in any canal scheme that was not to be carried on under the authorization and protection of the government of the United States. There is as yet little speculation about Secretary Thompson's successor."

Of course Mr. Thompson has none of the push required to carry on a scheme like this, but he was selected for the sole purpose of obtaining the endorsement of a government official to the enterprise; and we predict he will be early bowed out by the polite but politic Frenchman.

News and Notes.

At Lawrence, Mass., Sunday night, Knapton Wardman shot and instantly killed Miss Avis Pinkham, and afterward shot himself, inflicting a probably fatal wound. The murderer leaves a wife and two children, but has kept company with Miss Pinkham for six years past. Jealousy is supposed to have caused the murder.

Brown's coffee mill at Lynn was burned early Monday morning. Loss $10,000.

Texas officials advertise for plans for a new state house, to cost $1,500,000. There is a prize of $1,700 for the best plan.

At a fire in Cincinnati, on the night of the 10th inst., the firemen were working on the top of a building when a change of wind drove the flames and smoke upon them, and before they could escape five of their number were burned to death, and another so badly injured that he died in a short time.

John Lyons and a Mrs. Higgins were burned to death in a tenement house fire at Philadelphia, on the 11th inst.

The remains of Lieut. Irving of the royal navy, which were discovered in the Arctic regions by officers of the United States navy, and brought to this country, were sent to Glasgow from New York on Saturday, by steamer Circassia. The few remaining portions of the body, the skull and several bones, were enclosed in a small box, with the college medal and a few bits of the garments of the unfortunate officer, by which the remains were recognized.

In a fight last week, twelve miles east of Cooksville, Tenn., between Welsh's gang and Capt. James Davis, United States deputy collector, and United States Commissioner G. W. Campbell, Davis was killed, and Campbell beaten nearly to death.

Capt. Payne's colony that has been congregating at Arkansas City, Kansas, for several days, have left for the Indian Territory. The members are fully armed, and over 400 strong. Lieut. Mason of the Fourth Cavalry escorted them out. It is understood he will order them to halt at the border of the Territory, and form a line across the road. There will probably be a conflict.

Last Friday night, as a party of young people were crossing the railroad track at Elmwood station, near Columbus, Ohio, the carriage was struck by an express train and demolished. Miss Clara Hansborough of Dublin was instantly killed, Miss Anna Arts had her collar bone broken in two places, and Charles Fuller was badly injured. The party were singing, and did not see nor hear the approaching train.

A despatch from Davenport, Ia., says a horrible murder was committed Friday night near Colona station, on the Chicago, Rock Island & Pacific railroad. Thomas Dilley, a wealthy farmer and old resident, was found dead in his bed, his skull crushed in and his face and body horribly disfigured. Beside him was his wife, unconscious, and probably fatally injured by blows about the head. There was quite a sum of money in the house, which was not touched. It is believed an old grudge and a lawsuit, in which Dilley came out ahead, were the causes of the deed.

At the burning of a house in Baltimore, Sunday, two colored servants jumped from a window and were fatally injured.

Two colored children at Memphis, who were locked into the shanty while the parents went to work Saturday morning, set fire to the place and were burned to death.

It is now said that one hundred lives were lost by the recent colliery explosion in Wales.

Collector Merritt of New York has issued an order prohibiting the furnishing of any kind of liquors, either gratuitously or by purchase, to customs officers by steamship companies, as the practice of so doing has become detrimental to the service. Any officer violating this order will be peremptorily dismissed.

Forney's *Progress* says Jay Cooke, who failed in 1873, is on his financial feet again, and will soon be able to pay all his debts.

New Hampshire Items.

On Friday Mrs. Lester Brown of Charlestown was very seriously if not fatally injured at the railroad crossing two miles below that place by a freight train. The horse she was driving becoming frightened at the approach of the train, after crossing the track turned suddenly about and recrossed in front of the train just in time for the locomotive to strike the sleigh, and Mrs. Brown was thrown to the ground, having an arm badly shattered, which will it is thought make amputation necessary.

Rev. Geo. W. Osgood has accepted the call of the Congregational church at Littleton to become its pastor, and will begin his labors in a short time.

Rev. Geo. W. Nicholson, pastor of the Baptist church in Nashua, has received a call to a church in New Jersey.

The house and woodshed of Martin V. B. Felker, at Madbury, were burned last Friday; loss $1500; insurance $1200. A large new barn was saved.

Political Notes.

Allan Campbell, the newly appointed comptroller of New York, on Saturday filed his bonds, and subsequently entered the comptroller's office and presented to Mr. Kelly his certificate of appointment, signed by Mayor Cooper. He was warmly greeted by Mr. Kelly, who wished him success in his administration of the office. It is stated that John Kelly will assume editorial control of the *Evening Express* newspaper, a majority of the stock of which is held by himself and political friends in Tammany hall.

Senator Bayard denies having made the statements concerning Mr. Conkling and other prominent republicans, in regard to their dividing among themselves a large amount of money paid by Phelps, Dodge & Co., to the government, which the Philadelphia *Press* and the Dover, Del., *State Sentinel* charged him with making in a political speech at Dover before the election. The *Press* on Monday repeats its statement that Bayard did use the language attributed to him, and asserts that its report of the speech was verbatim.

AROUND HOME.

Mr. H. S. Hatch, of Richmond, Me., has taken charge of the American Union telegraph office in this city.

Sheriff Kent went to Boston on Monday, in search of the horse stolen from Mr. Winchester's stable Saturday night.

Adjutant General Ayling will pay a visit of inspection to Storer Post, G. A. R., of this city, on Wednesday evening, Dec. 15th.

A fishing schooner, reported to be the Blanche Creamer of Gloucester, was run into off this harbor at an early hour Monday morning, in a thick fog, and had her bowsprit carried away.

On Monday evening Mr. O. M. Knight, agent of the Alliance Mining Co., received a despatch directing him to sell the stock of that company for one dollar a share until Dec. 20th, after which date the price will be advanced to $1.50 per share.

Miss Nora Bartlett, a Portsmouth lady, has recently joined the Boston Museum stock company and appears in the new comedy, "Guy'nor," now holding the boards at that theatre. Miss Bartlett is the happy possessor of many personal charms, and is a refined, graceful and intelligent actress. We wish her all possible success.—*Manchester Union.*

The tramps appear to be swarming into this state something after the fashion of years ago, their object being, as formerly, to get sent to the various county farms, where they can get through the winter in comfort without work. Four of these gentry were sent to Brentwood last week from Newmarket.

On Saturday last the graduating class of the High School presented Mr. Clarke, their principal, with an elegant basket of flowers, he having that day completed fifteen years of service as teacher in the school. The presentation was a complete surprise. The flowers were accompanied with a beautiful card bearing the dates "Dec. 11, 1865—1880."

The schooner Ceres, Arey master, arrived at Dover last week with a cargo of coal, which was quickly taken out, and the schooner towed down the river on her way to Camden. The Loella, Amee master, which with three gondolas took to Dover the cargo of the C. H. Trickey and part of the B. Frank Nealley's cargo, came down the river Saturday in tow of the tug Ann; the Loella will haul up at Kittery for the winter.

The Eastern Railroad Co. are making preparations for increasing summer business. Three Rhode Island engines will be added to the rolling stock of the road the last of this month. They will be heavier than any now in use on the road, each weighing 82,000 pounds when ready, with fuel and water, for service. They have an eighteen by twenty-inch cylinder and five-foot wheel, and are adapted for freight or passenger trains. The company will also build an engine at its own shops in East Boston this winter. The car shops at Salem are operating to their fullest extent in rebuilding and repairing cars. About 150 men are now employed. Eight passenger cars, two baggage cars and one postal car will be built at the shops this winter.

The practice, all too common and constantly increasing, of vagrants committing petty offences in order to be sent to Brentwood for the winter months, had a sudden nip, in one case at least, on Friday last. It appears that Frank Watson, a non-resident rough who has served eight terms at the county farm for various misdemeanors, and latterly has been confined at the jail in this city for non-payment of fine and costs, had these assessments against him remitted by Judge Clark, and was released on condition of his future good conduct and promise to leave the state. Before four o'clock that same afternoon Watson was booked at the station house for drunkenness and disorderly conduct, with the hope of being sent to Brentwood for the remainder of the winter, whereupon Judge Clark was notified by Sheriff Kent, and immediately telegraphed back a revocation of his order and remanded Watson to jail, there to remain until he had balanced the full score against him. Served him right.

The Shanghai correspondent of the *Nautical Gazette*, in a letter dated Oct. 28th, says "The Paul Jones will leave about Nov. 6th, with teas and straw braid." She is bound for New York.

The tramp who told the police a cock-and-bull story last Saturday morning about stealing a trunk from the depot at Newmarket a day or two previous, was taken before the police court on Monday as a vagrant, and committed to jail for two months.

It has been suggested that the address before the New Hampshire Historical Society, to be given by G. W. Tuttle, Esq., of Boston, this month, commemorative of the establishment of the separate provincial government in this state in 1680, should be given in this city, and the President of the Society has conferred with the resident members in this city to that end.

On Friday forenoon last, as a gentleman was jumping from the steam tug Ann to a schooner lying at Sise's coal wharf, his pocket-book fell from his pocket into the water, and as it contained over $50 in gold it of course went to the bottom. In the afternoon a diver went down to seek for the lost treasure, but was unable to find it, the tide having probably carried it a long way from where it struck the water before it reached the ground. But though the diver failed to bring up the pocket-book he did bring up a nice lobster, and reported them as being very numerous down there. We had always supposed that these crustacans went off into deep water on the advent of cold weather, as it is only in deep water that they can be taken in the winter season.

THE HARRISONS.

"The Harrisons" comedy company had a very fair audience at Franklin theatre, Monday, when "the eccentric musical comedy 'Photos'" was presented. From the notices of this performance given by the press of other cities, the audience had been led to anticipate an evening of continued merriment, and this anticipation was realized. The piece contains many mirth-provoking situations, and is made the most of by the members of the company.

All the plot there is to the piece is this: By the terms of a will the heirs, who cordially hate each other, are obliged to be photographed in a group once a year, and any one who quarrels loses his or her share. On this thread the author has strung a succession of ludicrous incidents, and in the second act, which is placed in the photograph saloon, gives the several performers a chance to appear in their specialties. Miss Alice Harrison, a good singer and dancer and vivacious actress, and her brother, Louis Harrison, are the "stars," though all the members of the company are good. Miss Carrie Daniels gave a guitar solo very pleasingly, and deserved the encore she received for her song "Genevieve;" she has a fine contralto voice, and can sing. Some good imitations of stage celebrities were given. Judging from the laughter and applause, the audience greatly enjoyed the entertainment.

PORTSMOUTH HOSIERY.

An advertisement of a prominent Boston firm speaks of "Portsmouth hosiery," as if Portsmouth could supply a tithe of the wares sold under that designation. The principal manufactory of these wares is that of Thomas Kennedy & Son, who send their hosiery to the Philadelphia market. They have need of larger room for manufacturing purposes, and after vainly endeavoring to hire a place with suitable power, have determined to erect on Union street, near Middle, a large building one hundred feet by forty, with house and steam-power attached. This building will at once be put up, and when completed Messrs. Kennedy & Son will move thither, and with increased facilities will be better able to supply their customers.

POLICE COURT.

MONDAY, Dec. 13; *Batchelder, J.*

Charles Simmons, for vagrancy, was sent to jail for sixty days; costs $6.90.

EXEMPTION FROM TAXATION.

"Equality" writes to the *Times* in opposition to the proposition to exempt the Kearsarge Mills (if rebuilt) from taxation for a term of years. He says:

Suppose the Kearsarge Mills and others get exempt for ten years, at the end of which time their mills should be burned—then they would want an extension of ten or twenty years more. The truth of the matter is, that the revenues of a city are its *life-blood*, and should be securely guarded by every citizen. To speak plainly but not at all too forcibly, for any person or body of people to ask for exemption without regard, of course, to the increased burdens that *some other* interests must bear, or be willing to receive at the hands of the city what in all equity it has *no right* to bestow, is nothing short of the culmination of all meanness.

Without reference to the soundness or unsoundness of the principle involved in the exemption business, we may promulgate another "supposition," as follows:

Suppose the Kearsarge Mills do *not* get exempted for ten years, and in consequence the mills are not rebuilt, how much will the revenues of the city be increased?

Would the city, at the end of ten years, be any better off for having all that time been without the mill, and without the money thousand dollars which if erected it would every month pay out for labor, than it would be if the mill should be put up and exempted from taxation? If the mill is not rebuilt it can never be taxed—neither during the "ten years" nor afterward; if it is rebuilt it will at the end of ten years add so much to the taxable property of the city, and in the meantime will add directly and largely to the city's tax-paying power by giving employment to hundreds of laborers who without it must remove to other places, to the serious detriment of traders and real estate owners, for dwellings without tenants and stores without customers are not profitable.

A BIG BUSINESS.

Foster's *Democrat* says that Frank Jones alone has paid more than a hundred thousand dollars for revenue stamps the past year, and that most of the internal revenue tax of the state comes from Portsmouth, where the brewers are located. It is therefore more handy to have the collector's office in Dover than anywhere else in the state. Joshua knows that if Hancock had been elected the office would have been removed to Portsmouth, and he could name the man probably who would have filled it.

Speaking of Mr. Jones' extensive stamp purchases reminds us of a story we heard of him. On election night he was satisfied pretty early how the result was, in the state as well as elsewhere, and according to his custom went seasonably to bed. He soon fell asleep, and dreamed there was to be a rise on barley. He arose early the next morning and set about buying grain, and purchased two hundred thousand bushels. The price in a few days advanced thirty cents a bushel, and the grains became worth to their fortunate buyer sixty thousand dollars more than the first cost, which result was almost as good as being chosen governor. Mr. Jones' purchases of grain this fall amounted to nearly half a million bushels.

YORK COUNTY AFFAIRS.

The Biddeford *Union and Journal* was enlarged last week.

Laudlord Grant of the Sea Cottage at York beach, is making large additions to his stable and carriage house.

Mr. Daniel McIntire, of York, well known in his section as a mighty hunter, has killed eleven foxes this winter so far.

A man representing himself to be an agent for a well known nurseryman recently stopped in York for several days, but left early last week without paying his board bill. He distinguished himself principally while in York by the persistence with which he sought to get various farmers to sell him cider, and was suspected to be a "liquor spotter," several persons in York having been previously warned of the probable visit of such a personage.

Burnett's Cocoaine.

The Best Hair Dressing in the World.

BURNETT'S COCOAINE allays irritation, removes all tendency to dandruff, invigorates the action of the capillaries in the highest degree, and has earned a deserved reputation for promoting the growth and preserving the beauty of the human hair. Ladies dressing their hair elaborately for the evening will find that it imparts a healthy natural gloss to the hair, and will cause it to retain its shape for hours.

BURNETT'S FLAVORING EXTRACTS are used and endorsed by the best Hotels, Confectioners, and Grocers throughout the country. They are perfectly pure.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes.* Tu,th&f,&o

PROFESSIONAL NOTICE.

D. L. J. Kahn, 51 East 10th St., N. Y., and Proprietor Dr. Kahn's Museum of Anatomy, 618 Broadway, N. A Great Evil.

The foe of American social life is in the tendency to luxury and effeminacy among the well-to-do young women of our American cities and large towns. They do not realize how this dreadful mania for expensive pleasures, and a life of alternate idleness and amusement, is destroying their health, abolishing true marriage, feeding the flame of gross sensuality and intemperance among young men, and saddening the hopes of the best parents in the land. Some of them will never know it in this world. Thousands of good hearted young girls are sacrificed every year, when a little wise and loving guidance could save them. But we feel that they will pass away like the flowers of June, and a more hardy and resolute class occupy their places. American society will shed every class of triflers, male or female, that does not do its work, as the forests shed their withered leaves. Let them awake from their dream of indulgences; learn to live out of doors; to build up their health; to cultivate more simple tastes in dress, and more moderation in pleasure; study domestic economy; study social skill and tact; fit themselves for the noblest positions ever yet offered to their sex, and learn that woman is the soul of American life, not the tinsel on its garment.

Winning Him Back.

One of the travellers for a dry goods house recently arrived in a town in the interior of the state, to find that one of his best customers was about to transfer his custom to a Boston house.

"Didn't we always do well by you?" asked the New Yorker, as he sat down for an explanation.

"Yes, I believe so."

"And did we ever press you in a peach?"

"No."

"Did you ever get lower prices at the Boston house?"

"No, I can't say as I did."

"Then I can't understand why you should leave our house all of a sudden, after buying of us for several years."

"I know that some explanation is due, and I will make one," replied the merchant. "You know that I attend church?"

"Yes, and so do I."

"Do you? I didn't know that. I am looked upon as a Christian."

"So am I. I've got the date of my baptism right here in my note book!"

"Is that so? Well, our church is in need of repairs; we were talking it over the other day when the Boston drummer was in here, and he at once subscribed ten dollars."

"Ten dollars! why, that's only two kegs of nails! Put me down for thirty dollars cash, a new silk hat for every season, and a full suit of clothes for the minister."

"Do you really mean it?"

"Of course I do; and if that two-cent Christian from Boston dares sign another five I'll send you down a $600 church organ, and pay a man $500 a year to play it. We are a house that never makes any great display of gospel hymns and religious tracts, but when a Boston drummer bluffs we show our religious hand and rake in the pot every time."

The merchant will continue to deal with the New York house.—*Wall Street News.*

—If you have a coat of arms, or the shadow of a shade of a right to one, it is the proper thing to emboider it on the backs of your velvet chairs, but do not put it in the middle and thus at once expose your plebeian ignorance. Place it high up one side, where part of it will show above the shoulder of any one sitting in the chair, and then possess your soul in patience. You have done your best.—*Society Paper.*

—Dean Swift was once dining with a family in which the matron boasted of the number of centuries in which the magical prefix "de" had been the rightful property of her ancestors. FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

WASTING DISEASES

Such as Consumption, Bronchitis, Asthma, General Debility, Brain Exhaustion, Convulsions, Constipation, Chronic Diarrhœa, Dyspepsia, or

Loss of Nervous Power,

Are positively cured by FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

As phosphorus enters so largely into the animal economy, it becomes *per excellence* the best vehicle with which to associate the other vitalizing ingredients of healthy Blood, Nerve and Muscle. In Fellows' Syrup of Hypophosphites are combined all the substances found necessary to insure robust health, and whereas it was invented with a view to supply every deficiency, it certainly has performed some wonderful cures.

MANCHESTER, N. H., June 18, 1880.

MR. JAMES I. FELLOWS,

Dear Sir: I wish to acknowledge the great benefit I have received from the use of "Fellows' Compound Syrup of Hypophosphites." I have been an invalid for nearly two years, with a bronchial affection that had become chronic. In the fall of 1878 I had a physician eighty days in succession, besides the counsel of several others. They gave me but little encouragement, some of them none. Last July I was advised to try your remedy a trial. I did so, and in less than one week there was a marked improvement for the better. I have continued its use from that time until the present, improving all the time, and I can truthfully say I am more than a hundred per cent. better than when I commenced its use. I have increased in weight about fifteen pounds, and my cough, which was fearful, has nearly disappeared. I believe had it not been for your Syrup, I should ere this have been beyond the cares of life. Very truly yours,

ALBERT STORY.

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this advertisement. Make no mistake. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

Parties living at a distance, (except in surgical cases,) by sending a statement of their case can be treated at home.

THE SUN FOR 1881.

Everybody reads THE SUN. In the editions of this newspaper throughout the year to come everybody will find:

I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eyesight. THE SUN long ago discovered the golden mean between redundant fulness and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates, and troubles. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest comment. THE SUN's habit is to speak out for honest men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republican.

VI. Absolute independence of partisan organizations, but unwavering loyalty to the Democratic principles. THE SUN believes that the Government which the Constitution gives us is a good one to keep. The notion of duty is to resist its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the year immediately following will probably decide this supremely important contest. THE SUN believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings for imperial power.

Our terms are as follows:

For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.

The price of the Weekly SUN, eight pages, fifty six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free. Address I. W. ENGLAND,

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

FELLOWS' Compound Syrup of Hypo-phos-phites

WASTING DISEASES

Such as Consumption, Bronchitis, Asthma, General Debility, Pain Exhaustion, Chronic Constipation, Chronic Diarrhœa, Dyspepsia, or

Loss of Nervous Power,

Are positively cured by FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

As phosphorus enters so largely into the animal economy, it is evident *poor excellence* the best vehicle for both to associate the other vitalizing ingredient of healthy Blood, Nerve and Muscle. In Fellows' Syrup of Hypophosphites are combined all the substances found necessary to insure robust health, and whereas it was invented with a view to supply every deficiency, it certainly has performed some wonderful cures.

MANCHESTER, N. H., June 18, 1880.

MR. JAMES I. FELLOWS.

Dear Sir: I wish to acknowledge the great benefit I have received from the use of "Fellows' Compound Syrup of Hypophosphites." I have been an invalid for nearly two years, with a bronchial affection that had become chronic. In the fall of 1878 I had a physician eighty days in succession, besides the counsel of several others. They gave me but little encouragement, some of them none. Last July I was advised to give your remedy a trial. I did so, and in less than one week there was a marked improvement for the better. I have continued its use from that time until the present, improving all the time, and I can truthfully say I am more than a hundred per cent. better than when I commenced its use. I have increased in weight about fifteen pounds, and my cough, which was fearful, has nearly disappeared. I believe had it not been for your Syrup, I should ere this have been beyond the cares of life. Very truly yours,

ALBERT STORY.

Congregational Journalism in New Hampshire.

The establishment of a distinctively religious newspaper in New England marked a new era in its religious life. As in many other instances of "new departure" as respects Christain work, the Congregationalists took the lead. The Boston *Recorder* was founded in 1816. That was sixty-five years ago. Very naturally that paper assumed for itself the character of a denominational organ. It was issued from the metropolis of New England, and represented in its constituency the larger part of the wealth, the intelligence, and perhaps the membership, of the churches of the order. The genius of Congregationalism is opposed to the idea of any person or institution assuming to speak for these so-largely-independent churches. Congregationalism never yet has had any official organ. It can never take kindly to any such idea.

And as for the other part, the attempt by one paper to meet the demands of the entire field—that also failed. The Boston *Recorder*, even from its first issue, was a local paper—a local newspaper. It gathered its religious intelligence, its items of church work and life, those data the knowledge of which is the bond of sympathy between churches and among individuals—it gathered these to a very large extent from the state in which it was published. It could not be otherwise. The *Recorder* was of necessity the Massachusetts *Recorder*. It did so much for Massachusetts, that very soon the demand was felt for a like local newspaper in other states of New England. In 1819, three years after the Boston *Recorder* appeared, a Congregational journal was established in this state of New Hampshire; three years later the *Christian Mirror* was instituted in Maine; four years later, in 1826, the Vermont *Chronicle* was born, and not long after the Congregationalists of Connecticut, feeling the same necessity for a local paper, established the *Religious Herald*. All these local papers, with the exception of our own, having obtained help of God and being sustained by the intelligent sympathy of a state constituency, continue unto this day.

The committee appointed by the State Association at its meeting at Concord in 1878 to suggest some method for the establishing among the Congregationalists of the state a local religious journal, gave two years of thought and investigation to the subject. Two ways of accomplishing the project suggested themselves:

First, by making a thorough canvass among the twenty thousand members of the churches, and securing in advance a list of at least three thousand subscribers. The second method considered was that of enlisting the good heart and will of some one, or a larger number, in the enterprise, so that in the way of a generous contribution of say $10,000, we might enter upon the project, assured to begin with of a proper backing, and so go forth trusting to time and the merits of the paper to secure for it the needed support in the state.

The consideration of these positions suited in a series of feasible *new Hampshire Journal* is fou[illegible] upon which basis the pr[illegible] The terms are just and generous of the State Asso[illegible]

At the Lawsmouth, the report of the committee was adopted, the propositions [illegible] Vermont committee were accepted, and a special committee was appointed, consisting of George B. Spaulding, President Bartlett and Hon. Joseph R. Walker, with power to carry out the necessary measures for the success of the undertaking. It now depends upon the Congregational ministers and churches to show by their actions if such a paper is needed, and if it will be supported to the extent indicated by the Vermont proposition. A sense of duty will have no small place among the motives which must draw to this project the wide and hearty co-operation of pastors and people. To that we appeal. We love New Hampshire. We love its Congregationalism. We love its churches, small and great. We love the benevolent societies and educational institutions of the order. It is to increase the efficiency of these, and to best serve, through these, the cause of God, that we must, as Congregational Christians, do what we can to sustain among us a local journal.—*New Hampshire Journal.*

WEDNESDAY, DECEMBER 15, 1880.

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

A Malt Monopoly Feared.

The brewers of New York are exercised over the prospect of the immediate introduction of Congressman Morton's malt tax bill into the Senate. This bill, which passed the House of Representatives on June 8th last and which was referred to the Senate committee on finance, provides "That from and after the passage of this act the duty on barley malt shall be twenty-five cents per bushel of thirty-four pounds weight, instead of the present duty of twenty per cent ad valorem."

Much opposition to this measure has arisen all over the country. The independent brewers contend that the act has only been framed to protect a number of money-making malsters who control the small brewers, and who assert openly that a great deal of money has been used to advance the bill.

A New York *Herald* reporter has been round among the brewers, getting their opinions on the matter. A Staten Island brewer said:

"It is eleven years ago that I brought malt from Canada, and that was because I did not get the goods I paid for in New York, owing to the secret combination of maltsters, which is in existence to this day. These malsters buy about one-third Canada malt and mix it with western damaged barley and other spurious stuff, and compel the impecunious brewers to buy it. No good beer can be brewed from such material, and my plan has been and ever will be to give my customers a pure beer, made of good genuine malts and hops. Without this it is impossible to make good beer. Eleven years ago there were 120,000 bushels Canada malt imported, but the business is increasing every year. What the brewers want is to buy goods which will turn out to be what they are represented. The maltsters are interested in mixing the malt sold, but the principal brewers have taken time by the forelock and imported their own malt. Barley and malt are rising in the market every day, and there is a large profit on old stock on hand."

"What would be the effect of the passage of Mr. Morton's bill?" asked the reporter.

"It would throw a damper on the entire brewery business, for the bill has only been framed in the interest of a favored few. A great deal of money is being spent, and if success crowns the efforts of the wire-pullers, why the Brewers' Association will have to close its doors. The beer trade will be upset, and the small brewers will have to use more substitutes for malt and hops than they do now. The maltsters want to control the trade of New York, but I, for one, will continue to use the same material, and if necessary will import all my barley direct from Canada."

A great many of the brewers on Staten Island, who originally signed the petition against the passage of the bill, have withdrawn their signatures. This is said to have been brought about by the fact that their pecuniary obligations have been protected by the maltsters, and that they think they cannot afford to have malt-poems of their own should the direct importation of barley from Canada become necessary.

"The act another brewer said:

levy a tax on the one entitled 'An act to thereof for the benefit and the brewers because the' is exactly what maltsters' do. It proposes to lay a duty bill will five cents a bushel on all malt imported. Well, that is a prohibitory duty. Of course, then, the American maltsters having no competition, will increase their price to a point just a little below what the foreign article would cost with this added duty, and that will make the cost of beer about twenty cents a barrel more than at present. With the keen competition at present existing, brewers would not dare to charge their customers more than the present prices, and so this twenty cents a barrel, or whatever it may be, will be a direct loss to the brewer. * * * But there is another aspect to this question which concerns directly the general public. At the present price of malt it does not pay to use any inferior article in the manufacture of beer, but if this tax is imposed the temptation will be great to use glucose and other substitutes for pure malt, and the beer will deteriorate, and unfortunately this if done at all, can be done more successfully by the large brewers—those who have established their beer in the market—than by the smaller concerns, who, struggling for a recognition, can't afford to sell inferior beer. I don't say that any brewer would do this; I say that there would be a temptation to do so."

Another brewer, in answer to a questions as to whether the maltsters would raise their prices, replied that the maltsters held a monopoly and the chances were in favor of a rise; and to the question as to whether the brewers would not also raise the price of beer, he said:

"We can't do it. There is not a brewer in the city that would feel safe in doing so, and the only way that a brewer could save himself would be to lower the quality of the beer, and only those whose reputation is established could afford to do that, and it would be a risky thing for them. They would be apt to lose their customers. Then, too, an old established house feels much pride in its reputation. As to the smaller concerns, they must stop if this burden is imposed upon them."

The secretary of the Brewers' Committee informed the reporter as follows:

I believe that if the bill passes lager-beer cannot be sold for five cents a glass, or if it is it will be because it will have been made of poisonous substitutes; while it matters remain as they now are the brewers will gain the natural enlargement of their industry, the growth of the popular demand for good lager-beer will increase, the revenue from the stamp tax, which amounts to $11,000,000 a year, will grow proportionately, the cause of temperance will be advanced, the wholesome competition in the malt trade will continue and all the evils resulting from a mastery of the producers over the consumers of malt will be prevented."

Congress.

In the Senate, on the 13th inst., Mr. Rollins presented a petition signed by the largest manufacturers of Massachusetts and New Hampshire, asking for the passage of Judge Lowell's bankrupt law.

In the House, on the 13th, Gen. Garfield's successor, Mr. Taylor, was sworn in.

The following resolution was unanimously adopted: "Resolved, that the sympathy of this House is hereby extended to the unhappy laboring class of Ireland in its effort to effect a reform in the present oppressive tenant system prevailing in that country."

The following resolution, introduced by Mr. Crapo of Massachusetts, was referred to the committee on foreign affairs: "Resolved, that the construction of an inter-oceanic canal connecting the waters of the Atlantic and Pacific oceans by means of foreign capital, under the auspices of, or through a charter from, any European government, is hostile to the established policy of the United States, is in violation of the spirit and declaration of the Monroe doctrine, and cannot be sanctioned or assented to by this government; that the United States will assert and maintain such control and supervision over any inter-oceanic canal as may be necessary to protect its national interest and means of defence, unity and safety, and to advance the prosperity and agument the commerce of the Atlantic and Pacific states of the Union."

In the House on the 14th the democrats gave up trying to carry through their electoral count resolution, and it went over until January.

The elections committee reported in the Boynton-Loring case, that Dr. Loring is entitled to his seat. The two Iowa contested cases were also disposed of in favor of the sitting members, both republicans.

News and Notes.

President Hayes has designated Alexander Ramsay to act as secretary of the navy on and after the 20th inst., as Mr. Thompson leaves on that date to assume the presidency of the American branch of the De Lesseps Panama canal company.

Gen. Grant arrived in Washington on the 13th inst., it is supposed on business connected with the proposed Nicaraguan inter-oceanic canal company.

At Topsfield, Mass., last Sunday, a number of children forced open a window of the schoolhouse, and Lizzie Jones, ten years old, attempted to climb in, when the window fell upon her, and in the attempt of her comrades to rescue her, her neck was broken.

John Farrell, a young man of Waterbury, Conn., about election time bought a pistol to protect himself from roughs. Recently in cleaning the pistol it went off, and shot his little son in the side, inflicting a severe and possibly fatal wound.

Andrew Yates, aged thirty-five years, locksmith of Brooklyn, arrested by United States secret service officers on a charge of counterfeiting, was on Saturday taken to a photographer to have his picture taken for the rogues' gallery. He refused to sit, and officers Slater and Scanlan seized him and place him in the chair. He made a determined resistance, and drew a knife from his pocket and stabbed Slater behind the right ear. It is thought that Slater's wound will prove fatal. Yates killed Officer Curran of the Metropolitan police in New York fifteen years ago. He was sentenced to be hanged for the murder. This sentence was afterward commuted to imprisonment for life, and he was pardoned about two years ago by Gov. Robinson.

AROUND HOME.

The Eastern railroad lost three hundred cords of hard wood, Saturday night, by a fire in South Wolfeborough.

The Eastern Railroad in New Hampshire pays a semi-annual dividend of two and one-quarter per cent on the fifteenth inst.

Birds and cages, bracket saws, tool chests, sleds, skates and other articles suited for holiday presents, can be found at A. P. Wendell & Co.'s, Market square.

Rev. A. P. Peabody, D. D., of Harvard University, will deliver his interesting lecture on "Travels in Russia" at Miss Norgan's seminary on Thursday evening, Dec. 23d, for the benefit of the Society for the Prevention of Cruelty to Animals.

A meeting of the owners of the shoe factory was held Monday evening, at which the report of the building committee was read. The factory, engine and boilers cost twenty-six thousand dollars. The committee were instructed to place approved fire-escapes on each end of the building.

One hundred girls are now employed at the shoe factory, and there is room for more good stitchers. Operations in all the departments were largely increased Monday, and Mr. Knights, the superintendent, expects before the New Year to get out thirty-four cases of shoes per day. The company has large orders ahead.

The Cadet band of Salem, Mass., which has given such fine music in this city on one or two occasions, are to make their first appearance here in an in-doors concert on Sunday evening next at Music hall, with a programme of appropriate music, and assisted by eminent vocal talent. It will be, undoubtedly, an entertainment worthy of the artists connected with that organization.

Harry Marvin, son of Col. Thomas E. O. Marvin, met with a severe and painful accident while coasting Monday evening; his sled collided with a double-runner, throwing him several feet and cutting open his left leg below the knee, making a gash several inches in length, and laying the cords bare. The little fellow bravely bore the stitching necessary in dressing his wounds, expressing regrets only that he should not be able to dance at Christmas time.

Sheriff Kent traced the horse stolen on Saturday night from Mr. Winchester to Reading, Mass., at which place the thief stopped and had supper, leaving at six o'clock Sunday evening, after which no tidings of him could be learned. He passed through Andover, Mass., between one and two o'clock Sunday afternoon, having the overcoat which he stole from Mr. Winchester's stable strapped to the saddle. The horse was off his feed at Reading, refusing to eat anything.

Among the candidates for the post-office, the name of Col. Simon R. Marston is mentioned as a possibility in this direction. He has a splendid war record, was four years at the front as line officer and paymaster, has had great executive experience both in government service and private capacities, and is a native of this city. As the colonel has had nothing in the way of political preferment since the war, and is abundantly vouched for both as to character and general business qualifications, he could present strong claims for the position, and would be a strong candidate.

Whatever may be thought of Rev. A. A. Waite in other respects, nobody can deny that he is as "smart as a steel trap" in the show line. On Monday evening he "exposed Spiritualism" at Newburyport, reserved seat tickets being sold at thirty-five cents each, admission tickets twenty-five cents, and the *Herald* of Tuesday morning says the City hall was crowded. The same issue of the *Herald* contains an advertisement of another exposé on Tuesday evening, at the same place, with tickets at twenty-five cents for all over the house; and of a children's matinee at City hall on the afternoon of the 15th inst., by Master Henry H. Waite, seven years old, when a wonderful exhibition of sleight-of-hand and illusive tricks would be given, tickets being placed at ten cents each for children and twenty cents for adults.

Ebenezer Gilman of Dover died very suddenly on Sunday night of heart disease, at the residence of a married daughter. He was seventy-two years of age, and a prominent temperance man. The *Democrat* says one of his sons lives in Portsmouth.

Rev. Mr. Downs, pastor of the little church at Mount Agamenticus, York, desires through the columns of this paper to thank friends in this city for the gifts of new testaments and gospel hymn books; also for a liberal supply of edibles for the pastor's family. We are informed that a Christmas tree is to be arranged for the children of that district, and the managers would be glad to receive donations for the tree. Any one who may desire to help the children and the poor of that mountain region may leave such offerings as they choose to make with Mr. Loyne, or William P. Isreal, Esq., and they will be given to the most worthy and needy. W.

James W. Emery's retirement from the presidency of the Union railway is thus referred to by a Cambridge paper: "At a meeting of the directors of the Union railway company Mr. Knowlton S. Chaffee was elected president for the remainder of the year, in place of James W. Emery, resigned. Mr. Emery was president of the company for ten years or more of its early struggle against severe and varied opposition, and won for it the foothold which makes it the public necessity it now is. During his last term of office of five years, under his able administration the value of the stock of the company in the market has risen from about par to the neighborhood of $150, and the public have received the benefit of a reduction of rates so liberal as to close the mouth of the most clamorous. At the same time the stock and equipments of the road have been maintained at its usually high standard. Mr. Emery leaves the road in an unexcelled condition for supplying the demands of the public and earning dividends for its stockholders, and takes with him the good wishes of his associates and the public in his pursuit of less burdensome and exacting business, at his former home in Portsmouth, whence we understand he is about to return."

MASONIC INSTALLATION.

The following officers of St. Andrew's Lodge, No. 56, A. F. and A. M., were duly installed on Monday night, by District Deputy Grand Master John Pender of this city:

William A. Hodgdon, W. M.;
John H. Rose, senior warden;
James H. Broughton, junior warden;
Wingate N. Ilsley, treasurer;
John Pender, secretary;
Wallace Hackett, senior deacon;
Lemuel T. Davis, junior deacon;
Edwin Underhill, senior steward;
William F. Batten, junior steward;
Stephen W. Clarke, chaplain;
John F. Marden, marshal;
William B. Randall, tyler.

YORK COUNTY AFFAIRS.

The Marshall house at York harbor is being again enlarged.

Eben Emerson of Biddeford has been appointed special deputy sheriff for York county, to suppress the illegal sale of intoxicating liquors.

Hon. E. C. Moody, of York, raised twenty-two tons of sugar beets on a little more than three-quarters of an acre of ground last season, notwithstanding the drought. He intends to plant twelve acres to sugar beets next year.

Mr. Asa McIntire, of Beech ridge, York, over eighty years of age, slipped on his doorstep, the night before Thanksgiving day, and fractured his left ankle. He set it himself, and notwithstanding his advanced age is rapidly recovering.

Owing to lack of funds the workmen employed the first half of the month in the department of construction and repair at the navy yard are suspended, the men who were obliged to lay off the first half going to work on the 16th inst., for the remainder of the month, or until the money available is expended.

Mr. John Brooks of Kittery, one of the crew of the fishing schooner Daniel C. Baker, was steering the vessel with the aid of a tiller-rope last Friday forenoon, when just as he gave a vigorous pull the bight of the rope slipped off the tiller head, letting Mr. Brooks go backward over the rail into the water, but he held on to the end of the rope, and was quickly hauled aboard by the rest of the crew. Another of the schooner's men tumbled overboard in the dock after the vessel arrived at the wharf from the same trip.

The following are the pupils of the Kittery Free High school not missing a half day during the summer term: Mamie A. Stinson, Martha A. Gerry, Mabel I. Moore, Bertie M. Paul, Annie S. Willey, Nellie A. Damon, Fannie A. Eaton, Alice F. Stevenson, Cora B. Philbrick, Amanda A. Abrams, Annie M. Hurd, Susan E. Pettigrew, Bertha P. Hayes, Zina N. Jackson, Everett A. Graves, Henry M. Muchmore, Chas. D. S. Lovell, Edwin V. Wilcox, Elmer E. Eaton, Warren Manson, Wallace E. Bowden, Howard C. Peck, Richard J. Rogers, Edward E. Shapleigh, Frank L. Trefethen, Daniel A. Bond, Harry F. Stinson, John C. Trefethen, George Jones. Fall term: Amanda A. Abrams, Annie S. Willey, Mabel I. Moore, Bertie M. Paul, Edith B. Tucker, Fannie A. Eaton, Minnie E. Paul, Cora B. Philbrick, Millie A. Damon, Fannie C. Remick, Chas. D. S. Lovell, Everett A. Graves, Edward E. Shapleigh, Warren Manson, Winfred Hutchings, Edwin V. Wilcox, John C. Trefethen, Henry M. Muchmore, Richard J. Rodgers, Zina N. Jackson, Elmer E. Eaton, Foy Baldwin. Zina N. Jackson has not missed a half-day since entering the school three years ago. The school closed with a satisfactory examination on the 4th of December.

Proclamation by the President.

Fault-finding is so seldom indulged in by those who use the medicines manufactured by the World's Dispensary Medical Association, that the President of that corporation, the Hon. R. V. Pierce, M. D., has issued a special request or proclamation to any and all persons, if there be any such, who may have taken or shall hereafter use any of the family medicines now made and sold by the said Association, in all countries of the world, and who have not derived full benefit from said medicines, that if they will write the said Association a description of their maladies the Faculty of the Dispensary will advise them with respect to the successful treatment of their diseases. Dr. Pierce's Golden Medical Discovery is guaranteed to cure all humors from the common blotch, pimple or eruption, to the worst scrofula or king's evil, and those virulent poisons that lurk in the system as a sequel or secondary affection resulting from badly-treated or neglected primary diseases. It also cures bronchial, throat and lung diseases. Favorite Prescription is guaranteed to cure female weaknesses and kindred affections. Extract of Smart-Weed cures bowel affections, colds, and all painful, rheumatic and neuralgic affections. Dr. Pierce's Pellets (little sugar-coated pills), are the little giant cathartic. Address, World's Dispensary Medical Association, Buffalo, N. Y., or Great Russell Street Buildings, London, Eng.

—Fifty passengers were recently added to the list of a South American steamer on a voyage from a southern port to Panama. A new species of snake had been properly boxed and shipped, being consigned to the Zoological gardens, London. On the last night out fifty little jokers were brought to light, from twelve to sixteen inches long and an inch and a half around, very agile, and showing fight. They got out of the box and ran over the decks and cordage. A campaign was organized against them by the officer on duty, who took a very active part until he was bitten in the finger. The wounded officer was conveyed on shore, where a surgeon treated him by injecting a solution of diluted ammonia into both arms, as well as administering the same internally with stimulants. The finger was laid open, and freely cauterized with pure nitric acid. The outlook for a time was not cheering. Later in the day he was pronounced out of danger, and returned to the vessel.

Thirty Years' Experience of an Old Nurse.

Mrs. Winslow's Soothing Syrup is the prescription of one of the best Female Physicians and Nurses in the United States, and has been used for thirty years with never failing safety and success by millions of mothers and children, from the feeble infant of one week old to the adult. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and gives rest, health and comfort to mother and child. We believe it the Best and Surest Remedy in the world, in all cases of Dysentery and Diarrhœa in Children, whether it arises from teething or from any other causes. Full directions for using will accompany each bottle. None genuine unless the fac-simile of Curtis & Perkins is on the outside wrapper. Sold by all Medicine Dealers. 25 cents a bottle. 3

A Bit of History.

In one of the main halls of the world-renowned Charity Hospital of New Orleans a beautiful tablet records the history of a noble deed which should be a source of pride to every Pennsylvania. It is this: "The Charity Hospital of Louisiana was founded in the year 1782 by Don Andres Vimonastery Roxas, to whose generous endowment, munificence of the Legislature of this state, and the liberality of the state of Pennsylvania, the community is indebted for the means of erecting this edifice in the year MDCCCXXXII." This recalls the fact that since 1865 its existence has been continued by means of the endowment of the Louisiana State Lottery Company, which it over $400,000 in that time. A letter addressed to M. A. Dauphin, New Orleans, La., or same person at No. 319 Broadway, New York City, will furnish any one the particulars.

What Mr. Pitts Might have Saved Himself.

Mr. Henry Pitts, of Kingston, N. Y., suffered from the presence of stone in the bladder for several years. Dr. Kennedy, of Rondout, N. Y., removed the foreign body by knife. Had Mr. Pitts and others similarly afflicted, used Kennedy's "Favorite Remedy" in the earlier stages of the disease, the medicine would have prevented the formation of the calculus or stone, rendering a dangerous surgical operation unnecessary. Dr. Kennedy gave "Favorite Remedy" to prevent the return of the disease, and Mr. Pitts remains in perfect health to this day.

Books, Magazines, Etc.

The Boston *Journal*, which put on a new dress last October, on the 13th inst. came out with a new suit of nonpareil type, having a broader face than the other and much superior to it. The *Journal* is one of the best papers published, wields a wide influence for good, and merits the prosperity which circumstances indicate attends it.

The *Literary World* says: "The *International Review* ... was begun in New York in 1874, by A. S. Barnes & Co., on a broad and generous basis, with the intent of collecting into it the best thought of the writers of more than one nation, and making it serve as an organ of intercommunication between all English-speaking peoples. Begun as a bi-monthly, it was presently changed to a monthly, and has lately been pushed with greater vigor than ever. At first edited by one of the firm which published it, * * * the editorial charge has been assumed during the present year by two Boston gentlemen: Mr. John T. Moses, Jr., a lawyer, whom a fortune has relieved from the practice of his profession, and Mr. Henry Cabot Lodge, one of the younger graduates of Harvard, who has done some excellent literary work (in our own columns among others,) and is a stalwart young politician, capable of becoming a statesman, and likely to be heard from in the political hereafter. Edited in Boston and published in New York, the *International* seems to be striving after an uncommon combination of literary and commercial resources. It has certainly printed much good matter, and has done not a little to introduce English and Continental writers to American readers. A little vacillation in its earlier numbers, in the direction of lightness, indicating a trifling infirmity of purpose, has been replaced of late by a positive and progressive intellectual character."

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and honor. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

THE NEW YORK TIMES.

FOR 1881.

ESTABLISHED 1851.

In the late Presidential contest The Times has fairly vindicated, both by the department of news gathering and in that of journalistic influence, its recognized supremacy among the Republican newspapers of the country. The principles which have guided its political course in the past will continue to direct it in the future.

The splendid success of the Republican Party has been due to faithful adherence to those principles they appealed to the patriotism and enlightened interest of the best portion of the American people; their just and judicious application by the Republican Administration justifies it will secure to the party a future as brilliant and useful as its past has been. To this high aim The Times will labor to contribute by conscientious discussion of current events, and by fair and fearless expression of what its conductors believe to be the best judgment of the party, unwarped by personal ambitions or narrow interests.

Among the general features of the policy of The Times will be: The Complete Establishment of a Sound Financial System; The Security of the Equal Rights Accorded by the Constitution; The Improvement of the Public Service; The Pacification, by Seasonable Fiscal Reform, of American Labor; Strict Economy in all Public Expenditure; Opposition to Subsidies and Monopoly in Every Form; Definite Responsibility, Firmly Enforced, in Public Servants.

The Times will, as in the past, be distinguished as an enterprising, accurate, and carefully edited newspaper. The acknowledged excellence and fullness of its correspondence, by mail and telegraph, from all parts of the world, will be adequately maintained and its facilities for collecting domestic and foreign news will be expanded to meet the increasing demand of our time.

In the sphere of literary and artistic criticism, of scientific, social, and general discussion, The Times will address itself, as heretofore, to the appreciation of the educated and intelligent classes of the American people.

It will be likely without being sensational, aggressive without being coarse; at all times it will strive to be fearless and independent in the championship of the right.

No theories subversive of the principles on which the succession of family ties and the existence of society alike repose will be promulgated in its columns.

The Times rejects all advertisements of lotteries, of quacks and medical pretenders, and of all other agencies by which the insidious poison of vice is disseminated throughout society. It will be in the future, as in the past, *a newspaper especially adapted for family reading.*

The Weekly Times is specially fitted to meet the requirements of those who seek more ample details of current news and fuller installments of current discussion than are furnished in the weekly issue. The Semi-Weekly has a large circulation abroad and among the professional and mercantile classes of towns, as well as cities, at home. At the reduced club rates now offered for this edition its popularity ought to be greatly increased.

The Weekly Times, containing selected editorials on topics of national and general interest from the columns of the Daily Times, as well as a concise summary of political, social, and foreign news, besides other features which recommend it to all classes of readers, is a paper admirably fitted to circulate in every portion of the United States. Its conductors will spare no effort, not only to maintain its well earned supremacy, but to make its popularity still more decided.

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.

Can any man afford to risk the chances of living twenty-six years to make a thousand dollars for his family, when he can secure the same benefit at once by taking a life insurance for this amount?

If he feels that he cannot afford to be without insurance on his house, which may never burn, can he afford to be without insurance on his life, which is sure to end sooner or later?

THE SUN FOR 1881.

Everybody reads THE SUN. In the editions of this newspaper throughout the year to come everybody will find:

I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eyesight. THE SUN has so discovered the golden mean between redundant fulness and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continuous story of the lives of real men and women, and of their deeds, plans, loves, hates, and aspirations. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest comment. THE SUN'S habit is to speak out fearless about men and things.

V. Equal candor in dealing with each political party, and equal fairness to everybody, what is praiseworthy or to rebuke what is blamable in Democrat or Republican.

VI. Absolute independence of partisan organizations, but unwavering loyalty to true Democratic principles. The Democratic party of the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of the Republican party to set up another form of government in place of that which exists. The year 1881 and the year immediately following will probably decide this supremely important contest. The SUN believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings for imperial power.

Our terms are as follows:

For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.

The price of the Weekly SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free. Address I. W. ENGLAND, Publisher of THE SUN, New York City.

FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

WASTING DISEASES

Such as Consumption, Bronchitis, Asthma, General Debility, Brain Exhaustion, Chronic Constipation, Chronic Diarrhœa, Dyspepsia, or

Loss of Nervous Power,

Are positively cured by FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

As phosphorus enters so largely into the animal economy, it becomes *per consequence* the most vitalizing ingredients of healthy Blood, Nerve and Muscle. In Fellows' Syrup of Hypophosphites are combined all the substances found necessary to insure robust health, and whereas it was invented with a view to supply every deficiency, it certainly has performed some wonderful cures.

MANCHESTER, N. H., June 13, 1880.

MR. JAMES I. FELLOWS,

Dear Sir: I wish to acknowledge the great benefit I have received from the use of "Fellows' Compound Syrup of Hypophosphites." I have been an invalid for nearly two years, with a bronchial affection that had become chronic. In the fall of 1878 I had a physician eighty days in succession, besides the counsel of several others. They gave me but little encouragement, some of them none. Last July I was advised to give your remedy a trial. I did so, and in less than one week there was a marked improvement for the better. I have continued its use from that time until the present, improving all the time, and I can truthfully say I am more than a hundred per cent. better than when I commenced its use. I have increased in weight about fifteen pounds, and my cough, which was fearful, has nearly disappeared. I believe had it not been for your Syrup, I should ere this have been beyond the cares of life. Very truly yours,

ALBERT STORY.

TRADE MARK **DAY'S Kidney PAD**

IS STRONGLY ENDORSED.

Rev. E. F. L. GAUSS, Galena, Ill., writes—"For over ten years I had been a great sufferer from pains in the small of the back and region of the kidneys, which was most excruciating and at times almost insufferable. Doctoring brought no relief, and I was finally advised to go abroad and seek the climate of my youth. In Germany and Switzerland, eminent physicians, after close examination, declared my sufferings to arise from disease of the kidneys, of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No sooner had I been back and resumed my pastoral work, when the old trouble grew again into intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and look again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad a God-send to my kind and great benefactors of mankind. May all the suffering be helped as I have been in my earnest wish."

CHAS. DAYAS, 124 Myrtle Street, Boston: "I have now used DAY'S KIDNEY PAD thirty days and it has done me more good than any remedy I have ever tried."

LARIMORE & DEAN, Druggists, Niles, Mich.—(30 years in business)—"DAY'S KIDNEY PAD is having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from Kidney complaint, and after wearing your Pad 28 days I feel better than I have in 15 years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is doing great good here. It sells every day and gives universal satisfaction."

For sale by drug gists, or sent by mail (free of postage) on receipt of the price—Regular Pad, $2.00; Special Pad (extra size), $2.50. Children's, $1.50. Our book, "How a Life was saved," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it. Address,

Funk & Co. have now in press an edition which they will supply at popular prices. They are actually giving it as a donation to every subscriber for their "Preacher and Homiletic Monthly."

Political Notes.

In Boston, Tuesday, Mayor Prince was re-elected by a plurality of 512 in a vote of 42,000. The democrats have a majority in the board of aldermen; the republicans have a majority of nineteen in the common council.

Says the New York *Sun*: "We cannot unite with those who hastily and indiscriminately condemn Mr. W. H. Barnum, chairman of the democratic national committee, for trying to ferret out frauds. Frauds should be ferreted out and punished. It strikes us that the worst fraud practised in the latter part of the campaign was the forgery and circulation of Gen. Garfield's alleged Chinese letter. If Mr. Barnum should bring to justice the men who were guilty of these acts, he would deserve high praise."

Judge Cowing, in the court of general sessions, New York, has refused to quash the indictments for libel found by the grand jury against Charles A. Bryne, Louis A. Post and Jos. Hart, editors and publishers of *Truth*, and Kenward Philp, for writing and publishing an editorial libelling Gen. Garfield. The court directed that the trial of the cause be transferred to the court of oyer and terminer.

—The wild goose has gone south, fearing a too solid north.

—Brighton, Eng., now in the full swing of gayety, well deserves the name so often given to it of London-by-the-sea. Shivering Americans can not understand this English custom of going down to the seaside in winter to recuperate and be amused.

Liebig Co.'s Coca Beef Tonic.

Has received the highest medals at principal exhibitions, and is endorsed and prescribed by the medical faculty here and abroad as the standard tonic.

It embodies the nutritive elements of the muscular fibre, blood, bone and brain of carefully selected healthy bullocks, combined with the powerful tonic virtues of the Coca, or sacred life plant of the Incas, and a choice quality of sherry wine.

Saturday afternoon, the 11th inst., a little boy named Davie McLaughlin, three years old, son of John McLaughlin of Hallowell, Me., set his clothes on fire while playing about an air-tight stove, and before the fire could be put out was so badly burned that he died the next day.

What is life without health? If you are not in good health try D. R. V. G.; it will cure you. Guaranteed by all druggists. See other column.

Rev. F. W. Fraeger of St. Paul says that a clerical training totally unfits a man for mercantile pursuits. The reverend gentleman combined storekeeping with preaching, and before three months had elapsed he had forged a note for $1,500.

As a food and as a medicine nothing in medicine can compare with Malt Bitters.

Portsmouth Chronicle.

THURSDAY, DECEMBER 16, 1880.

[Entered at the Post-Office at Portsmouth, N.H., as second-class matter.]

For Member of Congress, Ossian Ray.

When the third congressional district was deprived of its representative by the sudden death of the late Major Farr, the republicans of New Hampshire with great unanimity looked to Mr. Ray as the proper person to be chosen as the representative from that district.

Mr. Ray is in the prime of his vigor, is a pleasing speaker, a sound business man, popular all over the state, and devoted to the interest of the people of New Hampshire. In the state legislature he was foremost in his efforts to obtain legislation tending to develope the northerly section of the state by increased railway facilities, and congressional duties will be well discharged at his hands. We predict that he will be handsomely elected, and will have influence in the national House of Representatives second to no one who has represented New Hampshire in that body for many years. He will not be of the kind of men who will seek to display oratorical powers simply because he possesses them, but on all suitable occasions he will be likely to be heard from.

The republicans of the district in selecting Mr. Ray as their nominee have eminently recognized the fitness of things, and they will never regret the choice they have made with such unanimous and hearty action as the proceedings of this convention show.

Col. Ray is a native of Hinesburg, Vermont, and began the practice of law at Lancaster in 1856. He has since been prominent in his profession, not only in Coos county but in other sections of the state. He has been Solicitor of Coos county, and is at present United States District Attorney. His large private practice has kept him busy for many years, but it has given him a valuable state acquaintance; and his position as a prominent lawyer, and counsel representing great interests, corporate and individual, in the state and federal courts, has caused him to be well known all over the state. As a candidate he will be likely to bring out a full vote of the republicans in his district, as he belongs to the class of men who believe in working for themselves as well as having others labor for them.

Congress.

In the Senate, on the 14th inst., the Randolph amendment to the Fitz John Porter bill was passed. The bill provides for placing Porter on the retired list of the army with the rank of colonel, but gives him no pay for the time he has been out of the service.

Senator Williams, of Kentucky, introduced a bill on the subject of diseases of cattle. The bill differs from all others thus far introduced in that it gives the supervision of the subject to the national board of health. The details of the bill make inspection stringent and effective, and assurances are given that should such a bill become a law the English privy council will remove its present restrictions from the importation of American cattle.

No action on the malt-tax bill is expected this session, as the finance committee has not yet taken up its consideration.

Ireland.

Affairs in Ireland grow more threatening every day. At Irishtown, near Claremorris, on the 13th inst., a mob attempted to prevent a farmer from taking possession of a farm from which the previous tenant had been evicted; the police fired on the mob, wounding many persons.

Baron Dowse, presiding at the Connaught assizes at Galway, has received a letter threatening him with death should he convict any members of the land league.

In an address to the grand jury at Belfast, Justice Lawson said that any person of common sense must see that the ordinary process of law was inadequate to preserve the peace in Ireland.

The London *Times* attacks the government for not taking more energetic measures in Ireland, and says that in the presence of such growing disorganization, silence and inaction are hardly to be excused, and cannot be justified.

The British government is making active preparations to send 5,000 more troops to Ireland as soon as they can be got in readiness. There are rumors that further arrests among the land league leaders are imminent.

News and Notes.

Justice Strong of the Supreme Court of the United States handed his resignation to the President on the 14th inst., to take effect immediately.

The order assigning Gen. Howard to the command at West Point does not please the army officers generally. It is felt that he never would have been sent there but for the Whittaker case.

Three explosions took place on the 14th inst., in the Cage pit at Stellarton, N. S., near the Foord mine where the disastrous explosion took place a few weeks ago. The Cape pit undoubtedly took fire from the Foord mine explosion. No lives were lost in the Cage pit.

President Hayes on the 15th inst. nominated Wm. B. Woods, of Georgia, to be associate justice of the Supreme Court of the United States, in place of Justice Strong, resigned.

Samuel Kline of Canton, Ohio, died on the 11th inst. from the effects of poison administered by his son, who committed the crime to prevent his father from marrying his housekeeper.

The Catholic clergy of Montreal denounced Sarah Bernhardt from the pulpits on the 12th inst., and advised their congregations not to go and hear her.

In Oakland, Cal., on Monday night, 13th inst., Miss Elizabeth Tyler, aged eighteen years, was shot dead at the gate of her residence by the accidental discharge of a pistol in the hands of her affianced, John Scotchler, son of a well-known commission merchant of San Francisco.

There was a decline in the price of bread-stuffs, on the 14th inst., attributed to the stringency of the money market in New York.

The whole amount is subscribed for two new Atlantic cables, to be controlled in this country and not in England.

In the case of Schroeder, for the murder of Dr. Lefevre at Oakland, Cal., the jury, after being out seventy-two hours, returned a verdict of not guilty, on the 14th inst.

In Napoleon, Mo., Sunday night, the 12th inst., Mrs. James Jones attempted to fill a lighted lamp with coal oil, and both can and lamp exploded, causing the almost instant death of her two children, aged respectively six months and six years. Mrs. Jones was terribly burned, and died in a few hours.

The West Jersey railroad has paid $50,800 in settlement for damages by the May's Landing disaster, last summer, when the rear section of an excursion train ran into the forward section, killing and wounding many people.

Two men fired simultaneously at each other in a Salt Lake bar-room, and the bullets came into collision. There could be no doubt of this, for one bullet dropped to the floor midway between the antagonists, who were ten feet apart, and the other was turned upward to the ceiling, while both were flattened.

On Jan. 1st the Boston & Maine railroad will reduce the price of limited tickets between Boston and Portland from $3 to $2.50. Tickets will be good only on the train for which sold.

The English sparrows in New York city are reported to be dying in large numbers, from some unknown cause.

Naval Affairs.

Carpenter S. N. Whitehouse has been ordered to the Pensacola at San Francisco; Carpenter Robert A. Williams has been detached from the Pensacola, and ordered to return home and await orders.

Rear Admiral Howell, commanding the European station, under date of Naples, Nov. 26th, reports that the Trenton was still at that port, but it was the intention to go to Hyeres, France, the next day for the purpose of exercising the men at target practice. The Quinnebaug was stationed at Smyrna, and the Nipsic at Constantinople. Reports from the officers commanding those vessels show nothing of special interest, excepting that the country is very much disturbed, and robberies are common, even in the immediate vicinity of the cities. The Wyoming was at Genoa, where she was to remain a week, after which she would be ordered to continue her cruise southward. The health of the squadron is reported excellent.

The NEW HAMPSHIRE GAZETTE, containing the news of the week and a report of the trial of the libel suit in the U. S. Court against the schooner Mary S. Hontvet, is for sale at Moses Brothers' newspaper store on Congress street, and at the CHRONICLE counting room; price five cents.

AROUND HOME.

Strawberry Bank Lodge of Good Templars will hold a fair in the early part of January.

A large number of fishing vessels came in on the 25th inst., but generally with very light fares.

Schooners Active, of this port, and Wingaersheek, of Ogunquit, have been laid up for the season at Pier wharf.

The Universalist Sunday school will have a Christmas festival at Congress hall on Monday evening, Dec. 27th.

It is proposed to have the Christmas festival of St. John's church on the Wednesday after Christmas, in Franklin upper hall.

With small expenses and a large stock, D. F. Borthwick is able to sell goods at low prices and to give customers many advantages.

Members of the Portsmouth Grange, P. of H., are urgently requested to be present at the meeting this (Thursday) evening, when business of vital importance to this grange will come up.

Ayers & Locke, at Nos. 30 and 32 Market street, in addition to the immense stock of staple dry goods and carpets which they always carry, have just put in an unusually large and choice assortment of goods especially suitable for holiday gifts, such as extra fine linen handkerchiefs in fancy boxes, gentlemen's suspenders in fancy boxes, each box containing a Christmas card, Dr. Schliemann's antique ware, fancy towels, silk handkerchiefs, ladies' scarfs, fans, gloves, and other articles too numerous to mention.

The following-named schooners are engaged in winter fishing out of this port: Ella Johnson, Gertie Freeman, Lydia Davis, Forest Maid, Mary E. Smith, Comet, Josie Johnson, Nettie Adams, Bonita, Mary E. Caswell, Ev Nichols, Helen F. Tredick, Grace Choate, Christie Campbell, Mary S. Hontvet, Can't Come It, Rover's Bride, Celia, Velocipede, Addie and Hattie, Lucy, Daniel C. Baker, Water Lily, Iris, John W. Smart, Young Selim, President, Flying Cloud, Good Templar, Gen. Grant, Northern Star, and Annie E. Lane.

A New York reporter who visited the Hindoos who are to appear here in the Star course says of Ala Bundi that "Hers is a face in which by looking at it, one becomes more and more interested; and again, she has those wondrously rare Cashmere eyes, of which Tom Moore sings such high praises in his Lalla Rookh. * * * She was simply enveloped in a thin relay of red and blue muslin clouds adorned with ornaments of gold. Jewelry forms the largest and most important part of these Oriental ladies' wardrobes. Through their noses are pierced holes, from which hang rings of diamonds, pearls and other precious stones, to far below the mouth, and they swing to and fro with each motion of the head."

Mr. Aaron Conant, aged ninety-three years and seven months, died at the residence of his son in Topsfield, Mass., on the 12th inst. Mr. Conant was in the employ of the Eastern Stage company for twelve years, from 1828 to 1840, the last three of which he drove from Portsmouth to Boston, losing but three days' time in that period, and averaging about sixty miles a day, or 18,780 miles per annum. The Ipswich *Chronicle* of May 22d said of him: "Mr. Conant drove the last coach out of Portsmouth that was run by the stage company before the steam cars ran in 1840. He left the coach box for a position as brakeman on the Eastern railroad, which position he filled for one year, after which he was engaged in the express business for several years. He had a vivid recollection of events and transactions that occurred in the days when the Eastern Stage company was in its prime. He was invited a few years since to mount the box and drive a four-in-hand centennial coach on a pleasure trip, but was unable at the time to do so." Mr. Conant will long be remembered by many friends as a companionable and entertaining old gentleman.

The suit of the Bartlett Land & Lumber Co., against Daniel Saunders, Esq., of Lawrence, involving the question of title to a large tract of timber land near the line of the Portland & Ogdensburg railroad adjoining the towns of Albany and Harts' location, and which was tried in this city before the United States circuit court in May, 1878, is about to be argued before the Supreme Court of the United States at Washington. Hon. W. L. Putnam, of Portland, is to make the argument for the plaintiffs.

Andrew Peabody Preston, apothecary in Congress block, well maintains the repute of this long established drug store. For over forty years "Preston's" has been a name familiar as a household word in Portsmouth, and in very many towns in the region round about. The senior Preston knew well the benefits of judicious advertising, and his sagacity gave him a handsome fortune. The successor shows his ability to furnish a Christmas present from his stock of fancy goods, as will be seen by his advertisement,—or better still by a call at the store, and a glance over the extensive supply of articles both elegant and useful there to be found.

COMMENDABLE.

The Society for the Prevention of Cruelty to Animals has become one of the acknowledged and appreciated institutions of the state. Judicious and economical management has placed it upon a permanent basis, its sphere of usefulness is constantly enlarging, and its influence is felt in the most remote part of the state.

In order to increase the facilities for the prosecution of the work, a lady of this city famed for her energy and devotion to the cause has furnished the society a centrally-located office for the establishment of its headquarters in Portsmouth, rent free.

The room will soon be in readiness for occupancy by the society, when with appropriate dedicatory ceremonies it will be opened for business.

DECISION RENDERED.

"A drunken intent is as criminal as a sober one."

Mr. Editor: The above sentence being the subject of a spirited controversy, the parties involved decided to lay the matter before you and abide by your decision.

The Argument:—"A" contends that the phrase "A drunken intent" signifies a man's intention to get drunk, while "B" is of the opinion that it means the intention of a drunken man. Please reply through your columns, and oblige

A SUBSCRIBER.

—*Ans.* "B" is right. The sentence under dispute simply expresses in another form the legal axiom that drunkenness does not excuse crime. A "drunken intent" is compared with a "sober one," and pronounced equally criminal; but if a "drunken intent" means a man's intention to get drunk, a "sober intent" must mean an intention to keep sober, which the most rabid advocate of free rum would hardly call a crime.—*Ed.*

PORTSMOUTH PUBLIC LIBRARY.

We believe that a few years since an attempt was made to establish a public library in this city; but a suitable room, a librarian, and a library large enough to offer any choice to readers, are so costly to begin with, that no sufficient encouragement was found. The directors of the Young People's Union having in their possession a library of nearly a thousand volumes, and of more value perhaps than all the contributions or subscriptions made at that time would furnish, have determined to make it the nucleus of a Public Library for Portsmouth.

A good room in the third story of the custom house has been generously offered by the collector, and the books are already in charge of a librarian who has always had much interest in this matter. It is proposed to open the library on the 1st day of January, 1881. Meanwhile, to give still greater interest and success to the attempt, an appeal is made to each family or each person to send at least one volume—not books merely to get rid of, or that are almost worn out, but that will be of real value. It is believed that thus a thousand volumes might be added by our citizens before the close of the year, and a truly *public* character given to the enterprise. They may be left at the post-office, and acknowledgments will be made to the donors. It is hoped that from this small beginning such a building and library may soon be obtained as shall be of incalculable service to our city.

CHRISTMAS TREES FOR THE POOR.

It will be remembered that one year ago friends from this city, Epping and Brentwood arranged a Christmas tree for the old people and children at the county farm. It is now proposed to have a similar good time at the same place on Thursday evening, Dec. 22d. Mrs. Newton Johnston has kindly consented to act as treasurer for any donation that may be made; a friend has already sent a generous offering, and others desirous of helping may send their gifts to Mr. John S. Rand, Market street, or direct to Mrs. Johnston. The subscriber will also be glad to receive any token for the benefit of any of the inmates belonging to this city. We are informed by Superintendent Scott of the county farm that the good time given the very old and very young people there a year ago, has lasted them all the year as a happy memory and subject for talk.

A Christmas tree will also be arranged for the almshouse in this city on Friday evening, Dec. 24th. Friends wishing to contribute to the occasion may leave their offerings with Mr. A. S. Foster at the post-office, or with me. A friend of the old people has already remembered the occasion by a gift for the oldest inmate; and we trust that many others will respond in a generous manner, and let the poor have a general good time.

Philanthropists will be pleased to know that the dinner given to the poor children will be arranged for New Year's day, as last year, a notice of which will be given in due season. Cash donations may be left with Mr. D. H. Montgomery, "treasurer of the poor children's fund."

W. A. LOYNE, *Missionary.*

POLICE COURT.

WEDNESDAY, Dec. 15; *Batchelder, J.*

Andrew Wilson, for assault upon Mrs. Annie M. Marston, fined $3, costs $8.44. Went to Brentwood.

YORK COUNTY ITEMS.

The steam tug Ann, of Dover, is hauled up at Kittery for the winter.

The books in the public library at Kittery are being examined, and none are now being given out.

Schooner B. Frank Nealley, of Dover, upon the Piscataqua railway, has had part of her keel replaced, and is being calked.

Whipple Lodge, No. 93, I. O. G. T., gave an entertainment in Trefethen's hall at the navy yard village, Kittery, on Wednesday evening, the 15th inst., at which the play of "Once on a time" was successfully rendered by local talent, and a broom drill "according to tactics" was gone through.

Daniel Wentworth, one of the oldest and most esteemed citizens of Berwick, Me., died there Dec. 12th. He was born June 20th, 1795, and has always lived on the homestead farm where he was born. He was the son of Timothy Wentworth. He had been a member of the Congregational church for over forty years at the time of his death.

The house, barn and shed of Augustus W. Brooks of Eliot were burned on the night of the 14th. The buildings were the best in that part of Eliot, the house having a slated roof; the loss is probably at least $1500, with no insurance. The furniture of the house was mostly saved, and a horse and several head of cattle were rescued from the barn, a cow and heifer being burned.

Constructor Wilson at the navy yard has had made the model of an improved washstand, designed for use in the officers' rooms on board government or merchant vessels, which is a decided improvement over the cumbersome one now in use, and takes up much less room. It consists of a small tank which is placed above the wash bowl, with a pipe leading from the tank to the bowl, under which is placed a portable bucket to receive the waste water, the bucket resting on a small closet which can be used for any purpose. The material used in its construction will be of metal entirely. Mr. Wilson will submit the plan to the navy department at Washington with a view to its adoption for use on board the U. S. S. Lancaster, now nearly rebuilt at this navy yard.

Juliette A. Wakefield, a girl about seventeen years of age, died in Saco recently, having been literally frightened to death, according to the Biddeford *Times*, by a man named John Healey. Healey has a daughter about seventeen years old, and she and Miss Wakefield were great friends, frequently attending each other's churches, Miss Wakefield being a Protestant and Miss Healey a Catholic. One evening about two weeks ago, as is alleged, Healey by the use of his daughter's name enticed Miss Wakefield from her home to a vacant building in the Biddeford "shipyard," where she did not find her friend Nelly Healey, but did overhear a conversation between Healey and an unknown woman which terrified her to the degree that she fled home, and soon took to her bed, dying on the 8th inst. The doctor who attended her says she was deranged at intervals from the first. During her sickness her mind dwelt upon the Catholics, and some punishment she seemed in fear of. She frequently exclaimed: "Father, save me! Father, take me home!" At another time she said: "I believe I'm crazy, and don't know what I'm talking about. Think I have been dreaming. I thought the Catholics had tied me up in the mill yard," and other exclamations which showed the terrible shock her brain had received from what the *Times* calls "the fiend Healey's cowardly and brutish scheme."

Burnett's Cocoaine.

The Best Hair Dressing in the World.

BURNETT'S COCOAINE allays irritation, removes all tendency to dandruff, invigorates the action of the capillaries in the highest degree, and has earned a deserved reputation for promoting the growth and preserving the beauty of the human hair. Ladies dressing their hair elaborately for the evening will find that it imparts a healthy natural gloss to the hair, and will cause it to retain its shape for hours.

BURNETT'S FLAVORING EXTRACTS are used and endorsed by the best Hotels, Confectioners, and Grocers throughout the country. They are perfectly pure.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few simple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes.* Tu,th&f,&G

Proclamation by the President.

Fault-finding is so seldom indulged in by those who use the medicines manufactured by the World's Dispensary Medical Association, that the President of that corporation, the Hon. R. V. Pierce, M. D., has issued a special request or proclamation to any and all persons, if there be any such, who may have taken or shall thereafter use any of the family medicines now made and sold by the said Association, in all countries of the world, and who have not derived full benefit from said medicines, that if they will write the said Association a description of their maladies the Faculty of the Dispensary will advise them with respect to the successful treatment of their diseases. Dr. Pierce's Golden Medical Discovery is guaranteed to cure all humors from the common blotch, pimple or eruption, to the worst scrofula or king's evil, and those virulent poisons that lurk in the system as a sequel or secondary affection resulting from badly-treated or neglected primary diseases. It also cures bronchial, throat and lung diseases. Favorite Prescription is guaranteed to cure female weaknesses and kindred affections. Extract of Smart-Weed cures bowel affections, colds, and all painful, rheumatic and neuralgic affections. Dr. Pierce's Pellets (little sugar-coated pills), are the little giant cathartic. Address, World's Dispensary Medical Association, Buffalo, N. Y., or Great Russell Street Buildings, London, Eng.

The family of T. C. Woodman, Esq., of Bucksport, Me., were all poisoned by eating ice cream lately. A physician was called, and found the symptoms all indicated arsenic.

The best blood remedy in the world is D. R. V. G. It will clear Ladies' complexion of pimples, moth patches and sallowness. Try it. Guaranteed by your own druggists.

John Ryan placed an oyster can filled with hot water, and the stopper in, on the stove in Lovelit's shop, at Portland, Me., a few days ago. When Ryan took the can off the stove the steam forced out the stopper, and he was terribly scalded about the head and face.

The republican convention for the third congressional district of New Hampshire was held at West Lebanon on Tuesday, the full number of delegates being present. Hon. Ossian Ray of Lancaster was nominated to fill the vacancies in the 46th and 47th Congresses occasioned by the death of Hon. Evarts W. Farr.

On the 14th inst. Ira W. Russell was elected mayor of Keene, by a vote of 477 to 380 for Horatio Kimball, the democratic candidate. The entire republican city ticket was elected.

Old and young, rich and poor, all unite in testimony to the true merit of Dr. Bull's Cough Syrup. For over a quarter of a century it has proven itself a true, tried and trusted friend. Price 25 cents.

It marks a noteworthy change in the British colonial system, when the Canadian viceroy, speaking for the government, tells parliament that the protective tariff has "not only promoted manufactures," but has largely increased the revenue.

Thousands of women have been entirely cured of the most stubborn cases of female weakness by the use of Lydia E. Pinkham's Vegetable Compound. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlets.

—The late Herr Isidor Kraft of Berlin, a wealthy philanthropist, has left behind him a will which would have rejoiced the soul of Tom Hood. He has ordered that half of his fortune of $250,000 be expended in the foundation of a fund for the assistance of poor needle-women, without regard to sect.

—Scene—A trysting-place. Roger (who has been kept waiting some time:) "What's come ye? Dae ye ken ye've kept me waiting mair nor half an hour?" Peggy (whom he has courted for more than eight years); "I couldna help it." After a pause—"Look at the time ye've kept me waiting, and I'm shure ye never heard me once come compleenin'."

WANTED. We desire the services of intelligent gentlemen and ladies to solicit subscriptions for the International Review, Magazine of American History, and Barnes' Educational Monthly, in every city and town in the United States. Large commission paid. Samples of all the periodicals sent for 15 cents, or either for 15 cents. Write for terms.

CANTERBURY SHAKERS'

LIFE-INVIGORATING

SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount syrup twice the amount of Vegetation Extract that any other contains,) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and efficacy. T. R. CROFUT, M. D., W. D. BUCK, M. D., S. BUNTON, M. D., J. S. ELLIOT, M. D., JAMES BABB, M. D., Z. COLBURN, M. D., M. S. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. GALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefitted by other Sarsaparillas should not fail to make a single trial of the Blood Purifying and Life Invigorating Compound of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Black Cohosh, Garget, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by Thos. Corbett, its inventor. Sold everywhere. Inquire for Corbett's Shakers' Sarsaparilla.

HAPPY CHILDREN.

How to Make Them so. Keep Them in Health and They will take care of the rest.

The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than through culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and honor. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the Blood, which, when impure, is the seat and source of disease "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in your house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle.

THE NEW YORK TIMES.

FOR 1881.

ESTABLISHED 1851.

In the late Presidential contest The Times has fairly vindicated, both in the department of news gathering and in that of journalistic influence, its recognized supremacy among the Republican newspapers of the country. The principles which have guided its political course in the past will continue to direct it in the future.

The splendid success of the Republican Party has been due to faithful adherence to those principles, they appealed to the patriotism and enlightened interest of the best portion of the American people; their just and judicious application by the Republican Administration just elected will secure to the party a future as brilliant and useful as its past has been. To this high aim The Times will labor to contribute by conscientious discussion of current events, and by fair and fearless expression of what its conductors believe to be the best judgment of the party, unwarped by personal ambitions or narrow interests.

Among the general features of the policy of The Times will be: The Complete Establishment of a Sound Financial System; The Security of the Equal Rights Accorded by the Constitution; The Improvement of the Public Service; The Emancipation, by Seasonable Fiscal Reform, of American Labor; Strict Economy in all Public Expenditure; Opposition to Subsidies and Jobbery in Every Form; Dedicated Responsibility, Firmly Enforced, in Public Servants.

The Times will, as in the past, be distinguished as an enterprising, accurate, and carefully edited newspaper. The acknowledged excellence and fullness of its correspondence, by mail and telegraph, from all parts of the world, will be adequately maintained, and its facilities for collecting domestic and foreign news will be expanded to meet the increasing demands of our time.

In the sphere of literary and artistic criticism, of scientific, social, and general discussion, The Times will address a constantly fuller and more precisian of the educated and intelligent classes of the American people.

It will be found, while avoiding sensational, unprincipled and reckless courses; at all times it will strive to be fearless and independent in the championship of the right.

No theories subversive of the principles on which the sagredness of family ties and the existence of society alike repose will be promulgated in its columns.

The Times rejects all advertisements of lotteries, of quacks and medical pretenders, and of all other agencies by which the insidious poison of vice is disseminated throughout society. It will be in the future, as in the past, *a newspaper especially adapted for family reading.*

The Semi-Weekly Times is specially fitted to meet the requirements of those who seek more ample details of current events and fuller treatments of current discussion than are furnished in the weekly issue. The Semi-Weekly has a large circulation abroad and among the professional and mercantile classes, outside of the large cities, at home. At the reduced club rates now offered for this edition its popularity ought to be greatly increased.

The Weekly Times, containing selected editorials on topics of national and general interest from the columns of the daily issue, as well as a concise summary of political, social, and foreign news, besides other features which recommend it to all classes of readers, is a paper admirably fitted to circulate in every portion of the United States. Its conductors will spare no effort, not only to maintain its well earned supremacy, but to make its popularity still more decided.

ILLUSTRATION.—At age 25 an annual premium of $16.91 will secure a policy for $1000, payable at death. By the same annual outlay and the ordinary methods of investment it would take 26 years, at six per cent compound interest, to save $1000.
